Unless otherwise specified, any time mentioned in this Red Herring Prospectus is in Indian Standard Time ("**IST**"). Unless indicated otherwise, all references to a year in this Red Herring Prospectus are to a calendar year.

Unless stated otherwise, all references to page numbers in this Red Herring Prospectus are to the page numbers of this Red Herring Prospectus.

Financial Data

Unless the context otherwise requires or indicates, the financial information (including financial ratios) and any percentage amounts (excluding certain operational metrics), as set forth in "*Risk Factors*", "*Our Business*", "*Management's Discussion and Analysis of Financial Position and Results of Operations*" on pages 21, 145 and 216, respectively, and elsewhere in this Red Herring Prospectus have been derived from our Restated Financial Consolidated Statements.

The Restated Consolidated Financial Statements of our Company, as for the financial year ended March 31, 2026, 2025, and 2024 prepared in terms of the requirements of Section 26 of Part I of Chapter III of the Companies Act, 2013, the SEBI ICDR Regulations; and the Guidance Note on Reports in Company Prospectuses (Revised 2019) issued by the Institute of Chartered Accountants of India, as amended from time to time (the "**Guidance Note**"), comprising the restated statement of assets and liabilities as for the financial year ended March 31, 2026, 2025, and 2024, the restated statements of profit and loss (including other comprehensive income), the restated statement of changes in equity, the restated cash flow statement for the financial year ended March 31, 2026, 2025, and 2024, the summary statement of significant accounting policies, and other explanatory information.

For further information on our Company's financial information, see "*Restated Financial Statements*" and "*Management's Discussion and Analysis of Financial Position and Results of Operations*" on pages 213 and 216, respectively.

Our Company's financial year commences on April 01 and ends on March 31 of the next year; accordingly, all references to a particular financial year, unless stated otherwise, are to the 12 months period ended on March 31 of that calendar year. Reference in this Red Herring Prospectus to the terms Fiscal or Fiscal Year or Financial Year is to the 12 months ended on March 31 of such year, unless otherwise specified.

There are significant differences between Indian GAAP, the International Financial Reporting Standards ("**IFRS**") and the Generally Accepted Accounting Principles in the United States of America ("**U.S. GAAP**"). Accordingly, the degree to which the Indian GAAP financial statements included in this Red Herring Prospectus will provide meaningful information is entirely dependent on the reader's level of familiarity with Indian accounting practice and Indian GAAP. Any reliance by persons not familiar with Indian accounting practices on the financial disclosures presented in this Red Herring Prospectus should accordingly be limited. We have not attempted to explain those differences or quantify their impact on the financial data included herein, and we urge you to consult your own advisors regarding such differences and their impact on our financial data.

Any percentage amounts, as set forth in "*Risk Factors*", "*Our Business*", "*Management's Discussion and Analysis of Financial Position and Results of Operations*" and elsewhere in the Red Herring Prospectus unless otherwise indicated, have been calculated on the basis of the Company's restated consolidated financial statements prepared in accordance with the applicable provisions of the Companies Act, Indian GAAP and restated in accordance with SEBI (ICDR) Regulations, as stated in the report of our Statutory Auditors, set out in section titled "*Restated Financial Statements*" beginning on page 213 of this Red Herring Prospectus.

For additional definitions used in this Red Herring Prospectus, see the section "*Definitions and Abbreviations*" on page 1 of this Red Herring Prospectus. In the section titled "*Main provisions of Articles of Association*", on page 305 of the Red Herring Prospectus defined terms have the meaning given to such terms in the Articles of Association of our Company.

Currency and Units of Presentation

All references to:

- "Rupees" or "INR" or "Rs." Or "₹" are to the Indian Rupee, the official currency of India;
- "USD" or "US$" or "$" or "U.S. Dollar" are to the United States Dollar, the official currency of the United States of America.

Our Company has presented certain numerical information in this Red Herring Prospectus in "Lakhs" units. One Lakh represents 1,00,000. In this Red Herring Prospectus, any discrepancies in any table between the total and the sums of the amounts listed are due to rounding off. All figures derived from our Financial Statements in decimals have been rounded off to the second decimal and all percentage figures have been rounded off to two decimal places.

Exchange Rates

This Red Herring Prospectus contains conversions of certain other currency amounts into Indian Rupees that have been presented solely to comply with the SEBI ICDR Regulations. These conversions should not be construed as a representation that these currency amounts could have been, or can be converted into Indian Rupees, at any particular rate or at all.

The following table sets forth, for the periods indicated, information with respect to the exchange rate between the Indian Rupee and other foreign currencies:

The excerpts of the Infomerics Report are disclosed in this Red Herring Prospectus and there are no parts, information, data (which may be relevant and material for the proposed Offer), left out or changed in any manner. Such data involves risks, uncertainties and numerous assumptions and is subject to change based on various factors, including those discussed in the section titled *"Risk Factors"* on page 21. Accordingly, investment decisions should not be based solely on such information.

The sections titled "*Industry Overview*", "*Our Business*" and "*Management's Discussion and Analysis of Financial Conditions and Results of Operations*" on pages 112, 145 and 216, respectively, of this Red Herring Prospectus contain data and statistics from the Infomerics Report which has been commissioned and paid for by our Company for an agreed fee and is available on the website of our Company at www.dovesoft.io.

In accordance with the SEBI ICDR Regulations, the section titled "*Basis of the Offer Price*" on page 100 includes information relating to our listed industry peers. Such information has been derived from publicly available sources believed to be reliable and verified by M/s Mathia & Co., Chartered Accountant, but their accuracy, completeness and underlying assumptions are not guaranteed, and their reliability cannot be assured. Accordingly, no investment decisions should be based solely on such information.

The extent to which the market and industry data used in this Red Herring Prospectus is meaningful depends on the reader's familiarity with and understanding of the methodologies used in compiling such data. There are no standard data gathering methodologies in the industry in which the business of our Company is conducted, and methodologies and assumptions may vary widely among different industry sources.

FORWARD - LOOKING STATEMENTS

This Red Herring Prospectus contains certain "forward-looking statements". These forward-looking statements generally can be identified by words or phrases such as "*aim*", "*anticipate*", "*believe*", "*expect*", "*estimate*", "*intend*", "*objective*", "*plan*", "*propose*", "*project*", "*will*", "*will continue*", "*will pursue*" or other words or phrases of similar import. Similarly, statements that describe our strategies, objectives, plans or goals are also forward-looking statements. All forward-looking statements are subject to risks, uncertainties, expectations and assumptions about us that could cause actual results to differ materially from those contemplated by the relevant forward-looking statement. These forward- looking statements, whether made by us or a third party, are based on our current plans, estimates and expectations and actual results may differ materially from those suggested by such forward-looking statements.

These forward-looking statements are based on our current plans, estimates and expectations and actual results may differ materially from those suggested by such forward-looking statements. All forward-looking statements are subject to risks, uncertainties, expectations and assumptions about us that could cause actual results to differ materially from those contemplated by the relevant forward-looking statement.

Actual results may differ materially from those suggested by the forward-looking statements due to risks or uncertainties associated with our expectations with respect to, but not limited to, regulatory changes pertaining to the industry in which our Company operates and our ability to respond to them, our ability to successfully implement our strategy, our growth and expansion, technological changes, our exposure to market risks, general economic and political conditions in India and globally which have an impact on our business activities, investments, or the industry in which we operate, the monetary and fiscal policies of India, inflation, deflation, unanticipated turbulence in interest rates, foreign exchange rates, equity prices or other rates or prices, the performance of the financial markets in India and globally, changes in domestic laws, regulations and taxes, changes in competition in the industry in which we operate and incidents of any natural calamities and/or acts of violence. Certain important factors that could cause actual results to differ materially from our Company's expectations include, but are not limited to, the following:

- We are dependent on our strategic relationship with Channel partners and our direct relationships with mobile network operations ("**MNOs**"). Our inability to enter into or maintain such relationships, particularly with MNOs, may adversely affect our business, financial condition and results of operations;
- Failures, defects, delays and other problems involving the technology systems and infrastructure on which we rely on providing our services and solutions to our clients may adversely affect our business, financial condition and results of operations;
- We face a risk from potential claims resulting from client's misuse of our platform to send unauthorized text messages and calls and other services in violation of TRAI regulations;
- We operate in a highly evolving market and any inability to respond to such changing conditions could adversely affect our business and results of operations;
- Our revenues depend on the limited number of clients and the loss of such clients could adversely affect our financial condition and results of operations;
- Our revenues are highly dependent on clients primarily located in North and West Zone of India. Any decline economic health of such regions could adversely affect our business, financial condition and results of operations.

Forward-looking statements reflect the current views of our Company as of the date of this Red Herring Prospectus and are not a guarantee of future performance. These statements are based on our management's beliefs, assumptions, current plans, estimates and expectations, which in turn are based on currently available information. Although we believe the assumptions upon which these forward-looking statements are based are reasonable, any of these assumptions could prove to be inaccurate, and the forward-looking statements based on these assumptions could be incorrect.

Neither our Company, our Directors, our Promoters, the Book Running Lead Manager, the Syndicate Members nor any of their respective affiliates or advisors have any obligation to update or otherwise revise any statements reflecting circumstances arising after the date hereof or to reflect the occurrence of underlying events, even if the underlying assumptions do not come to fruition. In accordance with the SEBI ICDR Regulations, our Company will ensure that investors in India are informed of material developments pertaining to our Company and the Equity Share forming part of the Offer from the date of this Red Herring Prospectus until the time of the grant of listing and trading permission by the Stock Exchange.

SECTION II- RISK FACTORS

An investment in Equity Shares involves a high degree of risk. You should carefully consider all the information in this Red Herring Prospectus, including the risks and uncertainties described below, before making an investment in our Equity Shares. To obtain a better understanding, you should read this section together with "Our Business" and "Management's Discussion and Analysis of Financial Position and Results of Operations" on pages 145 and 216, respectively, as well as the other financial and statistical information contained in this Red Herring Prospectus. The risks and uncertainties described in this section are not the only risks that we may face. Additional risks and uncertainties not known to us or that we currently believe to be immaterial may also have an adverse effect on our business, results of operations, financial condition and prospects.

If any of the following risks, or other risks that are not currently known or are now deemed immaterial, actually occur, our cash flows, business, financial condition and results of operations could suffer, the price of our Equity Shares could decline, and you may lose all or part of your investment. The financial and other related implications of risks concerned, wherever quantifiable, have been disclosed in the risk factors mentioned below. However, there are risks where the impact is not quantifiable and hence the same has not been disclosed in such risk factors. Investment in equity and equity related securities involve a degree of risk and investors should not invest any funds in this Offer unless they can afford to take the risk of losing their investment. Investors are advised to read the risk factors carefully before taking an investment decision in this Offer. Before making an investment decision, investors must rely on their own examination of the Offer and us.

This Red Herring Prospectus contains forward-looking statements that involve risks and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of certain factors, including the considerations described below and elsewhere in this Red Herring Prospectus. The financial and other related implications of risks concerned, wherever quantifiable, have been disclosed in the risk factors below. However, there are risk factors, the potential effects of which are not quantifiable and therefore no quantification has been provided with respect to such risk factors. In making an investment decision, prospective investors must rely on their own examination of our Company and the terms of the Offer, including the merits and the risks involved. You should not invest in this Offer unless you are prepared to accept the risk of losing all or part of your investment, and you should consult your tax, financial and legal advisors about the particular consequences to you of an investment in our Equity Shares.

Materiality.

The Risk factors have been determined and disclosed on the basis of their materiality. The following factors have been considered for determining the materiality:

- *Some risks may not be material individually but may be material when considered collectively.*
- *Some risks may have material impact qualitatively instead of quantitatively.*
- *Some risks may not be material at present but may have a material impact in the future.*

Internal Risk Factors

1. Our Company is involved in certain income tax proceedings, and any adverse outcome may adversely affect our financial condition, cash flows and reputation.

The Income Tax Department has alleged that the Company was a beneficiary of accommodation entries aggregating to ₹100.00 Lakhs received through M/s. Pranatpal Trade Link Private Limited and Taru Pallav Projects Private Limited. The Company has submitted relevant documents and supporting evidence in respect of the underlying sale transactions and has contested the allegations regarding the genuineness of such transactions. However, the Income Tax Department has treated ₹100.00 Lakhs as unexplained cash credit under Section 68 of the Income Tax Act, 1961 and ₹2.00 Lakhs as unexplained expenditure and, vide order dated March 19, 2024, raised a demand of ₹ 125.57 Lakhs against the Company. Penalty proceedings under Section 271AAC(1) have also been initiated.

The Company has filed an appeal before the Commissioner of Income Tax (Appeals), which is presently pending adjudication and no date of hearing has been assigned. The Company continues to defend its position and intends to take all necessary steps available under applicable law. However, there can be no assurance that the appeal will be decided in favour of the Company, and any adverse outcome may result in tax, interest and/or penalty liability and adversely affect the Company's financial condition, cash flows, results of operations and reputation.

Further we hereby undertake that the tax, interest and/or penalty, if any imposed by Income Tax Authority for the above case, such tax, interest and/or penalty will be borne by the company from its internal accruals and not from the IPO proceeds.

2. ***Certain income tax proceedings involving one of our Group Company i.e. E-Trav Tech Limited may adversely affect our reputation and financial position***

For Assessment Year 2020-21, one of our Group Company i.e. E-Trav Tech Limited, received a demand notice dated September 27, 2022 for ₹ 207 Lakhs pursuant to an addition of ₹ 200 Lakhs under Section 68 of the Income Tax Act, 1961 in respect of certain unsecured loans, along with applicable interest and penalty proceedings under Section 270A. E-Trav Tech Limited filed an appeal before the Commissioner of Income Tax (Appeals), which was dismissed vide order dated March 29, 2024. Further, E-Trav Tech Limited has filed an appeal against the said order before the appropriate appellate authority, which is presently pending adjudication. Any adverse outcome may adversely affect the financial position and reputation of our Group Company and, consequently, our business and financial condition.

3. ***Certain proceedings relating to an entity previously associated with a member of our Promoter Group may adversely affect the reputation of such member and, consequently, our Company.***

One of the member of our Promoter Group of the company and a son of one of the Promoter i.e. Mr. Kurjibhai Rupareliya, Mr. Hitesh Rupareliya, was associated with Veronica Productions Limited ("Veronica"), which was earlier delisted. Veronica had filed an appeal before the Securities Appellate Tribunal ("SAT") against the relevant order, pursuant to which the SAT passed an order for restoration of Veronica. Veronica is not a subsidiary, associate or group company of our Company and does not form part of our Promoter Group. Accordingly, the aforesaid proceedings do not relate to or involve our Company, Promoters, Directors, KMPs, SMPs and Group Company.

However, any adverse development in relation to the aforesaid matter or any proceedings involving Veronica or Mr. Hitesh Rupareliya may adversely affect the reputation or perception of Mr. Hitesh Rupareliya. Given that Mr. Hitesh Rupareliya is a member of our Promoter Group and is the son of one of our Promoter, any adverse publicity or reputational impact associated with him may indirectly affect the reputation of our Promoters and our Company. Any such adverse perception may, in turn, have an adverse effect on our business, financial condition, results of operations and prospects.

4. ***We may be subject to penalties or regulatory action for not obtaining a fresh valuation report at the time of cancellation of the transaction with Mr. Rajabhau Shriram Phad.***

Company had entered into a Sale Agreement dated January 31, 2022 with Mr. Rajabhau Shriram Phad for acquisition of a property for a consideration of ₹3,21,01,750, of which ₹1,22,40,800 was discharged through allotment of 11,128 Equity Shares at ₹1,100 per Equity Share. The valuation of the property and the valuation supporting the issue price were obtained at the relevant time. Subsequently, as the Sale Agreement could not be registered, the transaction was cancelled pursuant to an Agreement for Cancellation dated December 4, 2023. However, no fresh valuation report was obtained at the time of cancellation of the transaction.

Further we have filed a clarification letter with the ROC in Form GNL-2 vide SRN ACS5772247 dated 01st September 2026 seeking clarification regarding the requirement for obtaining a valuation report in the aforesaid circumstances. If the ROC requires us to file an adjudication application, we will comply with such requirement. Depending on the outcome, we may be subject to monetary penalties or other regulatory consequences, the quantum of which cannot presently be ascertained.

Any penalty or monetary liability, if imposed in relation to this matter, will not be discharged from the proceeds of the Issue and will be met from our internal accruals or other available sources.

5. ***We are dependent on our strategic relationship with Channel partners and our direct relationships with mobile network operations ("MNOs"). Our inability to enter into or maintain such relationships, particularly with MNOs, may adversely affect our business, financial condition and results of operations.***

Our ability to provide services to our clients is highly dependent on our relationships with channel partners and MNOs for connectivity. The sustainability of our operations is closely linked to the continuity and strength of these relationships. While our customer base and message volumes continue to grow, we may face challenges in maintaining, identifying or securing suitable relationships with MNOs and Channel Partners. Our Company does not operate on a commission model with Mobile Network Operators; instead, we engage with them on an invoice-based arrangement. Additionally, consolidation within the telecommunications industry could negatively impact our ability to establish or maintain direct relationships with MNOs. Sustaining adequate volumes may also present challenges for developing and maintaining such relationships. If we are unable to establish or sustain these relationships, attracting new clients could become increasingly difficult. Such circumstances could significantly impact on our reputation and profitability, thereby adversely affecting our business, financial condition, and overall operations. Although we have

not encountered such situations for the Fiscal Years 2026, 2025 and 2024, there can be no guarantee that this will continue in the future.

6. Failures, defects, delays and other problems involving the technology systems and infrastructure on which we rely on providing our services and solutions to our clients may adversely affect our business, financial condition and results of operations.

Our ability to deliver services and solutions to clients relies on a range of technology systems and infrastructure. Any damage, failure, or malfunctioning of these technology systems, infrastructure, or software, or the impact of network, technology system, infrastructure, or software failures could disrupt our business operations. Our systems and infrastructure are susceptible to various risks, including power loss, telecommunication failures due to transmission cable cuts, natural disasters, computer viruses, software defects, and errors by our employees. Instances of system failures or delays have the potential to disrupt our service provision through our communications platform, leading to a loss of revenue from both existing and potential clients. While there are no such instances for the Fiscal Years 2026, 2025 and 2024, there can be no assurance that the same shall continue in future. This could divert our development and client service resources or even lead to a suspension of services or termination of agreements, resulting in revenue loss. It's essential to mitigate these risks and ensure the resilience and stability of our technology systems and infrastructure to maintain seamless service delivery to our clients.

Further, the availability or performance of our services and solutions could be adversely affected by a number of factors, including inability of our clients to access the network of their MNOs, the mobile signal and connectivity of our clients' end users, the failure of our technology systems and infrastructure, security breaches or variability in client's traffic volumes. In addition to potential liability, if we experience interruptions in the availability of our services and solutions, our reputation may be adversely affected, which could result in loss of clients and in turn, could have an adverse effect on our business, financial condition and results of operations. In addition, costs incurred in correcting any material failures, defects, delays, errors or other problems involving our technology systems and infrastructure or our services and solutions may be substantial and could have an adverse effect on our business, financial condition and results of operations. While there are no such instances for the Fiscal Years 2026, 2025 and 2024, there can be no assurance that the same shall continue in future.

7. We face a risk from potential claims resulting from client's misuse of our platform to send unauthorized text messages and calls and other services in violation of TRAI regulations.

Messages may subject us to potential risks, including liabilities or claims relating to regulatory regime in the various regions in which we operate. The laws governing the delivery of messages are continually evolving, and their interpretation is subject to ongoing development. Non-compliance with these laws or regulations, or liability incurred due to our clients' failure to comply with such laws by obtaining proper consent, could result in claims that may adversely affect our business and operational outcomes. Additionally, we use our communications platform to provide services and solutions to clients. Any misuse, interruptions, or failures of our platform, whether due to terrorist activity or any other cause, and the resultant threat to national security or widespread miscommunication, could have an adverse impact on our business, results of operations and financial condition. Although we have not encountered such situations for the Fiscal Years 2026, 2025 and 2024, there can be no guarantee that this will continue in the future.

8. Our revenues depend on the limited number of clients and the loss of such clients could adversely affect our financial condition and results of operations.

We are dependent on a limited clients for a substantial portion of our revenues. A reduction in the services we perform for certain clients, or the loss of a major clients could result in a significant reduction of our revenue. Factors that may result in a loss of a clients include our service performance, reduction in budgets due to macroeconomic factors or otherwise, shift in policies and political or economic factors or changes in their outsourcing strategies. There is significant competition for the services we provide, and we are typically not an exclusive service provider to our large clients. These factors may not be predictable or under our control. Significant pricing or margin pressure exerted by our clients could also adversely affect our business, financial condition and results of operations. The quantum of work we perform for clients may vary from year to year. Thus, revenues generated from a particular client during a period may not be the same in any subsequent periods. Our clients may terminate their contracts with us, with or without cause, and with or without notice, at any time. If any one or more of our purchase orders or client contracts are terminated, our revenues and profitability could be materially and adversely affected. While we have not faced any such significant loss of clients for the Fiscal Years 2026, 2025 and 2024, there can be no assurance that the same shall continue in future.

Below is the list of our revenue contribution from our top one, five and ten clients for period mentioned below:

Particulars	For Year Ended					
	March 31, 2026		March 31, 2025		March 31, 2024	
	Revenue from operations (₹ in lakhs)	% of Revenue from Operations	Revenue from operations (₹ in lakhs)	% of Revenue from Operations	Revenue from operations (₹ in lakhs)	% of Revenue from Operations
Top 1	10,300.90	37.60%	5,747.22	30.61%	6,563.58	54.82%
Top 5	19,129.41	69.82%	12,802.99	68.20%	9,191.31	76.77%
Top 10	21,902.60	79.94%	15,972.600	85.08%	10,131.25	84.62%

Further, one of our major customer contributed 37.60%, 30.61% and 54.82%, of our revenue from operations for the Fiscal Year March 31, 2026, March 31, 2025, and March 31, 2024, respectively. The increase in contribution from this customer as compared to previous fiscal years is primarily on account of a significant increase in order volumes and expanded scope of services awarded to our Company. Initially, we provided only SMS services; over time, this expanded to include Digital Marketing and WhatsApp services. The Company is actively undertaking measures to diversify its customer base and reduce dependency on any single customer. These measures include expanding its client portfolio, increasing outreach across different industry segments, and strengthening business development initiatives. The loss of such customer or a decrease in the volume of orders or any disruption in our relationship may adversely affect our revenues and profitability. Any decline in our growing competition or any change in demand for our services by such customers may adversely affect our ability to retain them.

9. Our revenues are highly dependent on clients primarily located in North and West Zone of India. Any decline economic health of such regions could adversely affect our business, financial condition and results of operations.

We have derived a substantial portion of our revenue from services offered to clients based in Northern and Western part of India. Our revenue of operations for the Northern and Western part of India as mentioned below:

(₹ in Lakhs)

Particulars	For the Fiscal Year March 31, 2026		For the Fiscal Year March 31, 2025		For the Fiscal Year March 31, 2024	
	Revenue from Operations	% of total Revenue	Revenue from Operations	% of total Revenue	Revenue from Operations	% of total Revenue
North Zone	16,459.04	60.07%	12,134.33	64.63%	8,502.58	71.02%
Western Zone	8,036.53	29.33%	6,071.10	32.34%	3,193.06	26.67%
South Zone	296.26	1.08%	147.89	0.79%	145.86	1.22%
Eastern Zone	183.97	0.67%	153.23	0.82%	102.87	0.86%
International	2,422.21	8.84%	267.32	1.42%	28.32	0.24%

If the economic condition in this region becomes volatile or uncertain or the conditions in the financial market were to deteriorate or if there are any changes in laws applicable to our services and operations or if any restrictive conditions are imposed on us or our business, the pricing of our services may become less favourable for us. Further, our clients located in these geographies may reduce or postpone their technology spending significantly which would adversely affect our operations and financial conditions. Any reduction in spending on cloud communication services may lower the demand for our services and negatively affect our revenues and profitability. While we have not faced any such significant loss for the Fiscal Years 2026, 2025, and 2024, there can be no assurance that the same shall continue in future.

10. Conflict of interest may arise as our Subsidiary, one of our group company and some of our promoter group entities are authorized to carry on a similar line of business as our Company which may lead to real or potential conflicts of interest for our Promoters or Directors.

Our Subsidiary namely, Dove Soft Technologies Private Limited, our Group company, MOS Utility Limited and some of our promoter group entities namely, Dove Soft Technologies are authorized to engage in businesses similar to our own operations. For further information, see section titled *"History and Certain Corporate Matters- Details of subsidiary or associate company", "Our Promoters and Promoter Group"* and "*Our Group Companies*" on page 181, 202 and 208. Consequently, potential conflicts of interest may arise when it comes to allocating business opportunities between us and our Subsidiary. There may also be conflicts of interest between our Subsidiary and us in pursuing new contracts for cloud communication platform services.

Our Company has entered into a non-compete agreement dated September 09, 2025 with the Subsidiary Company and Group Company and/or relevant Promoters to restrict competition with our business, there can be no assurance that such arrangements will entirely eliminate the possibility of conflicts of interest in the future. Further, non-compete arrangements are subject to contractual limitations and legal enforceability considerations. Our Promoters have common interests in our Company and the Subsidiary Company. While our Promoters have undertaken to act in the best interests of our Company and to ensure that its business is conducted independently, there can be no assurance that decisions relating to business opportunities, allocation of resources or strategic direction will not give rise to actual or perceived conflicts of interest.

Although we intend to continue adopting appropriate corporate governance practices and internal controls, as permitted under applicable laws and regulatory guidelines, to address potential conflict situations as and when they arise, such measures may not always be sufficient. Any present or future conflict of interest, if not appropriately managed, may have a material adverse effect on our reputation, business operations, financial condition and results of operations.

The details of the group company engaged in a similar line of business as that of our Company are set out below:

Name of Group Company	Description of Business	Similarity with the Company's Business	Distinguishing Points	Customer Profile	Supplier Profile	Non-Compete Agreement
MOS Utility Limited	Please refer to the *"Our Group Companies"* section of the DRHP for detailed description of its business	Operates in a similar line of business relating to SMS Provider.	It focus on utility-based service aggregation, including recharge services, bill payments, financial inclusion, business correspondent activities, insurance distribution, prepaid instruments, and remittances. The provisions relating to SMS, email, and software services are ancillary in nature, supporting its overall utility and financial services ecosystem.	Telecom, Information Technology, Travel & Tourism, Entertainment, Media, Advertising & Events, Retail, Real Estate, Healthcare & Cosmetics, Banking, Financial Services & Insurance (BFSI), Automobile, E-commerce, and Food & Beverages	As our company is working service Industry, so there are no suppliers	Yes – Non-Compete Agreement dated September 09, 2025

11. Our purchases from limited service providers and dependency on a limited number of service providers could adversely affect our financial condition and results of operations.

We primarily rely on our top 10 service providers for the procurement of core services essential to business operations. Our operations require seamless integration with key messaging platforms, network providers, and cloud infrastructure services, which constitute a significant portion of our total operational expenses.

Set below are the details of our expenses towards our top 1, 5, 10 service providers for the years indicated:

(₹ in lakhs, unless stated otherwise)

Particulars	For Year ended					
	March 31, 2026		March 31, 2025		March 31, 2024	
	Revenue from operations	% of Revenue from Operations	Revenue from operations	% of Revenue from Operations	Revenue from operations	% of Revenue from Operations
Top 1	71.00%	15,874.50	9,087.003	59.69%	4,854.680	50.40%
Top 5	86.66%	19,375.30	12,922.082	84.89%	7,718.110	80.13%
Top 10	92.88%	20,765.63	13,839.280	90.91%	8,823.360	91.61%

We procure messaging services, cloud infrastructure, and network connectivity from our service providers based on purchase orders, without long-term agreements or firm commitments. In the absence of such contracts, we cannot assure you that we will continue to receive uninterrupted and cost-effective access to these critical services in the future. Any disruptions or limitations in service availability, and any inability to secure alternative providers at competitive rates, may adversely impact our ability to deliver messaging solutions efficiently and cost-effectively.

While we have not faced service interruptions for the fiscal years March 31, 2026, March 31, 2025 and March 31, 2024, we cannot guarantee that such disruptions will not occur in the future. Our reliance on approved vendors means that if a provider fails to meet our quality standards or unexpectedly ceases operations due to financial constraints or regulatory changes, we may need to seek replacements, which could impact service continuity and pricing. This dependency on third-party providers may also affect the availability of key services at competitive prices, influencing our operating margins and overall financial performance.

Furthermore, rapid increases in the cost of cloud infrastructure, network bandwidth, SMS termination charges, and other operational expenditures could significantly impact our business operations. Fluctuations in pricing for these essential services - due to regulatory changes, increased demand, or service providers cost adjustments - can raise our operational costs. If we are unable to pass these rising costs onto our customers without affecting demand, our profit margins could be negatively impacted. Additionally, sustained cost increases could hinder financial planning, making it challenging to maintain competitive pricing and service quality.

While we seek to adjust our pricing to reflect cost changes, our cash flows may be affected by timing differences between incurring higher service costs and implementing price adjustments for our customers. Although we have not experienced sustained cost increases for the Fiscal Years March 31, 2026, March 31, 2025 and March 31, 2024, we cannot assure that such occurrences will not arise in the future. Any such developments could impact our revenue generation and overall financial condition.

12. We are involved in certain legal proceedings, which, if determined adversely, may affect our business and financial condition.

As on the date of filing this Red Herring Prospectus, there are outstanding legal proceedings initiated by or against our Company, Promoters, Directors, and Group Companies that are incidental to our business and operation. A summary of outstanding litigation proceedings involving our Company, our promoters, our directors, KMPs, SMPs and our group companies as on the date of this Red Herring Prospectus is provided below:

13. We have witnessed negative cash flow from operating activities in the past. Any negative cash flows in the future would adversely affect our cash flow requirements, which may adversely affect our ability to operate our business and our financial condition.

We have for the three preceding Fiscal Years, and may in future, experience negative cash flows from Operating activities. Cash flow of a company is a key indicator to show the extent of cash generated from operations to meet its capital expenditure, pay dividends, repay loans and make new investments without raising finance from external resources. If we are not able to generate sufficient cash flow, it may adversely affect our business and financial operations. We experienced negative cash flows in the following periods as indicated in the table below:

(₹ in lakhs)

Particulars	For Fiscal Year		
	March 31, 2026	March 31, 2025	March 31, 2024
Net cash (used in)/ Generated from operating activities	430.48	-1,747.90	34.74

The negative cash flow from operating activities for the financial year 2024-25 was mainly attributable to a substantial increase in trade receivables arising from business expansion and extended credit terms to customers, as well as a reduction in short term provision in FY 2024-25. Higher working capital requirements, coupled with increased tax outflows, created a timing mismatch between revenue recognition and cash realization, resulting in a negative operating cash position during these periods.

We cannot assure you that our net cash flows will be positive in the future. Negative cash flows over extended periods, or significant negative cash flows in the short term, could materially impact our ability to operate our business and implement our growth plans. As a result, our cash flows, business, prospects, results of operations and financial condition may be materially and adversely affected. For further details, see "*Restated Financial Statements*" and "*Management's Discussion and Analysis of Financial Condition and Results of Operations*" beginning on pages 213 and 216, respectively.

14. Our Restated Financial Statements are reviewed and signed by a peer-reviewed auditor who is not the Statutory Auditor of our Company, which could give rise to differences in professional judgment or interpretation.

Our Restated Financial Statements included in this Red Herring Prospectus have been reviewed and signed by M/s Mathia & Co., Chartered Accountants, who hold a valid peer review certificate, in accordance with the requirements of the SEBI (Issue of Capital and Disclosure Requirements) Regulations, 2018 ("SEBI ICDR Regulations") and not by our Statutory Auditor, M/s Ankush Gupta & Associates, Chartered Accountants.

The Company engaged such peer-reviewed auditor to undertake an independent review and validation of the Restated Financial Statements as a matter of prudence and enhanced governance, and not due to any regulatory non-compliance or qualification with respect to the Statutory Auditor.

Since the peer-reviewed auditor who reviewed and signed the Restated Financial Statements is different from our Statutory Auditor, there may be differences in interpretation, professional judgment or understanding of our accounting records and accounting policies between the two auditors. Such differences could, in turn, impact the manner in which certain financial information is presented or interpreted in this Red Herring Prospectus. While we believe that our financial statements have been prepared and reviewed in accordance with applicable accounting standards and regulatory requirements, any perceived or actual inconsistency could affect investor confidence in our reported financial information, which may have a material adverse impact on the perception of our business, results of operations and financial condition.

15. Our Company has filed adjudication applications for certain past non-compliances under the Companies Act, 1956/2013, and there can be no assurance that similar issues will not arise in the future, which may expose us to penalties or regulatory action.

Our Company has filed adjudication applications for certain past non-compliances under the Companies Act, 1956 and 2013, and there can be no assurance that similar issues will not arise in the future.

Certain non-compliances were identified during the due diligence process by BRLM, for which independent Due Diligence Report has been taken from M/s Sameer Panchal & Associates, Practising Company Secretary, dated March 18, 2026. Adjudication applications were filed with the RoC in respect of Form AOC-4/23ACA (Form GNL-2) vide SRN AC2616225 dated March 13, 2026, and Form MGT-7/20B vide SRN AC2616320 dated March 12, 2026, application of which is pending with ROC, Mumbai.

As the application is pending with ROC, Mumbai in respect to the above forms and we have not received any intimation regarding any penalty or fine which is imposed by any regulatory authority in respect to the same. It cannot be assured, that there will not be such instances in the future. Further, to ensure that the above discrepancies/errors will not occur in future, we have taken the following steps i.e. appointed a whole-time Company Secretary to oversee and ensure accurate filings and compliance and implementing a Maker-Checker policy to ensure the accuracy and correctness of all submissions. Further we hereby undertake that the penalty and/or fine, if any imposed by ROC for the above application, such penalty and/or fine will be borne by the company from its internal accruals and not from the IPO proceeds.

16. There have been instances of delays and inaccuracies in filings with the Registrar of Companies in the past, and any future lapses may attract penalties or other regulatory actions, which could adversely affect our business, financial condition and reputation.

In the past, our Company has experienced certain delays in filing, as well as inaccuracies in filings, with the Registrar of Companies ("RoC"), and has not complied with certain statutory provisions under applicable laws, including the Companies Act, 1956 and the Companies Act, 2013. We have obtained a Search report from a M/s Sameer Panchal & Associates Practising Company Secretary, dated March 18, 2026 pursuant to which certain clerical discrepancies were identified and the Company has sent an intimation to the ROC informing about discrepancies/ errors via email dated April 24, 2025 and have since been rectified by our Company internally. While we have taken steps to regularise such lapses and strengthen our internal compliance processes, there can be no assurance that similar instances will not occur in the future.

In the past there has been a delay in filing some forms with the Registrar of Companies. The details of the same are mentioned below:

While no legal proceedings or regulatory action has been initiated against our Company as of the date of this Updated Draft Red Hearing Prospectus, we cannot assure you that such legal proceedings or regulatory actions will not be initiated against our Company in future and we cannot assure that we will not be subject to penalties imposed by concerned regulatory authorities in this respect. Therefore, if the authorities impose monetary penalties on our Company or against any of the Directors of our Company or take certain punitive actions against our Company or Directors of our Company in relation to the same, our business, financial condition and results of operations could be adversely affected.

17. We are unable to trace some of the historical records of our Company pertaining to RoC compliance for past periods. We cannot assure you that legal proceedings or regulatory actions will not be initiated against our Company in future in relation to such untraceable records.

Certain historical annual filing forms, specifically Form 23ACA relating to the Statement of Profit and Loss for the financial years 2011-12, 2012-13, and 2013-14, were not traceable in the Company's records at the time of verification. Accordingly, the Practicing Company Secretary, M/s Sameer Panchal & Associates in their search report dated March 18, 2026 has indicated that these documents were not available for verification.

The Company has also made an application to the Registrar of Companies (ROC), Mumbai to obtain certified copies of the aforesaid documents and is in the process of retrieving the same. The Company shall take appropriate steps to regularize and update its records upon receipt of such documents, in compliance with applicable laws.

18. We operate in a highly evolving market and any inability to respond to such changing conditions could adversely affect our business and results of operations.

The markets we operate in are competitive in nature and exhibit rapid changes driven by technological improvements and advancements, emerging new or alternative services and changing client preferences and demands. Market participants often need to invest significantly in research and development to stay competitive. Anticipated competition escalation is fuelled by new entrants attracted by industry opportunities and existing competitors seeking to expand their service Offerings. The possibility of consolidation among competitors also poses a potential competitive disadvantage for us. As we venture into international markets, we may have to compete with local and global providers of messaging services and telecommunications value-added services. Our success depends on our ability to swiftly adapt to the evolving market dynamics by enhancing features and reliability in our existing services and solutions. Additionally, successful development, introduction, and effective marketing of new features, services, solutions, and applications are vital to meet client demands. Failing to adapt or respond adequately and in a cost-effective manner to market changes or new opportunities, technologies, standards, or client demands may impair our ability to compete and retain clients, negatively impacting our business, financial condition, and results of operations. Our industry is characterized by fragmentation and high competition among market participants. Some or all of our competitors may possess advantages such as substantial financial resources, stronger brand recognition, longer operating histories, larger marketing budgets, broader geographic presence, and extensive client relationships. These advantages enable them to respond more swiftly and effectively to new or changing opportunities, technologies, standards, or client demands. Heightened competition may lead to pricing pressure, potentially requiring us to reduce service selling prices or risk losing business. Additionally, competitors may introduce new or different services in the future that might overshadow our current Offerings in popularity. If we do not achieve success in our target markets comparable to our competitors, our sales may decline, margins could be adversely affected, and we could lose market share, all of which could significantly harm our business. Although we have not encountered such situations for the Fiscal Years 2026, 2025, and 2024, there can be no guarantee that this will continue in the future.

19. We face foreign exchange risks that could adversely affect our results of operations and cash flows.

Although our reporting currency is the Indian Rupee, a portion of our business transactions is conducted in various foreign currencies, primarily the Euro, US Dollar, and AED. For the Fiscal Years 2026, 2025, and 2024, revenue from operations outside India accounted for 8.84%, 1.42% and 0.24% of our consolidated revenue, respectively. The exchange rate between the Indian Rupee and these foreign currencies has fluctuated significantly in recent years and may continue to do so. Any substantial appreciation of the Indian Rupee against these currencies could impact our long-term competitiveness. Additionally, since our Restated Consolidated Financial Statements are presented in Indian Rupees, such fluctuations could significantly affect our reported financial results.

While we typically do not engage in exchange rate hedging due to the scale of our operations, we may consider implementing hedging strategies in the future to mitigate these risks. However, these strategies may not fully eliminate our exposure to foreign exchange fluctuations and come with their own costs and risks, including the need for ongoing management time and expertise, external implementation costs, and potential accounting implications.

20. Our insurance coverage may not adequately protect us against potential risks, leading to uninsured losses or losses exceeding our coverage, which could have a material adverse effect on our business.

We maintain comprehensive insurance coverage to protect our business against key risks, including burglary, fire, earthquakes, floods, force majeure events, acts of terrorism, and explosions. This coverage addresses potential hazards such as loss of life, severe damage, property destruction, equipment loss, and environmental damage. While we believe the extent of our insurance aligns with industry standards and includes coverage customary to our business, it may not fully or adequately protect against all risks or losses. Claims under our policies are subject to certain deductibles, exclusions, and coverage limits, and there is no assurance that claims will be honoured in full, in part, or on time. Additionally, some risks may not be insurable on commercially reasonable terms or at all. Losses exceeding our insurance coverage or arising from uninsured events—such as natural disasters or other unforeseen circumstances—could significantly disrupt operations and materially impact our financial condition, results, and cash flows. If our operations are interrupted for a sustained period or if we are subject to litigation or claims, we cannot guarantee that our insurance policies will adequately cover any resulting losses. The following table provides a breakdown of our insurance policies for building:

(₹ in Lakhs)

Particulars	For Fiscal Year		
	March 31, 2026	March 31, 2025	March 31, 2024
Insurance Coverage (A)[(1)]	1,020.00	1,020.00	1,020.00
Net Assets as per Restated Consolidated Financial Information (B) [(2)]	9039.87	6,674.23	3,312.48
Net Tangible Assets as per Restated Consolidated Financial Information (C) [(3)]	8420.55	6,324.97	3,009.39
Insurance coverage times the Net Assets (A/B)	0.11	0.15	0.31
Insurance coverage times the net tangible assets (A/C)	0.12	0.16	0.34

[(1)] Insurance coverage = Total insurance coverage amount by considering insurance policies of property, equipments, vehicles, stock, erection and all risk insurance;
[(2)] Net assets = Total Assets- Total Liabilities;
[(3)] 'Net Tangible Assets' means Total Assets- Total Liabilities- Intangible Assets- Intangible Assets under Development- Deferred Tax Assets;
[(4)] As certified by our Peer Review Auditors, M/s Mathia & Co., pursuant to a certificate dated September 02, 2026.

Notwithstanding the insurance coverage that we carry, we may not be fully insured against certain business risks. There are many events that could significantly impact our operations, or expose us to third-party liabilities, for which we may not be adequately insured. There can be no assurance that any claim under the insurance policies maintained by us will be honoured fully, in part, or on time. To the extent that we suffer any loss or damage that is not covered by insurance or exceeds our insurance coverage, our business, financial condition and results of operations could be adversely affected. We could face liabilities or otherwise suffer losses should any unforeseen incident such as fire, flood, and accidents affect our registered office or in the regions/areas where our registered office are located.

Although we maintain insurance coverage such as motor vehicle insurance, standard fire and burglary insurance. There are possible losses, which we may not have insured against or covered or wherein the insurance cover in relation to the same may not be adequate. We may face losses in the absence of insurance and even in cases in which any such loss may be insured, we may not be able to recover the entire claim from insurance companies. Any damage suffered by us in excess of such limited coverage amounts, or in respect of uninsured events, not covered by such insurance policies will have to be borne by us. Although we have not encountered such situation for claiming the insurance for the Fiscal Years 2026, 2025, and 2024, there can be no guarantee that this will continue in the future.

21. Competition in the market for cloud communication platform services could affect our pricing, which could reduce our share of business from clients and decrease our revenues and profitability.

Our business model primarily operates on a dynamic pricing model allowing us to adapt prices based on prevailing market rates. The charges that we incur for utilizing network service from providers through whose networks we transmit communications can fluctuate and are influenced by factors which are beyond our control. If we encounter

difficulty in predicting the optimal route or adjusting prices accordingly, we may be unable to pass cost increases to our clients, potentially negatively impacting our business, operational results, and financial standing.

Further, as competitors introduce new products or services or reduce their prices, it may pose challenges in attracting new clients or retaining existing ones based on our historical pricing. Also, at the time of expanding into new geographic regions, determining appropriate competitive pricing is essential for effective competition. While we have not faced any such significant loss for the Fiscal Year 2026, 2025 and 2024, there can be no assurance that the same shall continue in future.

22. Deficiencies in or termination of services by third-party service providers such as server capacity providers, failure to provide, delays or outages, may adversely affect our business, financial condition and results of operations.

We partner with messaging infrastructure provider to support our cloud communication platform services. Our business depends on the capacity, reliability and security of infrastructure owned and managed by third-party service providers. We do not have control over the operation, quality or maintenance of such infrastructure or whether such third-party service providers will upgrade or improve their infrastructure, software, equipment and services. In such cases, it could require us or our clients to invest time and resources in updating or improving software, Application Programming Interfaces (APIs), equipment or services, and may result in interruptions or delays in the provision of our services and solutions. Further, interruptions or failures of such networks, whether due to natural disaster, government policy, terrorist activity or any other reason, and the resulting reduction in transactions and communications processed by our communications platform for delivery via such networks, can have a significant impact on our revenue and could an adverse effect on our business, financial condition and results of operations. We may experience interruptions, delays and outages in service and availability from time to time due to a variety of factors, including infrastructure changes, human or software errors and capacity constraints. Although we have not encountered such situations for the Fiscal Years 2026, 2025, and 2024, there can be no guarantee that this will continue in the future.

23. Our business has grown rapidly in recent periods, and we may not be able to sustain our rate of growth in future.

Our business has grown rapidly in recent years. The table below sets forth certain metrics on a consolidated basis for the year indicated:

Particulars	**For the year ended**		
	March 31, 2026	**March 31, 2025**	**March 31, 2024**
Revenue from operations (₹ in lakhs)	27.398.01	18,773.86	11,972.69
Total Revenue (₹ in lakhs)	27,474.19	18,825.79	11,979.02
EBITDA (₹ in lakhs)	3,277.88	2,413.42	1,477.14
EBITDA Margin (in %)	11.96%	12.86%	12.34%
Profit After Tax (in %)	2,340.42	1,654.00	1,027.18
PAT Margin (in %)	8.54%	8.81%	8.58%

This was primarily driven by strong demand of the Company's cloud communication services, particularly SMS and WhatsApp solutions, across key sectors like IT, Telecom, BFSI, and E-commerce. The Company witnessed consistent growth in its enterprise client base, higher usage volumes. Enhanced platform performance, scalability, and a recurring, usage-driven revenue model contributed substantial growth in both revenue and profitability over the years.

We may not be able to sustain our historical growth rate for various reasons, beyond our control. Success in executing our growth strategy is contingent upon, among other factors: These include regulatory and data privacy challenges, network reliability issues, competitive pressures, rapid technological changes, and our dependency on telecom carriers, mobile network operators, and cloud providers. Additionally, evolving customer preferences, cybersecurity threats, geopolitical risks, and the absence of long-term contracts with high customer churn may impact performance. Any adverse developments in these areas could materially affect our business, operations, and financial results.

Our existing operations, personnel and systems may not be adequate to support our, growth and expansion plan and we may be required to make additional investments in our business systems and processes and manage our employee base. These factors may restrict our ability to take advantage of market opportunities, execute our expansion plans successfully, respond to competitive pressures and maintain our historical growth rates.

24. Failure to meet the quality standards for our solutions in accordance with our contracts with clients could adversely affect our business, financial condition and results of operations.

We use software and hardware systems for providing our services and solutions to our clients. These sophisticated systems are susceptible to operational errors and performance issues. We have entered into contracts with some of our clients which contain provisions requiring us to maintain the services at or above certain minimum performance standards such as uptime commitment. In the event of failing to meet these specified standards, we may be subject to liquidated damages or penalties. However, we cannot guarantee that the limitations on liability outlined in our service contracts will be enforceable or adequate to shield us from liability for damages, particularly if our clients make claims for such damages. Although we have not encountered such situations for the Fiscal Years 2026, 2025, and 2024, there can be no guarantee that this will continue in the future.

25. Delay in customer payments and receivables may adversely impact on our profits and affect our cash flows.

Our business operations depend on our ability to successfully obtain payment from our clients/customers of the amounts they owe us for services provided. Our average debtor cycle was 146, 143 days and 135 days for the Fiscal 2026, 2025, and 2024, respectively. Actual losses on clients' balances could differ from those that we currently anticipate and as a result we might need to adjust our provisions. There is no guarantee that we will be able to accurately assess the creditworthiness of our clients. The conditions which could cause clients to delay payment, request modifications of their payment terms, or default on their payment obligations to us, all of which could increase our receivables. The timely collection of dues for client services also depends on our ability to fulfil our contractual commitments. If we are unable to meet our contractual obligations including the service level requirements under our contracts, we might experience delays in the collection of, or be unable to collect, our balances, and if this occurs, our results of operations and cash flows could be adversely affected. Such instances could adversely impact our results of operations and cash flows. Although we have not encountered such situations for the Fiscal Years 2026, 2025 and 2024, there can be no guarantee that this will continue in the future.

26. Failure to offer client support in a timely and effective manner may adversely affect our relationships with our clients.

Our clients may require support from our teams to effectively utilize our services, swiftly resolve post-deployment issues, and provide ongoing assistance. Insufficient allocation of resources or ineffectiveness in aiding our clients may have adverse effects, including the potential loss of existing clients and discouragement of prospective clients from adopting our services. We may face challenges in responding promptly to sudden increases in demand for client support. We also may be unable to modify the nature, scope and delivery of our client support to compete with changes in the support services provided by our competitors. Increased demand for client support, without corresponding revenue, could escalate costs and adversely affect our business, results of operations and financial condition. Our sales are influenced by our business reputation and on recommendations from our satisfied clients. Any failure to maintain high-quality client support, or a market perception that we do not maintain high-quality client support, could adversely affect our reputation, business, results of operations and financial condition. Although we have not encountered such situations for the Fiscal Years 2026, 2025, and 2024, there can be no guarantee that this will continue in the future.

27. Our Registered office is located on premises taken on a leave and license basis and our other branch offices are located on co-working spaces and there can be no assurance that the Leave and License agreement will be renewed upon termination or that we will be able to obtain other premises on leave and license on same or similar commercial terms.

Our Registered office located is located on premises taken on a leave and license basis for a period of 60 months with effect from January 01, 2023. Our company's branch offices are situated within co-working spaces.

While we renew the Leave and License agreement periodically in the ordinary course of business, in the event that the existing leave and license is terminated or it is not renewed on commercially acceptable terms, we may suffer a disruption in our operations. If alternative premises are not available at the same or similar costs, sizes or locations, our business, financial condition, cash flows and results of operations may be adversely affected. In addition, any regulatory non-compliance by the landlords or adverse development relating to the landlords' title or ownership rights to such properties, including as a result of any non-compliance by the landlords, may entail significant disruptions to our operations, especially if we are forced to vacate leased spaces following any such developments, and expose us to reputational risks.

28. If the market for enterprise cloud communication platform services does not develop according to our expectations or declines, our business, results of operations and financial condition may be adversely affected.

The market for enterprise cloud communication services and solutions is in a dynamic state of development, characterised by ongoing advancements and innovation, while it may not have reached the same level of maturity as traditional communication solutions. There is a possibility that these services may not attain or sustain necessary levels

of demand and market acceptance. Our success is significantly dependent on enterprises' inclination to engage in communication with clients, employees, and connected devices via cloud communications, as opposed to relying on legacy communication solutions. Additionally, our success relies on the continuous realization and advancement of new cases by enterprise clients. If enterprises do not perceive or realize the benefits of enterprise cloud communications services and solutions, the market for these services may not continue to develop, may decline or may not develop in the way we expect, which could have an adverse effect on our business, financial condition and results of operations.

29. We require working capital for our smooth day to day operations of business and any discontinuance or our inability to acquire adequate working capital timely and on favorable terms may have an adverse effect on our operations, profitability and growth prospects.

Our company's net working capital consisted of ₹5,863.07, ₹ 4,939.29 Lakhs and ₹ 1,780.61 Lakhs, for the financial year ended 2026, 2025, and 2024. A significant portion of our working capital is utilized towards inventories, trade receivables and trade payables. Summary of our working capital position is given below:

(₹ in Lakhs)

Particulars	As at March 31, 2026	As at March 31, 2025	As at March 31, 2024
Current Assets			
Trade Receivables	10,099.39	6,934.85	5,353.80
Short Term Loans and Advances	31.78	229.46	50.97
Other Current Assets	667.66	746.90	219.15
Total current assets (A)	**10,798.83**	**7,911.21**	**5,623.92**
Current Liabilities			
Trade Payables	4,300.00	2,155.62	3,407.18
Other Current Liabilities	240.09	138.27	132.92
Short Term Provisions	395.66	678.03	303.21
Total Current Liabilities (B)	**4,935.75**	**2,971.92**	**3,843.31**
Net working capital (A-B)	**5,863.07**	**4,939.29**	**1780.61**
Source of funds			
Borrowings	628.58	248.78	254.28
Internal Accruals	5,234.49	4,690.51	1,526.33

We operate in a working capital-intensive industry therefore our business demands substantial funds towards working capital requirements. In case there are insufficient cash flows to meet our working capital requirement or we are unable to arrange the same from other sources or there are delays in disbursement of arranged funds, or we are unable to procure funds on favourable terms, at a future date, it may result into our inability to finance our working capital needs on a timely basis which may have an adverse effect on our operations, profitability and growth prospects. For further details regarding incremental working capital requirement, please refer to the chapter titled *"Objects of the Offer"* beginning on page 89 of this Red Herring Prospectus.

30. Any disruption in the supply of power, IT infrastructure and telecommunications connections to our offices could disrupt our cloud communication platform services and subject us to additional costs.

Any interruption in essential infrastructure, including the power supply, has the potential to adversely impact our ability to deliver timely or adequate services to our clients. We are dependent on telecom connectivity and other infrastructure providers to maintain communications between our various offices. Telecom networks are subject to failures and periods of service disruption which can adversely affect our ability to maintain active communications among our offices and with our clients. Such disruptions may cause harm to our clients' businesses as well. In the event of a disruption in the supply of power, IT infrastructure, or telecom connectivity, we may not have sufficient coverage for claims or damages. This vulnerability could disrupt our cloud communication platform services, resulting in additional costs and a detrimental impact on our business, financial condition, and results of operations. Although we have not encountered such situations for the Fiscal Years 2026, 2025, and 2024, there can be no guarantee that this will continue in the future.

31. If we are unable to implement our marketing strategy in a cost-effective timely manner or at all, then our business, results of operations and financial condition would be adversely affected.

To expand our business, attracting new clients in a cost-effective manner is essential. We use a diverse range of marketing channels to promote our services and platform, including digital marketing, events and exhibition participation. However, if the costs associated with these marketing channels escalate significantly, then we may need

to explore alternative more cost-efficient channels, even if they may not yield the same effectiveness as our current ones. As we add to or change our marketing strategies, there's a possibility of venturing into pricier channels than our existing ones, potentially impacting our business, operational results, and financial standing adversely. We will incur marketing expenses prior to realizing any revenue generated from these initiatives, and there's no guarantee that these expenses will translate into increased revenue or heightened brand awareness. Maintaining effective marketing programs is crucial, and any inability to do so may adversely affect our capacity to attract new clients. This scenario could lead to a substantial increase in advertising and marketing costs, negatively impacting our operational results.

32. Our Promoter has provided personal guarantee for loans availed by us. In the event of default of the debt obligations, the personal guarantees may be invoked thereby adversely affecting our Promoter's ability to manage the affairs of our Company and our Company's profitability and consequently this may impact our business, prospects, financial condition and results of operations.

Our Company has availed loans in business. Our Promoter Rahul Bhanushali have provided personal guarantee in relation to overdraft facility of ₹ 500.00 Lakhs availed by our Company, for details please see *"Financial Indebtedness"* on page 226. In the event of default in repayment of the loans by the Company, the personal guarantee extended by our Promoters may be invoked by our lenders thereby adversely affecting our Promoter's ability to manage the affairs of our Company and this, in turn, could adversely affect our business, prospects, financial condition and results of operations.

33. We are dependent on our Promoters, Directors and senior management, including other employees with technical expertise. Any loss of or our inability to attract or retain such persons could adversely affect our business, results of operations and financial conditions.

We are dependent on our Promoters, Directors and Senior Management as well as persons with technical expertise for strategic business decisions and managing our business. We are led by our Promoters and Directors, who are involved in strategic planning, operations, design and production development. Their experience and leadership have played a key factor in our growth and development. Our operational success relies significantly on the expertise and continuous dedication of our senior management team. As we pursue our growth strategy, substantial demands will be placed on our management and overall resources because it requires us to continue to improve operational, financial and other internal controls. We are dependent on executives and key personnel, including competent sales force as well as technology professionals with a detailed knowledge of our business and industry. Any loss or interruption of services or our inability to retain essential management and resources essential for sustaining our senior management and expanding our business, may adversely affect our financial condition, results of operations, and prospects. While we have not experienced any significant loss of the aforementioned personnel for the fiscal years 2026, 2025, and 2024, we cannot guarantee that this will continue in the future.

To sustain our competitive position and effectively execute our business strategy, it is imperative that we identify, attract, train, and retain individuals with skills enabling us to keep up with evolving industry standards and increasing demands. Our future success hinges on the ability to secure the continued services and performance of our senior management team and other key team members across our business units.

34. We face significant competition for skilled professionals, and our success depends in large part upon our ability to attract and retain these personnel. Any inability on our part to attract and retain our key managerial personnel and/or talented professionals may adversely affect our business and results of operations.

Our ability to successfully execute projects and acquire new clients depends significantly on our capacity to attract, train, motivate, and retain skilled professionals. For the period ended Fiscal 2026, 2025, and 2024, our attrition rates were 31.65%, 62.30% and 62.71%, respectively. While we have a range of departments, the most significant attrition has occurred within the Sales Department. The high attrition within the sales team was due to their underperformance. Despite a some period to demonstrate results, many sales team members did not meet their committed targets or the company's expectations. Business generation was a key result area (KRA) for these roles, and performance in this area was consistently below expectations. Employees in Sales are assigned targets for new business acquisition. If, after a few months, they are unable to generate new business and meet their targets, they often leave the organization due to their inability to perform successfully in their roles. This performance issue is the primary driver of the high attrition rate. Moving forward, we are implementing strategies to minimize attrition within the company. We invest considerable time and resources in training professionals to deliver the services we Issue.

Additionally, there is strong competition in the industry for software professionals with the expertise required to perform our services. Furthermore, technological advancements, evolving industry standards, and shifting client preferences necessitate continuous retraining and upskilling of our workforce. Failure to effectively redeploy and train our professionals could impact our ability to meet market demands.

If we are unable to attract and retain qualified talent, our ability to bid for and secure new projects may be affected, leading to potential revenue decline. Additionally, challenges in expanding our workforce efficiently could hinder our business growth, impacting both revenue and profitability.

For further details on all of our Senior Managerial Personnel please refer to paragraph titled "*Profiles of our Senior Management Team*" in the chapter titled "*Our Management*" beginning on page 187.

35. Our Company's logo is registered as on date of this Red Herring Prospectus. Failure to protect our intellectual property rights may adversely affect our competitive business position, financial condition and profitability.

As on the date of this Red Herring Prospectus, our Company is using trademark i.e. and  which is registered under Trademarks Act, 1999. Our trademarks are significant to our business and operations. The use of our trademarks by third parties could adversely affect our reputation which could, in turn, adversely affect our business and results of operations. Obtaining, protecting and defending intellectual property rights can be time consuming and expensive and may require us to incur substantial costs, including the diversion of the time and resources of management and technical personnel.

With respect to any trademarks that might been applied for in the present or in future and/or are pending for renewal of registration, we cannot assure you that we will be successful in obtaining the same within a reasonable period of time due to unforeseen reasons. As a result, we may not be able to prevent infringement of our trademarks and a passing off action may not provide sufficient protection until such time that this renewal of registration is granted. We cannot guarantee that any of our registered or unregistered intellectual property rights or claims thereto, will now or in the future successfully protect what we consider to be the intellectual property underlying our products and business, or that our rights will not be opposed or otherwise challenged.

For further details on our intellectual property right, see "*Government and Other Approvals*" on page 240 of this Red Herring Prospectus.

36. Any inefficiencies in or failure of our billing and management information systems may adversely affect our business, financial condition and results of operations.

Maintaining billing and client management systems is critical to ensuring accurate and timely invoicing, preventing revenue loss, and supporting revenue growth. As new technologies and applications emerge, they will place increasing demands on these systems.

The complexities of billing and payment tracking can lead to challenges such as reconciliation issues, revenue recognition discrepancies, and delayed payments. To address these challenges, we must continuously expand and adapt our billing and credit control systems as we introduce new services and scale our business. The growth of new business lines may further strain these systems, placing additional pressure on our administrative, operational, and financial resources.

If adequate billing, credit control, and client management systems are unavailable, outdated, or not upgraded and integrated in a timely manner, it could adversely impact our business, financial condition, and operational performance.

37. Our growth and revenue are subject to volatility, primarily due to fluctuations in traffic volumes and the usage of our cloud communication platform services by enterprise clients.

Our revenue is subject to volatility, primarily due to fluctuations in traffic volumes and the usage of our cloud communication platform services by enterprise clients. Most of our agreements with enterprise clients are structured on a pay-per-use model, where clients pay for services based on each A2P message or voice pulse processed through our platform. These agreements generally do not include fixed or minimum recurring payments or guaranteed traffic volumes, making our revenue highly dependent on the ongoing usage of our services by enterprise clients.

If clients reduce their usage, discontinue services, or choose not to renew at current levels or prices, our growth may be adversely affected. Additionally, if we are unable to upsell or expand our service Offerings with existing clients, or if there is a period of reduced or restricted usage, our revenue could fluctuate significantly for that reporting period. The absence of fixed or recurring payments increases the risk of immediate and material adverse impacts on our business, financial position, and operational results.

38. Grants of stock options under our employee stock option plan may result in a charge to our profit and loss account and, to that extent, reduce our profitability and financial condition.

Our Company has an ESOP Scheme for issue of employee stock options to eligible employees, As of the date of this Red Herring Prospectus, our Company has granted 7,44,480 stock options under the ESOP Scheme. Further, our Company may grant additional options under ESOP Scheme in the future. Grants of stock options result in a charge to our statement of profit and loss and reduce, to that extent, our reported profits in future periods. Any issuance of the equity or equity-linked securities by us, including through exercise of employee stock options pursuant to the ESOP Scheme or any other employee stock option scheme we may implement in the future, may dilute your shareholding in the Company, adversely affecting the trading price of the Equity Shares and our ability to raise capital through an issuance of new securities. For further details in relation to the ESOP Scheme, see "*Capital Structure – Employee Stock Option Program*" beginning on page 70.

39. Our inability to collect receivables in time or at all and default in payment from our customers could result in the reduction of our profits and affect our cash flows.

Our business depends on our ability to successfully obtain payments from our customers for services provided. Our credit customers include big corporates with good creditworthiness. The credit to public sector enterprises and government bodies may take longer to realize due to their internal approval processes.

Set out below are details of our trade receivables, trade receivables turnover ratio and debtor days as of and for the years indicated:

Particulars	**For Fiscal Year**		
	March 31, 2026	**March 31, 2025**	**March 31, 2024**
Revenue from Operations (A) (₹ in lakhs)	27,398.01	18,773.86	11,972.69
(i) Opening Trade Receivables[(1)] (₹ in lakhs)	8,681.09	6,826.79	2,678.26
(ii) Closing Trade Receivables (₹ in lakhs)	13,764.47	8,681.09	6,826.79
Average Trade Receivables (B = (i + ii)/2) (₹ in lakhs)	11,222.78	4,752.52	1,985.68
Trade receivables turnover ratio (in times) (C) = (A)/(B)	2.44	2.52	3.70

(1) Refers to the trade receivable balances as on the beginning for the financial year for each of Financial Years 2026, 2025, and 2024.

Any increase in defaults by our customers in the future may compel us to utilize greater amounts of our operating working capital, thereby adversely affecting our business, results of operations and cash flows. Although we have not encountered such situations for the Fiscal Years 2026, 2025, and 2024, there can be no guarantee that this will continue in the future. For information on pending legal proceedings in relation to payment defaults from our customers, see "*Outstanding Litigation and Material Developments*" on page 230 of this Red Herring Prospectus.

40. We have in the past entered into related party transactions and may continue to do so in the future.

In ordinary course of business, we have entered into certain transactions with related parties in the past and from time to time, we enter into related party transactions in the future.

We have entered into certain transactions with related parties, including with respect to the payment of remuneration of certain of our Directors and our Key Managerial Personnel, receipt and repayment of loans obtained from our Promoters and purchase, payment of rent to our Promoters.

While our Company confirms that all such related party transactions that we have entered into are legitimate business transactions conducted on arms-length basis and are in compliance with the Companies Act and other applicable laws, we cannot assure that we could not have been achieved more favourable terms had such transactions not been entered into with related parties. Furthermore, we cannot assure that these or any future related party transactions that we may enter into, individually or in the aggregate, will not have an adverse effect on our financial condition and results of operation. Further, the transactions we have entered into and any future transactions with our related parties have involved or could potentially involve conflicts of interest which may be detrimental to our Company. For details, please refer to *"Note 30- Related Party Transactions"* under section titled *"Restated Financial Statement"* on page 213 of this Red Herring Prospectus.

41. Our Promoters and Directors hold Equity Shares in our Company and are therefore interested in the Company's performance in addition to their remuneration and reimbursement of expenses.

Our Promoters and Directors are interested in our Company, in addition to regular remuneration or benefits and reimbursement of expenses, to the extent of compensation paid, conversion of loan to shares, rent paid, rent received,

re-imbursement of expense, loan received, loan repaid, sales and to the extent of their shareholding as well as to the extent of the ESOP Scheme, dividends, bonus or other distributions on such equity shares in our Company. We cannot assure you that our Promoters will exercise their rights as shareholders to the benefit and best interest of our Company. Our Promoters may take or block actions with respect to our business which may conflict with the best interests of the Company or that of minority shareholders. For further information on the interest of our Promoters and Directors of our Company, other than reimbursement of expenses incurred or normal remuneration or benefits, see *"Our Management"* and *"Our Promoters and Promoter Group"* on pages 187 and 202 respectively of this Red Herring Prospectus.

42. Our directors do not have any prior experience of being a director in any other listed company in India and this may present certain potential challenges for our Company and in the event of any material non-compliance where our directors are held liable and responsible, we may have to appoint new directors.

Our current Board Company has 6 (six) directors on its Board, of whom one (1) is Chairman and Managing Director, two (2) are Executive Directors, one (1) is Non-Executive Director and Two (2) are independent directors (including one (1) that is a women director. While our Board members are qualified and have relevant experience in their respective fields, not having any significant contemporary experience of being a director in any other listed company in India may present certain potential challenges for our Company. In the event of any material non-compliance where our Directors are held liable and responsible, we may have to appoint new directors or replace our current Directors, which could be time consuming and may involve additional costs for our Company. For further details, see "*Our Management*" on page 187 of this Red Herring Prospectus.

43. Certain of our Key Managerial Personnel and Promoter do not have documents evidencing certain information in relation to their past experience and education qualification.

Certain of our Promoter do not possess documentary evidence supporting the details of their educational qualifications and past work experience. In particular, Kurjibhai Rupareliya does not have any documentation verifying his educational qualifications. Additionally, Rahul Bhanushali, Pankaj Bhanushali and Kurjibhai Rupareliya lack certain documents substantiating aspects of their work experience. Accordingly, we have not included those details in their biography under the section *"Our Management – Brief profiles of our directors"* beginning on page 187 the Red Herring Prospectus.

44. This Red Herring Prospectus contains information from an industry report prepared by Infomerics Analytics & Research, commissioned by us for the purpose of the Offer for an agreed fee.

This Red Herring Prospectus contains information from an industry report prepared by Infomerics Analytics & Research which we have commissioned and paid for. This Red Herring Prospectus includes information that is derived from the Infomerics Report, prepared by Infomerics Analytics & Research, a research house, pursuant to an engagement with our Company. Infomerics Analytics & Research has advised that while it has taken due care and caution in preparing the commissioned report, which is based on information obtained from sources that it considers reliable (Information), it does not guarantee the accuracy, adequacy or completeness of the Information and disclaims responsibility for any errors or omissions in the Information or for the results obtained from the use of the Information. Infomerics Analytics & Research also highlights certain industry and market data, which may be subject to estimates and/or assumptions. There are no standard data gathering methodologies in the industry in which we conduct our business, and methodologies and assumptions vary widely among different industry sources. Further, such estimates and/or assumptions may change based on various factors. We cannot assure you that Infomerics Analytics & Research's estimates and/or assumptions are correct or will not change and, accordingly, our position in the market may differ from that presented in this Red Herring Prospectus. Additionally, some of the data and information in the Infomerics Report are also based on discussions/conversations with industry sources, and may not, have been nor be capable of being, independently verified. Further, the Infomerics Analytics & Research Report is not a recommendation to invest or disinvest in our Company. Infomerics Analytics & Research has disclaimed all financial liability in case of any loss suffered on account of reliance on any information contained in the Infomerics Report.

45. Our Promoter Group includes certain individuals for whom Permanent Account Number ("PAN") details and/or death certificates are presently unavailable.

As part of the identification and disclosure of our Promoter Group in this Red Herring Prospectus, we have relied on information and confirmations provided by our Promoters and members of the Promoter Group. However, certain members of our Promoter Group have not been able to provide their PAN details, and in respect of certain deceased members of the Promoter Group, death certificates are currently not available. BRLM to the Offer have obtained written undertakings and confirmations from the relevant Promoters and/or family representatives confirming the identity, status, and details of such individuals.

While we have disclosed the available information based on such undertakings and internal records, there can be no assurance that the absence of PAN details or death certificates will not lead to queries, observations, or requests for additional information from regulatory authorities, including the Securities and Exchange Board of India ("SEBI"), stock exchanges, or any other governmental authority. Any such regulatory queries or requirements may result in delays in the processing of this Offer or require us to provide additional documentation or clarifications.

Further, in the event that any of the information provided in relation to such Promoter Group members is subsequently found to be inaccurate, incomplete, or insufficiently supported by documentary evidence, we may be required to revise our disclosures or take corrective actions, which could adversely affect the timelines for completion of the Offer.

Accordingly, investors should not place undue reliance on the completeness of the documentation relating to certain members of our Promoter Group.

46. The objects of the fresh issue for which the funds are being raised have not been appraised by any bank or financial institutions. Any variation in the utilization of our Net Proceeds as disclosed in this Red Herring Prospectus would be subject to certain compliance requirements, including prior Shareholders' approval.

We propose to utilize the Net Proceeds to meet the working capital requirements. Such object has not been appraised by any bank or financial institution, for further details of the proposed object of the Offer, see "*Objects of the Offer*" beginning on page no. 89. At this juncture, we cannot determine with any certainty if we would require the Net Proceeds to meet any other expenditure or fund any exigencies arising out of competitive environment, business conditions, economic conditions or other factors beyond our control. In accordance with Sections 13(8) and 27 of the Companies Act, 2013 and Schedules XI and XX of the SEBI ICDR Regulation, any material deviation in the utilisation of the Net Proceeds as disclosed in this Red Herring Prospectus requires the Company to obtain the approval of shareholders of our Company through a special resolution. In such event, we may not be able to obtain the approval of the shareholders of our Company in a timely manner, or at all. Any delay or inability in obtaining such approval of the shareholders of our Company may adversely affect our business or operations.

Further, our Company and Promoters would be required to provide an exit opportunity to the shareholders of our Company who do not agree with the material deviation of the proposed utilization of Net Proceeds, at a price and manner as prescribed by SEBI. Additionally, the requirement on Promoters to provide an exit opportunity to such dissenting shareholders of our Company may deter the Promoters from agreeing to the material deviation of the proposed utilisation of the Net Proceeds, even if such material deviation is in the interest of our Company. Further, we cannot assure you that the Promoters will have adequate resources at their disposal at all times to enable them to provide an exit opportunity.

In light of these factors, we may not be able to undertake material deviation of the proposed utilization of the Net Proceeds to use any unutilized proceeds of the Offer, if any, even if such material deviation is in the interest of our Company. This may restrict our Company's ability to respond to any change in our business or financial condition by re-deploying the unutilized portion of Offer Proceeds, if any, which may adversely affect our business and results of operations.

47. In addition to our existing indebtedness for our existing operations, we may incur further indebtedness during the course of business. We cannot assure that we would be able to service our existing and/or additional indebtedness.

As on March 31, 2026, our Company's total outstanding secured loans and unsecured loans is ₹1,580.26 Lakhs. In addition to the indebtedness for our existing operations, we may incur further indebtedness during the course of our business. We cannot assure you that we will be able to obtain further loans at favourable terms. Increased borrowings, if any, may adversely affect our debt equity ratio and our ability to borrow at competitive rates. In addition, we cannot assure you that the budgeting of our working capital requirements for a particular year will be accurate. There may be situations where we may under-budget our working capital requirements, which may lead to delays in arranging additional working capital requirements, loss of reputation, levy of liquidated damages and can cause an adverse effect on our cash flows.

Any failure to service our indebtedness or otherwise perform our obligations under our financing agreements entered with our lenders or which may be entered into by our Company, could trigger cross default provisions, penalties, acceleration of repayment of amounts due under such facilities which may cause an adverse effect on our business, financial condition and results of operations. For details of our indebtedness, please refer to the chapter titled "*Financial Indebtedness*" on page 226 of this Red Herring Prospectus.

48. If we do not develop enhancements to our services and introduce new services that achieve market acceptance, our business, results of operations and financial condition could be adversely affected.

Our capacity to attract new clients and increase revenue from existing clients is contingent on our ability to continually enhance and improve our current services, drive increased adoption and usage, and introduce innovative services. The success of any enhancements and new services is contingent to several factors, including timely completion, adequate quality testing, actual performance quality, appropriate pricing levels and overall market acceptance. Enhancements and new services that we develop may not be introduced in a timely or cost-effective manner, may contain errors or defects, may have inter-operability difficulties with our platform or other products or may not achieve the broad market acceptance necessary to generate significant revenue. Our ability to generate the usage of additional services and products by our clients may also require increasingly sophisticated and more costly sales efforts and result in a longer sales cycle. If we are unable to successfully enhance our existing services to meet evolving requirements of clients, increase the adoption and usage of our services products, develop new services and products, or if our efforts to increase the usage of our services are more expensive than we expect, then our business, results of operations and financial condition could be adversely affected.

49. We may be vulnerable to certain operational risk such as credit risk.

Operational risk is the risk of loss resulting from inadequate or failed internal processes, people, and systems or from external events. In the context of our business model, credit risk is a type of operational risk that arises from our exposure to potential losses due to our network partners' inability to repay the credit we have provided to them. As a business that provides credit to network partners as part of its day-to-day operations, we face the risk of not being able to recover the credit provided to our network partners. This means that if our network partners fail to pay back the credit, they owe to us, we may be unable to recover the funds, which could lead to financial losses for our business. Although we have not experienced any instances of default on credit payments from our network partners so far, the possibility of such an occurrence cannot be ruled out. If our network partners are unable to make timely payments, this could negatively impact our business, profitability, cash flow and overall results of operations. Although we have not encountered such situations for the Fiscal Years ended 2026, 2025, and 2024, there can be no guarantee that this will continue in the future.

50. If there is a change in policies related to tax, duties or other such levies applicable to us, it may affect our results of operations.

We benefit from certain general tax regulations and incentives that accord favourable treatment of our operations. These tax benefits include income tax deductions and other taxes. New or revised accounting policies or policies related to tax, duties or other such levies promulgated from time to time by the relevant authorities may significantly affect our results of operations. We cannot assure you that we would continue to be eligible for such lower tax rates or any other benefits. The reduction or termination of our tax incentives, or non-compliance with the conditions under which such tax incentives are made available, will increase our tax liability and affect our business, prospects, results of operations and financial condition.

51. Our customers may develop in-house solutions and migrate part or all of the services that we provide them to these in-house solutions.

Some of our customers may opt to internally develop specific functionalities that are currently offered by our services. This may lead to a loss of revenue from those particular services, as these customers would then fulfil their service requirements in-house. If these customers choose to develop in-house solutions or migrate the services that we provide to them, it could have an adverse effect on our business, results of operation and financial condition. Although we have not encountered such situation for the Fiscal Years ended 2026, 2025, and 2024, there can be no guarantee that this will continue in the future.

52. Our inability to obtain, renew or maintain our statutory and regulatory permits and approvals required to operate our business may have a material adverse effect on our business, financial condition and results of operations.

We will be required to renew permits and approvals for our existing operations, as well as secure new permits and approvals for any planned operations, in adherence to the relevant laws governing the sector or region of our operations. There can be no assurance that relevant authorities will renew or issue any of such permits or approvals in the timeframe anticipated by us or at all. Our failure to renew, maintain or obtain the essential permits or approvals could disrupt our operations and may have a material adverse impact on our business, financial condition and results of operations. Compliance with many of the regulations applicable to our operations may involve incurring significant costs and otherwise may impose restrictions on our operations. We cannot provide assurance to you that we will not be subject to any adverse regulatory action in the future. If the interpretation of the regulators and authorities varies

from our interpretation, we may be subject to penalties and the business of our Company could be adversely affected. The inability to acquire, sustain or renew any of these approvals or licenses, or renewals thereof, in a timely manner, or at all, our business may be adversely affected. If we fail to comply, or a regulator claims we have not complied, with any of the terms and conditions stipulated under any of our licenses or permits, one or several of our licenses and certificates may be suspended or cancelled and we shall not be able to carry on the activities permitted thereunder. For further information, see *"Government and Other Approvals"* on page 240.

53. Any variation in the utilization of the Net Proceeds as disclosed in this Red Herring Prospectus shall be subject to certain compliance requirements, including prior approval of the shareholders of our Company.

We propose to utilize the Net Proceeds for raising funds for Working Capital Requirement. For further details of the proposed objects of the Offer, please refer the chapter titled *"Objects of the Offer"* beginning on page 89 of this Red Herring Prospectus. At this juncture, we cannot determine with any certainty if we would require the Net Proceeds to meet any other expenditure or fund any exigencies arising out of the competitive environment, business conditions, economic conditions or other factors beyond our control. In accordance with Section 27 of the Companies Act, 2013 and other applicable laws, we cannot undertake any variation in the utilization of the Net Proceeds as disclosed in this Red Herring Prospectus without obtaining the approval of shareholders of our Company through a special resolution. In the event of any such circumstances that require us to vary the disclosed utilization of the Net Proceeds, we may not be able to obtain the approval of the shareholders of our Company in a timely manner, or at all. Any delay or inability in obtaining such approval of the shareholders of our Company may adversely affect our business or operations.

Further, our Promoters or controlling shareholders would be required to provide an exit opportunity to the shareholders of our Company who do not agree with our proposal to modify the objects of the Offer, at a price and manner as prescribed by SEBI. Additionally, the requirement on Promoters or controlling shareholders to provide an exit opportunity to such dissenting shareholders of our Company may deter the Promoters or controlling shareholders from agreeing to the variation of the proposed utilization of the Net Proceeds, even if such variation is in the interest of our Company. Further, we cannot assure you that the Promoters or the controlling shareholders of our Company will have adequate resources at their disposal at all times to enable them to provide an exit opportunity.

In light of these factors, we may not be able to vary the objects of the Offer to use any unutilized proceeds of the Offer, if any, even if such variation is in the interest of our Company. This may restrict our Company's ability to respond to any change in our business or financial condition by re-deploying the unutilized portion of Net Proceeds, if any, which may adversely affect our business and results of operations.

54. The average cost of acquisition of Equity Shares held by our Promoters could be lower than the Offer Price.

Our Promoters' average cost of acquisition of Equity Shares in our Company may be lower than the Offer Price which is proposed to be determined through book building mechanism. For further details regarding average cost of acquisition of Equity Shares by our Promoters in our Company and build-up of Equity Shares by our Promoters in our Company, please refer to the chapter titled "*Capital Structure*" on page 70 of this Red Herring Prospectus.

55. We depend on certain customers for our revenues which include our group company/entities. A decrease in the revenues we derive from them could adversely affect our business, results of operations, cash flows and financial condition.

We are integrated cloud communications solutions providers giving services via SMS, Voice, WhatsApp and Email. The table sets forth below revenue earned by our Company from our group company/entities as a percentage of our revenue from operations during the period indicated:

(₹ in lakhs)

Particulars	For the year ended		
	March 31, 2026	March 31, 2025	March 31, 2024
Revenue from Operations (A)	27,398.01	18,773.86	11,972.69
Revenue from the Group Company/ Entities	25.25	127.96	37.10
Percentage of Revenue from Group Company/Entities	0.09	0.68	0.31

Further, the volume and timing of revenue from services to our group company/entities may vary due to variation in demand for such customers or our growth strategy. Thus, any decrease in the demand for our Offerings from our customers, or a termination of our arrangements altogether, would adversely impact our results of operations, financial

condition and cash flow. However, there are no past instances for the Fiscal Years ended March 31, 2026, March 31, 2025 and March 31, 2024.

56. We have not paid any dividends in the past Financial Years. Our ability to pay dividends in the future will depend upon future earnings, financial condition, cash flows, working capital requirements and capital expenditures.

Our future ability to pay dividends will depend on our earnings, financial condition, and capital requirements of our company. There can be no assurance that we will generate sufficient income to cover the operating expenses and pay dividends to the shareholders. Our ability to pay dividends will also depend on our expansion plans. We may be unable to pay dividends in the near or medium term, and the future dividend policy will depend on the capital requirements and financing arrangements for the business plans, financial condition, and results of operations.

57. Our Promoters may enter into ventures that may lead to real or potential conflicts of interest with our business.

Our Promoters may become involved in ventures that may potentially compete with our Company. The interests of our Promoters may conflict with the interests of our other Shareholders and our Promoters may, for business considerations or otherwise, cause our Company to take actions, or refrain from taking actions, in order to benefit themselves instead of our Company's interests or the interests of its other Shareholders and which may be harmful to our Company's interests or the interests of our other Shareholders, which may materially adversely impact our business, financial condition and results of operations.

58. We will continue to be controlled by our Promoters and Promoter Group after the completion of the Offer, which will allow them to influence the outcome of matters submitted for approval of our shareholders.

As on the date of this Red Herring Prospectus, our Promoters and Promoter Group hold 74.31% of the issued and outstanding paid-up share capital of our Company. Following the completion of the Offer, our Promoters and Promoter Group will continue to hold together [●]% of our post-Offer Equity Share capital. As a result, they will have the ability to influence matters requiring shareholders' approval, including the ability to appoint Directors to our Board and the right to approve significant actions at Board and at shareholders' meetings, including the Offer of Equity Shares and dividend payments, business plans, mergers and acquisitions, any consolidation or joint venture arrangements, any amendment to our Memorandum of Association and Articles of Association, and any other business decisions. We cannot guarantee you that our Promoters and Promoter Group will not have conflicts of interest with other shareholders or with our Company. Any such conflict may adversely affect our ability to execute our business strategy or to operate our business.

For further details regarding our shareholding, please refer to chapter titled *"Capital Structure"* beginning on page 70 of this Red Herring Prospectus.

59. Our Equity Shares have never been publicly traded and may experience price and volume fluctuations following the completion of the Offer, an active trading market for the Equity Shares may not develop, the price of our Equity Shares may be volatile and you may be unable to resell your Equity Shares at or above the Offer Price or at all.

Before the Offer, our Equity Shares were not publicly traded, and it's uncertain whether an active trading market will emerge or persist post-Offer. The listing and quotation process don't assure the creation of a market for our Equity Shares, and even if one does emerge, the liquidity of the market cannot be guaranteed. The Offer Price of the Equity Shares is determined by considering several financial factors of the Company and may not accurately reflect the market price of the Equity Shares when trading commences or at any subsequent time.

The Indian stock markets have experienced notable volatility in recent times, and as a consequence, the trading price of our Equity Shares post this Offer may undergo substantial fluctuations. These fluctuations could stem from market volatility or various internal and external risks, as outlined in this Red Herring Prospectus and others not expressly mentioned. If the market price of our Equity Shares declines, there is a possibility of you incurring a partial or total loss of your investment.

60. Investors will not be able to sell immediately on an Indian stock exchange any of the Equity Shares they purchase in the Offer.

Our Equity Shares will be listed on the Stock Exchanges. Pursuant to applicable Indian laws, certain actions must be completed before our Equity Shares can be listed and trading of our Equity Shares may commence. Further, in accordance with Indian law, permission for listing of our Equity Shares will be granted only after our Equity Shares in this Offer have been allotted and all other relevant documents authorizing the Offering of our Equity Shares have been submitted. The Allotment of Equity Shares in this Offer and the credit of such Equity Shares to the applicant's

demat account with depository participant could take approximately two Working Days from the Bid/Offer Closing Date and trading in the Equity Shares upon receipt of final listing and trading approvals from the Stock Exchanges is expected to commence within three Working Days of the Bid/Offer Closing Date. There can be no assurance that our Equity Shares will be credited to investors' demat accounts, or that trading in our Equity Shares will commence, within the prescribed time periods. We could also be required to pay interest at the applicable rates if allotment is not made, refund orders are not dispatched or demat credits are not made to investors within the time periods prescribed under law.

61. Our business is substantially affected by prevailing economic, political and other prevailing conditions in India.

Our Company is incorporated in India, and our assets and employees are located in India. As a result, we are highly dependent on prevailing economic conditions in India and our results of operations are significantly affected by factors influencing the Indian economy. Factors that may adversely affect the Indian economy, and hence our results of operations, may include:

- any increase in Indian interest rates or inflation;
- any scarcity of credit or other financing in India, resulting in an adverse impact on economic conditions in India and scarcity of financing for our expansions;
- prevailing income conditions among Indian consumers and Indian corporations;
- volatility in, and actual or perceived trends in trading activity on, India's principal stock exchanges;
- changes in India's tax, trade, fiscal or monetary policies;
- political instability, terrorism or military conflict in India or in countries in the region or globally, including in India's various neighbouring countries;
- occurrence of natural or man-made disasters;
- other significant regulatory or economic developments in or affecting India or its agrochemical industry, any slowdown or perceived slowdown in the Indian economy, or in specific sectors of the Indian economy, could adversely impact our business, results of operations and financial condition and the price of the Equity Shares.

62. We may require additional equity or debt in the future in order to continue to grow our business, which may not be available on favourable terms or at all.

Our strategy to grow our business may require us to raise additional funds or refinance our existing debt for our working capital or long-term loans. We cannot assure you that such funds will be available on favourable terms or at all. Additional debt financing may increase our financing costs. Our financing agreements may contain terms and conditions that may restrict our ability to operate and manage our business, such as terms and conditions that require us to maintain certain pre-set debt service coverage ratios and leverage ratios and require us to use our assets, including our cash balances, as collateral for our indebtedness. If we decide to raise additional funds through the incurrence of debt, our interest and debt repayment obligations will increase, and could have a significant effect on our profitability and cash flows. Any issuance of equity to raise additional funds, on the other hand, would result in a dilution of the shareholding of existing shareholders. If we are unable to raise additional funds on favourable terms or at all as and when required, our business, results of operations, financial condition and prospects could be adversely affected.

63. Our Equity Shares have never been publicly traded, and after the Offer, the Equity Shares may experience price and volume fluctuations, and an active trading market for the Equity Shares may not develop. Further, the Offer Price may not be indicative of the market price of the Equity Shares after the Offer.

Prior to the Offer, there has been no public market for the equity shares, and an active trading market on the stock exchange may not develop or be sustained after the Offer. Listing and quotation do not guarantee that a market for the equity shares will develop. The Offer price of the equity shares is proposed to be determined through a book building process in accordance with the SEBI ICDR Regulations and may not be indicative of the market price of the equity shares at the time of commencement of trading of the equity shares or at any time thereafter. The market price of the equity shares may be subject to significant fluctuations in response to, among other factors, variations in our operating results of our Company, market conditions specific to the industry we operate in, developments relating to India, volatility in securities markets in jurisdictions other than India, variations in the growth rate of financial indicators, variations in revenue or earnings estimates by research publications, and changes in economic, legal and other regulatory factors.

The trading volume and market price of the equity shares may be volatile following the Offer.

The market price of the equity shares may fluctuate as a result of, among other things, the following factors, some of which are beyond our control:

a. half yearly variations in our results of operations;
b. results of operations that vary from the expectations of securities analysts and investors;
c. results of operations that vary from those of our competitors;
d. changes in expectations as to our future financial performance, including financial estimates by research analysts and investors;
e. a change in research analysts' recommendations;
f. announcements by us or our competitors of significant acquisitions, strategic alliances, joint operations, or capital commitments;
g. announcements by third parties / governmental entities of significant claims/ proceedings against us;
h. new laws and governmental regulations applicable to our industry;
i. additions or departures of key management personnel;
j. changes in exchange rates;
k. changes in the price of oil or gas;
l. fluctuations in stock market prices and volume; and
m. general economic and stock market conditions.

Changes in relation to any of the factors listed above could adversely affect the price of the Equity Shares.

64. There are restrictions on daily weekly monthly movement in the price of the equity shares, which may adversely affect the shareholder's ability to sell for the price at which it can sell, equity shares at a particular point in time.

Once listed, we would be subject to circuit breakers imposed by the stock exchange, which does not allow transactions beyond specified increases or decreases in the price of the Equity Shares. This circuit breaker operates independently of the index-based market-wide circuit breakers generally imposed by SEBI. The percentage limit on circuit breakers is said by the stock exchange based on the historical volatility in the price and trading volume of the Equity Shares. The stock exchange does not inform us of the percentage limit of the circuit breaker in effect from time to time and may change it without our knowledge. This circuit breaker limits the upward and downward movements in the price of the Equity Shares. As a result of the circuit breaker, no assurance may be given regarding the investor's ability to sell their Equity Shares or the price at which they may be able to sell the Equity Shares at any particular time.

65. QIB and Non-Institutional Investors are not permitted to withdraw or lower their Bids (in terms of quantity of Equity Shares or the Bid Amount) at any stage after submitting a Bid.

Pursuant to the SEBI ICDR Regulations, QIBs and Non-Institutional Investors are not permitted to withdraw or lower their Bids (in terms of quantity of Equity Shares or the Bid Amount) at any stage after submitting a Bid. Individual Investors can revise their Bids during the Bid/Offer Period and withdraw their Bids until Bid/Offer Closing Date. While our Company is required to complete Allotment pursuant to the Offer within three Working Days from the Bid/Offer Closing Date, events affecting the Bidders' decision to invest in the Equity Shares, including material adverse changes in international or national monetary policy, financial, political or economic conditions, our business, results of operations or financial condition may arise between the date of submission of the Bid and Allotment. Our Company may complete the Allotment of the Equity Shares even if such events occur, and such events may limit the Bidders ability to sell the Equity Shares Allotted pursuant to the Offer or cause the trading price of the Equity Shares to decline on listing.

66. Any future issuance of Equity Shares may dilute the shareholding of the Investor, or any sale of Equity Shares by our Promoters or other significant shareholder(s) may adversely affect the trading price of the Equity Shares.

Any future issuance of Equity Shares by our Company could dilute the shareholding of the investor. Any such future issuance of our Equity Shares or sales of our Equity Shares by any of our significant shareholders may adversely affect the trading price of our Equity Shares and could impact our ability to raise capital through an Offering of our securities. While the entire Post-Offer paid-up share capital, held by our Promoters or other shareholders will be locked-in for a period of 1 (one) year and minimum promoter contribution subject to a minimum of 20% of our Post-Offer paid-up capital will be locked-in for a period of 3 (three) years from the date of allotment of Equity Shares in the Offer, upon listing of our Equity Shares on the Stock Exchanges. For further information relating to such Equity Shares that will be locked-in, please refer to the section titled "*Capital Structure*" beginning on page 70 of this Red Herring Prospectus. Any future issuance or sale of the equity shares of our Company by our Promoters or by other significant shareholder(s) or any perception or belief that such sales of Equity Shares might occur may significantly affect the trading price of our Equity Shares.

67. Significant failure or disruption of our information technology systems could adversely impact our business, results of operations and financial condition.

We rely on various IT, ERP systems across key operational areas, including design, quality control, procurement, dispatch, and accounting. While no material incidents have occurred in the past, these systems remain vulnerable to cyber-attacks, infrastructure failures, natural disasters, or security breaches. Any significant disruption could impair our ability to operate efficiently, impact product availability, and result in financial losses or reputational harm.

Unauthorized access to sensitive business or customer data could also expose us to legal liabilities. Furthermore, the inability to recruit or retain skilled personnel to maintain and service our IT infrastructure may lead to operational inefficiencies or disruptions.

We have implemented robust cybersecurity protocols, disaster recovery plans, data backup systems, and employee training programs. However, evolving threats and system dependencies may continue to pose operational and financial risks.

68. Our Company will not receive any proceeds from the Offer for Sale, and may not receive proceeds from the Offer.

The Offer includes an Offer for Sale, and the proceeds from this portion will be received by the selling shareholders. As a result, we will not receive any funds from the Offer for Sale. If we do not receive proceeds from the Offer, we will not have additional funds from the Offer to use for our operations, working capital requirements. In such cases, we would continue to depend on our internal resources or consider other sources of financing, subject to their availability and market conditions. Any limitations on obtaining such funds, or the terms on which they are available, may affect our ability to meet our business requirements.

69. Our Company may introduce new products that may not achieve commercial success, which could adversely affect our results of operations and financial condition.

Our business strategy includes expanding our product portfolio and introducing new products from time to time to cater to evolving customer preferences and market demand. However, the success of any new product depends on a number of factors, including market acceptance, pricing, competition, distribution reach, and the effectiveness of our marketing efforts. There can be no assurance that newly introduced products will achieve the expected level of customer acceptance or commercial success. If such products do not perform as anticipated, the resources invested in development, marketing, and distribution may not be recovered, and our results of operations and financial condition may be adversely affected.

EXTERNAL RISK FACTORS:

70. Political instability and significant changes in Government policy could adversely affect economic conditions in India generally and our business in particular.

Changes in exchange rates and controls, interest rates, Government policies, taxation, social and ethnic instability and other political and economic developments in and affecting India may have an adverse effect on our results of operations.

India has a mixed economy with a large public sector and an extensively regulated private sector. The role of the Government and that of the state governments in the Indian economy and their effect on producers, consumers, service providers and regulators has remained significant over the years. Both state and central governments have, in the past, among other things, imposed controls on the prices of a broad range of goods and services, restricted the ability of businesses to expand existing capacity and reduce the number of their employees and determined the allocation to businesses of raw materials and foreign exchange. Since 1991, successive Governments have pursued policies of economic liberalization, including significantly relaxing restrictions in the private sector. Nevertheless, the role of the Government and state governments in the Indian economy as producers, consumers and regulators has remained significant. There can be no assurance that the Government's past liberalization policies or political stability will continue in the future. Elimination or substantial change of such policies or the introduction of policies that negatively affect the security service industry could have an adverse effect on our business. Any significant change in India's economic liberalization and deregulation policies could disrupt business and economic conditions in India generally and our business in particular.

71. Financial instability in other countries, particularly countries with emerging markets, could disrupt Indian markets and our business and cause the trading price of the Equity Shares to decrease.

The Indian financial markets and the Indian economy are influenced by economic and market conditions in other countries, particularly emerging market countries in Asia. Although economic conditions are different in each country, investors' reactions to developments in one country can have adverse effects on the securities of companies in other

countries, including India. A loss of investor confidence in the financial systems of other emerging markets may cause volatility in Indian financial markets and in the Indian economy. Any worldwide financial instability could also have a negative effect on the Indian economy. Accordingly, any significant financial disruption could have an adverse effect on our business, financial condition, and results of operations.

72. Changing laws, rules and regulations and legal uncertainties, including adverse application of corporate and tax laws, may adversely affect our business, results of operations, financial condition, and prospects.

The regulatory and policy environment in which we operate is evolving and subject to change. Our business is subject to a significant number of state tax regimes and changes in legislations governing them, implementing them or the regulator enforcing them in any one of those jurisdictions could adversely affect our results of operations. The applicable categories of taxes and tax rates also vary significantly from state to state, which may be amended from time to time. The final determination of our tax liabilities involves the interpretation of local tax laws and related regulations in each jurisdiction as well as the significant use of estimates and assumptions regarding the scope of future operations and results achieved and the timing and nature of income earned, and expenditures incurred. Changes in the operating environment, including changes in tax law, could impact the determination of our tax liabilities for any given tax year. Taxes and other levies imposed by the Government or State Governments that affect our industry include GST, income tax and other taxes, duties or surcharges introduced from time to time and any adverse changes in any of the taxes levied by the Government or State Governments could adversely affect our competitive position and profitability. Such changes, including the instances mentioned below, may adversely affect our business, results of operations, financial condition and prospects, to the extent that we are unable to suitably respond to and comply with any such changes in applicable law and policy.

73. The requirements of being a listed company may strain our resources.

We are not a listed company. We have not been subjected to the increased scrutiny of our affairs by shareholders, regulators and the public at large that is associated with being a listed company. As a listed company, we will incur significant legal, accounting, corporate governance, and other expenses that we did not incur as an unlisted company. We will be subject to the Equity Listing Agreements with the Stock Exchange which will require us to file audited annual and half yearly reports with respect to our business and financial condition. If we experience any delays, we may fail to satisfy our reporting obligations and/or we may not be able to readily determine and accordingly report any changes in our results of operations as promptly as other listed companies.

Further, as a listed company, we will need to maintain and improve the effectiveness of our disclosure controls and procedures and internal control over financial reporting, including keeping adequate records of daily transactions to support the existence of effective disclosure controls and procedures and internal control over financial reporting. In order to maintain and improve the effectiveness of our disclosure controls and procedures and internal control over financial reporting, significant resources and management attention will be required.

As a result, our management's attention may be diverted from business concerns, which may adversely affect our business, prospects, financial condition, and results of operations. Further, we may need to hire additional legal and accounting staff with appropriate listed company experience and technical accounting knowledge but cannot assure that we will be able to do so in a timely and efficient manner.

74. The trading volume and market price of the Equity Shares may be volatile following the Offer.

The market price of the Equity Shares may fluctuate as a result of, among other things, the following factors, some of which are beyond our control:

- half yearly variations in our results of operations;
- results of operations that vary from the expectations of securities analysts and investors;
- results of operations that vary from those of our competitors;
- changes in expectations as to our future financial performance, including financial estimates by research analysts and investors;
- a change in research analysts' recommendations;
- announcements by us or our competitors of significant acquisitions, strategic alliances, joint operations or capital commitments;
- announcements by third parties/ governmental entities of significant claims/ proceedings against us;
- new laws and governmental regulations applicable to our industry;
- additions or departures of key management personnel;
- changes in exchange rates;

- changes in the price of oil or gas;
- fluctuations in stock market prices and volume; and
- general economic and stock market conditions.

Changes in relation to any of the factors listed above could adversely affect the price of the Equity Shares.

75. You may be subject to Indian taxes arising out of capital gains on the sale of the Equity Shares.

Under current Indian tax laws and regulations, capital gains arising from the sale of equity shares in an Indian company are generally taxable in India. Any gain realised on the sale of listed equity shares on a stock exchange held for more than 12 months will not be subject to capital gains tax in India, up to an amount of ₹1.25 Lakh, if Securities Transaction Tax (**"STT"**) has been paid on the transaction. STT will be levied on and collected by a domestic stock exchange on which the equity shares are sold. Any gain realised on the sale of equity shares held for more than 12 months to an Indian resident, which are sold other than on a recognised stock exchange and on which no STT has been paid, will be subject to long term capital gains tax in India. Further, any gain realised on the sale of listed equity shares held for a period of 12 months or less will be subject to short term capital gains tax in India. Capital gains arising from the sale of the Equity Shares will be exempt from taxation in India in cases where the exemption from taxation in India is provided under a treaty between India and the country of which the seller is resident. Generally, Indian tax treaties do not limit India's ability to impose tax on capital gains. As a result, residents of other countries may be liable for tax in India as well as in their own jurisdiction on a gain upon the sale of the Equity Shares. In addition, changes in the terms of tax treaties or in their interpretation, as a result of renegotiations or otherwise, may affect the tax treatment of capital gains arising from a sale of Equity Shares.

76. We may be adversely affected by changes in technology.

The telecommunications industry is subject to rapid and significant changes in technology. The technologies we currently employ may become obsolete or subject to competition from new technologies in the future, and the technology in which we invest in the future may not perform as we expect or may be superseded by competing technologies before our investment costs have been recouped. In addition, the cost of implementing new technologies, upgrading our networks or expanding network capacity to effectively respond to technological changes and the introduction of third-generation mobile communications technologies may be substantial. Our ability to meet such costs will, in turn, depend upon our ability to obtain additional financing on commercially acceptable terms. Moreover, there can be no assurances that technologies will develop according to anticipated schedules, or that they will perform according to expectations or be commercially accepted. As a result, our business, results of operations, financial condition and prospects could be negatively impacted.

77. Unfavorable conditions in our industry or the global economy or reductions in spending on information technology and communications could adversely affect our business, results of operations and financial condition.

Our results of operations may vary based on the impact of changes in our industry or the global economy on our clients. Our results of operations depend in part on demand for information technology and cloud communications. In addition, our revenue is dependent on the usage of our services, which in turn is influenced by the scale of business that our clients are conducting. To the extent that weak economic conditions result in a reduced volume of business for, and communications by, our clients and prospective clients, demand for, and use of, our products may decline. Further, weak economic conditions may make it more difficult to collect on outstanding accounts receivable. Small and medium-sized business may be affected by economic downturns to a greater extent than enterprises, and typically have more limited financial resources, including capital-borrowing capacity, than enterprises. If our clients reduce their use of our services, or prospective clients delay adoption or elect not to adopt our services, as a result of a weak economy, this could adversely affect our business, results of operations and financial condition.

78. There have been allegations in recent years that there may be health risks associated with the use of portable mobile communication devices which could adversely affect our business.

Portable communication devices may pose health risks due to radio frequency emissions from such devices. Several mobile communications equipment manufacturers have undertaken studies concerning the health risks associated with using mobile communications devices and have publicly announced that there is no evidence of any health hazards or risks. However, the actual or perceived risk of mobile communications devices in India could adversely affect us through a reduced subscriber growth rate or a reduction in subscribers or reduced network usage per subscriber or through a claim for compensation.

79. Any downgrading of India's debt rating by an international rating agency could adversely affect our business.

Any adverse revisions to India's credit ratings for domestic and international debt by domestic or international rating agencies may adversely affect our ability to raise additional financing, and the interest rates and other commercial terms at which such additional financing is available. This could have an adverse effect on our business and financial performance, ability to obtain financing for capital expenditures and the price of the Equity Shares.

80. The occurrence of natural or man-made disasters could adversely affect our results of operations, cash flows and financial condition. Hostilities, terrorist attacks, civil unrest and other acts of violence could adversely affect the financial markets and our business.

The occurrence of natural disasters, including cyclones, storms, floods, earthquakes, tsunamis, tornadoes, fires, explosions, pandemic disease and man-made disasters, including acts of terrorism and military actions, could adversely affect our results of operations, cash flows or financial condition. Terrorist attacks and other acts of violence or war in India or globally may adversely affect the Indian securities markets.

In addition, any deterioration in international relations, especially between India and its neighbouring countries, may result in investor concern regarding regional stability which could adversely affect the price of the Equity Shares. In addition, India has witnessed local civil disturbances in recent years and it is possible that future civil unrest as well as other adverse social, economic or political events in India could have an adverse effect on our business. Such incidents could also create a greater perception that investment in Indian companies involves a higher degree of risk and could have an adverse effect on our business and the market price of the equity shares.

81. Rights of shareholders under Indian laws may be more limited than under the laws of other jurisdictions.

Indian legal principles related to corporate procedures, directors' fiduciary duties and liabilities, and shareholders' rights may differ from those that would apply to a company in another jurisdiction. Shareholders' rights including in relation to class actions, under Indian law may not be as extensive as shareholders' rights under the laws of other countries or jurisdictions. Investors may have more difficulty in asserting their rights as shareholder in an Indian company than as shareholder of a corporation in another jurisdiction.

82. Under Indian law, foreign investors are subject to investment restrictions that limit our ability to attract foreign investors, which may adversely affect the trading price of the Equity Shares.

Under foreign exchange regulations currently in force in India, transfer of shares between non-residents and residents are freely permitted (subject to certain restrictions), if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or falls under any of the exceptions specified by the RBI, then the prior approval of RBI will be required. Additionally, shareholders who seek to convert Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India require a no-objection or a tax clearance certificate from the Indian income tax authorities. We cannot assure investors that any required approval from the RBI or any other governmental agency can be obtained on any particular terms or at all. For further details, please refer to section titled *"Restrictions on Foreign Ownership of Indian Securities"* beginning on page 303 of this Red Herring Prospectus.

83. Investors may be restricted in their ability to exercise pre-emptive rights under Indian law and thereby may suffer future dilution of their ownership position.

Under the Companies Act, a company having share capital and incorporated in India must Issue its holders of equity shares pre-emptive rights to subscribe and pay for a proportionate number of shares to maintain their existing ownership percentages before the issuance of any new equity shares, unless the pre-emptive rights have been waived by adoption of a special resolution by holders of three-fourths of the equity shares voting on such resolution.

However, if the law of the jurisdiction the investors are in, does not permit them to exercise their pre-emptive rights without our Company filing an Offering document or registration statement with the applicable authority in such jurisdiction, the investors will be unable to exercise their pre-emptive rights unless our Company makes such a filing. If we elect not to file a registration statement, the new securities may be issued to a custodian, who may sell the securities for the investor's benefit. The value such custodian receives on the sale of such securities and the related transaction costs cannot be predicted. In addition, to the extent that he investors are unable to exercise pre-emptive rights granted in respect of the Equity Shares held by them, their proportional interest in our Company would be reduced.

84. A third party could be prevented from acquiring control of our Company because of anti-takeover provisions under Indian law.

There are provisions in Indian law that may delay, deter, or prevent a future takeover or change in control of our Company, even if a change in control would result in the purchase of Equity Shares at a premium to the market price or would otherwise be beneficial to the shareholders. Such provisions may discourage or prevent certain types of transactions involving actual or threatened change in control of our Company. Under the SEBI Takeover Regulations, an acquirer has been defined as any person who, directly or indirectly, acquires or agrees to acquire shares or voting rights or control over a company, whether individually or acting in concert with others. Although these provisions have been formulated to ensure that interests of investors/shareholders are protected, these provisions may also discourage a third party from attempting to take control of our Company. Consequently, even if a potential takeover of our Company would result in the purchase of the Equity Shares at a premium to their market price or would otherwise be beneficial to its stakeholders, it is possible that such a takeover would not be attempted or consummated because of the SEBI Takeover Regulations.

85. Investors may be subject to Indian taxes arising out of capital gains on the sale of our Equity Shares.

Under current Indian tax laws and regulations, unless specifically exempted, capital gains arising from the sale of equity shares in an Indian company are generally taxable in India. A securities transaction tax ("**STT**") is levied on and collected by an Indian stock exchange on which equity shares are sold. Any capital gain exceeding ₹ 1.25 lakh, realized on the sale of equity shares held for more than 12 months immediately preceding the date of transfer, which are sold using any other platform other than on a recognized stock exchange and on which no STT has been paid, are subject to long-term capital gains tax in India. The Finance Act, 2019 amended the Indian Stamp Act, 1899 with effect from July 1, 2020 and clarified that, in the absence of a specific provision under an agreement, the liability to pay stamp duty in case of sale of securities through stock exchanges will be on the buyer, while in other cases of transfer for consideration through a depository, the onus will be on the transferor. The stamp duty for transfer of securities other than debentures on a delivery basis is specified at 0.015% and on a non-delivery basis is specified at 0.003% of the consideration amount. The Finance Act, 2020, has, among others things, provided a number of amendments to the direct and indirect tax regime, including, without limitation, a simplified alternate direct tax regime and that dividend distribution tax will not be payable in respect of dividends declared, distributed or paid by a domestic company after March 31, 2020, and accordingly, that such dividends not be exempt in the hands of the shareholders, both resident as well as non-resident, and that such dividends likely be subject to tax deduction at source. The Company may or may not grant the benefit of a tax treaty (where applicable) to a non-resident shareholder for the purposes of deducting tax at source from such dividend. Investors should consult their own tax advisors about the consequences of investing or trading in the Equity Shares.

86. BSE may not grant in-principle approval for listing of equity shares of our Company.

Our company has applied for In-principle approval to BSE for its proposed public issue. There is a risk that the BSE Limited (BSE) may not grant approval for our proposed public issue. The approval process involves rigorous scrutiny of our company's financials, compliance with regulatory requirements, and overall suitability for listing. Despite our best efforts to meet all regulatory standards and provide comprehensive disclosures, there is no guarantee that the BSE will find our application satisfactory. Non-approval by the BSE would significantly impact our ability to access the capital markets and raise the necessary funds for our planned expansions and operations. This could adversely affect our financial condition and future growth prospects.

2) *The present Offer has been authorized pursuant to a resolution of our Board dated December 12, 2025 and pursuant to a special resolution of our Shareholders passed in an Extra-Ordinary General Meeting dated January 12, 2026 under Section 62(1)(c) of the Companies Act, 2013;*

3) *The Selling Shareholders have consented to participate in the Offer for Sale in the following manner:*

Name of the Selling Shareholders	Type	Date of Authorization Letter/ Board Resolution	Equity Shares held as of date of the DRHP	Equity Shares offered by way of Offer for Sale	% of the pre-Offer paid- up Equity Share capital
Rahul Bhanushali	Promoter Selling Shareholder	February 02, 2026	71,31,034	Up to 6,36,000	37.42%
Sky Occean Infrastructure Limited	Promoter Selling Shareholder	January 29, 2026	21,26,703	Up to 6,36,000	11.16%

The Selling Shareholders have confirmed that the Equity Shares proposed to be offered and sold in the Offer are eligible in term of SEBI (ICDR) Regulations, 2018 and that they have not been prohibited from dealings in securities market and the Equity Shares offered and sold are free from any lien, encumbrance or third-party rights. The Selling Shareholders have also severally confirmed that they are the legal and beneficial owners of the Equity Shares being offered by them under the Offer for Sale.

4) *In the event of over-subscription, allotment shall be made on a proportionate basis, subject to valid Bids received at or above the Offer Price. Allocation to investors in all categories, except the Individual Investor Portion, shall be made on a proportionate basis subject to valid bids received at or above the Offer Price. The allocation to each Individual Investor shall not be less than the minimum Bid Lot, and subject to availability of Equity Shares in the Individual Investor Portion, the remaining available Equity Shares, if any, shall be allocated on a proportionate basis;*

5) *The SEBI ICDR Regulations permit the issue of securities to the public through the Book Building Process, which states that, not less than 15% of the Net Offer shall be available for allocation on a proportionate basis to Non Institutional Bidders and not less than 35% of the Net Offer shall be available for allocation on a proportionate basis to Individual Bidders and not more than 50% of the Net Offer shall be allotted on a proportionate basis to QIBs, subject to valid Bids being received at or above the Offer Price. Accordingly, we have allocated the Net Offer i.e. not more than 50% of the Net Offer to QIB and not less than 35% of the Net Offer shall be available for allocation to Individual Investors and not less than 15% of the Net Offer shall be available for allocation to Non-institutional bidders;*

6) *Subject to valid Bids being received at or above the Offer Price, under-subscription, if any, in any category, except in the QIB Portion, would be allowed to be met with spill-over from any other category or combination of categories of Bidders at the discretion of our Company, in consultation with the Book Running Lead Managers and the Designated Stock Exchange, subject to applicable laws;*

7) *The Equity Shares being offered by the Selling Shareholders are eligible for being offered for sale as part of the Offer in terms of the SEBI ICDR Regulations. For details of authorizations received for the Offer, see "Other Regulatory and Statutory Disclosures" on page no. 246*

For details, including grounds for rejection of Bids, refer to "*Offer Structure*" and "*Offer Procedure*" on page 267 and 273, respectively. For details of the terms of the Offer, see "*Terms of the Offer*" on page 258.

Our Company, in consultation with the Book Running Lead Manager, allocate up to 60% of the QIB Portion to Anchor Investors on a discretionary basis in accordance with the SEBI (ICDR) Regulations. One-third of the Anchor Investor Portion shall be reserved for domestic Mutual Funds, subject to valid Bids being received from domestic Mutual Funds at or above the Anchor Investor Allocation Price. In the event of under-subscription in the Anchor Investor Portion,

the remaining Equity Shares shall be added to the QIB Portion. Further, 5% of the Net QIB Portion shall be available for allocation on a proportionate basis to Mutual Funds only, and the remainder of the QIB Portion shall be available for allocation on a proportionate basis to all QIB Bidders (other than Anchor Investors), including Mutual Funds, subject to valid Bids being received at or above the Offer Price. However, if the aggregate demand from Mutual Funds is less than 5% of the Net QIB Portion, the balance Equity Shares available for allotment in the Mutual Fund Portion will be added to the Net QIB Portion and allocated proportionately to the QIB Bidders (other than Anchor Investors) in proportion to their Bids. For further details, please refer section titled "*Offer Procedure*" beginning on page 273 of this Red Herring Prospectus.

- The Designated Intermediaries and Sponsor bank.

The SEBI ICDR Regulations have permitted the Offer of securities to the public through the Book Building Process, wherein allocation to the public shall be made as per Regulation 253 of the SEBI ICDR Regulations.

The Offer is being made through the Book Building Process wherein 50% of the Net Offer shall be available for allocation on a proportionate basis to QIBs, provided that our Company may in consultation with the BRLM allocate up to 60% of the QIB Portion to Anchor Investors on a discretionary basis in accordance with the SEBI (ICDR) Regulations (the "**Anchor Investor Portion**"), out of which one third shall be reserved for domestic Mutual Funds, subject to valid Bids being received from domestic Mutual Funds at or above the Anchor Investor Offer Price. 5% of the QIB Portion shall be available for allocation on a proportionate basis to Mutual Funds only, and the remainder of the QIB Portion shall be available for allocation on a proportionate basis to all QIB Bidders, including Mutual Funds, subject to valid Bids being received at or above the Offer Price.

Further, (a) 1/3rd of the portion available to NIBs shall be reserved for Bidders with application size of more than two lots and up to such lots equivalent to not more than ₹10.00 lakhs and (b) 2/3rd of the portion available to NIBs shall be reserved for Bidders with application size of more than ₹10.00 lakhs. Provided that the unsubscribed portion in either of the sub-categories specified in clauses (a) or (b), could be allocated to Bidders in the other sub-category of NIBs. The allocation to each NIB shall not be less than the minimum NIB Application Size, subject to availability of Equity Shares in the Non-Institutional Portion and the remaining available Equity Shares, if any, was available for allocation on a proportionate basis in accordance with the conditions specified in this regard in Schedule XIII of the SEBI ICDR Regulations and not less than 35% of the Net Offer shall be available for allocation to Individual Bidders, in accordance with the SEBI Regulations, subject to valid Bids being received at or above the Offer Price.

All potential Bidders may participate in the Offer through an ASBA process by providing details of their respective bank account which will be blocked by the SCSBs. All Bidders are mandatorily required to utilize the ASBA process to participate in the Offer. Under-subscription if any, in any category, except in the QIB Category, would be allowed to be met with spill over from any other category or a combination of categories at the discretion of our Company may, in consultation with the Book Running Lead Manager and the Designated Stock Exchange.

All potential Bidders may participate in the Offer through an ASBA process by providing details of their respective bank account which will be blocked by the SCSBs. All Bidders are mandatorily required to utilize the ASBA process to participate in the Offer. Under-subscription if any, in any category, except in the QIB Portion, would be allowed to be met with spill over from any other category or a combination of categories at the discretion of our Company may, in consultation with the Book Running Lead Manager and the Designated Stock Exchange.

All Bidders, other than Anchor Investors, shall only participate through the ASBA process by providing the details of their respective ASBA Account in which the corresponding Bid Amount will be blocked by the SCSBs or, in the case of UPI Bidders, by using the UPI Mechanism. Anchor Investors are not permitted to participate in the Offer through the ASBA process.

In accordance with the SEBI ICDR Regulations, QIBs Bidding in the Net QIB Portion and Non-Institutional Bidders bidding in the Non-Institutional Portion are not allowed to withdraw or lower the size of their Bids (in terms of the quantity of the Equity Shares or the Bid Amount) at any stage. Individual Bidders Bidding in the Individual Investor Portion (subject to the minimum application size being ₹2,00,000) and Eligible Employees Bidding in the Employees Reservation Portion can revise their Bids during the Bid/Offer Period and withdraw their Bids until the Bid/Offer Closing Date. Further, Anchor Investors are not allowed to revise and withdraw their Bids after the Anchor Investor Bid/Offer Period. Except for Allocation to IBs, Non-Institutional Investors and the Anchor Investors, Allocation in the Offer will be on a proportionate basis. Allocation to the Anchor Investors will be on a discretionary basis.

The Book Building Process under the SEBI ICDR Regulations and the Bidding process are subject to change from time to time and Bidders are advised to make their own judgment about investment through this process prior to submitting a Bid in the Offer.

Each Bidder by submitting a Bid in the Offer, will be deemed to have acknowledged the above restrictions and the terms of the Offer.

Bidders should note that the Offer is also subject to obtaining (i) final approval of the ROC after the Red Herring Prospectus is filed with the ROC; and (ii) final listing and trading approvals from the Stock Exchanges, which our Company shall apply for only after Allotment.

The Book Building Process under the SEBI ICDR Regulations is subject to change from time to time and Bidders are advised to make their own judgment about an investment through the Book Building Process prior to submitting a Bid in the Offer.

Subject to valid Bids being received at or above the Offer Price, allocation to all categories in the Net Offer, shall be made on a proportionate basis, except for Individual Investor Portion and Non-Institutional Investor, where allotment to each Individual Bidders shall not be less than the minimum bid lot, subject to availability of Equity Shares in Individual Investor Portion and the remaining available Equity Shares, if any, shall be allotted on a proportionate basis. Under–subscription, if any, in any category, would be allowed to be met with spill–over from any other category or a combination of categories at the discretion of our Company in consultation with the Book Running Lead Manager and the Stock Exchange. However, under-subscription, if any, in the QIB Portion will not be allowed to be met with spill over from other categories or a combination of categories.

In terms of SEBI Circular No. CIR/CFD/POLICYCELL/11/2015 dated November 10, 2015 and the SEBI (Issue of Capital and Disclosure Requirements) Regulations, 2018, all the investors (except Anchor Investors) applying in a public Issue shall use only Application Supported by Blocked Amount (ASBA) process for application providing details of the bank account which will be blocked by the Self Certified Syndicate Banks (SCSBs) for the same. Further, pursuant to SEBI Circular No. SEBI/HO/CFD/DIL2/CIR/P/2018/138 dated November 01, 2018, Individual Investors applying in public Issue may use either Application Supported by Blocked Amount (ASBA) facility for making application or also can use UPI as a payment mechanism with Application Supported by Blocked Amount for making application. For details in this regards, specific attention are invited to the chapter titled "*Offer Procedure*" beginning on page 273 of the Red Herring Prospectus.

For further details on the method and procedure for Bidding, see "*Offer Structure*" and "*Offer Procedure*" on pages 267 and 273, respectively.

Our Company will comply with the SEBI ICDR Regulations and any other directions issued by SEBI in relation to this Offer. In this regard, our Company has appointed the Book Running Lead Manager to manage this Offer and procure Bids for this Offer.

ILLUSTRATION OF THE BOOK BUILDING AND PRICE DISCOVERY PROCESS

For an illustration of the Book Building Process and the price discovery process, please refer to the chapter titled "*Offer Structure" and "Offer Procedure"* beginning from pages 267 and 273 respectively.

WITHDRAWAL OF THE OFFER

Our Company in consultation with the Book Running Lead Manager, reserve the right not to proceed with the Offer at any time after the Offer Opening Date but before the Board meeting for Allotment. In such an event our Company would issue a public notice in the newspapers, in which the pre-Offer advertisements were published, within 2 (Two) days of the Offer Closing Date or such other time as may be prescribed by SEBI, providing reasons for not proceeding with the Offer.

The Book Running Lead Manager, through the Registrar to the Offer, shall notify the SCSBs (in case of Individual Investors using the UPI Mechanism), to unblock the bank accounts of the ASBA Applicants, within 1 (One) day of receipt of such notification. Our Company shall also promptly inform the Stock Exchange on which the Equity Shares were proposed to be listed.

If our Company withdraws the Offer after the Bid/Offer Closing Date and subsequently decides to proceed with an Offer of the Equity Shares, our Company will have to file a fresh Draft Red Herring Prospectus with the stock exchange where the Equity Shares may be proposed to be listed.

Notwithstanding the foregoing, the Offer is also subject to obtaining the final listing and trading approvals from BSE, which our Company shall apply for after Allotment. If our Company withdraws the Offer after the Offer Closing Date and thereafter determines that it will proceed with an IPO, our Company shall be required to file a fresh Draft Red Herring Prospectus.

Details of the Market Making Arrangement for this Offer

The Market Maker shall fulfil the applicable obligations and conditions as specified in the SEBI (ICDR) Regulations, and its amendments from time to time and the circulars issued by the BSE and SEBI regarding this matter from time to time.

Following is a summary of the key details pertaining to the Market Making arrangement:

1. The Market Maker shall be required to provide a 2-way quote for 75% of the time in a day. The same shall be monitored by the Stock Exchange. Further, the Market Maker shall inform the exchange in advance for each and every blackout period when the quotes are not being offered by the Market Maker.

2. The prices quoted by Market Maker shall be in compliance with the Market Maker Spread Requirements and other particulars as specified or as per the requirements of the BSE Limited (SME platform of BSE) and SEBI from time to time.

3. The minimum depth of the quote shall be ₹1,00,000. However, the investors with holdings of value less than ₹1,00,000 shall be allowed to Offer their holding to the Market Maker in that scrip provided that he sells his entire holding in that scrip in one lot along with a declaration to the effect to the selling broker.

4. The Market Maker shall not sell in lots less than the minimum contract size allowed for trading on the SME platform of BSE (in this case currently the minimum trading lot size is [●] equity shares; however, the same may be changed by the SME platform of BSE from time to time). Execution of the order at the quoted price and quantity must be guaranteed by the Market Maker, for the quotes given by him.

5. After a period of three (3) months from the market making period, the market maker would be exempted to provide quote if the Shares of market maker in our Company reaches to 25% of Offer Size (Including the [●] Equity Shares ought to be allotted under this Offer). Any Equity Shares allotted to Market Maker under this Offer over and above [●] Equity Shares would not be taken in to consideration of computing the threshold of 25% of Offer Size. As soon as the Shares of market maker in our Company reduce to 24% of Offer Size, the market maker will resume providing 2-way quotes.

6. There shall be no exemption/threshold on downside. However, in the event the Market Maker exhausts his inventory through market making process, SME Platform of BSE Limited may intimate the same to SEBI after due verification.

7. Execution of the order at the quoted price and quantity must be guaranteed by the Market Maker, for the quotes given by him.

8. There would not be more than five Market Makers for a script at any point of time and the Market Makers may compete with other Market Makers for better quotes to the investors.

9. On the first day of the listing, there will be pre-opening session (call auction) and there after the trading will happen as per the equity market hours. The circuits will apply from the first day of the listing on the discovered price during the pre-open call auction. In case equilibrium price is not discovered the price band in the normal trading session shall be based on Offer price.

10. The Marker Maker may also be present in the opening call auction, but there is no obligation on him to do so.

11. There will be special circumstances under which the Market Maker may be allowed to withdraw temporarily/fully from the market – for instance due to system problems or any other problems. All controllable reasons require prior approval from the Exchange, while force-majeure will be applicable for non-controllable reasons. The decision of the Exchange to decide controllable and non-controllable reasons would be final.

12. The Market Maker shall have the right to terminate said arrangement by giving one month notice or on mutually acceptable terms to the Book Running Lead Manager, who shall then be responsible to appoint a replacement Market Maker.

13. In case of termination of the above mentioned Market Making Agreement prior to the completion of the compulsory Market Making period, it shall be the responsibility of the Book Running Lead Manager to arrange

for another Market Maker in replacement during the term of the notice period being served by the Market Maker but prior to the date of releasing the existing Market Maker from its duties in order to ensure compliance with the requirements of regulation 261 of the SEBI (ICDR) Regulations, 2018. Further the Company and the Book Running Lead Manager reserve the right to appoint other Market Makers either as a replacement of the current Market Maker or as an additional Market Maker subject to the total number of Designated Market Makers does not exceed five or as specified by the relevant laws and regulations applicable at that particulars point of time. The Market Making Agreement is available for inspection at our office from 10.00 a.m. to 5.00 p.m. on working days.

14. **Risk containment measures and monitoring for Market Maker**: SME Platform of BSE Limited will have all margins which are applicable on the BSE Main Board viz., Mark-to-Market, Value-At-Risk (VAR) Margin, Extreme Loss Margin, Special Margins and Base Minimum Capital etc. BSE can impose any other margins as deemed necessary from time-to-time.

15. **Punitive Action in case of default by Market Maker**: SME Platform of BSE Limited will monitor the obligations on a real-time basis and punitive action will be initiated for any exceptions and/or non compliances. Penalties / fines may be imposed by the Exchange on the Market Maker in case he is not able to provide the desired liquidity in particular security as per the specified guidelines. These penalties / fines will be set by the Exchange from time to time. The Exchange will impose a penalty on the Market Maker in case he is not present in the market (offering two-way quotes) for at least 75% of the time. The nature of the penalty will be monetary as well as suspension in market making activities / trading membership. The Department of Surveillance and Supervision of the Exchange would decide and publish the penalties / fines / suspension for any type of misconduct/ manipulation/ other irregularities by the Market Maker from time to time.

16. **Price Band and Spreads**: SEBI Circular bearing reference no: *CIR/MRD/DP/ 02/2012* dated *January 20, 2012*, has laid down that for Offer size up to ₹ 250 Crores, the applicable price bands for the first day shall be:

    - In case equilibrium price is discovered in the Call Auction, the price band in the normal trading session shall be 5% of the equilibrium price.

    - In case equilibrium price is not discovered in the Call Auction, the price band in the normal trading session shall be 5% of the Offer price.

Additionally, the trading shall take place in TFT segment for first 10 days from commencement of trading. The price band shall be 20% and the Market Maker Spread (difference between the sell and the buy quote) shall be within 10% or as intimated by Exchange from time to time.

17. The following spread will be applicable on the SME Exchange/ Platform.

Sr. No.	Market Price Slab (in ₹)	Proposed Spread (in % to sale price)
1.	Up to 50	9
2.	50 to 75	8
3.	75 to 100	6
4.	Above 100	5

All the above-mentioned conditions and systems regarding the Market Making Arrangement are subject to change based on changes or additional regulations and guidelines from SEBI and Stock Exchange from time to time.

18. Pursuant to SEBI Circular number *CIR/MRD/DSA/31/2012* dated November 27, 2012, limits on the upper side for Markets Makers during market making process has been made applicable, based on the Offer size and as follows:

Offer Size	Buy quote exemption threshold (including mandatory initial inventory of 5% of the Offer Size)	Re-Entry threshold for buy quote (including mandatory initial inventory of 5% of the Offer Size)
Up to ₹ 20 Crores	25%	24%
₹ 20 Crores to ₹ 50 Crores	20%	19%
₹ 50 Crores to ₹ 80 Crores	15%	14%
Above ₹ 80 Crores	12%	11%

All the above-mentioned conditions and systems regarding the Market Making Arrangement are subject to change based on changes or additional regulations and guidelines from SEBI and Stock Exchange from time to time.

22. Except for any grant of ESOP, equity shares allotted pursuant to ESOP, our Company presently does not intend or propose to alter its capital structure for a period of six (6) months from the Bid/Offer Opening Date, by way of split or consolidation of the denomination of Equity Shares, or by way of further offer of Equity Shares (including issue of securities convertible into or exchangeable, directly or indirectly for Equity Shares), whether on a preferential basis, or by way of further public Offer of Equity Shares, or otherwise. However, if business needs of our Company so require, our Company may further Offer Equity Shares (including issue of securities convertible into Equity Shares) whether preferential or otherwise after the date of the listing of equity shares to finance an acquisition, merger or joint venture or for regulatory compliance or such other scheme of arrangement or any other purpose as the Board may deem fit, if an opportunity of such nature is determined by its Board of Directors to be in the interest of our Company.

23. Employee Stock Option Program

Our Company has one ESOP, namely, Dove Soft Limited ESOP Scheme, 2023 ("**ESOP 2023**").

The ESOP was approved pursuant to a Board resolution dated September 01, 2023 and Shareholders' resolution dated September 09, 2023. ESOP 2023 is in compliance with the SEBI (SBEBSE) Regulations. Under the ESOP 2023 an aggregate of 7,45,500 (Seven Lakhs Forty-Five Thousand and Five Hundred only) equity shares may be granted to eligible employees, with each option being exercisable to receive one Equity Share. Further Pursuant to the approval of the Board of Directors in the meeting dated September 02, 2025 and the approval of Shareholders of the Company in the meeting dated September 08, 2025, and in compliance with the applicable provisions of the Companies Act, 2013 and SEBI SBEB Regulations, the vesting period in respect of the Stock Options granted under ESOP 2023 has been modified/extended 15 months, and such vesting period shall be up to December 31, 2026, subject to the terms and conditions of the Scheme.

Except for the aforesaid modification in the vesting/exercise timeline, all other terms and conditions of the ESOP Scheme remain unchanged. The objective of the ESOP is to incentivize the employees of our Company by granting stock options and thereby attract, retain, and motivate employees and retain talent along with developing a sense of ownership amongst employees. Our Company has created the Employee Stock Option Plan/ Scheme pursuant to which, employees of our Company are eligible to receive performance-linked incentives in addition to their salary.

**To the extent our Company is unable to utilize any portion of the Net Proceeds towards the Object, as per the estimated schedule of deployment specified above; our Company shall deploy the Net Proceeds in the subsequent Financial Years towards the Object. Due to general business exigencies, the use of Net proceeds may be interchangeable. However, the use of Net Proceeds for the General Corporate Purposes shall not exceed 15% of the Gross Proceeds or ₹ 1,000 Lakhs, whichever is less in accordance with the SEBI ICDR Regulations.*

The fund requirements, deployment of funds, and intended use of the Net Proceeds as described in this Red Herring Prospectus are based on our current business plan, management estimates, market conditions, and other external commercial and technical factors. However, these fund requirements and deployment plans have not been appraised by any bank, financial institution, or independent agency. For further details, see *"Risk Factors"* page no. 21. We may need to revise our funding requirements and deployment due to various factors such as our financial and market conditions, business and growth strategies, competitive landscape, general factors affecting our results of operations, financial condition, access to capital, and other external factors such as changes in the business environment, regulatory changes, and interest or exchange rate fluctuations. These factors, which may not be within our management's control, might necessitate rescheduling the proposed utilization of the Net Proceeds and changing the allocation of funds from its planned allocation, subject to compliance with applicable laws.

Further, in case of variations in the actual utilization of funds earmarked for the purposes set forth above, increased fund requirements for a particular purpose may be financed by surplus funds, if any, available in respect of the other purposes for which funds are being raised in the Offer. To the extent our Company is unable to utilize any portion of the Net Proceeds towards the aforementioned objects, per the estimated scheduled of deployment specified above, our Company shall deploy the Net Proceeds in subsequent financial year towards the aforementioned Objects.

Moreover, if the actual utilization towards any of the Objects is lower than the proposed deployment such balance will be used for general corporate purposes to the extent that the total amount to be utilized towards general corporate purposes will not exceed 15% of the aggregate of the gross proceeds or ₹ 1,000 Lakhs, whichever is less in accordance with the SEBI ICDR Regulations. In case of a shortfall in raising requisite capital from the Net Proceeds or an increase in the total estimated cost of the Objects, business considerations may require us to explore a range of options including utilizing our internal accruals and seeking debt lenders. In furtherance, that such alternate arrangements would be available to fund any such shortfalls.

MEANS OF FINANCE

The fund requirements for the Objects are proposed to be met from the Net Proceeds, financing from banks and our internal accrual. Accordingly, we are in compliance with the requirements prescribed under Paragraph 9(C)(1) of Part A of Schedule VI and Regulation 230 (1)(e) of the SEBI ICDR Regulations which require firm arrangements of finance to be made through verifiable means towards at least 75% of the stated means of finance, excluding the amount to be raised through the Offer and existing identifiable internal accruals. In case of a shortfall in the Net Proceeds or any increase in the actual utilisation of funds earmarked for the Objects, our Company may explore a range of options including utilizing our internal accruals.

DETAILS OF THE OBJECTS OF THE ISSUE

1. TO MEET THE WORKING CAPITAL REQUIREMENTS:

We are an integrated cloud-communications solutions providers Offering services via SMS, RCS, Voice, WhatsApp, Email

and other digital channels. We provide services to various enterprises and over-the-top (OTT) platforms through services such as transactional Short Message Service (SMS), WhatsApp, Voice, Interactive Voice Response (IVR), automated voice calls solution, E-mail and Digital Products. We cater to clients from various industries such as Telecom, Information Technology, Travel Tourism, Entertainment, Media, Advertising and Events, Retail, Real Estate, Healthcare & cosmetic, Banking, Financial Services & Insurance (BFSI), Automobile, E-commerce and Food & Beverages, enabling them to manage customer communication and streamline operations.

We require a substantial amount of working capital to sustain and expand its operations. The company intends to utilize ₹ 4,600.00 Lakhs from the IPO proceeds to finance its working capital needs. This investment will enable Dove Soft to manage day-to-day operational expenses, enhance its product Offering's, and strengthen relationships with telecom operators and vendors by negotiating better pricing and credit terms. Given the nature of its business—providing cloud communication solutions such as SMS, RCS, Voice, WhatsApp, Email and other digital channels. We provide services to various enterprises and over-the-top (OTT) platforms through services such as transactional Short Message Service (SMS), WhatsApp, Voice, Interactive Voice Response (IVR), automated voice calls solution, E-mail and Digital Products—the company operates on a prepaid or postpaid model. This means it must acquire bulk messaging, voice, and email services from telecom operators and vendors before selling them to clients. Currently, the company does not provide financial guarantees, leading to higher bulk purchase costs and shorter credit periods from telecom operators and vendors. To address this, the company aims to strengthen vendor and telecom operator tie-ups, which would allow it to negotiate better credit periods and reduce costs for bulk messaging and voice services. Achieving this requires sufficient liquidity and the ability to provide bank guarantees, making working capital funding essential.

While enterprise clients often have extended payment cycles, telecom vendors typically require upfront or short-term payments. All the initiatives are what the company proposes to do, leading to the need for higher working capital. By allocating a portion of its IPO proceeds to working capital, we aim to enhance its financial stability, sustain growth, and strengthen its market position.

Basis of estimation of working capital requirement

The details of our company's working capital as at March 31, 2026, 2025, and 2024 and the source of funding, on the basis of restated standalone financial statements of our Company, as certified by our Auditors, through their certificate dated March 16, 2026 are provided in the table below:

The increase in the proposed working capital requirement at the time of the IPO is primarily attributable to the Company's continued business expansion, shift in customer mix towards enterprise clients, and corresponding changes in billing and payment cycles. As the operational scale has grown, there has been a build-up in current assets particularly trade receivables resulting in an increased working capital gap.

Revenue from operations (standalone) increased from ₹ 9,801 Lakhs in FY 2023–24 to ₹ 15,659.96 Lakhs for FY 2024–25. And from 15,659.96 to 21,290.05 lakhs for FY 2025-26.This growth in top-line is also reflected in trade receivables, which rose from ₹ 5,353.80 Lakhs as on March 31, 2024 to ₹ 6,934.85 Lakhs as on March 31, 2025 and ₹ 10,099.39 Lakhs as on March 31. 2026The increase is primarily due to extended credit and flexible payment terms Offered to newly on-boarded enterprise clients under recurring usage-based arrangements. These terms are part of the Company's commercial on-boarding strategy and are common in the enterprise communication segment.

At the same time, trade payables increased only marginally from ₹ 3,407.18 Lakhs in FY 2023-24 to ₹ 2,155.62 Lakhs in

FY 2024-25 and ₹ 4,300.00 Lakhs in FY 2025-26. This is due to renegotiated arrangements with vendors and telecom operators, wherein the Company has opted for shorter payment cycles in exchange for more competitive pricing and assured service delivery. As a result, the mismatch between receivables and payables has widened the net working capital requirement.

Further, the Company is investing in new product rollouts (e.g., WhatsApp bots, RCS templates, voice automation tools), expanding into underpenetrated geographies, and strengthening its sales and technical teams all of which contribute to higher operational volume and, in turn, working capital needs. The proposed infusion of funds through the IPO is expected to support this increased working capital requirement, enabling the Company to maintain uninterrupted service delivery, meet enterprise client expectations, and sustain its growth trajectory.

On the basis of existing and estimated working capital requirement of our Company, and key assumptions for such working capital requirements, which are mentioned below, our Board pursuant to its resolution dated March 09, 2026, has approved the projected working capital requirements for financial years 2026, 2027 and 2028, and the proposed funding of such working capital requirements as set forth in the table below:

***Working capital requirements shall be fully deployed and utilised on or before September 30, 2027.*

Although company does not operate on a fixed work order model. It enters into recurring service agreements or master service arrangements with its clients, which remain valid until cancelled. Billing is based on actual usage volumes across communication channels such as SMS, WhatsApp, RCS, and voice.

The projected working capital requirement for FY 2027 and FY 2028 is based on existing client usage patterns, recurring volume-driven revenue model, historical growth trends, and expected increase in adoption of additional new services and broader regional presence are the key factors for the Company's growth assumptions for the forthcoming periods.

The Company is projecting an increase in working capital requirement for FY 2027 and FY 2028. Historically, the business has grown rapidly (e.g. revenue from operations (Standalone basis) rose from ₹ 5,317.42 Lakhs in FY 2022-23 to ₹ 9,801.45 Lakhs in FY 2023-24). This momentum continued into FY 2024-25 (with ₹ 15,659.96 Lakhs for March 31, 2025) and ₹ 21,290.05 lakhs for FY 2025-26), indicating strong growth. The high growth estimates for working capital projections are justified by several factors:

Current Market Demand and Industry Tailwinds:

The Company operates in the cloud-communications sector, which is experiencing robust growth due to digital transformation and increased enterprise adoption of digital communication. Globally, IT and cloud-communication services demand has been on a steady rise since 2021, providing a favourable environment for the Company's expansion. This industry upswing supports the Company's aggressive working capital requirement to fuel the company's growth trajectory for the coming years.

Strong Existing Client Base Expansion:

The Company has focused on deepening relationships with its existing enterprise clients to drive more business. The strategy

is to increase "wallet share" from these clients by cross-selling omni-channel digital communication solutions (SMS, Voice, WhatsApp, Email, etc.) as a one-stop provider. Management believes that providing an integrated, one-stop solution for all enterprise communication needs will increase client stickiness and yield higher revenues per client. In essence, a significant portion of the projected growth comes from higher realization from existing customers through upselling new services and handling a larger volume of their communication requirements.

New Client Acquisition and Market Expansion:

The Company is undertaking geographic expansion to drive future growth by targeting untapped regions within India. Currently, the southern and eastern parts of the country contribute only 1.51% of the total revenue. The Company aims to strengthen its operational presence in these regions by establishing local offices and enhancing on-ground execution capabilities. This domestic expansion is a strategic step towards improving regional market penetration.

The Company has taken steps to expand its operations and improve service delivery. These include the development and rollout of new communication solutions such as WhatsApp bots, RCS messaging, voice services, and other new Offerings.

The Company is also expanding into underpenetrated regions with the objective of increasing its customer base. Also the Company is focused on cross-selling new products to its existing clients to enhance per-client revenue contribution.

To support these activities, the Company is adding staff in sales, client services and software development its sales and software development. Company is also collaborating with large channel partners and telecom operators to improve service integration, commercial terms, and operational scalability. These will increase the scale of operations, expand service coverage, and widen the product range.

Percentage of trade receivables as percentage of Revenue from operations:

Particulars	For Fiscal Year 2026	For Fiscal Year 2025	For Fiscal Year 2024
Trade Receivables (₹ in Lakhs)	10,099.39	6,934.85	5,353.80
Revenue from Operations (₹ in Lakhs)	21,290.05	15,659.96	9,801.45
Trade Receivable as % of Revenue from Operation	47.43%	44.28%	54.62%

For the Fiscal Year 2026, the ratio stood at 47.43%, reflecting broadly in line with the corresponding ratio for Fiscal 2025, indicating that the receivables position remained consistent with the previous year and was primarily driven by the normal billing and collection cycle of the Company.For the Fiscal Year 2025, Trade Receivables as a percentage of Revenue from Operations stood at 44.28%, reflecting a significant improvement compared to the previous year. This reduction was primarily driven by the normalization of credit terms that were initially extended in FY 2024 to acquire and on-board large enterprise clients in the telecom, BFSI, e-commerce, retail, and food & beverage sectors. With client relationships maturing, the Company strengthened its collection practices and shortened credit cycles. In addition, improved operational efficiencies and timely invoicing enabled faster realization of receivables. As a result, despite higher revenue in FY 2025, the receivable levels remained well-controlled, indicating a healthy balance between growth and cash flow management.

For the Fiscal Year 2024, the Company increased its focus on acquiring enterprise clients in the telecom, BFSI, ecommerce, Retail and Food & Beverage sectors. To enter and grow in this segment, the Company extended longer credit periods to certain new clients. In some cases, initial credit terms were extended to support client acquisition. This shift in client profile and credit terms led to an increase in Trade Receivables as a percentage of Revenue from Operations, which stood at 54.62% for FY 2023–24. The rise in receivables was expected and reflects the Company's decision to prioritise growth in the enterprise segment. These terms are now being normalised as client relationships mature.

For the Fiscal Year 2023, the ratio increased slightly to 35.36%. This reflected moderate growth in business, along with a few larger contracts being added during the year. Revenue growth was steady, and credit terms were generally standard. Receivables increased in line with sales, and the collection cycle remained stable.

Post-IPO working capital infusion of ₹4,600 Lakhs is expected to provide liquidity support to sustain collections without disrupting vendor payment obligations. For the Fiscal Year 2027 and Fiscal year 2028, trade receivables are projected at ₹11,702.76 Lakhs and ₹15,745.03 Lakhs, respectively, with corresponding revenues of ₹28,104.99 Lakhs and ₹36,536.49 Lakhs. The receivables-to-revenue ratio is expected to remain stable at 41.64% and 43.09%, respectively. This reflects maturing enterprise client relationships where shorter credit cycles will be negotiated leading to slight reduction in receivable holding days.

Trade Payables as a % to revenue from operations:

Particulars	As at March 31, 2024	As at March 31, 2025	As at March 31, 2026	As at March 31, 2027	As at March 31, 2028

Trade Payables as % of Revenue from Operation	34.76%	13.77%	20.19%	12.19%	13.12%

For the Fiscal Year 2024, the Company significantly expanded its procurement of upstream communication services bulk SMS, voice, WhatsApp, and cloud infrastructure to service the large enterprise clients it was on-boarding in Telecom, BFSI, E-commerce, Retail, and Food & Beverage sectors. This procurement was routed primarily through channel partners who extended longer credit periods, allowing trade payables to accumulate to ₹3,407.18 Lakhs even as revenue grew to ₹9,801.45 Lakhs, reflecting the company's deliberate utilization of vendor credit as a working capital lever to fund its high-growth phase. The rise in trade payables was expected and mirrors the simultaneous build-up in trade receivables, as the company was extending credit to enterprise customers on one side while drawing credit from channel partners on the other. This channel partner-led procurement strategy resulted in the trade payable to revenue ratio rising to 34.76% for FY 2023-24.

For the Fiscal Year 2025, Trade Payables as a percentage of Revenue from Operations fell sharply to 13.77%, reflecting a significant compression compared to the previous year, even as revenue surged 59.8% to ₹15,659.96 Lakhs. Trade payables declined to ₹2,155.62 Lakhs. This reduction was primarily driven by a deliberate strategic shift in the Company's procurement model: transitioning from channel partner-based procurement toward direct procurement from telecom operators. Telecom operators, unlike channel partners, do not extend long credit periods without financial guarantees or collateral, thereby structurally shortening the credit cycle available on the payables side. Additionally, the Company renegotiated vendor arrangements, opting for shorter payment cycles in exchange for more competitive pricing and assured service delivery a conscious margin-improvement decision. As a result, despite higher revenue and higher operational volumes in FY 2025, the outstanding payable balance fell sharply, indicating healthy and proactive vendor payment management rather than any deterioration in the company's commercial relationships.

For the Fiscal Year 2026, Trade Payables stood at ₹4,300.00.61 Lakhs against projected revenue of ₹21,290.05 Lakhs, maintaining the ratio at 20.19%. Post-IPO working capital infusion of ₹4,600 Lakhs is expected to provide the liquidity needed to support direct telecom operator procurement including the ability to provide bank guarantees enabling the Company to access competitive bulk pricing while maintaining shorter, disciplined payment cycles.

For the Fiscal Year 2027 and Fiscal Year 2028, Trade Payables are projected at ₹3,425.00 Lakhs and ₹4,795.00 Lakhs respectively, with corresponding revenues of ₹28,104.99 Lakhs and ₹36,536.49 Lakhs. The payable-to-revenue ratio is expected to gradually decline from 20.50% to 12.19%. This reflects two converging dynamics: (a) the Company's transition majorly to direct telecom operator procurement, where shorter payment cycles of 30–60 days are structurally embedded, replacing the 90–108 day channel partner credit model; and (b) the progressive use of bank guarantees made possible by IPO proceeds to secure more favourable pricing from telecom operators without requiring extended credit periods. Revenue is projected to scale faster than payable build-up as the client base and operational efficiency both improve. The Company's stated intention is to leverage IPO working capital to resolve the receivable-payable mismatch that characterised the FY 2024–25 period, and the declining payable-to-revenue trajectory through FY 2027–2028 is a direct reflection of that strategy being executed.

Justifications

Particulars	Justification
Trade Receivables	Our Trade Receivables days for the period ended March31, 2026 and the financial years ended March 31, 2025, March 31, 2024, and March 31, 2023, were 146, 143, 135 and 101 days, respectively. This increase in trade receivables days over the years is attributed to our business expansion and increased dealings with enterprise clients, which generally have longer credit cycles. To remain competitive and support higher sales growth, we have provided extended credit terms to key customers, aligning with industry trends. For the upcoming financial years, we have projected Trade Receivables days to be 142 days in Fiscal 2027, and 137 days in Fiscal 2028.
Trade payables	Our Trade Payables days for the financial years ended March 31, 2026, and the financial years ended March 31, 2025, March 31, 2024 and March 31, 2023 were 66, 79, 108, and 82 days, respectively. The increase in trade payable days over the past financial years indicates improved negotiations with suppliers and telecom operators, allowing us to avail extended credit periods and optimize cash flow. However, at present, we are not providing financial guarantees, which results in higher bulk purchase costs and lower credit periods from vendors. Going forward, we have estimated trade payables days to be 62 days in Fiscal 2027 and 51 days in Fiscal 2028. The projected reduction in trade payable days is aligned with our strategy to secure competitive pricing and strengthen vendor relationships. By reducing payment cycles, we aim to negotiate more favorable terms with vendors, ensure reliable supply chain management, and increase overall profitability by leveraging cost efficiencies. The planned utilization of IPO proceeds for working capital will support this transition, allowing us to optimize our procurement strategy while maintaining financial stability. The trade payables projected for the upcoming financial years are not consistent with past levels due to a fundamental change in the Company's procurement strategy. Historically, the Company procured messaging and communication services primarily through channel partners who extended longer credit periods, which resulted in relatively higher trade payables on the balance sheet. However, with the objective of improving margins and achieving direct cost savings, the Company is now transitioning towards direct procurement from telecom operators. This change in sourcing model necessitates shorter credit cycles, as telecom operators generally do not Offer extended payment terms without financial guarantees or collateral. In many cases, such arrangements also require upfront deposits or bank guarantees. The Company is realigning its vendor payment terms accordingly to avail of preferential pricing and ensure service reliability.

2. GENERAL CORPORATE PURPOSES:

Our Company proposes to deploy the balance proceeds, aggregating to ₹ [●] Lakhs, towards general corporate purposes as approved by our management from time to time, subject to such utilisation not exceeding 15% of the aggregate of the gross proceeds or ₹ 1,000 Lakhs, whichever is less in accordance with the SEBI ICDR Regulations. The general corporate purposes for which our Company proposes to utilise net proceeds include, business development initiatives, meeting any expense including salaries, rent, administration costs, insurance premiums, repairs and maintenance, payment of taxes and duties, and similar other expenses incurred in the ordinary course of our business or towards any exigencies. The quantum of utilisation of funds towards each of the above purposes will be determined by our board, based on the amount actually available under this head and the business requirements of our Company, from time to time, subject to compliance with applicable law.

In addition to the above, our Company may utilise the net proceeds towards other purposes considered expedient and as approved periodically by our board, subject to compliance with necessary provisions of the Companies Act. Our Company's management shall have flexibility in utilising surplus amounts, if any. Our management will have the discretion to revise our business plan from time to time and consequently our funding requirement and deployment of funds may change. This may also include rescheduling the proposed utilization of net proceeds. Our management, in accordance with the policies of our Board, will have flexibility in utilizing the proceeds earmarked for general corporate purposes. In the event that we are unable to utilize the entire amount that we have currently estimated for use out of net proceeds in a financial year, we will utilize such unutilized amount in the subsequent financial years.

Several of these benefits are dependent on the Company or its shareholders or Material Subsidiary fulfilling the conditions prescribed under the Act. Hence, the ability of the Company or its shareholders to derive the special tax benefits is dependent upon fulfilling such conditions which, based on business imperatives which the Company may face in the future, the Company may or may not choose to fulfill.

The benefits discussed in the enclosed annexure cover only special tax benefits available to the Company and its shareholders and do not cover any general tax benefits available to the Company or its shareholders and/or the Material Subsidiary. This statement is only intended to provide general information to the investors and is neither designed nor intended to be a substitute for professional tax advice. A shareholder is advised to consult his/ her/ its own tax consultant with respect to the tax implications arising out of his/her/its participation in the proposed Offer, particularly in view of ever-changing tax laws in India.

Our views are based on the existing provisions of the Act and its interpretations, which are subject to change or modification by subsequent legislative, regulatory, administrative or judicial decisions. Any such change, which could also be retroactive, could have an effect on the validity of our views stated herein. We assume no obligation to update this statement on any events subsequent to its Offer, which may have a material effect on the discussions herein.

We do not express any opinion or provide any assurance as to whether:

i) the Company or its shareholders or the Material Subsidiary will continue to obtain these benefits in future; or
ii) the conditions prescribed for availing the benefits have been/would be met with.
iii) the revenue authorities/courts will concur with the views expressed herein.

The contents of the enclosed statement are based on information, explanations and representations obtained from the Company and on the basis of our understanding of the business activities and operations of the Company.

The benefits discussed in the enclosed statement are not exhaustive nor are they conclusive. The contents stated in the annexure are based on the information, explanations and representations obtained from the Company.

Annexure-A

ANNEXURE TO THE STATEMENT OF POSSIBLE SPECIAL TAX BENEFITS AVAILABLE TO THE COMPANY AND ITS SHAREHOLDERS

This Statement of possible special tax benefits available to the Company, its shareholders and the Material Subsidiary, is required as per Schedule VI (Part A)(9)(L) of the SEBI ICDR Regulations. While the term 'special tax benefits' has not been defined under the SEBI ICDR Regulations, for the purpose of this Statement, it is assumed that with respect to special tax benefits available to the Company, its shareholders and the Material Subsidiary, the same would include those benefits as enumerated in this Annexure. Any benefits under the taxation laws other than those specified in this Annexure are considered to be general tax benefits and therefore not covered within the ambit of this Statement. Further, any benefits available under any other laws within or outside India, except for those mentioned in this Annexure have not been reviewed and covered by this statement.

YOU SHOULD CONSULT YOUR OWN TAX ADVISORS CONCERNING THE INDIAN TAX IMPLICATIONS AND CONSEQUENCES OF PURCHASING, OWNING AND DISPOSING OF EQUITY SHARES IN YOUR PARTICULAR SITUATION.

I Special Direct tax benefits available to the Company under the Income tax Act, 2025 as amended by the Finance Act 2026

The statement of possible tax benefits enumerated below is as per the Income-tax Act 2025 as amended from time to time and as applicable for the Tax Year 2026-27.

1) Lower Corporate Tax rate under Section 200 of the Income-tax Act, 2025

Pursuant to enactment of Income Tax Act, 2025 with effect from April 1, 2026, section 115BAA of earlier Income Tax Act, 1961 has been replaced by Section 200 under Income Tax Act, 2025. Section 200 of the Act provides an option to a domestic company to pay corporate tax at a reduced rate of 22% (plus applicable surcharge of 10% and health & education cess of 4% on tax and surcharge) with effective tax rate of 25.168%. In case the Company opts for concessional income tax rate as prescribed under section 200 of the Act, it will no longer be eligible to avail following exemptions /incentives under the Act and will also need to comply with the other conditions specified in Section 200. Further, the total income of the Company shall be computed without claiming certain specified deductions and specified brought forward losses and depreciation determined in the prescribed manner as per provision of the section 200 of the Act.

- In case a Company opts for Section 200, provisions of Minimum Alternate Tax (MAT) under section 206 of the Act would not be applicable from the year of adoption and earlier years MAT credit if any would lapse if the company exercise section 200 before TY 2026-27. i.e., it could not be allowed to set-off in current or any further years.
- The option needs to be exercised for the year under consideration on or before the due date specified under section 263(1) for furnishing the income tax return of that year. Option once exercised, cannot be subsequently withdrawn for the same or any other subsequent tax year.
- The Company has represented to us that they have opted for a tax regime under section 200 of the Income Tax Act, 2025 (erstwhile 115BAA of the Income Tax Act, 1961 for AY 2020-2021 and onwards for which declaration in specified form (i.e., Form 10-IC has been filed under the Income-tax Act, 1961).

2) Deduction in respect of additional employee cost under Section 146 of the Income-tax Act, 2025

Section 146 states that where the gross total income of an assessee to whom section 63 applies, includes any profits and gains derived from business, there shall, subject to the conditions specified in sub-section (2) and (3), be allowed a deduction of an amount equal to thirty per cent of additional employee cost incurred in the course of such business in the tax year.

- The deduction referred above shall be allowed for three consecutive tax years beginning from the tax year in which such employment is provided subject to condition prescribed in sub section (3).
- Additional employee cost means the total emoluments paid or payable to additional employees employed during the tax year or the emoluments paid or payable to employees employed during the tax year. The deduction under section 146 would continue to be available to the Company even where the Company opts for the lower effective tax rate of 25.168% as per the provisions of section 200 of the Act (as discussed above).
- The Company should be eligible to claim this deduction and should have in case incurred additional employee cost within the meaning of sub-section (5) of section 146 of the Act and satisfies the conditions as mentioned in the said section.

3) Deduction in respect of inter-corporate dividends under Section 148 of the Income-tax Act, 2025

Section 148 provides for deduction from gross total income of a domestic company, of an amount equal to dividends received by such company from another domestic company or a foreign company or a business trust as does not exceed the amount of dividend distributed by it on or before one month prior to the date of filing its tax return as prescribed under Section 263(1) of the Act.

- Where any deduction, in respect of the amount of dividend distributed by the domestic company, has been allowed as mentioned above in any tax year, no deduction shall be allowed in respect of such amount in any other tax year.

II Possible Special Direct tax benefits available to the shareholders of the Company under the Income-tax Act, 2025

There is no special direct tax benefit available to the shareholders of Company for investing in the shares of the Company. However, such shareholders shall be liable to concessional tax rates on certain incomes under the extant provisions of the ITA. Further, it may be noted that these are general tax benefits available to equity shareholders, other shareholders holding any other type of instrument are not covered below.

i. Dividend Income

Dividend income earned will be subject to tax in the hands of domestic shareholders at the applicable slab rate / corporate tax rate (plus applicable surcharge and cess). In the case of non-resident shareholders tax will be applicable at 20% (plus applicable surcharge and cess) or as per the applicable Double Tax Avoidance Agreements (DTAA) subject to certain conditions.

Separately, any dividend income received by the resident shareholders would be subject to tax deduction at source by the Company under section 393(1) (Table: Sl No. 7) @ 10%. However, in case of individual resident shareholders, this would apply only if dividend income exceeds Rs 10,000. In case of non-resident shareholders, dividend income would be subject to tax deduction at source by the Company under section 393(2) read with Section 207 @ 20% plus applicable surcharge and cess, subject to applicability of beneficial provisions of Double Taxation Avoidance Agreement.

Dividend received by a domestic Company from any other domestic Company or a foreign Company or a business trust shall be eligible for deduction of dividend income under section 148 of the Act while computing its total income for the relevant tax year subject to the fulfilment of prescribed conditions. 204.

The amount of such deduction would be restricted to the amount of dividend distributed by the shareholder (domestic Company) up to 1 month prior to the due date for furnishing the return of income under section 263(1) of the Act.

With effect from April 1, 2026, consideration received by shareholders on buy-back of shares shall be taxable as capital gains in accordance with the provisions of the Income-tax Act, 2025. The cost of acquisition of the shares shall be allowed as a deduction while computing the capital gains or loss arising from the buy-back transaction.

ii. Tax on Capital gains on sale of listed equity shares in an Indian company

As per section 2(67) read with section 2(101) of the Act, a listed equity share is treated as a long-term capital asset if the same is held for more than 12 months immediately preceding the date of its transfer.

- Long term capital gains exceeding Rs.1,25,000 on transfer on such shares on which Securities Transactions Tax has been paid will be subject to tax in the hands of shareholders as per the provisions of Section 198 of the Act at 12.5% (plus applicable surcharge and cess). The benefit of indexation of costs shall not be available.
- Short term capital gains arising on transfer of shares on which Securities Transactions Tax has been paid will be subject to tax in the hands of shareholders as per the provisions of Section 196 of the Act at 20% (plus applicable surcharge and cess).
- As per section 210 read with section 198 of the Act, long-term capital gains arising, to a non-resident specified fund or a non-resident Foreign Institutional Investor, from transfer of a listed equity share, shall be taxed at 12.5% on transfer of such securities exceeding INR 1,25,000, subject to fulfilment of prescribed conditions under the Act.
- As per section 210 read with section 196 of the Act, short term capital gains arising, to a non-resident specified fund or a non-resident a Foreign Institutional Investor, from transfer of a listed equity share shall be taxed at 20%; subject to fulfilment of prescribed conditions under the Act.
- In case of non-resident shareholders including foreign portfolio investors the tax rates and the consequent taxation shall be subject to benefits available under the applicable Double Taxation Avoidance Agreement, to the extent they are more beneficial and subject to provision of the prescribed documents.
- Non-resident buyers should independently evaluate their obligations to withhold tax on transaction involving sale of shares by the shareholders of the company in light of the provisions of section 393(2) and other provisions of the IT Act.

iii. Buy back tax on capital gains earned by shareholders

- The Finance Act 2026 states that the consideration received by a shareholder on the buy-back of shares will now be chargeable to tax under the head 'Capital Gains' instead of being treated as 'deemed dividend income'. Thus, effectively, the taxation on buyback for non-promoter shareholders has been reduced to 12.5% for long term capital gains (on listed and unlisted shares) and 20% for short-term capital gains on listed shares. Earlier, the entire buyback amount was taxable as deemed dividend income as per normal tax rates applicable to the shareholders.
- However, for promoters, an 'additional income tax' shall be applicable on the capital gains arising from proceeds received from buy-back of shares undertaken in accordance with Section 68 of the Companies Act, 2013 as follows:

Sr. No.	Nature of income	Additional income tax rate where promoter is a domestic company	Additional income tax rate for any other promoter
1	Short-Term Capital Gains u/s 196 arising from the transfer of such securities	2%	10%
2	Long-Term Capital Gains u/s 197 or 198 arising from the transfer of such securities	9.5%	17.5%

III BENEFITS TO THE COMPANY AND MATERIAL SUBSIDIARY UNDER THE INDIRECT TAX LAWS

I **Special tax benefits available to the Company**

- The Company has obtained registration under the GST law in Maharashtra. The Company undertakes export of services. Under the GST regime, supplies of services which are exported outside India are treated as zero-rated supplies. Such zero-rated supplies of goods are allowed to be made under either of the following options:

    - Without payment of Integrated Goods and Services Tax ("IGST") under Bond/ Letter of Undertaking (LUT). Under this scenario, the exporter is allowed to claim refund of unutilized input tax credit.

    - With payment of IGST. Under this scenario, the exporter is allowed to claim refund of IGST paid on exports

The Company is undertaking export of goods without payment of integrated tax under LUT. However, no refund is applied since the Company is able to utilise input tax credit for payment of domestic output tax liability.

II **Special tax benefits available to the Shareholders**

The shareholders of the Company are not entitled to any special tax benefits under indirect tax laws.

Notes:

1. *We have not considered the general tax benefits available to the Company, or shareholders of the Company.*

2. *The above is as per the Tax Laws as on date.*

3. *The above Statement of possible special tax benefits sets out the provisions of Tax Laws in a summary manner only and is not a complete analysis or listing of all the existing and potential tax consequences of the purchase, ownership and disposal of Equity Shares.*

4. *This Statement does not discuss any tax consequences in any country outside India of an investment in the Equity Shares. The subscribers of the Equity Shares in the country other than India are urged to consult their own professional advisers regarding possible income –tax consequences that apply to them.*

5. *No assurance is given that the revenue authorities/courts will concur with the views expressed herein. Our views are based on the existing provisions of law and its interpretation, which are subject to changes from time to time. We do not assume responsibility to update the views consequent to such changes. We do not assume responsibility to update the views consequent to such changes. We shall not be liable to any claims, liabilities or expenses relating to this assignment except to the extent of fees relating to this assignment, as finally judicially determined to have resulted primarily from bad faith or intentional misconduct. We will not be liable to any other person in respect of this statement.*

1. GLOBAL ECONOMIC OUTLOOK:

1.1 Global GDP Growth Scenario

As per the IMF's World Economic Outlook (WEO) Update published in July 2026, global growth is projected to slow to 3.0% in CY 2026, down from an average of 3.5% in CY 2024–25, before recovering to 3.4% in CY 2027. This is broadly unchanged on a cumulative basis compared with the April 2026 WEO, though it conceals sharp divergence across countries. The moderation reflects the negative supply shock from the conflict in the Middle East and associated disruptions to energy flows through the Strait of Hormuz, which is being partly offset by an accelerating global technology cycle driven by artificial intelligence (AI)-related investment and adoption. Economies well integrated into the AI/technology value chain—including Taiwan, Korea, Thailand and Malaysia—have significantly outperformed expectations, while energy-importing economies with limited exposure to the technology upturn, including many low-income countries, continue to face a more pronounced drag.

Global headline inflation is projected to rise from 4.1% in CY 2025 to 4.7% in CY 2026, before easing to 3.9% in CY 2027, marking a stalling of the disinflation trend that had been in place since early 2024. The upward revision (0.3 percentage point higher than the April 2026 WEO for 2026) reflects higher energy and food prices, with crude oil prices projected to rise by approximately 32% and natural gas prices by about 22% in 2026 relative to 2025. World trade volume growth is projected to slow sharply from 5.0% in 2025 to 3.5% in 2026, before recovering to 4.3% in 2027, reflecting tariff-related drag and the gradual adjustment of global trade and production linkages.

In China, growth is projected to slow to 4.6% in CY 2026 (down from 5.0% in CY 2025) and further to 4.1% in CY 2027, as elevated global oil prices, structural headwinds and continued property sector weakness weigh on activity, notwithstanding stronger-than-expected exports and high-tech manufacturing. In the Euro Area, growth is projected to slow to 0.9% in CY 2026 before improving to 1.2% in CY 2027, reflecting the drag from higher energy prices, a sizable negative carryover from the first quarter, and weak consumer confidence; Germany's growth is projected at 0.7% in CY 2026, improving to 1.0% in CY 2027, supported by net exports and fiscal measures.

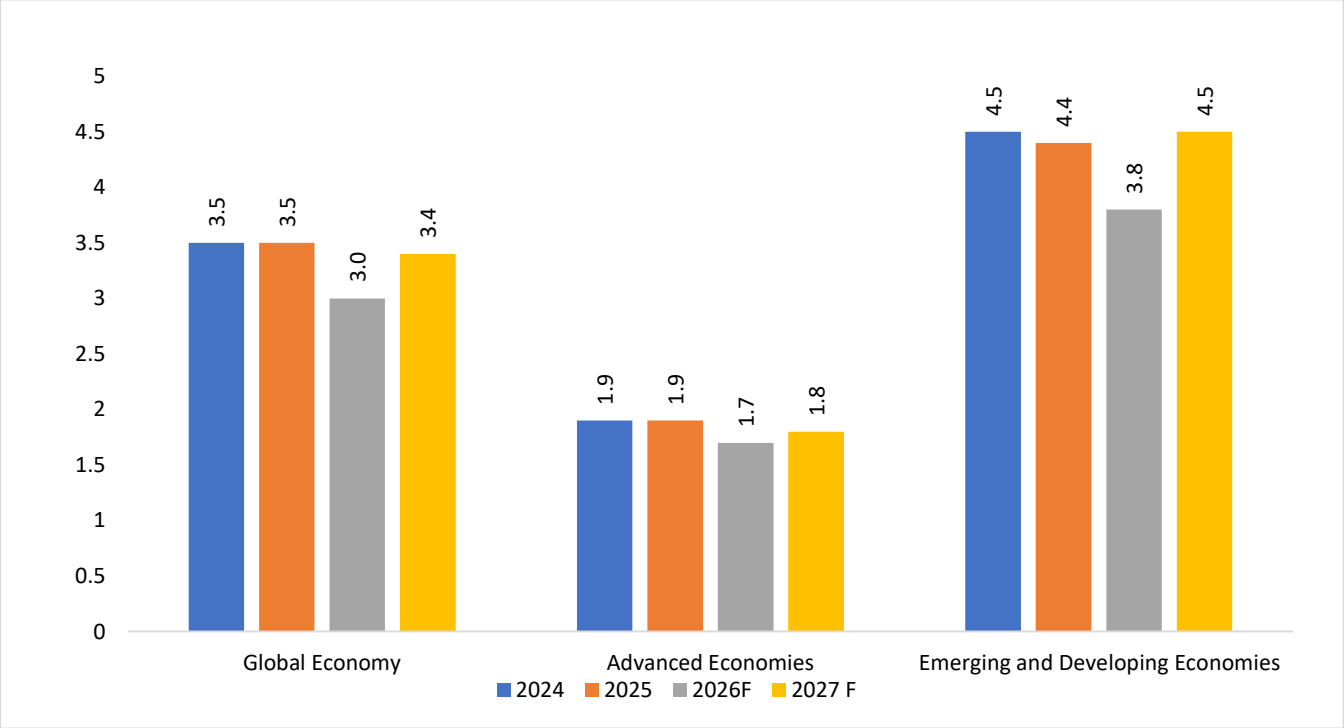

Meanwhile, India is expected to remain among the fastest-growing major economies despite an increasingly uncertain global environment. According to the IMF, India's real GDP growth is projected at 6.4% in FY2026–27 and 6.7% in FY2027–28, supported by resilient private consumption, robust services activity and domestic demand. On a calendar-year basis, the IMF projects India's economy to expand by 7.0% in 2026 and 6.4% in 2027. Consumer price

inflation is expected to remain broadly contained, supporting macroeconomic stability even as global inflationary pressures persist.

Overall, while global growth in CY 2025 remained resilient, the outlook for CY 2026 reflects a genuine crosscurrent—a war-driven supply shock pulling growth down, countered by an AI/technology-led investment boom pushing growth up in select economies. Risks to the outlook remain tilted to the downside, with renewed Middle East conflict, trade fragmentation, and a potential correction in AI-driven valuations as the key threats, while a swifter energy-market normalisation and stronger technology investment present the main upside. India's relative macroeconomic stability, resilient domestic demand, and

continued investment momentum position it favourably amid these global crosscurrents.

1.2 Historical GDP Growth Trends

Note: Advanced Economies and Emerging & Developing Economies are as per the classification of the World Economic Outlook (WEO). This classification is not based on strict criteria, economic or otherwise, and it has evolved over time. It comprises of 40 countries under the Advanced Economies including the G7 (the United States, Japan, Germany, France, Italy, the United Kingdom, and Canada) and selected countries from the Euro Zone (Germany, Italy, France etc.). The group of emerging market and developing economies (156) includes all those that are not classified as Advanced Economies (India, China, Brazil, Malaysia etc.).

F – Forecast, Source – IMF World Economic Outlook July 2026

In CY 2024, global growth remained resilient at 3.5%, supported by easing inflation and improved supply chain conditions. Advanced economies expanded by 1.9%, while emerging and developing economies recorded stronger growth of 4.5%, reflecting continued resilience across developing markets.

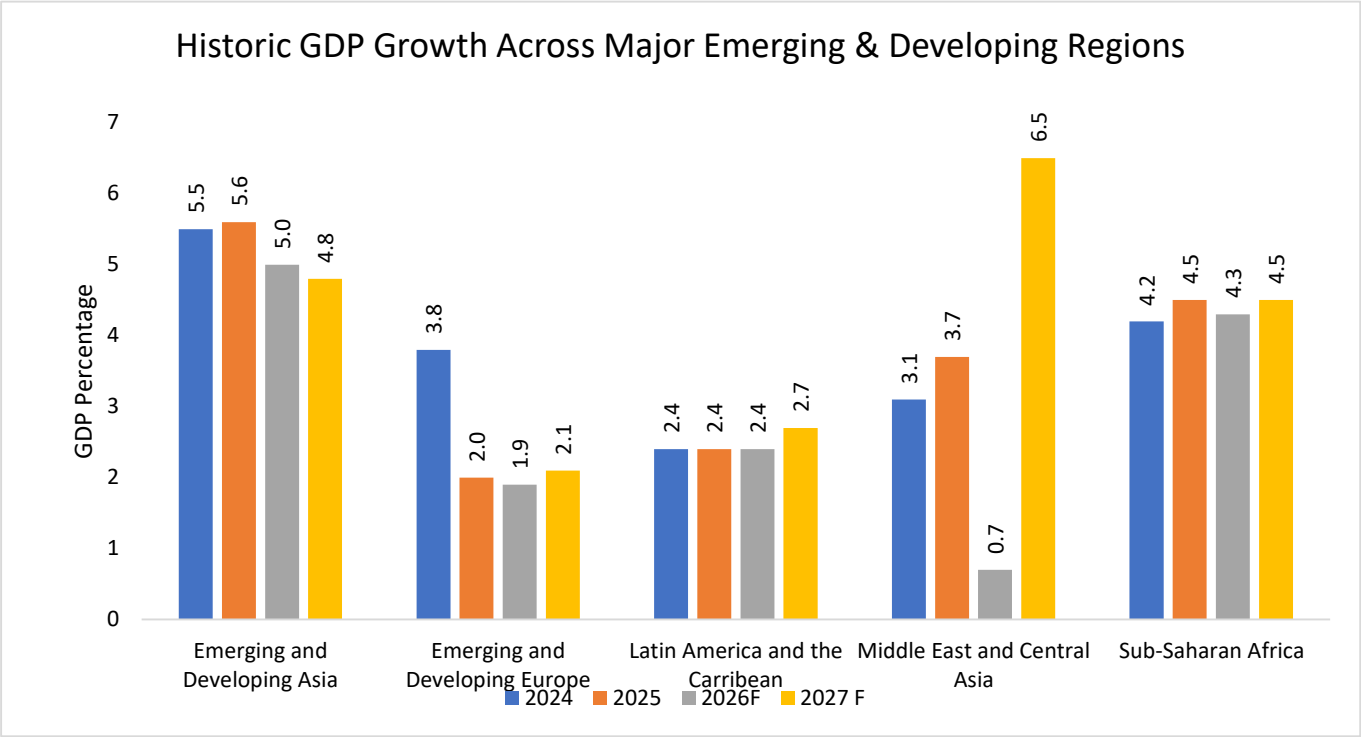

In CY 2025, global GDP growth remained stable at 3.5%, despite ongoing geopolitical tensions and structural challenges. Advanced economies maintained growth at 1.9%, while emerging and developing economies continued to outperform with growth of 4.5%.

Global growth is projected to moderate to 3.0% in CY 2026, reflecting the impact of higher energy prices, geopolitical tensions, and trade-related headwinds. Advanced economies are expected to grow at 1.7%, while emerging and developing economies are projected to expand by 3.8%.

Growth is expected to recover to 3.4% in CY 2027, supported by improving global trade conditions and continued investment momentum. Advanced economies are forecast to grow at 1.8%, while emerging and developing economies are projected to expand by 4.5%, highlighting their continued resilience relative to advanced economies.

1.3 GDP Growth across Major Regions

GDP growth across major global regions - including Europe, Latin America & the Caribbean, Middle East & Central Asia, and Sub-Saharan Africa continues to display varied trajectories. While some regions are stabilizing post-pandemic, others remain challenged by structural and cyclical issues. The global outlook presents a mixed scenario, with emerging economies continuing to outperform advanced economies.

Source-IMF World Economic Outlook January 2026 update

In Emerging and Developing Asia, growth stood at 5.5% in CY 2024 and increased to 5.6% in CY 2025. Growth is projected to moderate to 5.0% in CY 2026 and further to 4.8% in CY 2027. The moderation reflects weaker external demand, trade-related uncertainty, and spillovers from slower growth in China, partly offset by resilience in domestic demand across major economies, with India continuing to act as a key growth driver.

Emerging and Developing Europe recorded growth of 3.8% in CY 2024, moderating to 2.0% in CY 2025 and 1.9% in CY 2026, before improving to 2.1% in CY 2027. The region continues to face structural manufacturing weakness, geopolitical spillovers and subdued external demand, although gradual stabilization in trade and domestic demand is expected to support recovery.

For Latin America and the Caribbean, growth stood at 2.4% in CY 2024 and remained unchanged at 2.4% in CY 2025 and CY 2026, before improving to 2.7% in CY 2027. The modest outlook reflects weak productivity trends, fiscal constraints, and subdued external demand, partially supported by improving macroeconomic stability and policy credibility.

In the Middle East and Central Asia, growth stood at 3.1% in CY 2024 and improved to 3.7% in CY 2025, before declining sharply to 0.7% in CY 2026 and rebounding to 6.5% in CY 2027. This volatility reflects geopolitical disruptions, particularly conflicts affecting energy markets, alongside fluctuations in commodity prices and regional uncertainty.

Sub-Saharan Africa recorded growth of 4.2% in CY 2024, improving to 4.5% in CY 2025. Growth is projected to moderate slightly to 4.3% in CY 2026 before improving to 4.5% in CY 2027. Growth is supported by improving domestic demand and supply conditions, although structural constraints, high debt levels and commodity price volatility continue to pose risks.

Overall, while regional growth trajectories remain uneven, emerging and developing economies are expected to continue outperforming advanced economies, supported by relatively stronger domestic demand and favourable demographics. However, disparities persist due to structural challenges, geopolitical tensions, and commodity market volatility.

1.4 Global Economic Outlook

At the current juncture in CY 2026, the global economy continues to exhibit mixed performance, with divergence in outcomes across regions driven by differences in growth dynamics, inflation trends, geopolitical exposure, and policy responses. While the global economy had shown resilience through technology-led investment, accommodative financial conditions, and reduced tariff pressures, the broader outlook has weakened due to the outbreak of conflict in the Middle East, disruptions in energy markets, and elevated geopolitical risks. Structural headwinds, including tighter financial conditions, geoeconomic fragmentation, and subdued productivity growth, continue to keep global growth below historical averages.

The United States continues to demonstrate relative resilience among advanced economies, though growth is moderating as the economy absorbs the lagged effects of prior policy tightening and softer labour market conditions. Across advanced economies, growth is projected at 1.7% in CY 2026, constrained by weak industrial activity, lower productivity growth, and cautious business

investment. In Europe, growth conditions remain subdued, with persistent manufacturing weakness, energy-related uncertainties, and weak external demand weighing on activity, although gradual monetary easing and fiscal support may provide some stabilization.

In China, growth prospects remain constrained by continued property sector stress, weak domestic demand, and changing trade dynamics, although export-oriented sectors and technology-linked investment continue to provide support. In contrast, India remains among the strongest-performing major economies, with GDP growth projected at 7.0% (calendar year basis) in CY 2026, supported by resilient domestic demand, sustained infrastructure investment, digitalisation, and structural reforms. Broader Emerging and Developing Asia continues to outperform other regions, although growth is moderating amid weaker global trade momentum.

In Latin America and the Caribbean, growth remains modest amid fiscal constraints, weak productivity trends, and subdued external demand, although improving macroeconomic management in some economies provides support. Sub-Saharan Africa is expected to see gradual strengthening supported by improving supply conditions and domestic demand recovery, while the Middle East and Central Asia face a more volatile outlook due to direct spillovers from conflict-related disruptions and uncertainty in commodity markets. The impact of energy supply risks, including disruptions related to the Strait of Hormuz, has increased downside risks for commodity-importing economies and vulnerable emerging markets.

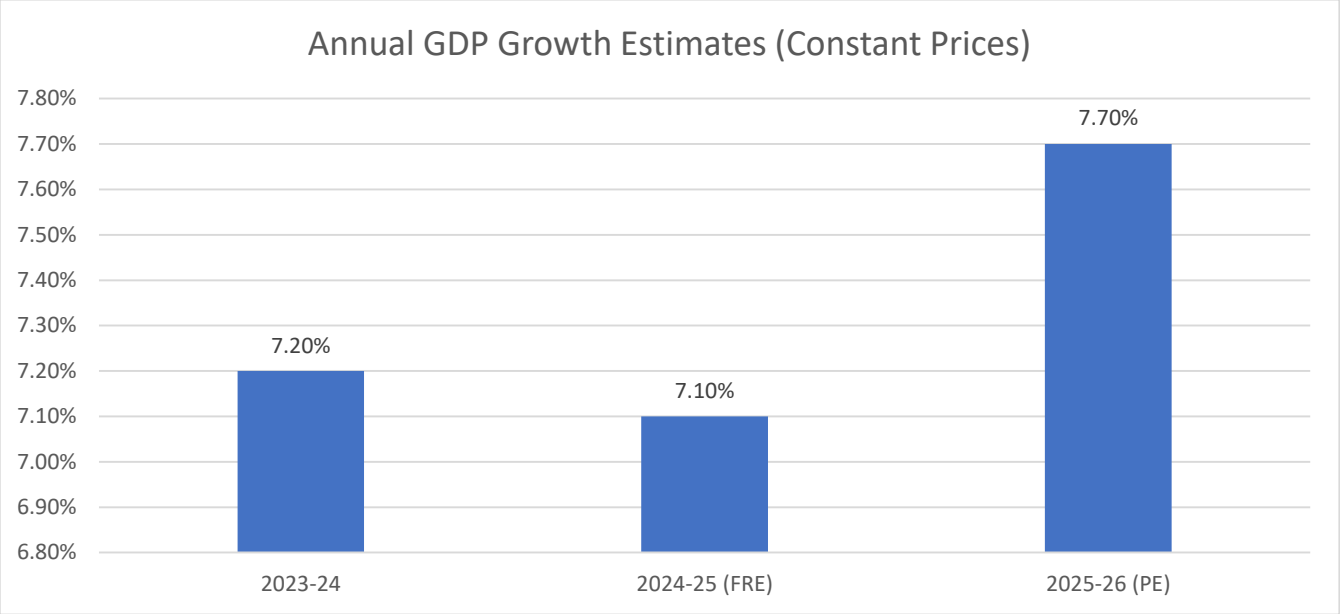

Globally, inflation dynamics have become more challenging. Global headline inflation is projected to rise to 4.7% in CY 2026 from 4.1% in CY 2025, reflecting the inflationary effects of higher energy prices, supply-side disruptions, and second-round pressures. Central banks are therefore expected to remain vigilant, with policy responses remaining cautious and data dependent. While monetary easing had been expected to support demand, renewed inflation risks may delay or moderate the pace of policy normalization in several economies.

Looking ahead, the medium-term outlook remains one of slower but stable growth, with global GDP projected at 3.4% in CY 2027, following a moderation to 3.0% in CY 2026, below the long-term historical average. Advanced economies are expected to remain on a structurally lower growth path, while emerging and developing economies continue to provide the primary engine of global growth. Future prospects will depend significantly on the evolution of geopolitical tensions, the normalization of energy markets, progress in restoring trade stability, and the extent to which productivity gains from technological innovation, including artificial intelligence, translate into broader economic growth. The IMF also highlights that structural reforms, multilateral coordination, and strengthened macroeconomic resilience will be critical to sustaining growth momentum over the medium term. Overall, while the global economy remains resilient, the outlook has become more fragile amid elevated downside risks. Growth in CY 2026 and beyond is expected to remain below historical averages, shaped by geopolitical uncertainty, tighter financial conditions, and structural constraints, although emerging economies—particularly India and broader Asia—continue to provide relative support to global growth.

2. INDIA'S MACROECONOMIC SCENARIO

2.1 Gross Domestic Product (GDP)

According to the latest Provisional Estimates by MOSPI, GOI (05 June 26), Real GDP has been estimated to grow by 7.7% in FY 2025-26. Nominal GDP has witnessed a growth of 8.9%. Real GDP or GDP at Constant Prices is estimated to attain a level of INR 323.12 lakh crore in the FY 2025-26, against the First Revised Estimate (FRE) of GDP for the year 2024-25 of INR 299.89 lakh crore.

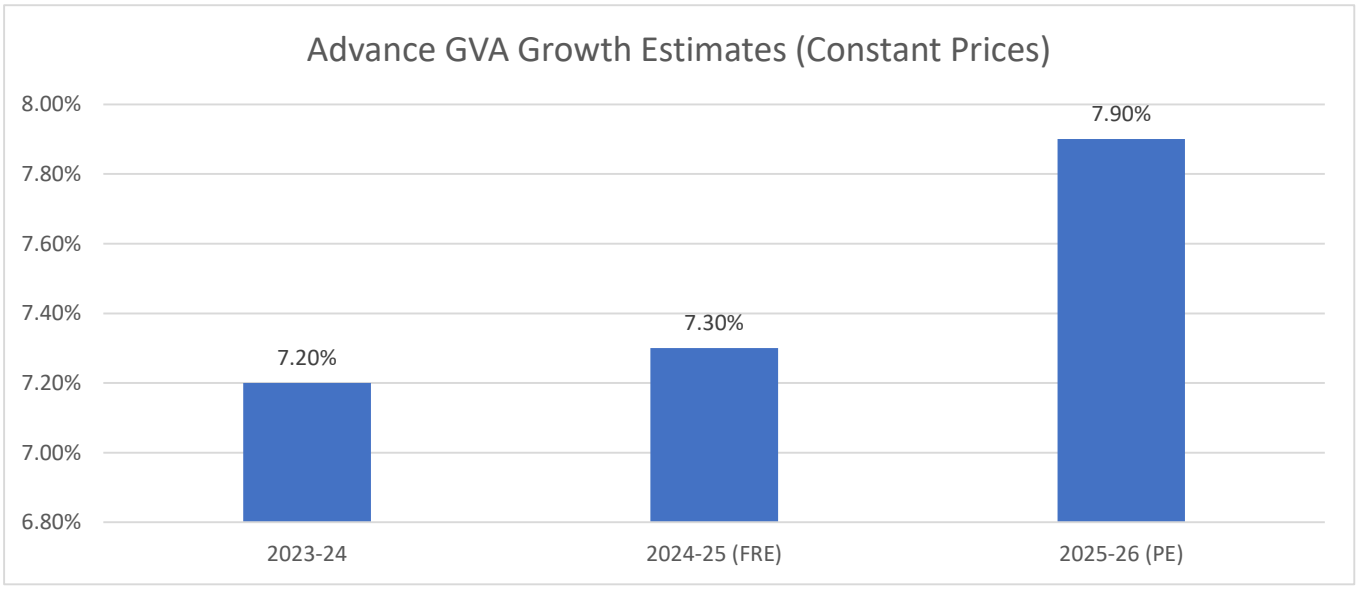

Note: FRE - First Revised Estimates; PE – Provisional Estimate
Source: New Series of Gross Domestic Product (GDP) Estimates with Base Year 2022-23 by MOSPI, PIB Press Release date 05 June 2026).

According to the International Monetary Fund (IMF) World Economic Outlook Database (April 2026), India is estimated to be the sixth-largest economy in the world in 2026, with a Gross Domestic Product (GDP) of approximately USD 4.15 trillion at current prices. India's ranking reflects the latest national accounts data, including the revised GDP series released by the Government of India, which changed the base year from FY 2011-12 to FY 2022-23. India's position in the global ranking is influenced by the revised GDP estimates and the depreciation of the Indian Rupee against the U.S. Dollar.

The economies ranked ahead of India are the United States (USD 32.38 trillion), China (USD 20.85 trillion), Germany (USD 5.45 trillion), Japan (USD 4.38 trillion), and the United Kingdom (USD 4.26 trillion).

2.2 Gross Value Added (GVA)

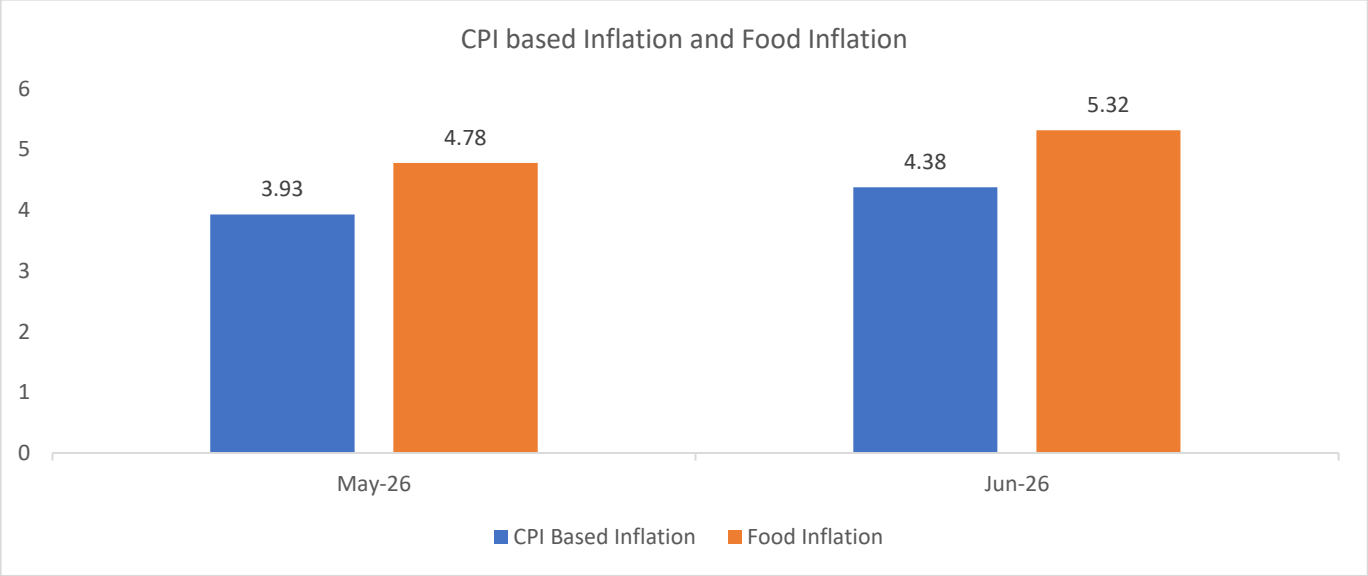

According to the Provisional Estimate of GDP for 2025-26 by MOSPI, Govt. of India (GoI), Real GVA is estimated at INR 294.91 lakh crore in the year 2025-26, against INR 273.36 lakh crore in FY 2024-25, registering a growth rate of 7.9% as compared to 7.3% growth rate in 2024-25. Nominal GVA is estimated to attain a level of INR 314.87 lakh crore during FY 2025-26, against INR 288.54 lakh crore in 2024-25, showing a growth rate of 9.1%.

2.3 Consumer Price Index (CPI)

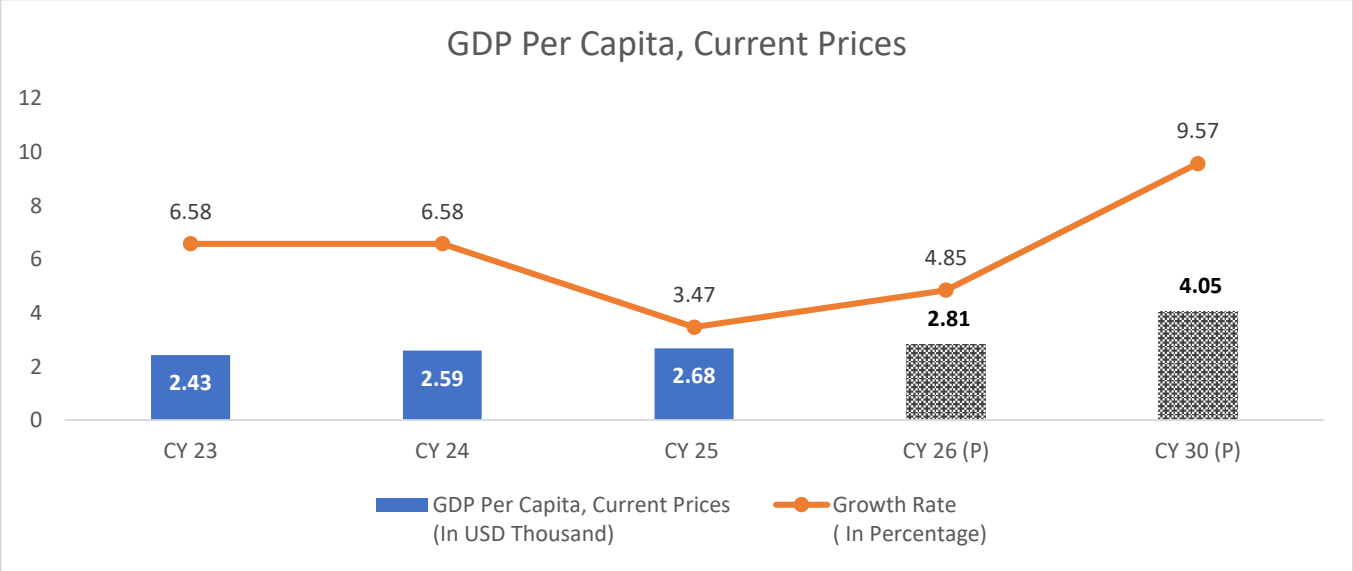

Year-on-year inflation rate based on All India Consumer Price Index (CPI) with base year 2024 for the month of June 2026 over June, 2025 is 4.38%(Provisional). Corresponding inflation rates for rural and urban are 4.74% and 3.92%, respectively.

2.4 India Per Capita GDP Forecast

Per capita GDP growth for India is estimated at 9.57 % CAGR between FY 2026-FY 2030. Increased individual incomes are expected to create additional discretionary spending, which may be beneficial for the sector.

2.5 Private Final Consumption Expenditure (PFCE)

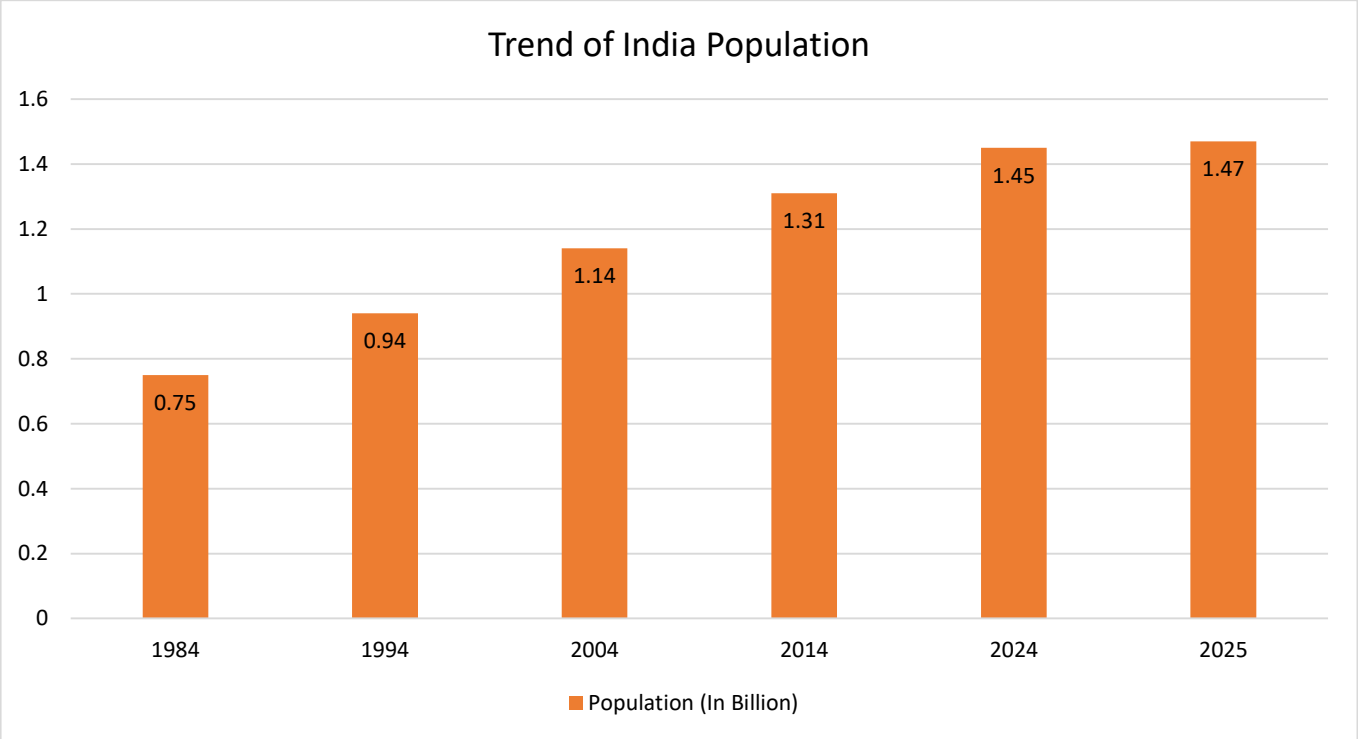

Private Final Consumption Expenditure (PFCE) represents the total spending by resident households on final consumption of goods and services, serving as a key indicator of consumer demand and overall economic well-being. It reflects the extent of household consumption and plays a crucial role in driving GDP growth. PFCE, at constant prices, accounted for 55.7% of GDP in FY2026 (same as FY2025). This marks a gradual moderation from 56.4% in FY2024 and 57.1% in FY2023, indicating a relative shift in the composition of economic growth. The decline is primarily attributable to higher changes in stocks (inventory build-up), which increased the share of investment components in GDP, even as household consumption continues to remain a key driver of the economy.

2.6 Overview on Key Demographic Parameters

2.6.1 Population growth

India's economic trajectory and consumption dynamics are closely tied to its demographic shifts. India's population expanded from approximately 0.75 billion in 1984 to 1.45 billion in 2024 and is further reached around 1.47 billion in 2025, consolidating its position as the world's most populous nation. This sustained growth underlines the emergence of a vast labour force and consumer base, which is essential for driving long-term economic growth, supporting rising consumption demand and strengthening the country's overall economic potential.

Source: World Bank Database. Population Data 2025 - Worldometer, Infomerics Analytics & Research

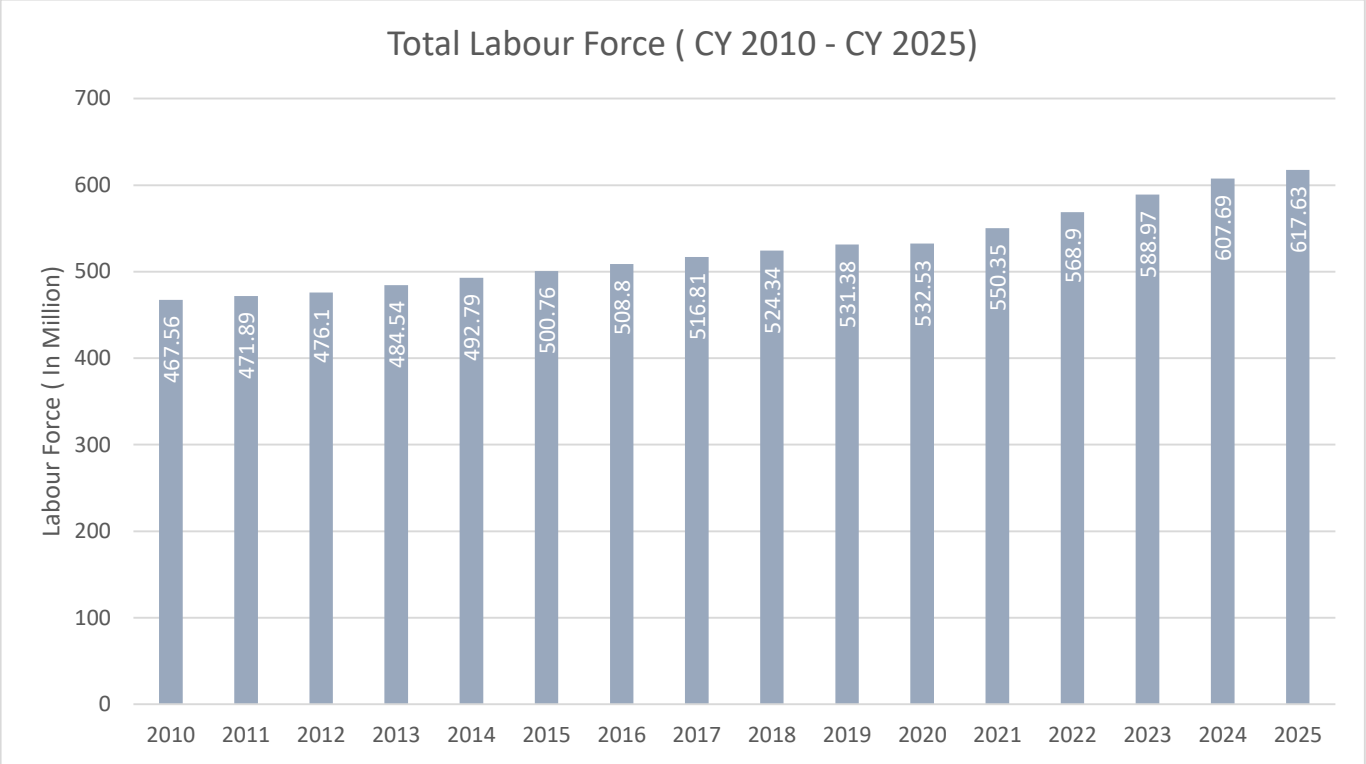

2.6.2 Labour Force in India

India's labour force has experienced steady growth over the past decade. In 2010, the total labour force was approximately 467.56 million. By 2025, this number had increased to 617.63 million.

This upward trend underscores the expanding working-age population, improving labour force participation and gradual recovery in employment post the pandemic period. The sharp increase observed after 2020 highlights the rebound in economic activity and rising workforce engagement across sectors. However, it also emphasizes the need for sustained job creation to effectively absorb the growing labour pool.

The labour force participation rate (LFPR) has also witnessed variations over time due to changing socio-economic conditions, including urbanization, education levels and sectoral employment shifts.

These trends highlight the importance of implementing policies that not only generate employment opportunities but also improve job quality, productivity and inclusivity across key sectors of the economy.

2.6.3 Labour Laws in India

Labour is a subject under the Concurrent List of the Indian Constitution, enabling both the Central and State Governments to frame relevant legislation. In a major reform initiative, the Government of India has consolidated 29 existing central labour laws into four comprehensive Labour Codes to simplify compliance, reduce multiplicity of definitions, and promote transparency.

These include:

- The Code on Wages, 2019
- The Industrial Relations Code, 2020
- The Code on Social Security, 2020
- The Occupational Safety, Health and Working Conditions Code, 2020

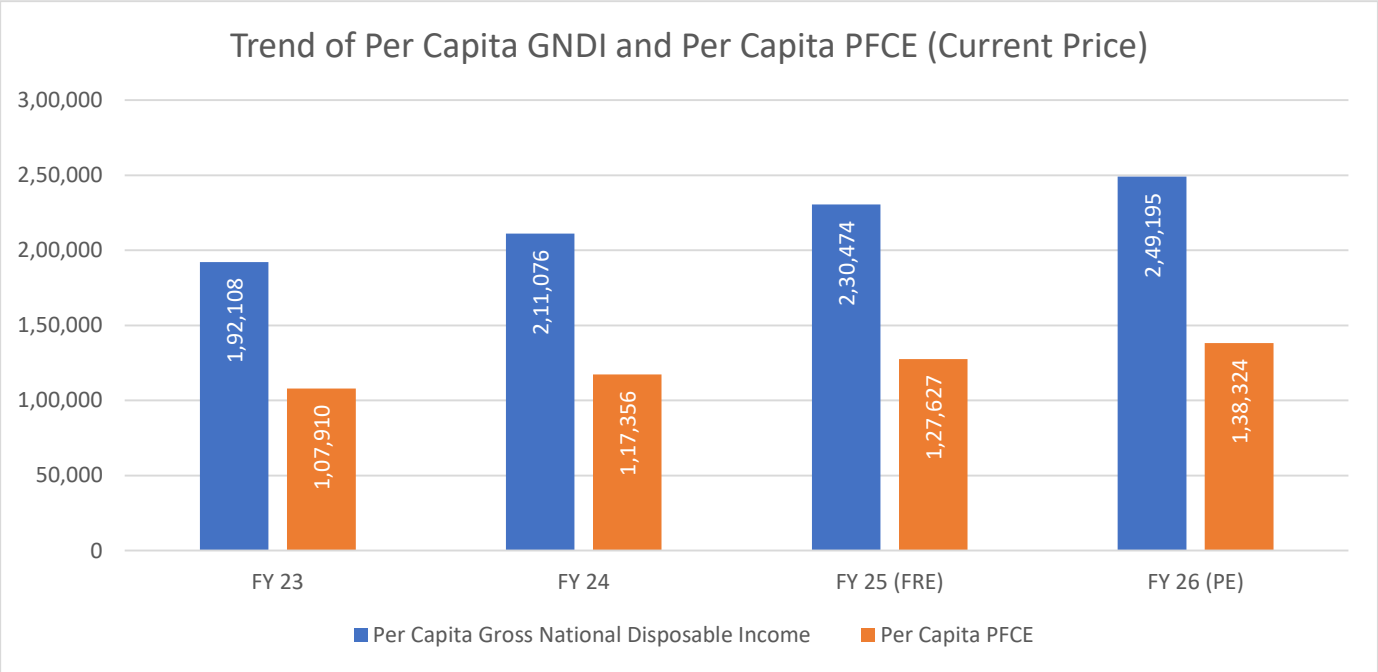

As of 31st December 2024, the Central Government and most States/Union Territories had pre-published draft rules under all four Labour Codes. Regional consultations were held to align state-level rules with the central framework. Once fully implemented, these Codes are expected to harmonize the needs of workers and industry, facilitate ease of doing business, and support employment generation.

Additionally, the Ministry of Labour & Employment is revamping the Shram Suvidha Portal to improve regulatory compliance and has launched the e-Shram Portal to register workers from the unorganised sector. Over 30 crore registrations have been completed, and the portal has been integrated with 12 key social welfare schemes, enabling targeted delivery of benefits.

2.6.4 Disposable Income and Consumer Spending

Gross National Disposable Income (GNDI) represents the total income available to a nation's residents for consumption and saving after accounting for income transfers with the rest of the world. Per Capita GNDI has exhibited a steady upward trend over the recent years, increasing from approximately INR1,92,108 in FY23 to INR 2,11,076 in FY24 and further to INR 2,49,195 in FY26 (PE). It reflects the continued growth in income available to households and businesses, supporting consumption and savings activities within the economy.

The rise in disposable income has been accompanied by higher consumer spending, as reflected in the growth of Private Final Consumption Expenditure (PFCE), which measures the total value of goods and services consumed by households. Per Capita PFCE increased from approximately INR 1,07,910 in FY23 to INR 1,38,324 in FY26 (PE). The growth of approximately 8.0% in FY26 over FY25 indicates sustained consumer demand and continued expansion in household consumption expenditure, supported by rising income levels and economic activity.

Note: Data mentioned is in INR, FRE – First Revised Estimates, PE – Provisional Estimates.

2.7 Union Budget FY26-27 Highlights

The Union Budget FY 2026–27, presented by Finance Minister Nirmala Sitharaman, introduces a comprehensive set of measures aimed at stimulating economic growth, enhancing infrastructure and fostering inclusive development. With a focus on infrastructure, MSMEs, logistics connectivity, innovation and exports, the Budget seeks to support investment and economic activity.

- Capital Expenditure and Infrastructure Development

In FY 2026–27, the Union Budget proposes public capital expenditure of ₹12.2 lakh crore, compared with ₹11.2 lakh crore provided in the Budget Estimates for FY 2025–26. Detailed official budget material reports capital expenditure of ₹12.22 lakh crore, reported as approximately 3.1% of GDP. The Budget Speech presents the rounded figure of ₹12.2 lakh crore.

To strengthen the confidence of private developers regarding risks during the infrastructure development and construction phase, the Budget proposes to establish an Infrastructure Risk Guarantee Fund to provide prudently calibrated partial credit guarantees to lenders.

The Budget proposes the establishment of a new Dedicated Freight Corridor connecting Dankuni in the East with Surat in the West. The proposed corridor is expected to strengthen east–west freight connectivity and improve the movement of minerals, industrial inputs, manufactured goods and export cargo between production centres, logistics hubs and ports. According to the Ministry of Railways, the proposed Dedicated Freight Corridor will extend approximately 2,052 km. This project-specific length is based on Ministry of Railways information and is not stated in the Budget Speech itself.

The Budget Speech does not provide a separate capex allocation for the Dankuni–Surat Dedicated Freight Corridor. Similarly, the overall Railway allocation should not be presented as the capex allocation for this specific corridor. Any project-specific funding allocation would need to be confirmed through the relevant railway budget documents and official project releases.

The Budget Speech also proposes the operationalisation of 20 new National Waterways over the next five years. The initiative will begin with National Waterway-5 in Odisha, connecting the mineral-rich areas of Talcher and Angul and industrial centres such as Kalinga Nagar with the ports of Paradeep and Dhamra. The proposal is expected to improve the movement of bulk commodities and industrial cargo from the hinterland to maritime gateways.

The Budget Speech does not announce a separate capex allocation for the construction of new national highways or the expansion of existing highways and roads. Accordingly, no project-specific road or highway capex should be attributed to the Union Budget unless supported by the detailed Demands for Grants of the Ministry of Road Transport and Highways or another relevant official document.

The Budget also proposes a Coastal Cargo Promotion Scheme to incentivise a modal shift from road and rail transport to inland waterways and coastal shipping. The stated objective is to increase the combined share of inland waterways and coastal shipping from 6% to 12% by 2047. This measure, together with the operationalisation of National Waterway-5, is expected to support port-linked logistics, cargo-handling activity and multimodal transport infrastructure.

The Budget Speech does not provide a separate capex figure for port expansion, berth capacity, dredging or cargo-handling facilities. Therefore, the proposed waterways and coastal-shipping measures should be presented as logistics and maritime-connectivity initiatives rather than as dedicated port-expansion capex. The proposed infrastructure measures may support freight connectivity, port-linked logistics and multimodal transport infrastructure as implementation progresses.

- Support for MSMEs

Recognising the pivotal role of Micro, Small and Medium Enterprises (MSMEs) in India's economic landscape, the Budget proposes a dedicated ₹10,000 crore SME Growth Fund to support the creation of future "Champions". It also proposes to top up the Self-Reliant India Fund, established in 2021, with ₹2,000 crore to continue supporting micro enterprises and maintain their access to risk capital.

With TReDS, more than ₹7 lakh crore has been made available to MSMEs. To leverage its full potential, the Budget proposes four measures: (i) mandate TReDS as the transaction-settlement platform for purchases from MSMEs by Central Public Sector Enterprises, serving as a benchmark for other corporates; (ii) introduce a credit-guarantee support mechanism through CGTMSE for invoice discounting on the TReDS platform; (iii) link the Government e-Marketplace with TReDS for sharing information with financiers about government purchases from MSMEs, encouraging cheaper and quicker financing; and (iv) recognise TReDS receivables as asset-backed securities to support the development of a secondary market, enhance liquidity and facilitate settlement of transactions.

The Government will also facilitate professional institutions such as the Institute of Chartered Accountants of India, the Institute of Company Secretaries of India and the Institute of Cost Accountants of India in developing short-term, modular courses and practical tools to develop a cadre of "Corporate Mitras", particularly in Tier-II and Tier-III towns, which will assist MSMEs in meeting compliance requirements at affordable costs.

- Establishment of Dedicated Rare Earth Corridors

A Scheme for Rare Earth Permanent Magnets was launched in November 2025. Building on this initiative, the Budget proposes to support the mineral-rich States of Odisha, Kerala,

Andhra Pradesh and Tamil Nadu in establishing dedicated Rare Earth Corridors to promote mining, processing, research and manufacturing.

The Union Budget FY 2026–27 places emphasis on public investment, freight connectivity, multimodal logistics and MSME financing. The proposed Dedicated Freight Corridor, National Waterways, Coastal Cargo Promotion Scheme and infrastructure-equipment manufacturing measures are expected to support the development of transport and logistics infrastructure. While the Budget Speech does not specify separate capex allocations for the proposed freight corridor, additional highways and roads, or port expansion, the implementation of these initiatives may support demand across infrastructure construction, engineering, logistics, construction equipment and associated financing activities. The scale and timing of such opportunities would depend on subsequent ministry-level allocations, project approvals and implementation arrangements.

2.8 Concluding Remarks about Macroeconomic Scenario

The major headwinds to global economic growth remain significant, including escalating geopolitical tensions, volatility in global energy and commodity markets, persistent inflationary pressures, tighter financial conditions, geoeconomic fragmentation, rising public debt, climate-related disruptions, and uncertainty surrounding the pace and impact of technological transformation. In particular, the ongoing Middle East conflict and associated risks to energy supply chains have heightened downside risks to the global outlook, while weaker trade momentum and structural productivity challenges continue to weigh on medium-term growth prospects.

Despite these challenges, India's economy remains relatively well-positioned compared to other major emerging markets. According to the IMF's April 2026 WEO, India's GDP growth is projected at 6.5% in CY 2026, maintaining its position as one of the fastest-growing major economies globally and significantly above the global growth projection of 3.1%. Key positive factors supporting India's growth include resilient domestic demand, sustained public infrastructure spending, a strengthening investment cycle, expanding digital infrastructure, and continued progress in structural reforms. Inflation, as measured by the

Consumer Price Index (CPI), remained contained at 3.4% in March 2026 under the revised base year, supporting household purchasing power, although rising global oil prices and supply disruptions may pose upside risks.
India's strategic position as a manufacturing and investment destination continues to strengthen, supported by government initiatives, supply chain diversification trends, a skilled labour force, and a dynamic innovation ecosystem. Public investment is expected to remain a critical growth driver, with the Union Budget FY 2026–27 increasing capital expenditure to INR 12.21 lakh crore from INR 11.21 lakh crore in the previous year, reinforcing the government's investment-led growth strategy. In addition, the proposed Infrastructure Risk Guarantee Fund is aimed at improving private sector participation in infrastructure by mitigating project-related risks, which is expected to crowd in private investment, enhance infrastructure capacity, and support long-term productivity growth.

Private sector investment intentions are also expected to strengthen alongside public capex, while rising disposable incomes, improving rural demand, and continued policy support are likely to reinforce consumption momentum. Strengthening supply chains, expanding infrastructure capacity, and sustaining inflation stability will be critical in supporting resilience against external shocks. These factors are expected to support India's medium-term growth momentum and strengthen its ability to navigate global uncertainties.

3. INDUSTRY OVERVIEW – Communication Platform As A Service ("CPaaS") Industry

3.1 Introduction

The Communications Platform as a Service ("CPaaS") industry forms an integral segment of India's information technology–enabled digital infrastructure, providing cloud-based software platforms that enable enterprises and public sector institutions to integrate programmable communication capabilities into their applications and operational workflows. CPaaS solutions facilitate the delivery, management, and automation of messaging, voice, email, and identity verification services through application programming interfaces ("APIs") and software development kits ("SDKs"), supporting omnichannel communication across digital and voice-based channels.

The industry operates as a software-driven intermediary layer between telecom networks, digital communication channels, and enterprise applications, allowing organizations to deploy scalable communication solutions without owning or managing underlying telecommunications infrastructure. CPaaS platforms are used across transactional, promotional, service, and automation-led communication use cases, including customer authentication, service notifications, marketing outreach, customer support, and workflow automation. Key end-user segments include financial services, e-commerce, information technology, healthcare, logistics, education, and public sector institutions.

CPaaS solutions address a wide range of enterprise communication requirements. Transactional use cases include one-time password ("OTP") delivery, alerts, and identity verification for authentication and fraud prevention. Promotional and customer engagement use cases utilize rich communication channels such as Rich Communication Services ("RCS") and over-the-top ("OTT") messaging platforms to enable personalized outreach. Service and support functions leverage voice bots, chatbots, multi-agent routing, and automated workflows to improve response efficiency and service quality. Public sector and regulated enterprise applications require platforms compliant with telecom and data protection regulations, including Distributed Ledger Technology ("DLT") and Telecom Regulatory Authority of India ("TRAI") mandated frameworks for regulated messaging.

The industry is underpinned by core technology capabilities such as REST-based APIs for system integration, real-time analytics for delivery monitoring and performance measurement, artificial intelligence and machine learning for conversational automation, and omnichannel orchestration platforms that enable coordinated communication across multiple channels. CPaaS providers also manage carrier connectivity, regulatory compliance, data security, and system reliability, positioning the industry as a critical component of enterprise digital infrastructure.

Service delivery in the CPaaS industry typically follows a structured lifecycle comprising platform integration and API deployment, campaign and workflow configuration, regulatory compliance and carrier onboarding, execution and monitoring, and post-deployment analytics and reporting. Revenue models generally combine recurring platform access fees with usage-based pricing linked to message volumes, call durations, or communication transactions, supporting revenue visibility and long-term customer engagement.

The CPaaS industry in India is classified under NIC 2008 Codes 6201 – Computer Programming Activities and 6202 – Computer Consultancy and Computer Facilities Management Activities, reflecting its positioning as a software-driven communication infrastructure service. Internationally, it corresponds to NAICS Code 518210 – Data Processing, Hosting, and Related Services, distinguishing CPaaS providers from traditional telecom operators and emphasizing their role as cloud-based digital service platforms.

By enabling programmable, scalable, and compliance-aligned enterprise communication, the CPaaS industry supports the digitization of customer engagement, operational workflows, and service delivery across India's enterprise and public sector ecosystem.

Market Segmentation

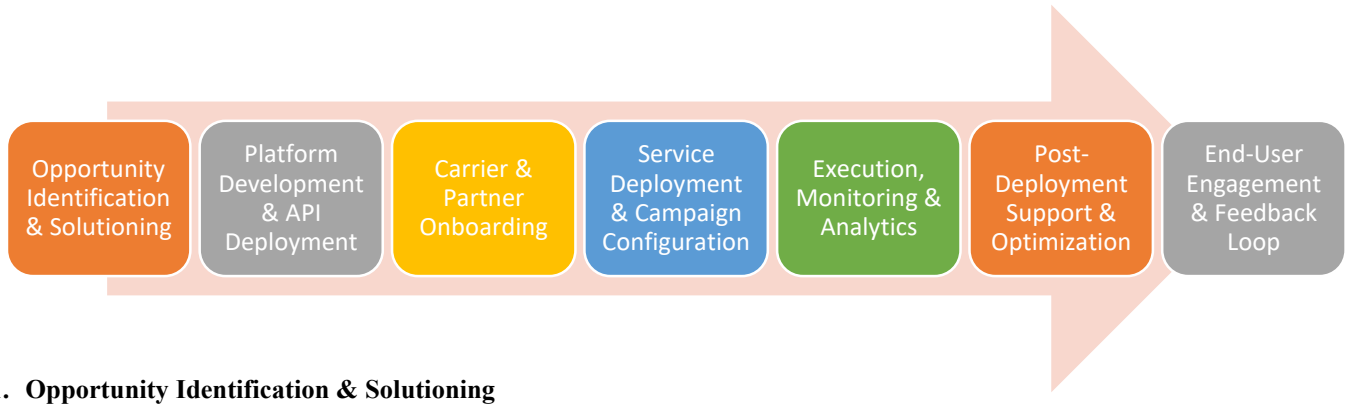

The Communications Platform as a Service ("CPaaS") industry in India exhibits a structured market segmentation framework that enables demand assessment, capacity planning, and targeted service delivery across communication use cases, enterprise verticals, revenue models, and geographic markets. As a software-driven segment of the information technology industry, CPaaS spans cloud platform development, API-based communication services, regulatory compliance management, and enterprise system integrations, serving commercial enterprises, regulated institutions, and public sector entities across India and international markets.

Category	Sub-Category / Segment	Description / Industry Insights
By Service Type	Core Messaging APIs	SMS/OTP (transactional and promotional), Rich Communication Services (RCS), WhatsApp Business API, and other OTT messaging channels. Forms the primary revenue-generating service, enabling high-volume application-to-person (A2P) messaging with regulatory compliance.
	Voice & IVR Solutions	Programmable voice systems, Interactive Voice Response (IVR), AI-powered voice bots supporting multi-language natural language processing, call routing, and workflow automation. Widely adopted for customer service, engagement, and operational efficiency.
	Omnichannel Platform	Unified dashboards for workflow orchestration, multi-agent communication routing, and enterprise integrations (CRM, ERP). Subscription-based and SaaS-driven, enabling seamless management of customer interactions across channels.
	AI/ML & Analytics	Conversational AI, sentiment analysis, campaign optimization, real-time performance monitoring, and predictive engagement tools. Supports personalization, campaign efficiency, and operational intelligence.
	Identity & Compliance	Mobile identity verification, number masking, SIM-based authentication, fraud prevention, and DLT/TRAI compliance for regulated messaging. Critical for banking, healthcare, and government segments.
By End-User Industry	BFSI	OTP authentication, transaction alerts, fraud notifications, KYC verification, and customer communication. High regulatory and compliance requirements.
	E-commerce & Retail	Order confirmations, shipping updates, abandoned cart recovery, promotional campaigns, and post-purchase engagement. High-volume transactional and marketing messaging.
	Media & Entertainment	Content alerts, event notifications, subscription engagement, and customer acquisition campaigns. Rich media messaging (images, video, interactive buttons) is extensively used.
	Healthcare	Appointment reminders, telemedicine support, patient notifications, and healthcare service engagement. Voice and AI-driven automation are increasingly deployed.
	Public Sector / PSUs	Citizen notifications, government alerts, compliance messaging, and regulatory communication. Often delivered via long-term contracts or tender-based arrangements.
	Logistics & Travel	Real-time booking confirmations, delivery/tracking updates, and service notifications. Emphasis on reliability, scalability, and timeliness.
By Revenue Model	Pay-as-you-go (Volume-based)	Charges based on message, call, or API usage. Dominant revenue model for high-volume transactional communications.
	Subscription / Platform Access	Recurring fees for access to dashboards, analytics, and unlimited API usage. Provides predictable and recurring revenue streams.
	Enterprise Licensing	Custom integrations, dedicated support, and white-label platforms for large enterprises. Long-term contracts drive sustained engagement.
	Professional Services	Implementation, onboarding, workflow customization, and migration services. High-margin revenue source supporting client adoption.
By Distribution Channels	Direct Enterprise Sales	Dedicated account teams serving large enterprises, financial institutions, and PSUs. Focus on relationship-driven high-value contracts.
	API Developer Marketplaces	Self-service portals for developers to integrate APIs with pay-as-you-go models. Supports high-volume, low-touch adoption.
	System Integrators / Partners	Collaboration with digital agencies, CRM/ERP integrators, and technology partners to resell or co-deliver CPaaS solutions.
	Telco Partnerships	White-label CPaaS solutions embedded within telecom operators' offerings, enabling large-scale distribution and wholesale adoption.

By Geography	Western India	Mumbai, Pune, and Gujarat hubs; strong presence of BFSI, media, and technology clients.
	Northern India	Delhi-NCR, Gurugram, and Rajasthan; focus on e-commerce, IT, and enterprise services.
	Southern India	Bengaluru, Hyderabad, Chennai; presence of technology enterprises, startups, and large IT/ITES clients.
	Eastern / North-Eastern India	Kolkata, Odisha, Assam; emerging markets with government, public sector, and industrial clients.
	International	Global connectivity via carrier partnerships and cloud infrastructure to serve Middle East, South Asia, and other diaspora-focused markets.
By Contract Structure	Volume-based Usage	Pay-per-message/call pricing; scales with client business activity and transactional volume.
	Subscription + Usage	Recurring platform fees with overage charges; balanced risk-reward for providers and enterprises.
	Enterprise Master Service Agreement (MSA)	Multi-year agreements with SLAs and committed volumes, often deployed for large corporate clients.
	Government / PSU Tenders	Competitive bidding for public sector projects; compliance-heavy and structured contracting processes.

Value Chain Analysis

The Communications Platform as a Service ("CPaaS") industry value chain comprises a sequence of interconnected software development, platform orchestration, and service delivery activities spanning platform conceptualization, enterprise-scale deployment, and lifecycle management. Each stage contributes to value creation, scalability, compliance assurance, cost structure, and margin profile, shaped by technological capabilities, regulatory frameworks, enterprise requirements, and global carrier connectivity.

1. **Opportunity Identification & Solutioning**

The value chain begins with market and client opportunity assessment. CPaaS providers engage in enterprise outreach, developer community engagement, and feasibility evaluation of integration requirements. Solutioning includes defining required communication channels (messaging, voice, video, email), workflow automation, regulatory compliance (DLT/TRAI, GDPR), and integration complexity with enterprise systems (CRM, ERP). Success at this stage depends on understanding client workflows, regulatory mandates, platform capabilities, and competitive differentiation. This stage shapes contract scope, revenue potential, and risk allocation.

2. **Platform Development & API Deployment**

Core value creation occurs through designing and deploying programmable APIs, SDKs, and omnichannel orchestration tools. Activities include platform architecture design, cloud infrastructure provisioning, multi-channel message routing, AI/ML conversational models, and developer portal creation. Integration with enterprise applications, CRM/ERP systems, and cloud ecosystems is performed here. Efficient development ensures platform reliability, scalability, low latency, and adherence to data protection and regulatory frameworks, forming the foundation for enterprise adoption and long-term usage.

3. **Carrier & Partner Onboarding**

CPaaS platforms establish connectivity with domestic and international telecom carriers, OTT messaging providers, email gateways, and cloud partners. This stage includes partner Selection, Contract Negotiation, API integration, and Compliance Validation. Strong carrier and partner relationships ensure global reach, high throughput, redundancy, and operational reliability, directly impacting platform economics, delivery rates, and enterprise-grade service quality.

4. **Service Deployment & Campaign Configuration**

Following integration, providers configure client-specific workflows, including messaging flows, voice routing, AI bot deployment, and multi-agent orchestration. Campaign templates, message personalization, event triggers, and analytics tracking are established. This stage translates platform capabilities into actionable services, driving adoption, customer satisfaction, and usage-based revenue generation.

5. **Execution, Monitoring & Analytics**

The platform executes communications in real-time across channels. Monitoring includes message delivery, voice call quality, API response times, and workflow efficiency. Analytics dashboards provide insights on campaign performance, engagement metrics, and predictive recommendations. This stage ensures SLA compliance, operational excellence, and actionable intelligence for client campaigns, supporting upsell opportunities and platform stickiness.

6. **Post-Deployment Support & Optimization**

Ongoing support encompasses technical troubleshooting, workflow adjustments, AI model retraining, system upgrades, and platform optimization. Subscription-based updates, premium support packages, and consulting services strengthen recurring revenue streams, customer retention, and enterprise relationships. Effective support enhances platform reliability and long-term client engagement.

7. **End-User Engagement & Feedback Loop**

The final stage captures client and end-user insights on platform performance, feature gaps, integration challenges, and emerging use cases. Feedback drives R&D prioritization, new channel integration (emerging OTTs, RCS evolution), AI model training, and global expansion. Continuous feedback ensures platform evolution, service innovation, and sustained market leadership.

CPaaS providers operate a dual-stream revenue model. Subscription and platform access fees account for approximately 25-30% of revenue, while usage-based pricing (per-message, per-call, or per-API transaction) contributes roughly 70-75%. This structure enables scalable, predictable economics, supporting gross margins typically between 60-75% due to the software-driven nature of the business and operational leverage across development, orchestration, and enterprise support functions.

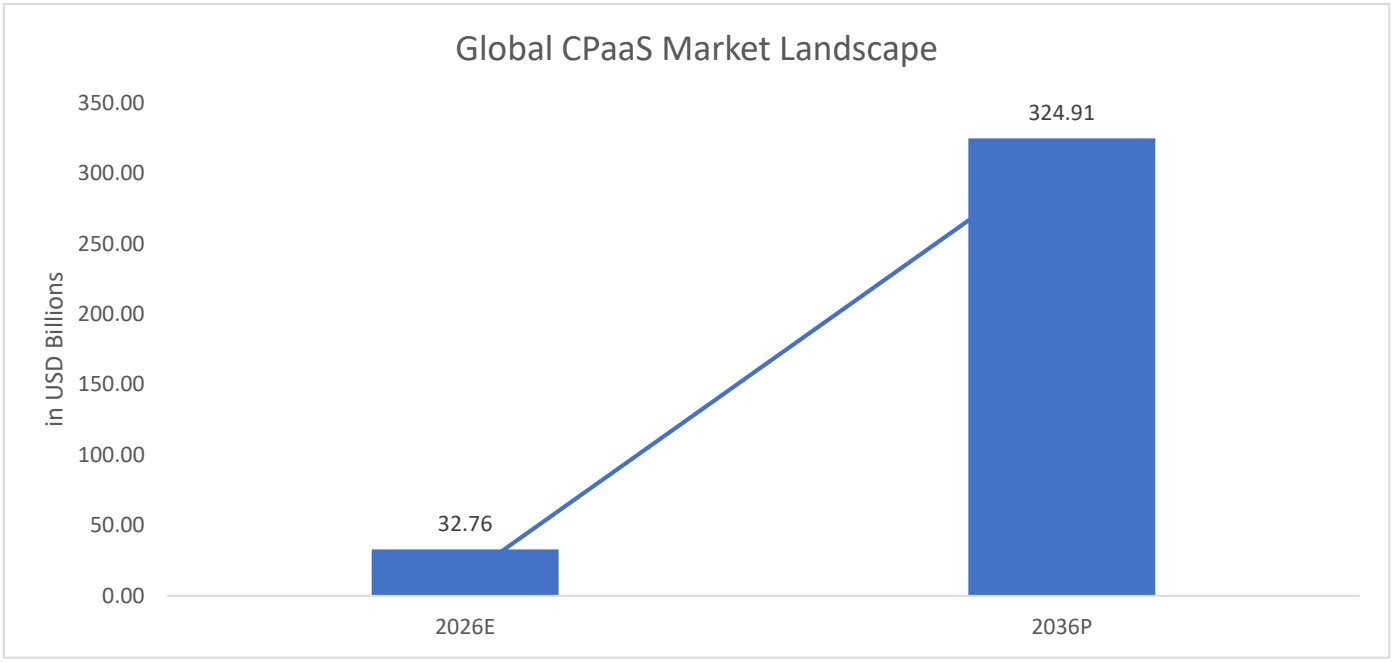

4. GLOBAL AND INDIAN INDUSTRY OUTLOOK

4.1 Global IT Industry- CPaaS

Communications Platform as a Service ("CPaaS") refers to cloud-based platforms that enable enterprises and public institutions to embed communication capabilities—such as messaging, voice, video, and omnichannel interactions—directly into their applications through application programming interfaces ("APIs"). CPaaS allows organizations to deliver customer notifications and other real-time interactions at scale without developing or maintaining proprietary communication infrastructure. Over time, CPaaS has evolved from a utility-driven messaging layer into a core component of enterprise digital engagement and workflow automation.

Global Market Outlook

The global CPaaS market is estimated at USD 32.76 billion in 2026 and is projected to expand to USD 324.91 billion by 2036, registering a compound annual growth rate ("CAGR") of 25.79 percent. This expansion reflects increasing enterprise digitisation, rising adoption of application-based customer engagement models, and the integration of programmable communication into business-critical processes across sectors such as financial services, e-commerce, healthcare, logistics, and public administration.

Source: Infomerics Analytics and Research

Regional Dynamics

Regional adoption of CPaaS reflects differences in digital maturity, regulatory frameworks, and enterprise technology adoption patterns:

- North America, accounting for approximately 40 percent of global market share, represents the largest CPaaS market, supported by a mature software-as-a-service ("SaaS") ecosystem and early enterprise adoption of developer-centric platforms across technology, retail, and financial services sectors.

- Europe, with an estimated 24 percent share, is characterised by demand for platforms aligned with stringent data protection and privacy regulations, with significant usage in regulated industries and public sector communication systems.

s

- Asia-Pacific, representing approximately 25 percent of the global market, benefits from mobile-first consumer behaviour, large digital populations, and rapid deployment of digital public and enterprise infrastructure, supporting high volumes of transactional and authentication messaging.

Industry Evolution

The global CPaaS industry has progressed through three broad phases of development:

- Foundation Phase (2010–2016): Platforms primarily offered SMS and voice APIs, enabling basic application-embedded communications. This phase established industry standards and developer-led adoption models.

- Expansion Phase (2017–2022): CPaaS platforms expanded to support omnichannel communication, including WhatsApp Business API, Rich Communication Services ("RCS"), email, and over-the-top ("OTT") channels, enabling coordinated customer engagement across multiple touchpoints. Industry consolidation accelerated during this phase through mergers and acquisitions.

- Intelligence Phase (2023 onwards): CPaaS platforms increasingly integrate artificial intelligence-based orchestration, analytics, and automation, supporting intelligent routing, conversational interfaces, fraud mitigation, and real-time performance insights. As a result, CPaaS has evolved into strategic enterprise infrastructure rather than a standalone messaging service.

  The global CPaaS market exhibits moderate concentration, with leading multinational platforms accounting for a significant share of industry revenues. Major global participants include developer-focused API providers and enterprise-oriented omnichannel platforms with extensive carrier interconnections and cloud integrations. While large players benefit from scale, compliance capabilities, and global reach, the market remains fragmented at regional and niche-use-case levels.

Cross-Border Service Delivery and Trade Characteristics

CPaaS operates predominantly as a digitally delivered cross-border service. Platforms developed in one jurisdiction provide communication services to customers globally through cloud infrastructure and international telecom carrier networks. Revenues generated from overseas customers are typically classified as exports of IT-enabled services, subject to applicable data localisation, privacy, and telecom interconnection regulations in destination markets. This operating model enables global scalability while increasing regulatory and operational complexity.

Regulatory and Compliance Environment

Global CPaaS providers operate within a multi-jurisdictional regulatory landscape encompassing data protection, consent-based communications, and telecom routing requirements. Compliance with data privacy frameworks, unsolicited communication regulations, and lawful interception obligations is critical for platform continuity. The need to manage regulatory alignment across multiple geographies creates structural entry barriers and favours established platforms with mature governance frameworks, compliance systems, and carrier relationships.

Enterprise and Public Sector Applications

CPaaS is widely deployed across both private and public sectors. Enterprise applications include customer authentication, transaction alerts, order and delivery notifications, and interactive customer engagement. Public sector use cases include citizen communications, identity verification, service notifications, and emergency alert systems. The breadth and criticality of these applications reinforce CPaaS as essential digital infrastructure supporting real-time communication at scale.

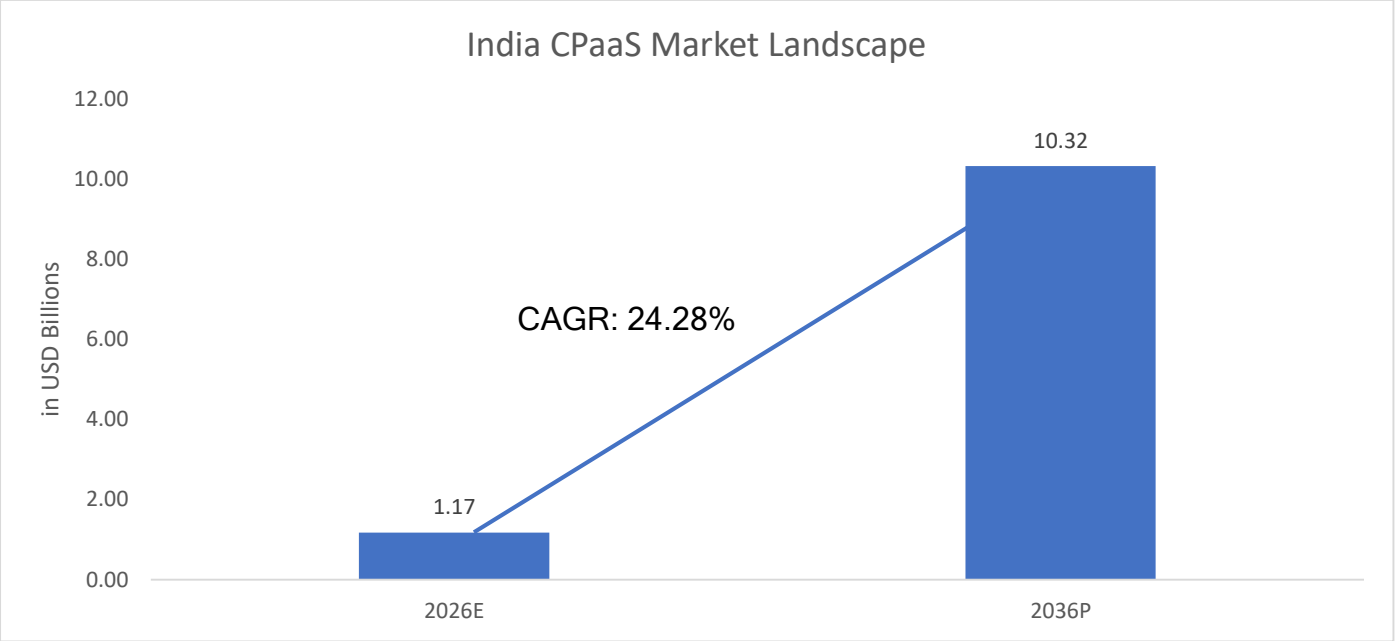

The global CPaaS industry represents a rapidly expanding segment of the IT services landscape, underpinned by scalable cross-border delivery models and increasing enterprise reliance on programmable communication. While regulatory complexity and compliance requirements remain key challenges, established platforms with global reach, robust governance frameworks, and advanced technology capabilities are well positioned to capture sustained growth as CPaaS continues to embed itself within enterprise and public digital ecosystems.

4.2 Indian CPaaS Industry

In the Indian context, CPaaS platforms primarily support enterprise messaging and related communication workflows, operating within the regulated telecommunications framework and leveraging the same API-driven architecture described above. The Indian CPaaS industry operates at the intersection of telecommunications infrastructure, enterprise software services, and application-based digital delivery, with a predominant focus on high-volume, compliance-sensitive enterprise messaging use cases.

Market Size and Growth Outlook

Based on current market size estimates, the Indian CPaaS industry is projected to expand from approximately USD 1.17 billion in 2026 to USD 10.32 billion by 2036, representing a compound annual growth rate ("CAGR") of 24.28 percent over the period. Within the global CPaaS landscape, India constitutes a relatively small but rapidly expanding market, reflecting increasing enterprise adoption of programmable communication solutions across regulated and high-volume use cases.

Source: Infomerics Analytics and Research

These estimates reflect the broadening scope of CPaaS offerings in India—from traditional enterprise messaging to integrated omnichannel communication, authentication services, and application-embedded notification workflows—across both private enterprise and public sector implementations.

Telecom and Digital Infrastructure Context

India represents one of the largest telecommunications markets globally, supported by an extensive wireless subscriber base and widespread mobile broadband adoption. As per data published by the Telecom Regulatory Authority of India ("TRAI") and the Department of Telecommunications ("DoT"), India had approximately 1.17 billion wireless subscribers as of Q3 FY2025, with mobile services accounting for the predominant share of total subscriptions. Mobile broadband penetration, led primarily by 4G services, underpins large-scale application-to-person ("A2P") communication traffic across enterprise and government platforms. The scale and resilience of telecom infrastructure enable high-volume enterprise messaging activity, which forms the core operational layer of CPaaS services in India.

Enterprise Messaging Characteristics

Enterprise messaging in India is characterised by high-frequency, mission-critical communication use cases. Messaging traffic is largely transactional in nature, including authentication messages, service alerts, and system-generated notifications across digital platforms. Such communications require high delivery reliability, low latency, and strict adherence to regulatory and consumer protection norms. TRAI-mandated compliance mechanisms govern message origination, routing, and delivery to ensure traceability and accountability within the telecom ecosystem.

Sectoral Demand Profile

Demand for CPaaS and enterprise messaging services in India arises across multiple sectors, including banking, financial services and insurance ("BFSI"), e-commerce and digital consumer platforms, government departments and public sector undertakings, and other enterprise segments such as healthcare, utilities, logistics, and education. These sectors utilise CPaaS primarily for authentication, service notifications, transaction alerts, and citizen or customer communications, typically characterised by continuous volumes and compliance sensitivity.

The organised segment of the Indian CPaaS industry comprises platforms with pan-India telecom connectivity, regulatory compliance capabilities, and enterprise integration infrastructure. Regulatory requirements governing commercial messaging have contributed to increased formalisation of messaging traffic routed through registered platforms. Competition within the organised segment is based on delivery performance, compliance robustness, platform reliability, and integration capabilities, as monitored under TRAI quality-of-service frameworks.

Export Orientation

CPaaS services provided by Indian platforms to overseas customers fall within the broader classification of software and IT-enabled services. The Reserve Bank of India ("RBI") recognises software and IT-enabled service exports as a significant

component of India's services exports, reflecting the country's established position as a global technology services hub. Indian CPaaS providers leverage this ecosystem to service international enterprise clients, particularly across emerging markets.

The Indian CPaaS and enterprise messaging industry is supported by large-scale telecommunications infrastructure, a rapidly expanding application-driven digital ecosystem, and a formalised regulatory framework. Market size estimates indicate strong long-term growth potential, with industry expansion aligned to enterprise digitisation, public sector digital service delivery, and India's broader software and IT-enabled services landscape. Regulatory oversight and infrastructure scale are expected to remain central to industry structure and competitive dynamics.

5. MARKET DYNAMICS

5.1 Key Growth Drivers

The Communications Platform as a Service ("CPaaS") segment within the Indian IT industry is positioned for sustained growth, supported by structural digitalisation trends, rapid adoption of API-driven architectures, and increasing regulatory and security requirements around enterprise and public communication. Growth is driven by rising demand for programmable, omnichannel communication across banking, e-commerce, public services, and consumer internet platforms, alongside a shift from siloed, channel-specific tools to integrated, workflow-centric engagement platforms. The segment is also benefiting from a progressive transition toward recurring, platform-led revenue models anchored in subscription and usage-based pricing.

The table below summarises the principal market drivers and their directional impact over near (1–2 years), medium (3–4 years), and longer (5–7 years) horizons.**Market Drivers and Impact Assessment**

(All values represent directional impact based on industry estimates and qualitative analysis)

Key Drivers	1–2 Years	3–4 Years	5–7 Years
1. API-led digital transformation and cloud adoption	High	High	High
2. Growth in digital payments, e-commerce and BFSI usage	High	High	High
3. Regulatory focus on secure and compliant communication	High	High	High
4. Adoption of AI-driven, omnichannel customer engagement	Medium	High	High
5. Enterprise shift to recurring, platform-based IT models	Medium	High	High
6. Expansion into Tier II/III cities and SME digitisation	Medium	Medium	High

Detailed Explanation of Key Growth Drivers

1. API-Led Digital Transformation and Cloud Adoption

Indian enterprises and public sector entities are accelerating adoption of cloud-native architectures and microservices, driving the need for programmable communication capabilities that can be embedded directly into applications and workflows. CPaaS platforms provide standardised APIs for messaging, voice, video, and identity verification, enabling faster deployment and reduced time-to-market for digital products. This driver supports sustained growth across all horizons, as API-first design and cloud migration remain core components of digital transformation roadmaps.

2. Growth in Digital Payments, E-Commerce and BFSI Usage

The scaling of digital payments, online lending, neo-banking, e-commerce marketplaces, and subscription platforms has significantly increased volumes of transactional and event-driven communication, including OTPs, alerts, confirmations, and status updates. These use cases rely on reliable, low-latency, and compliant messaging and voice infrastructure, directly aligned with CPaaS capabilities. As transaction volumes and user bases expand, this driver continues to support high growth in CPaaS utilisation over the near, medium, and long term.

3. Regulatory Focus on Secure and Compliant Communication

Strengthening regulatory frameworks around telecom usage, spam control, consent management, and data protection have increased the need for organised, compliant communication platforms. Requirements such as template registration, consent capture, audit trails, and authentication-focused messaging favour structured CPaaS providers that can embed compliance into their platforms. This driver provides long-term visibility, as regulatory oversight continues to deepen across sectors including BFSI, healthcare, and public services, and extends to both domestic and cross-border communication.

4. Adoption of AI-Driven, Omnichannel Customer Engagement

Enterprises are increasingly moving from single-channel, campaign-centric communication to integrated, omnichannel customer journeys supported by AI-driven personalisation. CPaaS platforms that combine messaging, voice, chat apps, and email with AI bots, analytics, and workflow orchestration are well placed to capture this shift. Adoption is particularly pronounced in consumer internet, e-commerce, BFSI, and customer service-intensive industries, and is expected to intensify over the medium to long term as AI tools mature and become more widely embedded in enterprise processes.

5. Enterprise Shift to Recurring, Platform-Based IT Models

The broader IT industry trend towards subscription-based, platform-centric consumption models is reinforcing CPaaS adoption, as enterprises seek to reduce fixed infrastructure costs and align spend with usage. CPaaS offerings that bundle APIs, orchestration, analytics, and compliance into unified platforms support this transition and enable predictable, scalable cost structures. Over the medium to long term, this shift enhances revenue visibility for providers and encourages deeper integration of CPaaS into core enterprise systems.

6. Expansion into Tier II/III Cities and SME Digitisation

Increasing digitisation among small and medium enterprises, regional financial institutions, local e-commerce platforms, and government programmes outside major metros is expanding the addressable market for CPaaS solutions. Self-service onboarding, pay-as-you-go pricing, and simplified APIs make CPaaS accessible to smaller users who previously relied on basic bulk messaging providers. While initially a moderate contributor, this driver is expected to gain significance over the long term as digital inclusion deepens and regional ecosystems mature.

5.2 Challenges

The Communications Platform as a Service ("CPaaS") segment, while poised for strong growth, faces several structural and operational challenges that influence platform adoption, revenue visibility, and long-term sustainability. The table below summarises the principal challenges and their directional impact over the near (1–2 years), medium (3–4 years), and longer (5–7 years) horizons.

Detailed Commentary on Key Challenges

1. Platform Reliability and SLA Adherence

CPaaS providers operate mission-critical communication platforms that must guarantee high uptime, low latency, and consistent performance across messaging, voice, video, and identity services. Failures or delays in message delivery, system downtime, or workflow errors can lead to client dissatisfaction, SLA penalties, and revenue loss. Maintaining operational reliability under high-volume traffic and peak usage periods remains a key near- and medium-term challenge.

2. Regulatory and Compliance Complexity

The CPaaS industry is subject to multiple regulatory frameworks governing messaging, consent management, spam control, identity verification, and data protection. In India, DLT/TRAI compliance frameworks dictate sender registration, message templates, and audit trails, while international clients may require adherence to GDPR, TCPA, CASL, or local telecom regulations. Compliance obligations are evolving rapidly, increasing operational complexity and cost, particularly for providers serving BFSI, healthcare, and public sector clients.

3. Data Privacy and Cybersecurity Risks

Handling sensitive customer data, OTPs, transactional alerts, and enterprise communications exposes CPaaS platforms to cybersecurity threats, including data breaches, fraud, and unauthorized access. Providers must implement robust encryption, tokenization, monitoring, and security audits. Failure to prevent or respond effectively to breaches can lead to reputational damage, regulatory penalties, and contract termination.

4. Integration Complexity with Enterprise Systems

Enterprises increasingly demand seamless integration of CPaaS APIs with CRM, ERP, cloud platforms, and workflow management systems. Variation in legacy systems, custom enterprise workflows, and multi-geography deployments can complicate implementation, extend onboarding timelines, and require specialized consulting and technical support. Integration challenges influence adoption speed and platform stickiness.

5. Customer Concentration and Usage Volatility

Revenue for CPaaS providers is often concentrated among a limited number of large enterprises, BFSI institutions, e-commerce platforms, and public sector clients. Fluctuations in usage volumes, seasonal campaign intensity, or contract renegotiations can result in revenue volatility. Dependence on high-volume clients highlights the importance of client diversification and the development of recurring subscription-based revenue streams to stabilise growth.

6. PESTEL ANALYSIS OF THE INDUSTRY

The Communications Platform as a Service ("CPaaS") industry in India operates within a dynamic regulatory, technological, and market ecosystem. The PESTLE analysis summarises key external factors influencing the Indian CPaaS industry.

Factor	Key Insights and Implications
Political	• TRAI's regulatory framework for commercial communications, including sender registration, consent management, SMS content-template controls and measures to curb unsolicited commercial communications ("UCC"), increases compliance requirements for CPaaS providers and strengthens the importance of registered and compliant communication platforms [TRAI, TCCCPR, 2018 and subsequent amendments/directions]. • TRAI has mandated pre-tagging of variables in SMS content templates to curb misuse of commercial communications, increasing governance and compliance requirements for enterprise messaging platforms [TRAI, Direction on Pre-Tagging of Variables in SMS Content Templates, 2025]. • TRAI's phased implementation of dedicated numbering series, including the 1600-series for specified BFSI and other entities and the 1601-series extended in August 2026 to utilities, courier and logistics entities, supports greater authentication and traceability of enterprise voice communications [TRAI, 2025–26]. • Government-led digitalisation and expansion of digital public infrastructure support the adoption of technology-enabled communication and customer-engagement solutions across enterprises and public-sector entities [Government of India, Digital India Programme].
Economic	• India's UPI ecosystem processed a record 21.70 billion transactions valued at ₹28.33 lakh crore in January 2026, reflecting the scale of digital transactions and supporting demand for authentication, transaction alerts and customer-engagement communications [NPCI, 2026]. • Increasing digitalisation across banking, financial services, retail, e-commerce and other consumer-facing sectors supports demand for programmable messaging, voice, authentication and omnichannel customer-engagement solutions [Industry Analysis]. • Movements in foreign exchange rates may influence the cost of imported software, technology infrastructure and cloud-related inputs used by CPaaS providers, particularly where technology stacks or infrastructure components are sourced internationally [Industry Analysis]. • Increasing digital adoption among small and medium-sized enterprises and other businesses expands the addressable market for cloud-based communication and customer-engagement platforms [Government of India / Industry Analysis].
Social	• TRAI continues to publish monthly telecom subscription data; the latest available dataset covers July 2026 and was released on August 28, 2026, reflecting the continued scale of India's telecom and connectivity ecosystem [TRAI, July 2026]. • India's linguistic diversity and the increasing use of digital communication channels support demand for multilingual messaging, conversational interfaces, chatbots and regional-language customer engagement [Government of India / Industry Analysis]. • Increasing consumer sensitivity towards unsolicited communications is strengthening the importance of consent-based, authenticated and identifiable enterprise communications [TRAI, UCC Regulations and Directions]. • Growing adoption of digital channels for financial, commercial, customer-service and transactional interactions supports the use of omnichannel CPaaS solutions across enterprises [Industry Analysis].

Technological	• Expansion of high-speed mobile connectivity, including 5G networks, supports richer, lower-latency and more interactive communication formats and creates opportunities for advanced messaging, voice and multimedia-based CPaaS applications [DoT / Industry Analysis]. • The Government's IndiaAI Mission, with an approved outlay of approximately ₹10,372 crore, supports the development and adoption of AI capabilities relevant to conversational AI, customer-service automation, analytics and workflow orchestration [MeitY, IndiaAI Mission]. • Cloud computing, application programming interfaces ("APIs") and software-as-a-service ("SaaS") architectures support scalable deployment, third-party integration and self-service adoption of CPaaS platforms [MeitY / Industry Analysis]. • Advances in artificial intelligence and machine learning are expanding CPaaS capabilities beyond communication delivery towards conversational automation, personalisation, analytics, workflow orchestration and intelligent customer engagement [Industry Analysis].
Environmental	• The cloud-based nature of CPaaS can reduce the need for enterprises to maintain dedicated communication infrastructure; however, the increasing reliance on data centres and cloud infrastructure makes energy efficiency and resource consumption relevant considerations for service providers [Industry Analysis]. • Increasing digitisation of communication and consent-management processes can reduce reliance on physical documentation and paper-based communication processes [Industry Analysis]. • Greater emphasis on energy efficiency and sustainability in data-centre infrastructure may influence infrastructure selection, hosting arrangements and operating practices of technology and CPaaS providers [Industry Analysis].
Legal	• The Digital Personal Data Protection Act, 2023 and the Digital Personal Data Protection Rules, 2025 establish requirements relating to the processing and protection of digital personal data, including obligations relating to consent, security safeguards and handling of personal data, increasing compliance requirements for CPaaS providers that process personal and communication data [MeitY, DPDP Act, 2023; DPDP Rules, 2025]. • The DPDP framework does not impose blanket localisation of all personal data in India; cross-border transfer requirements operate under the framework prescribed under the Act and Rules, while sector-specific regulations may impose additional data-localisation requirements [MeitY, DPDP Act, 2023; DPDP Rules, 2025]. • The Telecom Commercial Communications Customer Preference Regulations, 2018, together with subsequent amendments and directions, govern commercial communications, including sender registration, consent, content-template controls and measures relating to UCC, requiring CPaaS providers to maintain appropriate compliance and traceability mechanisms [TRAI, TCCCPR, 2018 and subsequent amendments/directions]. • Increasing use of technology-enabled monitoring and enforcement mechanisms against UCC and fraudulent communications increases the importance of regulatory compliance, sender authentication, consent management and communication traceability for CPaaS providers [TRAI, 2025–26]. • The Information Technology Act, 2000 continues to contain provisions relating to protection of computer resources, data and confidentiality, while the DPDP framework represents a key component of India's evolving digital-data protection regime [India Code, Information Technology Act, 2000; MeitY, DPDP Act, 2023].

7. Government Initiatives, Policy Support and Regulatory Framework

The India IT (Communications Platform as a Service) ("CPaaS") industry operates within a evolving policy and regulatory environment. Government initiatives aimed at digitalisation, digital public infrastructure, artificial intelligence, digital payments, broadband and telecommunications have supported the expansion of digital communication requirements across government, BFSI, fintech, e-commerce and enterprise applications. At the same time, regulations relating to commercial communications, data protection, consent management, authentication and communication traceability have increased compliance requirements for CPaaS providers.

Key Government Initiatives and Policy Support

Policy / Initiative	Policy Details	Industry Impact
Digital India Programme (2015–Ongoing)	The Digital India Programme seeks to transform India into a digitally empowered society and knowledge economy through digital infrastructure, e-governance and digital service delivery. The Government approved continuation of the programme with an outlay of ₹14,903 crore for 2021–26 in August 2023. Common Service Centres ("CSCs") constitute	Continued digitisation of government and citizen-facing services supports demand for authentication, notifications, service alerts, transactional messaging, voice communication and other digital engagement capabilities.

	an important last-mile delivery mechanism for government, financial, healthcare, education, agricultural and other services in rural and remote areas [MeitY / Government of India, 2023–26].	
Broadband Expansion and 5G Rollout (Ongoing)	India continues to expand broadband and 5G connectivity through government and industry initiatives. TRAI's latest available telecom subscription data covers July 2026, with the regulator continuing to publish monthly broadband and telecom subscription data [TRAI, 2026].	Expansion of high-speed connectivity supports adoption of richer messaging formats, real-time communications, voice and multimedia applications and broader deployment of CPaaS solutions beyond major metropolitan markets.
Digital Public Infrastructure and API-enabled Digital Services (Ongoing)	Government digital infrastructure increasingly incorporates interoperable, API-enabled platforms and digital public infrastructure across areas such as identity, payments, document services and citizen-facing applications, including platforms such as India Stack and API Setu [Government of India / MeitY].	API-based digital infrastructure facilitates integration between enterprise applications, government platforms and digital services, supporting demand for programmable messaging, authentication and communication APIs.
IndiaAI Mission (2024–Ongoing)	The Government approved the IndiaAI Mission with an outlay of ₹10,371.92 crore in March 2024 to strengthen India's AI ecosystem, including AI infrastructure, innovation, skills and adoption [MeitY / Government of India, 2024].	Increasing AI adoption supports development of conversational AI, voice bots, automated customer service, natural-language interfaces, analytics, personalisation and workflow automation, creating additional use cases for CPaaS platforms.
UPI & Digital Payments Expansion (Ongoing)	India's Unified Payments Interface ("UPI") processed a record 21.70 billion transactions valued at approximately ₹28.33 lakh crore in January 2026, reflecting the scale of India's real-time digital payments ecosystem [NPCI, 2026].	Large-scale digital transactions support demand for authentication, transaction notifications, payment confirmations, fraud alerts and other real-time customer communications.
Startup India & MSME Digitisation Intitiatives (Ongoing)	Government initiatives under Startup India and broader MSME digitalisation programmes support entrepreneurship, formalisation and adoption of digital technologies by startups and small and medium enterprises [DPIIT / Government of India].	Expansion of the digitally enabled startup and MSME base broadens the addressable market for self-service communication platforms, API-based messaging, voice services and omnichannel customer engagement solutions.
E-Governance and Cloud-enabled Digital Government Infrastructure (Ongoing)	Government initiatives continue to promote digital service delivery, e-governance and scalable technology infrastructure for public services. Digital platforms such as DigiLocker and UMANG have expanded the delivery of government services through digital channels [Government of India].	Increasing digital delivery of public services creates requirements for authentication, notifications, citizen alerts, service updates and transactional communications.
Digital Personal Data Protection ("DPDP") Act, 2023 and Rules, 2025	The DPDP Rules, 2025 were notified on November 14, 2025 and establish detailed requirements under the DPDP framework relating to processing and protection of digital personal data. The framework does not impose blanket domestic storage of all personal data; cross-border transfers are governed through prescribed restrictions, while sector-specific regulations may impose additional data localisation or handling requirements [MeitY, 2023–25].	CPaaS providers processing personal data are required to strengthen data governance, consent management, security safeguards, breach management and compliance processes. Providers serving regulated sectors may also require differentiated hosting and data-handling arrangements.
TRAI Commercial Communication Framework and SMS Template Controls	TRAI's Telecom Commercial Communications Customer Preference Regulations, 2018 ("TCCCPR") and subsequent directions establish requirements relating to commercial communications, sender registration, consent and content-template governance. In November 2025,	Strengthened template governance, consent controls and traceability increase technology and compliance requirements for CPaaS providers and reduce the ability of non-compliant platforms to originate commercial communications.

	TRAI issued a direction mandating pre-tagging of variables in SMS content templates, with the requirement applying to new templates from January 15, 2026 and a transition period for existing templates [TRAI, 2018–26].	
Dedicated Numbering Series for Enterprise and Institutional Communications (2025–26)	TRAI has introduced dedicated numbering mechanisms for certain service and transactional communications. In August 2026, TRAI initiated phase-wise implementation of the 1601-series for service and transactional calls by entities in the utilities, courier and logistics sectors, following earlier implementation of dedicated numbering arrangements for specified entities [TRAI, 2025–26].	Dedicated numbering and authentication mechanisms increase traceability of enterprise communications and may support greater consumer confidence in legitimate service and transactional calls, while requiring CPaaS providers and enterprise customers to adapt their communication infrastructure.
Government e-Marketplace ("GeM") and Public Procurement	GeM has emerged as a major digital public procurement platform. Its cumulative Gross Merchandise Value ("GMV") exceeded ₹20 lakh crore by August 2026, while annual GMV exceeded ₹5 lakh crore in each of FY2024–25 and FY2025–26 [Ministry of Commerce & Industry / PIB, 2026].	GeM provides a structured digital procurement channel through which eligible technology and communication service providers can participate in government procurement, subject to applicable registration, bidding and procurement requirements.

Regulatory and Compliance Framework

Regulation / Standard	Regulatory Requirement	Industry Impact
TRAI TCCCPR, 2018 and Subsequent Directions	TRAI's framework governing commercial communications establishes requirements relating to sender registration, consent management, content-template governance, prevention of unsolicited commercial communication ("UCC") and traceability. Subsequent directions have further strengthened controls over commercial SMS and voice communications [TRAI, 2018–26].	CPaaS providers require integrated mechanisms for sender onboarding, consent, template management, communication traceability and regulatory compliance. Non-compliant communications may be subject to delivery restrictions or other regulatory action.
TRAI Direction on Pre-tagging of Variables in SMS Templates (2025–26)	TRAI issued a direction in November 2025 requiring variables in SMS content templates to be pre-tagged, with the requirement applicable to new templates from January 15, 2026, together with a transition mechanism for existing templates [TRAI, 2025–26].	Requires CPaaS platforms and enterprise customers to strengthen template validation, governance and compliance controls, increasing the importance of automated regulatory checks within messaging platforms.
TRAI Dedicated Numbering Series – 1600 / 1601 (2025–26)	TRAI has implemented dedicated numbering arrangements for specified service and transactional communications and expanded the framework in August 2026 through phase-wise implementation of the 1601-series for utilities, courier and logistics entities [TRAI, 2025–26].	Enhances authentication and traceability of enterprise voice communications and requires appropriate integration of numbering, calling and compliance processes by communication service providers.
Digital Personal Data Protection Act, 2023 and Rules, 2025	The framework establishes obligations relating to processing and protection of digital personal data, including consent, security safeguards, breach management and rights of data principals. Cross-border transfers are subject to prescribed restrictions, while sector-specific requirements may apply separately [MeitY, 2023–25].	CPaaS providers processing personal data need appropriate data governance, security, access controls, consent mechanisms and compliance processes. The framework may also increase technology and compliance costs.
RBI Digital Payment Authentication Framework	RBI's digital payment framework requires appropriate additional-factor or multi-factor authentication for applicable electronic payment transactions. SMS-based OTP has historically been a widely used authentication factor, while RBI has also considered alternative risk-based mechanisms including behavioural biometrics, digital tokens and in-app authentication [RBI].	Supports continued demand for authentication and transactional communication capabilities while encouraging CPaaS providers to support multiple authentication channels and evolving payment-security requirements.

Information Technology Act, 2000	The Information Technology Act, 2000 contains provisions relating to reasonable security practices, protection of computer resources, confidentiality and unlawful disclosure of information, including provisions applicable to entities handling information in electronic form [Government of India / India Code].	CPaaS platforms require appropriate information-security controls, access management, confidentiality measures, audit mechanisms and safeguards against unauthorised access or disclosure.
Consumer Protection Act, 2019	The Consumer Protection Act, 2019 provides a framework for consumer protection and redressal in relation to deficient services and certain unfair or unauthorised commercial practices [Government of India].	CPaaS providers and enterprise customers require appropriate complaint-handling, service-quality and communication-governance mechanisms, particularly for consumer-facing applications.
Sector-specific Regulatory Requirements	CPaaS services provided to regulated sectors such as BFSI may be subject to additional requirements issued by regulators including RBI, alongside applicable telecommunications, cybersecurity, data-protection and sectoral regulations.	Sector-specific requirements may necessitate differentiated data handling, security, authentication, audit, reporting and hosting arrangements, increasing compliance requirements for CPaaS providers serving regulated customers.

Policy and Regulatory Implications for the Industry

Government initiatives relating to digitalisation, digital public infrastructure, artificial intelligence, digital payments, broadband expansion and e-governance have expanded the underlying demand for enterprise, government and transactional communications in India. Programmes and platforms associated with Digital India, AI adoption, UPI-led payment digitisation and digital government service delivery have increased the scale of digital interactions across public administration, BFSI, fintech, e-commerce and enterprise applications. The expansion of API-enabled digital services and high-speed connectivity further supports the adoption of programmable messaging, voice, authentication and omnichannel communication capabilities.
At the same time, the regulatory environment for digital communications has become more structured. TRAI's commercial communication framework and subsequent directions relating to sender registration, consent, SMS template governance, UCC controls and dedicated numbering arrangements have increased requirements for communication traceability and compliance. The introduction of pre-tagging requirements for SMS variables and the phased implementation of dedicated numbering series further strengthen the ability of the regulatory framework to distinguish and monitor legitimate enterprise communications.

The Digital Personal Data Protection Act, 2023 and Rules, 2025 have further strengthened the framework governing the processing and protection of digital personal data. The framework requires organisations to establish appropriate processes for consent, security safeguards, breach management and data-principal rights, while cross-border processing is subject to prescribed restrictions. Sector-specific regulatory frameworks may impose additional requirements relating to data storage, processing, security and localisation.

The regulatory environment therefore contributes both to industry demand and higher compliance requirements. CPaaS providers increasingly require capabilities covering consent management, sender and template governance, authentication, data protection, information security and communication traceability. These requirements may increase technology, infrastructure and compliance costs; however, they also contribute to greater formalisation of the communications ecosystem and raise the importance of reliable, compliant and scalable platforms for mission-critical enterprise and government communications.
Overall, the policy environment remains supportive of the continued digitisation of communications in India, while the regulatory framework is expected to require CPaaS providers to continuously adapt their technology architecture, compliance processes and data-governance practices in line with evolving telecommunications, digital-payment and data-protection requirements.

8. TECHNOLOGY AND DIGITAL TRANSFORMATION

The Communications Platform as a Service (CPaaS) industry is undergoing rapid technological transformation, driven by rising transaction volumes, regulatory complexity, real-time communication requirements, and enterprise demand for scalable, API-driven digital infrastructure. Modern CPaaS platforms are evolving beyond basic messaging delivery into integrated communication orchestration layers that combine cloud-native architecture, AI-driven automation, analytics, and compliance-by-design frameworks. Technology adoption within CPaaS is therefore focused on improving delivery reliability, regulatory adherence, latency performance, and lifecycle management across high-volume, mission-critical communication workflows.

1. API-First Architecture and Platform Orchestration

CPaaS platforms are built on API-first, microservices-based architectures that enable seamless integration with enterprise applications, government platforms, fintech systems, and digital service ecosystems. RESTful APIs allow enterprises to embed messaging, voice, email, and OTT communication directly into transaction flows, authentication processes, and customer engagement journeys. Modular architecture enables rapid scaling across channels and geographies while maintaining service continuity. API orchestration layers also support routing logic, failover mechanisms, and dynamic

channel selection, improving delivery reliability for time-sensitive communications. This architecture positions CPaaS platforms as foundational digital infrastructure rather than standalone communication tools.

2. Cloud-Native Infrastructure and Elastic Scalability

Cloud-native deployment enables CPaaS platforms to handle large-scale, variable communication volumes with high availability and low latency. Containerisation, auto-scaling, and distributed cloud infrastructure allow platforms to support peak loads during OTP spikes, promotional campaigns, and government notification events. India-hosted cloud environments are increasingly prioritised to meet data localisation and regulatory requirements. Cloud-native design also supports faster feature deployment, cost optimisation, and resilience through multi-zone redundancy. These capabilities are critical for supporting BFSI, government, and enterprise use cases that demand near-zero downtime.

3. AI-Driven Communication Intelligence

Artificial intelligence and machine learning are increasingly embedded across CPaaS platforms to enhance communication efficiency and user experience. AI-driven routing engines optimise message delivery based on carrier performance, time-of-day rules, and historical success rates. Natural language processing (NLP) enables conversational AI, voice bots, and multilingual chatbots for customer support and government helplines. Predictive analytics are used to identify delivery risks, detect anomalous traffic patterns, and improve spam filtering. AI capabilities improve engagement outcomes while reducing operational costs and manual intervention.

4. Omnichannel Communication Enablement

CPaaS platforms are evolving into omnichannel communication hubs supporting SMS, voice, email, WhatsApp, RCS, and app-based notifications through a unified interface. Channel abstraction allows enterprises to manage multiple communication modes through a single integration, simplifying development and compliance management. Omnichannel orchestration supports fallback logic, ensuring message delivery even when a primary channel fails. This capability is increasingly critical as enterprises diversify authentication and engagement channels in response to regulatory, cost, and customer preference considerations.

5. Real-Time Analytics and Performance Monitoring

Advanced analytics engines provide real-time visibility into delivery rates, latency, failure patterns, and channel performance across millions of transactions. Dashboards enable enterprises and CPaaS operators to monitor SLA adherence, campaign effectiveness, and regulatory compliance metrics. Event-level logging supports forensic analysis, dispute resolution, and audit readiness. Data-driven insights also inform pricing optimisation, capacity planning, and infrastructure investment decisions. Analytics-driven operations enhance platform reliability and support enterprise-grade service commitments.

6. Automation of Compliance and Consent Management

Digital compliance platforms are integral to CPaaS operations, particularly in regulated environments. Automated workflows manage sender registration, template approvals, consent capture, consent revocation, and audit trails in alignment with telecom and data protection regulations. Compliance-by-design reduces manual errors, improves regulatory responsiveness, and minimises service disruption risks. Centralised documentation and automated validation support faster onboarding of enterprise clients and smoother regulatory inspections. Compliance automation has become a core differentiator for organised CPaaS providers.

7. Security Architecture and Data Protection Frameworks

CPaaS platforms implement multi-layered security frameworks covering encryption, access controls, identity management, and continuous monitoring. Security-by-design principles are applied across data storage, message processing, and API access layers. India-hosted infrastructure supports data residency requirements for sensitive personal and transactional data. Regular audits, penetration testing, and security certifications strengthen trust among BFSI, government, and enterprise customers. Robust security architecture is essential for sustaining large-scale transactional communication volumes.

8. Emerging Technologies and Next-Generation Capabilities

Emerging technologies such as edge computing, network APIs, and real-time media processing are shaping the next phase of CPaaS evolution. Edge deployment enables ultra-low-latency messaging and voice use cases in sectors such as healthcare, logistics, and industrial operations. Network API exposure allows CPaaS platforms to access carrier-level capabilities, including quality-of-service controls and advanced authentication. As communication requirements become more contextual and real-time, these technologies prepare CPaaS platforms for future digital service mandates and evolving enterprise expectations.

Technology and digital transformation have positioned CPaaS platforms as critical digital infrastructure layers supporting high-frequency, regulated, and mission-critical communication workflows. Continuous investment in cloud-native architecture, AI-driven intelligence, omnichannel orchestration, compliance automation, and security frameworks enables CPaaS providers to scale reliably while meeting stringent regulatory and performance requirements. As enterprises and governments deepen their reliance on digital communication, technology-led CPaaS platforms are expected to play an increasingly central role in India's digital economy ecosystem.

9. COMPETITIVE LANDSCAPE

The Communications Platform as a Service (CPaaS) industry in India operates within a multi-layered competitive environment comprising global cloud communication providers, telecom-integrated platforms, regional aggregators, and application-focused CPaaS specialists. Competitive intensity is driven less by pricing and more by platform reliability, regulatory compliance, scalability, security architecture, and the ability to support high-volume, mission-critical enterprise communication workflows. As enterprise adoption deepens across BFSI, e-commerce, healthcare, logistics, and government services, differentiation increasingly hinges on compliance maturity, delivery assurance, and long-term platform integration rather than transactional messaging volumes.

9.1 Key Factors Shaping Competition

Competition in the CPaaS industry is driven by the ability to deliver secure, compliant, and scalable communication infrastructure within a complex telecom and data protection environment. Market participants differentiate through platform reliability, regulatory readiness, integration depth, vertical relevance, and long-term client engagement, rather than pricing or message volumes alone.

1. **Platform Reliability and Uptime Assurance**

   Enterprise communication use cases increasingly require near-continuous availability for transactional alerts, authentication, customer engagement, and service notifications. Providers with resilient cloud architecture, multi-operator routing, and built-in failover mechanisms are preferred, particularly in regulated and mission-critical segments such as banking, payments, healthcare, and government services.

2. **Regulatory and Telecom Compliance Capability**

   Adherence to TRAI regulations, spam control frameworks, customer consent requirements, and evolving data protection obligations is a core competitive determinant. CPaaS providers with embedded compliance workflows, audit-ready reporting systems, and active regulatory monitoring are better positioned to onboard large enterprises and institutional clients with stringent governance requirements.

3. **Scalability and Traffic Management**

   The ability to manage high-volume and peak-load communication traffic—especially during campaigns, seasonal spikes, or transaction surges—constitutes a key differentiator. Platforms demonstrating elastic scaling, intelligent queue management, and throughput stability are favoured for enterprise-wide deployments and mission-critical communication flows.

4. **API Depth and Developer Ecosystem**

   Comprehensive APIs, SDKs, and integration frameworks enable faster enterprise onboarding and deeper system embedding. CPaaS platforms that integrate seamlessly with CRM, ERP, payment, and identity systems achieve higher operational dependency, increased switching costs, and stronger long-term client retention.

5. **Security Architecture and Data Protection**

   Handling of sensitive personal and transactional data places security at the centre of competitive positioning. Providers with strong encryption standards, access controls, monitoring frameworks, and incident response mechanisms—aligned with data localization and enterprise security expectations—gain credibility with regulated and compliance-driven customers.

6. **Vertical-Specific Solution Capability**

   Industry-aligned communication workflows for BFSI, e-commerce, logistics, healthcare, and public services enhance platform differentiation. Providers offering pre-configured, compliance-aligned messaging templates and sector-specific reporting frameworks achieve faster adoption and deeper integration within client operations.

7. Lifecycle Client Engagement Model

Beyond message delivery, competitive advantage increasingly stems from the ability to support clients across onboarding, optimisation, compliance updates, analytics, and platform evolution. CPaaS providers with consultative engagement and lifecycle support models demonstrate higher client retention and sustained revenue expansion.

9.2 Competitive Strategies

CPaaS providers deploy targeted strategies to sustain growth in a compliance-intensive, technology-driven operating environment. Successful platforms balance continuous innovation with regulatory discipline, while aligning infrastructure investments, product design, and go-to-market models with evolving enterprise communication requirements.

1. Compliance-First Platform Design

Leading CPaaS providers architect compliance as a core platform feature rather than a post-deployment overlay. Consent management, sender and template controls, audit logs, and real-time regulatory reporting are embedded directly into message workflows. This approach reduces compliance burden and operational risk for enterprise clients, positioning the platform as a trusted, regulation-aligned communication backbone rather than a commodity messaging layer.

2. Infrastructure-Led Differentiation

Providers invest in resilient cloud architecture, multi-operator connectivity, geographic redundancy, and intelligent traffic routing to ensure consistent delivery performance. Infrastructure depth enables platforms to support high-criticality use cases such as authentication, financial alerts, and service notifications at scale. Strong infrastructure capability also underpins the ability to service large, long-tenure enterprise contracts with stringent uptime and latency expectations.

3. Enterprise Integration and Platform Stickiness

Strategic focus is placed on deep integration with enterprise systems such as CRM, ERP, payment gateways, identity platforms, and customer support tools. Tight system embedding enables CPaaS services to become integral to core business processes, increasing switching costs and shifting client relationships from usage-based engagement to long-term platform partnerships.

4. Vertical Expansion Strategy

CPaaS providers increasingly prioritise high-value, compliance-sensitive verticals such as BFSI, fintech, e-commerce, healthcare, logistics, and government services. Vertical specialisation allows platforms to develop domain-specific workflows, regulatory familiarity, and reference deployments. This reduces solution commoditisation, improves execution reliability, and strengthens credibility in institutional procurement processes.

5. Security and Trust Positioning

As CPaaS platforms handle sensitive personal and transactional data, providers strengthen their security posture through robust encryption, access controls, monitoring frameworks, and governance processes. Security certifications, transparent policies, and incident-response readiness enhance trust among regulated enterprises, where vendor credibility and risk management are central to procurement decisions.

6. Partner and Ecosystem Development

Strategic alliances with telecom operators, cloud infrastructure providers, system integrators, and application vendors extend market reach and solution completeness. Ecosystem partnerships enable faster enterprise deployments, improved interoperability, and bundled solution offerings, supporting participation in large-scale digital transformation initiatives.

7. Geographic and Regulatory Expansion

Providers pursue measured geographic expansion by aligning platform capabilities with local telecom regulations, data protection laws, and operational requirements. Regulatory adaptability and modular platform design enable sustainable expansion while minimising compliance risk, operational disruption, and reputational exposure in new markets.

9.3 Barriers to Entry

The Indian CPaaS industry demonstrates high structural and operational entry barriers, particularly for platforms targeting enterprise, BFSI, fintech, healthcare, and government segments. Market participation increasingly favours providers with proven

infrastructure, compliance maturity, operational credibility, and domain-specific expertise. New entrants face a combination of regulatory, technical, and commercial hurdles that extend beyond simple capital investment.

1. Telecom and Regulatory Complexity

New platforms must navigate a multilayered regulatory environment including TRAI messaging and consent frameworks, TCCCPR compliance, DLT registration, and evolving data protection obligations under the DPDP Act. Enterprises increasingly demand audit-ready, regulation-compliant communication channels, which imposes a steep learning curve and high operational risk for entrants unfamiliar with India-specific norms.

2. Infrastructure Investment Requirements

Delivering enterprise-grade CPaaS necessitates significant investment in resilient cloud architecture, multi-operator routing, failover systems, traffic orchestration, and monitoring frameworks. Platforms must be capable of sustaining high-volume, low-latency transactional workloads such as OTPs, payment alerts, and critical service notifications. Underinvestment in these areas results in unreliable delivery and client attrition.

3. Trust and Enterprise Credibility

Large enterprises prioritise platforms with a track record of consistent delivery, regulatory adherence, and security governance. Establishing credibility requires referenceable deployments, operational transparency, and demonstrable risk management. New entrants without such proof points face a long gestation period before winning contracts in regulated sectors.

4. Security and Data Protection Obligations

Handling sensitive personal and financial data necessitates robust encryption, access controls, continuous monitoring, audits, and compliance-aligned governance frameworks. Non-compliance or operational lapses carry not only regulatory penalties but also reputational damage, making security a critical barrier to entry for smaller or under-resourced platforms.

5. Integration and Ecosystem Dependencies

Effective CPaaS delivery depends on deep technical and commercial integrations with telecom operators, aggregators, cloud infrastructure providers, and enterprise systems. Established players benefit from long-standing vendor relationships, preferential routing agreements, and proven interoperability, which new entrants must replicate at scale to achieve comparable reliability and reach.

6. Talent and Operational Expertise

Operating large-scale CPaaS platforms requires specialised expertise in telecom operations, cloud architecture, software development, compliance, and enterprise support. The scarcity of such talent in combination with the steep operational learning curve limits the ability of inexperienced entrants to scale quickly while maintaining enterprise-grade service levels.

7. Customer and Market Stickiness

Enterprise clients exhibit high switching costs due to integration, compliance alignment, and operational continuity requirements. Established CPaaS providers benefit from long-term engagements and recurring transaction volumes, creating a natural moat that discourages new competitors from entering high-value segments without significant upfront investment and proof of capability.

9.4 Consolidation Trends

The Indian CPaaS industry is undergoing gradual and selective consolidation, driven by rising compliance expectations, infrastructure scale advantages, and enterprise preference for reliable, long-term communication partners. Consolidation is increasingly capability-led, favouring platforms that combine regulatory expertise, secure infrastructure, and enterprise-grade service delivery. Smaller, niche providers continue to operate in specialised or transactional segments, while larger, organised platforms capture mission-critical workloads.

1. Shift Toward Organised Platforms

Enterprise clients and regulated sectors such as BFSI, fintech, healthcare, and government increasingly prioritise providers with demonstrable compliance, security, and uptime performance. This preference concentrates demand among established platforms that can consistently deliver high-volume, low-latency communication across multi-channel enterprise workflows.

2. Capability-Driven Consolidation

Leading CPaaS providers are strengthening their market position by integrating complementary capabilities, including AI-driven analytics, real-time authentication APIs, fraud detection, and security services. Such consolidation enables end-to-end enterprise communication solutions, reducing dependency on fragmented vendors and enhancing client stickiness.

3. Rising Procurement Thresholds

Enterprise and institutional procurement increasingly mandates robust technical, security, and compliance credentials, including audit-ready systems, data localisation, consent frameworks, and scalable cloud architecture. These heightened requirements narrow the pool of eligible vendors, reinforcing the dominance of infrastructure-backed, compliance-mature platforms.

4. Strategic Alliances Over Pure M&A

Mid-scale and regional CPaaS providers often prefer partnerships, API integrations, and ecosystem collaborations over balance-sheet-heavy acquisitions. Strategic alliances with cloud providers, telcos, system integrators, and application vendors expand service reach, accelerate go-to-market execution, and enable capability aggregation without heavy capital deployment.

5. Long-Term Client Relationships

Repeat contracts, embedded enterprise integrations, and consultative engagement models reinforce consolidation by favouring incumbents with proven performance, regulatory reliability, and operational continuity. Platform lock-in and embedded workflow adoption further reduce the competitive threat from newer entrants.

6. Overall Assessment

Consolidation in the CPaaS industry is selective, structural, and capability-driven, resulting in increasing concentration of enterprise and compliance-sensitive communication workloads among organised, infrastructure-backed platforms. Smaller providers continue to serve niche or transactional segments, but large-scale, regulated, and mission-critical workloads are increasingly dominated by mature players with integrated platforms, security certifications, and regulatory alignment.

The CPaaS industry in India is transitioning from volume-driven messaging models to enterprise-grade, compliance-centric communication platforms. Competitive advantage is increasingly anchored in platform reliability, regulatory alignment, security architecture, and deep enterprise integration, rather than pricing alone. Growth opportunities remain strong across digital commerce, financial services, government e-governance, and large-scale fintech operations. However, sustained success depends on compliance maturity, platform resilience, operational credibility, and trust-based client relationships. Providers that combine technological scale with regulatory discipline are best positioned to capture long-term value, as CPaaS evolves into a core digital utility for enterprise and mission-critical communication infrastructure.

9.5 Key Industry Players

The Communications Platform as a Service ("CPaaS") industry in India comprises a spectrum of organised entities operating across the digital communication value chain. This landscape includes global hyperscalers providing programmable communication APIs, telco-integrated platforms leveraging network assets, India-headquartered pure-play CPaaS providers focused on compliance and enterprise messaging, and specialised application platforms. These participants enable enterprise digital transformation, financial services digitisation, e-governance, and high-volume customer engagement across BFSI, e-commerce, government services, and digital-first enterprises. Key industry participants include Tanla Platforms Limited and Route Mobile Limited. Brief profiles of these entities are set out below.

- **Tanla Platforms Limited**

Tanla Platforms Limited, incorporated on July 26, 1999 and headquartered in Hyderabad, Telangana, is India's leading A2P messaging platform and a global player in cloud communications, processing high-volume enterprise messages for thousands of clients worldwide. The company delivers mission-critical communication infrastructure through its Trubloq platform, pioneering AI-powered anti-phishing and enterprise messaging solutions.

Tanla's core offerings include Trubloq, an AI-native communication platform integrating Users.ai (user protection) and Enterprise.ai (enterprise engagement), featuring end-to-end encryption, DLT/TRAI compliance, and zero-trust security. Its Wisely ATP platform provides AI/ML-based SMS anti-phishing with patent-pending engines to prevent phishing at source. The company also offers omnichannel communication through SMS, WhatsApp Business, RCS, Google Business Messages,

email, and voice, augmented by rich media and conversational AI. Additionally, Tanla provides anti-fraud solutions, including real-time scam detection, number intelligence, and behavioural analytics to protect BFSI and digital-native enterprises.

Strategic differentiators for Tanla include AI-first platform architecture, TRAI DLT 2.0 and DPDP Act compliance, SOC2 and ISO 27001 certification, scalable infrastructure supporting mission-critical workflows, and strong partnerships with government and enterprise clients. Tanla Platforms exemplifies enterprise-grade CPaaS leadership, combining AI innovation, compliance maturity, scalable infrastructure, and mission-critical reliability to support India's digital communication ecosystem.

- **Route Mobile Limited**

Route Mobile Limited, incorporated on March 20, 2004 and headquartered in Mumbai, Maharashtra, is a global CPaaS provider operating a proprietary super-network connecting hundreds of telecom operators across multiple countries and languages. The company delivers scalable, compliant cloud communication services to thousands of enterprise clients, supporting mission-critical transactional and engagement workflows.

Route Mobile's core offerings include Route OCEAN, a unified CPaaS platform integrating SMS, Voice, WhatsApp Business API, RCS, Viber, Email, OTT messaging, and rich media communications. The company also provides Enhanced Business Messaging (EBM) through interactive formats on WhatsApp, RCS, Google Business Messages, and Viber, Route Shield Firewall for A2P traffic intelligence and fraud detection, and Identity & Authentication solutions including OTP delivery, number masking, verification APIs, KYC compliance, and fraud prevention. Its Enterprise APIs enable low-latency REST API, SMPP, webhooks, and SDK integration with CRM/ERP systems.

Strategic differentiators for Route Mobile include an extensive super-network with multi-route redundancy, TRAI DLT 2.0 compliance, ISO 27001 and SOC2 certification, GDPR/TCPA readiness, omnichannel messaging capabilities, and AI-powered analytics for operational and telco revenue optimisation. Route Mobile exemplifies global-scale CPaaS leadership, combining carrier connectivity, enterprise-grade reliability, omnichannel depth, and regulatory compliance to deliver mission-critical communication solutions across India and international markets.

These industry participants illustrate the organised segment of India's CPaaS ecosystem. Tanla Platforms Limited focuses on AI-driven enterprise messaging and anti-fraud solutions for BFSI, technology, and government sectors, while Route Mobile Limited provides a globally distributed, omnichannel CPaaS platform with extensive carrier connectivity and enterprise integrations. Together, these leaders demonstrate platform scalability, compliance maturity, innovation, and mission-critical delivery across India's digital communication infrastructure.

Qualitative Comparison of CPaaS Platforms:

Category / Capability	Dove Soft Limited	Route Mobile	Tanla Platforms
Messaging & Omnichannel Communication	✓ SMS, RCS, WhatsApp, Instagram, multimedia, email (bulk & transactional), conversational messaging	✓ SMS, RCS, WhatsApp, Viber, OTT, enterprise email APIs	✓ SMS, RCS, WhatsApp Business API, Google Business Messages, email campaigns via Karix
Voice Solutions	✓ AI Voice Bots, 40+ languages	✓ IVR, OTP calls, call routing	✓ APIs for programmable voice
AI & Intelligent Engagement	✓ Agentic AI, NLP-powered chatbots, intelligent workflow optimization, delivery analytics	✓ Route ONE AI/ML platform, analytics for traffic optimization	✓ Users.ai for intelligent customer interactions, real-time analytics
Security, Identity & Anti-Fraud	✓ Sekura.id (SIM-crypto, authentication APIs), basic 2FA / fraud detection	✓ OTP / 2FA services, Route Shield Firewall for A2P fraud monitoring	✓ OTP Authenticator API, Trubloq leader 99%+ efficacy
Platform Integration & Management	✓ CPaaS 2.0 unified wallet, developer APIs, HTTP/SMPP integration	✓ Unified CPaaS console, SDKs, webhooks, REST/SMPP	✓ Trubloq portal, CRM sync, Single API/SDK support, REST APIs, SMPP
Compliance & Regulatory Alignment	✓ India-focused DPDP, SOC2/ISO 27001	✓ TRAI DLT 2.0, GDPR/TCPA ready, SOC2/ISO 27001	✓ TRAI DLT 2.0, DPDP, SOC2/ISO 27001
Global Connectivity & Reach	✓ India + Dubai connectivity, SEA/ME/Africa expansion	✓ 900+ MNOs, multi-route redundancy, 20+ countries global reach	✓ Strong Asia/Africa/Europe presence, select international offices

Enterprise Verticals Served	✓ PSUs (GAIL/ICAR), retail, media, e-commerce	✓ BFSI, retail, healthcare, OTT, government	✓ BFSI (24/30 top), government, e-commerce, healthcare

9.6 Company Positioning

Dove Soft Limited (the "Company"), headquartered in Mumbai, Maharashtra, India, is engaged in the provision of cloud-based communication platform as a service ("CPaaS") solution, enabling enterprises and public sector institutions to manage and automate customer communications across multiple digital and voice-based channels. Incorporated in 2011, the Company operates a technology-led, platform-driven business model focused on omnichannel customer engagement and enterprise messaging solutions.

Over time, the Company has evolved from a messaging-centric service provider into an integrated CPaaS platform offering, supporting customer interactions across the full lifecycle, including marketing communication, authentication and verification, service delivery, customer support and post-purchase engagement. The Company's offerings are designed to be deployed through application programming interfaces ("APIs") and system integrations, allowing customers to embed communication capabilities within their internal applications and business workflows.

The Company's solution portfolio comprises SMS and OTP messaging, Rich Communication Services ("RCS"), WhatsApp Business API solutions, voice and AI-enabled voice bots, enterprise email communication tools, and mobile identity verification services through its Sekura.id platform. These solutions support transactional, promotional, service and automation-led use cases and are deployed across a range of enterprise and institutional requirements.

The Company operates an omnichannel platform architecture that integrates multiple engagement channels, including messaging, voice and email, with an intelligence layer comprising analytics, campaign management tools, workflow orchestration and integrations with third-party customer relationship management, e-commerce and enterprise software platforms. This architecture enables enterprises to centralise communication workflows, monitor engagement performance and manage customer interactions through a unified platform.

Dove Soft services a diversified customer base across private enterprises and public sector institutions. Its customers operate across sectors such as media and entertainment, retail and consumer goods, automotive, manufacturing, banking and financial services, and government-backed institutions. This sectoral diversification supports demand across both consumer-facing communication use cases and compliance-driven enterprise messaging requirements.

The Company conducts its operations through offices located in Mumbai, Ahmedabad, Gurugram and Dubai, supporting domestic and international customer engagement. Its global operating presence is further supported through its subsidiary, Dovesoft Tech, which extends the Company's reach across additional geographies and enterprise segments.

The Company follows an asset-light, cloud-native operating model, with core activities centred on platform development, product management, enterprise integration, compliance oversight and customer support. Service delivery is enabled through internal technical and engineering teams, supported by partnerships with telecommunications carriers and cloud infrastructure providers. This operating structure allows scalability while limiting capital intensity and fixed asset ownership.

The Company's solutions are positioned to support enterprises across the entire customer engagement lifecycle, including customer acquisition, pre-purchase communication, identity verification, service automation, transactional messaging, and post-purchase engagement and personalisation. This end-to-end positioning enables enterprises to consolidate multi-channel communication requirements within a single platform.

Through its integrated CPaaS offerings, omnichannel platform architecture, diversified customer base, multi-geographic presence and asset-light operating model, Dove Soft Limited is positioned as a provider of scalable digital communication and customer engagement solutions catering to evolving enterprise and institutional communication requirements.

9.7 SWOT Analysis

Strengths (Internal / Competitive Advantages)	Weaknesses (Internal / Limitations)
✓ TRAI DLT Regulatory Moat **TRAI's DLT regulations have cut spam by over 60%, creating a safer and more trusted messaging environment. Compliant CPaaS platforms benefit because enterprises prefer platforms that follow the rules, reducing grey-market messaging risks.** **✓ Digital India API Demand** **The Indian government runs over 3,000 digital services that send notifications and OTPs. CPaaS companies that integrate with these APIs can handle large volumes of citizen communication, making them essential partners for government services.** **✓ UPI Transactional Surge** **UPI handles 15 billion transactions daily, generating massive volumes of OTPs and alerts. CPaaS platforms that manage these transactional messages become critical for the banking and fintech sectors.** **✓ DPDP Localisation Edge** **The new DPDP rules require sensitive data to be stored locally. CPaaS companies that comply build trust with banks, government, and regulated clients, which is a strong competitive advantage.** **✓ RCS Mandate Alignment** **TRAI's UCC mandate for RCS messaging in 2026 means over a billion users will transition from SMS to richer messaging formats. Platforms ready for this can offer advanced features like interactive buttons, media, and analytics.**	**✕ 70% Telco Payouts** Most of the revenue from messaging goes to telecom operators. This reduces profit margins and makes CPaaS businesses sensitive to volume and pricing fluctuations. **✕ DLT Audit Costs** Compliance with TRAI DLT rules adds operational costs of 20–25%, including audits and reporting overhead. Small players may struggle to manage this efficiently. **✕ 3–6 Month Onboarding** Integrating enterprise CRM systems or APIs can take months due to customization, testing, and approval cycles, slowing revenue generation from new clients. **✕ Talent Shortage** There is a shortage of AI, ML, and DLT experts. Limited skilled manpower makes it hard to innovate and scale quickly, especially in Bengaluru and Hyderabad hubs.

Opportunities (External / Market Realities)	Threats (External / Sector Challenges)
🌱 RCS Universal Rollout **With TRAI mandating RCS for over a billion users, CPaaS companies can provide advanced messaging solutions beyond SMS, including media, interactivity, and analytics.** **🌱 PSU Digital Tenders** **More than 300 government enterprises are standardizing digital APIs. CPaaS providers that meet compliance requirements can secure long-term, high-volume contracts.** **🌱 5G Real-Time Use** **By 2027, 5G coverage will reach 80% of the population. Faster networks enable real-time messaging, video, and interactive services, opening new product opportunities.** **🌱 e-Gov Expansion** **Government programs like Ayushman Bharat require notifications at scale. CPaaS companies ready to manage these communications gain stable, high-volume workflows.**	**⚠ ₹250Cr DPDP Fines** Violating data localisation rules can attract heavy penalties, creating legal and financial risks for non-compliant platforms. **⚠ TRAI UCC Blacklisting** Non-compliance with messaging traceability rules could lead to blacklisting, preventing a platform from serving enterprises. **⚠ 40% Phishing Rise** Increasing phishing attacks on A2P channels require advanced anti-fraud measures; failure to manage risks can drive clients away. **⚠ 3% Network Failures** Network congestion or telco outages can affect message delivery, causing SLA breaches and reputational risks.

10. FUTURE OUTLOOK

The Communications Platform as a Service (CPaaS) industry in India is expected to witness strong structural growth over the medium to long term, supported by continued enterprise digitisation, increasing reliance on API-driven communication workflows, and rising demand for real-time, secure, and compliant customer engagement solutions. CPaaS platforms enable enterprises to integrate messaging, voice, authentication, notifications, and other communication functionalities directly into business applications, thereby supporting scalability, automation, and operational efficiency across industries.

The Indian CPaaS market is projected to expand from INR 1.17 lakh crore in 2026E to INR 10.32 lakh crore by 2036P, registering a compound annual growth rate (CAGR) of 24.28% over the period. The projected growth is expected to be driven by increasing adoption across banking, financial services and insurance, e-commerce, logistics, healthcare, government services, and digital-first enterprises, where high-volume, time-critical, and compliant communication has become integral to core operations.

Structural demand drivers include the continued shift toward digital customer journeys, rising usage of application-to-person (A2P) messaging and authentication, expansion of cloud-native enterprise platforms, and growing reliance on automated alerts, notifications, and conversational interfaces. Increasing smartphone penetration and rising acceptance of digital interactions among consumers are expected to further support sustained demand for CPaaS solutions across both large enterprises and mid-market customers.

The industry is also experiencing a gradual technology-led evolution, with CPaaS platforms increasingly incorporating advanced analytics and automation capabilities to enhance delivery performance, engagement effectiveness, and operational monitoring. Integration of communication APIs with enterprise systems such as customer relationship management platforms and internal workflow tools is expected to deepen platform embedment and increase switching costs, thereby supporting longer customer relationships.

Regulatory and ecosystem developments are expected to continue shaping industry dynamics. India's regulated telecom framework, including requirements related to consent management, message traceability, and template registration, has led to greater formalisation of enterprise messaging traffic. This environment is expected to favour CPaaS platforms with established compliance capabilities, scalable infrastructure, and operational reliability, as enterprises increasingly prioritise regulatory adherence and delivery assurance.

From a commercial perspective, the CPaaS industry benefits from recurring usage-based revenue models, expanding use cases per customer, and long-term enterprise relationships. As enterprises scale communication volumes and diversify channels, CPaaS platforms are expected to capture increasing share of customer communication spend, supporting revenue visibility and operating leverage over time.

The Indian CPaaS industry is entering a high-growth phase, underpinned by strong enterprise demand, regulatory formalisation, and continued digital transformation across sectors. With the market projected to grow at a CAGR of 24.28% between 2026 and 2036, CPaaS is expected to remain a critical component of enterprise digital infrastructure. Companies with scalable platforms, strong compliance frameworks, and deep enterprise integration capabilities are expected to be well positioned to benefit from the industry's long-term growth trajectory.

Business Overview

Our Company was originally incorporated as private limited Company under the name "Dove Soft Private Limited", under the provisions of the Companies Act, 1956 and Certificate of Incorporation was issued by the Registrar of Companies, Maharashtra, Mumbai on August 19, 2011. Subsequently, our Company was converted into a public limited company pursuant to shareholder's resolution passed at the general meeting of our Company held on August 17, 2022, and the name of our Company was changed to "Dove Soft Limited" and a fresh certificate of incorporation dated September 19, 2022, was issued by the Registrar of Companies, Mumbai. The Corporate Identification Number of our Company is U74900MH2011PLC221087. For details of change in registered office of our Company, please refer to chapter titled *"History and Certain Corporate Matters"* beginning on page no. 181.

Our Company is an integrated provider of cloud communications solutions in India. commonly known as a CPaaS (Communications Platform as a Service) provider. We offer a wide range of services through channels such as SMS, RCS, Voice, WhatsApp, Email, and other digital platforms. Our solutions enable businesses to communicate efficiently with their customers through reliable and scalable messaging and engagement tools.

We provide services to enterprises as well as over-the-top (OTT) platforms, including transactional SMS, WhatsApp messaging solutions, voice services, automated voice call solutions, email communication, and various digital products.

Our organization acts as an aggregator between telecom operators and clients, ensuring seamless connectivity and delivery of communication services.

We serve clients across multiple industries, including Telecom, Information Technology, Travel & Tourism, Entertainment, Media, Advertising & Events, Retail, Real Estate, Healthcare & Cosmetics, Banking, Financial Services & Insurance (BFSI), Automobile, E-commerce, and Food & Beverages. Our solutions help businesses effectively manage customer communication, enhance engagement, and streamline their operational processes.

Our sales team actively engages with existing and potential clients to promote our range of communication solutions. By understanding each client's marketing objectives and business requirements, we present the most suitable services from our existing portfolio.

Based on the client's specific needs, we design and propose a customized communication plan. Once the client approves the proposed strategy, our team proceeds with the implementation and execution of the plan to ensure effective delivery of services.

We are committed to delivering quality solutions that support our clients in achieving their business goals and maintaining efficient customer communication. Our organization is supported by a dedicated team of skilled technicians and professionals who ensure reliable service delivery and technical excellence.

The Company has two subsidiary entities, namely Dove Soft Technologies Private Limited and Dove Soft Global FZCO.

One of our Subsidiary Company is incorporated as "Dove Soft Technologies Private Limited" ("**DTL**") on September 06, 2021 as a private limited company under the provisions of the Companies Act, 2013 pursuant to Certificate of Incorporation issued by Registrar of Companies, Central Registration Centre. The Corporate Identification Number of our Company is U64200MH2021PTC367066. For more details regarding the directorship, shareholding, promoters of DTL, kindly refer to "*History and Other Certain corporate matters- Details of subsidiary or associate company*" on page 181 of the Red Herring Prospectus.

Another subsidiary company as "Dove Soft Global FZCO" was incorporated on April 29, 2025, in Dubai Silicon Oasis as a Free Zone Company (FZCO) with limited liability. The company was established in accordance with Dubai Law No. 16 of 2021 and the Dubai Integrated Economic Zones Authority (DIEZA) Implementing Regulations 2023. The company is registered under Registration Number 59644 and holds License Number 62116.

For the period fiscal years 2026, 2025, and 2024, DTL contributed 18.24%, 17.92% and 18.44%, and Dove Soft Global FZCO contributed 4.33 % for the period ended March 31st, 2026, to the consolidated revenue. The Company primarily operates in the telecommunications industry, providing services such as the transmission of voice, media files, and data through fibre optic cables. Additionally, the Company utilizes electronic global workstation networks, wireless communication systems, and satellite transmission technologies to deliver its services.

Dove Soft Technologies Private Limited (DTL) operates under a business model similar to that of the Company. DTL primarily provides services to Indian clients, who in turn cater to international customers.

The Dubai-based subsidiary, **Dove Soft Global FZCO**, is also engaged in providing Short Message Services (SMS), Information Technology network services, and data classification and analysis services.

***The negative values appearing against certain countries are primarily due to credit notes issued during the current financial year in respect of sales that were booked in the previous year. Since the original sales were recorded earlier, and the reversal (through credit notes) has been accounted for in the current year, it results in a net negative figure for those respective countries. Additionally, in some cases, there were no fresh sales transactions recorded in the current year for those countries. Therefore, only the impact of credit notes is reflected, leading to negative values.*

BRIEF DETAILS OF OUR BUSINESS SERVICES:

Our operations are internally aligned into the following business services:

1. SMS:

➢ ***Transactional SMS & OTP SMS***

Transactional SMS is a type of SMS sent to customers to share important information related to their account, services, or transactions. These messages are typically non-promotional, time-sensitive, and informative.

Operational Scenarios for Transactional SMS-

- **Order & Delivery Updates**
  Your order #12345 has been shipped and will be delivered by April 12.

- **Booking Confirmations**
  Your flight booking (PNR: A1B2C3) is confirmed for April 15 at 10:30 AM.

- **Account Notifications**
  Your monthly bank statement is now available. Login to your account to view it.

- **Appointment Reminders**
  Reminder: Your appointment with Dr. Smith is scheduled for April 13 at 2:00 PM.

- **Policy/Renewal Alerts**
  Your car insurance policy will expire on April 20. Please renew to stay covered.

OTP (One-Time Password) SMS is used to verify user identity during online transactions, registrations, or logins. These messages contain short-lived passcodes and are crucial for secure authentication.

Operational Scenarios for OTP SMS-

- **User Login Verification**
  Your OTP for login is 928374. It will expire in 5 minutes.

- **Transaction Approval**
  To authorize your fund transfer of ₹50,000, use OTP 472819.

- **New Device or Location Login**
  New login attempt detected. Enter OTP 624389 to confirm it's you.

- **Account Signup Verification**
  Welcome! Use OTP 183920 to verify your mobile number and complete registration.

- **Password Reset Authentication**
  Reset your password with this OTP: 590237. Valid for 10 minutes.

➢ ***Campaign Management***

Campaigning management is a process of organising and running each step of campaign from planning to execution. Effective campaign management tools are integral to successful campaign execution for companies globally. Whether one operates with a compact or expansive team, leveraging these tools is paramount for accelerating productivity and streamlining your daily operations.

For instance, a retail brand is planning to run a customer engagement campaign across India using mobile messaging channels to promote an upcoming seasonal sale. The brand already possesses a robust customer database segmented by region, purchase behaviour, and communication preferences.

This campaign involves multiple components such as designing tailored message content for SMS, WhatsApp, Rich Communication Services ("**RCS**"), and Voice; setting up personalized targeting based on user preferences; defining fallback rules (e.g., using SMS if RCS is not supported); and scheduling delivery timings for optimal engagement.

In addition, the campaign includes performance tracking, link click monitoring, and customer response collection to refine future outreach.

2. Voice

The Wholesale Voice Service offers voice technologies, enabling enterprises and operators to engage in global phone calls and integrate advanced voice features like text-to-speech, conferencing, recording, and transcription. Our extensive solution portfolio offers international wholesale voice-over-internet-protocol termination services as well as enterprise voice solutions. Leveraging our platform and APIs, both enterprises and operators can cater to their needs for contact centres, call tracking, analytics solutions, and seamless communications. Our wholesale voice service seamlessly operates over both traditional public switched telephone networks and internet protocols.

➢ ***Missed Call***

The missed call service serves as an engagement tool, allowing customers to provide inbound inputs through a straightforward and cost-free phone call. This tool can be deployed to gather responses or address inquiries, sending automated messages or scheduling calls with customers accordingly.

The missed call service operates by publishing a virtual mobile number across diverse mediums like billboards, banners, or promotional messages. When a customer dials the number, the call is redirected to our server and is subsequently disconnected. The caller's information is recorded in our systems. Following this, an automated response is promptly dispatched to the customer in the form of a text message.

Automated Voice Call

The Automated Voice facility allows enterprises to automatically make calls to pre-defined customer lists and deliver one-time passwords, promotional messages, or reminders in accordance with their specific needs.

The message for broadcasting is generated and uploaded as an audio file, accompanied by a list of phone numbers. Our system then autonomously dials the provided numbers and plays the recorded audio. Call statuses are updated in the database. For any calls that receive no response, the system automatically redials at designated intervals within a specified timeframe. The Automated Voice Call empowers enterprises to access reports on the voice panel, offering insights into total calls, successful calls, failed calls, and calls with no response.

3. Digital Services:

➢ Map My Business is Dove Soft Ltd.'s AI-powered local presence management solution that helps enterprises and multi-location brands optimize and manage their listings across major mapping and search ecosystems, including Google, Bing, and Apple Maps. The solution centralizes location data, automates content generation, and streamlines reputation management to improve discovery, footfall, and lead conversion from local search. Map My Business allows businesses to onboard and manage thousands of outlets, dealers, branches, and franchise locations from a single interface, ensuring consistent and accurate Name–Address–Phone (NAP) details, categories, business hours, photos, and attributes across

platforms. It is designed for industries with distributed networks such as retail, BFSI, healthcare, automotive, quick service restaurants, and telecom**.**

These AI capabilities are embedded directly into the operational workflows of Map My Business, enabling enterprises to manage large location footprints efficiently while enhancing the quality and consistency of their local digital presence

*Key Benefits**:***

- Centralized listings management: Single dashboard to create, update, and synchronize business listings across Google, Bing, and Apple Maps, reducing operational overhead and manual errors.
- AI-generated descriptions and keywords: Built-in AI models generate location-specific business descriptions, highlights, and keyword sets to improve local SEO relevance and click-through rates.
- Review and reputation management: Unified inbox to monitor, triage, and respond to customer reviews; AI-assisted reply generation helps maintain brand voice while improving response time and consistency.
- Compliance and brand control: Role-based controls, approval workflows, and templates ensure all outward-facing content complies with brand and regulatory guidelines.
- Analytics and insights: Performance dashboards surface key metrics such as views, calls, direction requests, and review sentiment to measure ROI from local presence investments.

Bulk operations and APIs: Support for bulk upload, scheduled sync, and APIs enables seamless integration with enterprise systems such as CRM, ERP, dealer management, and marketing automation platforms.

4. WhatsApp Services

As consumers strongly correlate WhatsApp with comfort, convenience, and familiarity, the enterprises can leverage this perception by utilizing the WhatsApp Business API to access promotional and transactional Services. WhatsApp offers variety of services, including one-way notifications, encompassing order and payment updates, reminders, boarding passes, invoices, suggestions, and authentication codes. Furthermore, WhatsApp facilitates two-way conversations, empowering businesses to utilize their customers' preferred chat app for smooth communication. This includes offering essential services like customer support and conducting feedback surveys, enhancing the overall user experience.

➢ ***Campaign Management***

Maximize your reach with highly personalized, automated WhatsApp campaigns. Segment your audience, schedule your messages, and track engagement—all from one powerful dashboard.

Key Benefits:

- 💬Higher Open Rates than email or SMS
- 🗓 Schedule & Automate messages in advance
- 🎯 Audience Segmentation for targeted campaigns
- 📊 Real-time Analytics & Delivery Reports

Operational Scenario for WhatsApp Campaign Management

➢ ***Live Chat on WhatsApp***

Engage with customers in real time via WhatsApp. Our live chat agents ensure fast, friendly, and helpful responses that turn leads into loyal customers.

Key Features:

- 👩‍💻 Real-time support via WhatsApp
- ⚡ Faster response times = happier customers

- Support, sales, and service all in one chat
- Available 24/7 (optional chatbot + live agent combo)

➢ ***WhatsApp Bot (AI + Rule-Based)***

Streamline customer interactions with an intelligent WhatsApp bot. Answer FAQs, qualify leads, take bookings, and more—automatically.

Key Features:

- 24/7 Instant Replies
- Smart Routing to agents
- Lead capture & qualification
- Appointment booking, order tracking, etc.

5. Email

Our enterprise-level email sender service elevates customer communication by delivering content-rich and user-friendly emails. Clients benefit from advanced campaign management tools, including A/B testing, a user-friendly drag & drop editor, campaign previews across various interfaces, precise segmentation, in-depth campaign reports, and guaranteed instant inbox delivery.

➢ **Transactional Emails**

Delivering fast, reliable transactional emails to keep the client's customers informed—whether it's order confirmations or password resets, we make sure every critical message reaches the inbox, right when it matters.

Operational Scenarios for Transactional Emails-

- Order & payment confirmations
- Account creation & welcome emails
- Shipping & delivery notifications
- Subscription renewals
- Password resets

➢ **Secure OTP Emails**

Our OTP email system helps the client to secure logins, transactions, and account changes with time-sensitive verification codes—sent in real time.

Operational Scenarios for Secure OTP Emails-

- 2FA / MFA (Two-Factor Authentication)
- Email verification flows
- Login & signup security
- Transaction approvals

6. Rich Communication Services ("RCS")

RCS (Rich Communication Services) is the upgraded version of SMS that turns traditional text messaging into a dynamic, branded, app-like experience—built into Android's default Messages app.

Branded Messaging

Display the business name, logo, and verified checkmark directly in the conversation.

Two-Way Conversations

Engage in real-time chats with customers for support, sales, and feedback.

➢ **Campaign Management**

Rich Communication Services (RCS) is an advanced messaging format that allows businesses to send interactive, media-rich messages directly to customers through their native messaging apps—no additional app required.

RCS campaign management involves planning, sending, and tracking these messages at scale. Brands can include images, videos, carousels, quick replies, and branded elements to drive higher engagement. With features like read receipts and real-time interactions, RCS offers a more dynamic and personalized messaging experience than traditional SMS.

Operational Scenarios for Campaign Management-

- Product launches & promotions
- Personalized offers & discounts
- Feedback surveys
- Event invitations & reminders

➢ **Live Chat**

RCS Live Chat enables the businesses to communicate with customers through Android's default messaging application, utilizing rich media features such as images, quick reply options, location sharing, video content, and branded messaging—enhancing engagement and user experience.

Operational Scenarios for Live Chat-

- Customer support
- Pre-sales consultations
- Booking & appointments
- Troubleshooting & feedback

Process Flow:

1. SMS:

➢ **Distributed Ledger Technology ("DLT") Registration Requirements:**

For sending SMS through our platform, the clients must first register their business entity on the Distributed Ledger Technology ("**DLT**") portal. Additionally, they need to register their SMS templates and Sender IDs to comply with TRAI regulations.

➢ **SMS Types and Delivery Rules**

The clients are required to select either the Transactional SMS option or the OTP SMS option. Transactional SMS messages are utilized by businesses to disseminate essential information, including but not limited to order status updates and account notifications. OTP SMS messages, by contrast, are intended solely for authentication purposes and are designed to be delivered instantaneously to facilitate secure user verification.

➢ **User Onboarding and Access**

Dove Soft creates an account for the client in its proprietary web application. Customers can log into the User Interface ("**UI**") to send SMS or use Application Programming Interface ("**API**") and short message peer-to-peer protocol ("**SMPP**") protocol for integration with their existing systems.

➢ **SMS Submission Workflow**

Once validated, our system stores the SMS content, recipient's mobile number, and other essential details in a database. We use a separate backend module named 'SMPP Engine' to submit messages to telecom operators. The SMPP Engine fetches the data from the database and submits it to the operator as per the configured routing. Once the operator processes the SMS, a Delivery Report ("**DLR**") is returned and stored in our system.

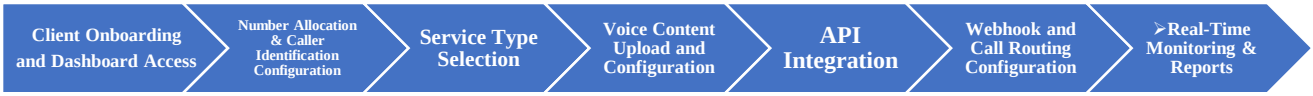

➢ **Delivery Report & UI Features**

Our user interface, mobiCOMM, presents detailed delivery reports including:

- Day-wise summary
- Month-wise summary
- Error- reason wise summary
- Delivery timing in seconds

Clients can also download detailed logs and use advanced features such as scheduling SMS, masking content or numbers for added privacy.

2. Voice:

➢ **Client Onboarding and Dashboard Access**

Upon successful completion of the Know Your Customer ("**KYC**") process and business verification in accordance with Telecom Regulatory Authority of India ("**TRAI**") guidelines, the Client will be onboarded to the Platform. A dedicated, fully white-labelled dashboard will be provisioned for the Client, with identity verification completed for all voice-related services. The Client shall be granted role-based access to various dashboard types (e.g., Administrator, Agent, Campaign Manager), each of which includes multi-tiered access controls. The dashboard enables access to core functionalities including campaign creation, call logs, contact management, and real-time analytics.

➢ **Number Allocation & Caller Identification Configuration**

The Client shall be assigned a Private Caller Identifications for the purpose of brand representation and call recognition. Custom voice numbers, including Direct Inward Dialling (DID) numbers, may be allocated and mapped to specific campaigns, departments, or use cases as determined by the Client.

➢ **Service Type Selection**

Following onboarding, the Client shall select the desired voice service(s), which may include:

a) *Automated Voice Broadcast*- Allows scheduling of high-volume campaigns delivering pre-recorded or TTS-generated voice messages to mobile and landline numbers, either via API HTTP/HTTPS using JSON payloads) or through the dashboard UI.
b) *Missed Call Services*- Assigns unique missed call numbers to campaigns for lead capture. Upon receiving a missed call, the system automatically captures the caller's number, sends a confirmation message, updates the Client's CRM, and initiates follow-up actions through webhooks or agent callbacks.

➢ **Voice Content Upload and Configuration**

The Client may upload pre-recorded voice files or utilize Text-to-Speech (TTS) capabilities to generate dynamic messages. The system supports variable insertion (e.g., customer name, one-time password, balance) and configure keypress detection (e.g., "Press 1 to express interest," "Press 9 to unsubscribe") to enhance interactivity.

➢ **API Integration**

The client uses our HTTP/HTTPS API enabling the Clients to schedule campaigns, push contacts, pull reports, and trigger outbound voice calls directly from Customer Relationship Management (CRM) systems or business workflow engines.

➢ **Webhook and Call Routing Configuration**

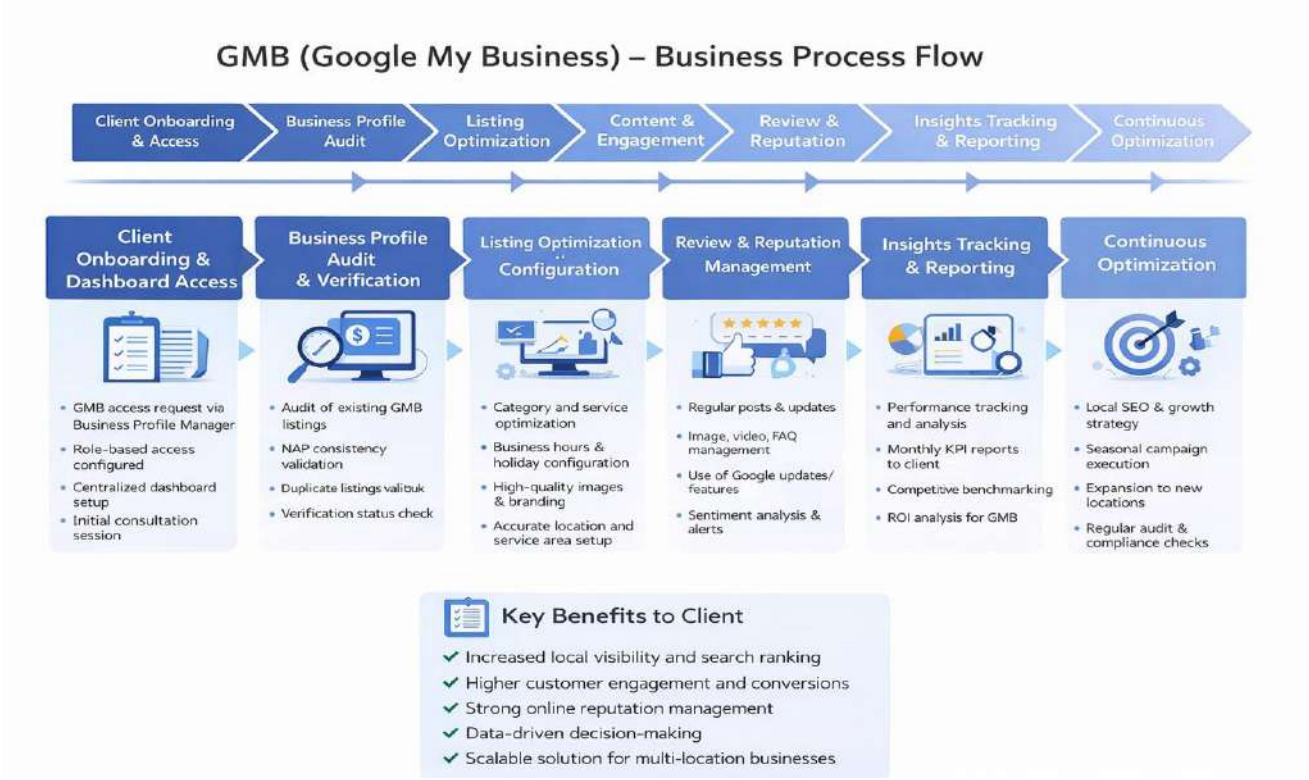

The Client may configure webhooks to transmit event-level data—including call responses, keypress actions, and call logs—in real-time. Workflow automation features enable the system to dynamically assign leads or route calls based on keypress inputs, campaign metadata, or predefined business logic.

➢ **Real-Time Monitoring & Reports**

The Platform provides real-time visibility into campaign performance metrics including call success/failure rates, pickup ratios, keypress analytics, and engagement summaries. Reports are available in multiple formats and may include (but are not limited to):

- Campaign Performance Summary
- API Usage and Log Reports
- Keypress Interaction Analytics
- Call Duration and Disposition Reports

3. Digital Services

➢ **Client Onboarding and Dashboard Access**

Upon successful onboarding and business verification, the Client will be granted access to the GMB management platform (or agency-managed access).

- Business ownership/access will be requested via Google Business Profile Manager
- Role-based access (Owner / Manager / Site Manager) will be configured
- A centralized dashboard (if applicable) will be provided for multi-location businesses
- Initial consultation to understand business goals, locations, and target audience

➢ **Business Profile Audit & Verification**

A detailed audit of existing GMB listings (if available) will be conducted.

- Verification status check (Verified / Pending / Suspended)
- NAP consistency (Name, Address, Phone Number) validation
- Duplicate listings identification and resolution
- Category, attributes, and service accuracy review
- Competitor benchmarking for local SEO positioning

➢ **Listing Optimization & Configuration**

Post audit, all listings will be optimized for maximum visibility and engagement.

- Primary & secondary category selection
- Business description optimization with keywords

- Services/products listing setup
- Business hours (including special hours/holidays) configuration
- High-quality images, videos, and branding uploads
- Location pin accuracy and service area configuration

➢ **Content & Engagement Management**

Ongoing content activities to improve visibility and customer interaction:

- Regular GMB Posts (offers, updates, events, announcements)
- Image & video uploads (storefront, products, services, team)
- FAQ section management (Q&A monitoring and responses)
- Use of Google updates/features (e.g., promotions, highlights)

➢ **Review & Reputation Management**

Critical for trust-building and local ranking improvement:

- Monitoring incoming customer reviews
- AI-enabled or manual response to reviews (positive & negative)
- Sentiment analysis and escalation of critical feedback
- Review generation strategies (links, SMS/WhatsApp campaigns)
- SLA-based response timelines

➢ **Lead Management & Customer Interaction**

Ensuring business opportunities are captured effectively:

- Call tracking and message monitoring
- Integration with CRM (if applicable)
- Handling booking, directions, and website clicks
- Automated responses via AI/chat integrations (optional)

➢ **Insights Monitoring & Performance Reporting**

Data-driven tracking of GMB performance:

- Monthly performance reports including:
- Profile views
- Search queries & keywords
- Calls, direction requests, website clicks
- Engagement metrics (posts, photos, reviews)
- Competitor performance comparison
- ROI analysis and recommendations

➢ **API / Integration (Optional for Enterprise Clients)**

For large-scale or multi-location businesses:

- Integration with internal CRM or marketing platforms
- Automated posting and data synchronization
- Bulk location management via APIs
- Webhook-based triggers for review alerts or lead capture

➢ **Continuous Optimization & Growth Strategy**

Ongoing improvements to maintain and enhance visibility:

- Local SEO enhancements
- A/B testing of posts and content
- Seasonal campaign execution

- Expansion to new locations/listings
- Regular audit and compliance checks

4. WhatsApp

➢ **Client onboarding & WhatsApp Business Profile set up**

Upon completion of client onboarding, including Know Your Customer (KYC) verification and account validation, the client's designated phone number is verified and connected to a WhatsApp Business Account. We facilitate the approval process with Meta and proceed to create the client's official WhatsApp Business Profile with the brand name, logo, business description, contact details, and website.

➢ **Template Message Approval and Dashboard Access**

Clients may submit message templates (Marketing, Utility, Authentication, Carousel) through the dashboard. Submitted templates undergo WhatsApp's approval process, typically completed within minutes to a few hours. Templates may include dynamic variables and multimedia content. Upon onboarding, clients are granted access to a white-labelled, role-based dashboard with multiple user roles (e.g., Admin, Agent, Marketer), each with customizable access controls. The dashboard offers real-time insights, configuration options, and message management functionalities.

➢ **API Integration**

Clients may integrate via secured HTTP/HTTPS APIs, allowing them to:

- Schedule marketing and transactional campaigns
- Push contact lists
- Retrieve analytics and campaign reports
- Trigger outbound voice calls

This API integration supports seamless interaction with the client's existing Customer Relationship Management (CRM) systems or other business workflow tools.

➢ **Audience Management and Campaign Creation**

Clients may upload opted-in user data via Excel, CSV, or API. Audience segmentation is supported through the use of tags, filters, and user interaction behaviour. Once the target audience is identified, clients may approve message templates and schedule campaign delivery for immediate or future deployment. The system includes support for auto-rescheduling and intelligent retry logic to maximize delivery success.

➢ **Live chat with agents and chat box functionality**

The platform supports multi-agent live chat with advanced features such as:

- Intelligent chat routing based on agent skills, workload, or tags
- Chat tagging and assignment
- Real-time monitoring and supervisor intervention
- Consolidated customer chat history for context

Clients can send pre-approved message templates directly from the chat interface and may also share multimedia, attachments, and use quick replies for efficiency.

➢ **Tracking & Reporting**

Comprehensive tracking and reporting capabilities including:

URL Tracking Parameters:

- Mobile number

- Timestamp
- Browser and Operating System

Available Report Types (Real-Time and Exportable):

- Campaign performance reports
- API usage reports
- Platform usage summaries
- Chatbot interaction analytics
- Agent performance and conversation logs

5. Email

➢ **User Creation on Web Application**

The workflow initiates when a new user registers on our platform. Upon successful registration and authentication, the user is granted access to the Email API and SMTP credentials, enabling them to send transactional emails (such as OTPs, alerts, and notifications).

➢ **Email Sending Methods: HTTP API or SMTP Protocol**

Clients can send emails either by our HTTP-based Email API or by using standard SMTP protocol with the provided credentials. We do not provide a graphical user interface (GUI) for composing or sending emails. Email sending is completely programmatic via API or SMTP.

➢ **Domain Name System ("DNS") Configuration Requirements**

To ensure optimal email deliverability and to prevent emails from being marked as spam, clients must properly configure the following DNS records:

- SPF (Sender Policy Framework)
- DKIM (DomainKeys Identified Mail)
- DMARC (Domain-based Message Authentication, Reporting, and Conformance)
- Custom Return-Path or Bounce Domain

➢ **Data Validation & Database Storage**

Each email request—whether sent via HTTP API or SMTP—is subject to validation, including checks on sender domain, recipient address, headers, and DNS configurations. Upon successful validation, the email content is securely stored in our backend database.

➢ **Email Delivery via SMTPEngine**

We have a backend service called SMTPEngine, responsible for email delivery. The SMTPEngine: Periodically pulls pending email records from the database. Connects to pre-integrated email vendors via SMTP protocol. Submits emails in real-time or batch mode based on vendor configuration.

➢ **Vendor Integration & Delivery Reporting**

Our partnered email service providers handle final delivery of the emails. They receive the email payload via SMTP and return delivery status and engagement metrics (e.g., bounce, delivery, open) through callbacks or polling mechanisms.

➢ **Real-Time Email Reporting in Web UI**

The Web Application processes vendor feedback and updates email status in real time. Clients can monitor delivery progress and engagement via the dashboard, with visibility into:

- Delivered
- Undelivered (Bounced)
- Read/Open (if enabled)
- Reports are available on the web dashboard for audit, analytics, and campaign performance review.

6. RCS

➢ RCS Business Profile Setup

The clients start by creating an RCS (Rich Communication Services) profile that includes essential brand elements like the company logo, brand name, and custom colors. This ensures that messages look professional and are easily recognizable to customers. The clients must register their profile with Google RCS to start using the service.

➢ Sending RCS Messages

The clients can send RCS messages through our web application or via HTTP API to the clients who have opted-in for RCS communications. Messages are enhanced with rich features such as multimedia content and interactive buttons to create an engaging experience.

Our UI also allows real-time two-way communication between the customer and the receiver through a live chat feature. Additionally, customers can build automated chat flows using our intuitive bot creation interface.

➢ Message Creation

Using our platform, clients can craft RCS messages with elements like:

- Images: Perfect for showcasing products and services.
- Carousels: Display multiple items in one interactive message.
- Quick Reply buttons: Enable users to respond quickly and easily.

➢ Integration with RCS API

We offer an integration with RCS messaging providers using robust APIs. These APIs empower our clients to send RCS messages directly from their own applications, complete with all rich media features including branding, buttons, and multimedia content.

➢ User Engagement Tracking

RCS provides interaction capabilities such as clickable buttons and multimedia viewing. The clients can track these engagements through detailed metrics and reports provided by the platform, helping to optimize future campaigns.

➢ White-Labelled Dashboards and Reports

We offer customizable, white-labelled dashboards that support both HTTP and HTTPS (JSON) APIs. These dashboards are equipped with features like

- Support for standard and carousel message templates
- Real-time multi-format reports (Campaign, API, Usage, and Conversation Reports)
- Real-time URL tracking with metadata such as mobile number, timestamp, browser type, and OS version.

Procurement of services:

Our operations require seamless integration with messaging platforms, network providers, and cloud infrastructure services, which constitute a significant portion of our total operational expenses.

Our Competitive Strengths

We believe that the following are our primary competitive strengths:

- **Sustainable business model and consistent financial track record**

The Company has established a sustainable and scalable business model driven by the growing demand for enterprise communication and digital engagement solutions. It specializes in delivering a comprehensive suite of services including SMS, RCS, Voice, WhatsApp, Email and other digital channels. We provide services to various enterprises and over-the-top (OTT) platforms through services such as transactional Short Message Service (SMS), WhatsApp, Voice, Interactive Voice Response (IVR), automated voice calls solution, E-mail and Digital Products. These services enable clients to engage with their end customers effectively and in real-time, making the Company a critical technology enabler for sectors such as BFSI, e-commerce, logistics, healthcare, government, and education.

The business operates on an asset-light model, generating recurring revenues from both volume-based (pay-as-you-use) and subscription-based billing formats. The Company has demonstrated a robust financial performance with total income growing from ₹ 3,558.04 Lakhs in FY 2022 to ₹ 27,398.01 Lakhs in FY 2026, reflecting a CAGR of 66.04%. Its EBITDA margin has remained steady/improved, standing at approximately 11.96% in FY 2026, indicating operational efficiency and cost discipline. Earlier, we onboarded customers of all business volumes. However, this approach made it challenging to allocate sufficient attention and resources to our high-value and corporate clients. To ensure we deliver the highest quality of service, we have now refined our strategy to focus exclusively on customers with substantial business volumes and are no longer accepting engagements from low-volume clients, due to which the number of customers have been decreased but the volume of business has been increasing.

- **Diversified service portfolio resulting in our lesser dependence on a single industry, product or services.**

We have a diversified range of services and we serve a number of industries ranging from Telecom, Information Technology, Entertainment and Media, Travel Tourism, Real Estate, Advertising and Events, etc. We believe that our diversified service portfolio and customer base aligned with increasing market demand is a key component of our growth and success. This reduces our dependence on a single product or services and also enables us to reduce our exposure to a sector specific declines, local or regional economic downturns, disruptions from political circumstances and/or natural disaster.

- **Scalable delivery platform supported by robust infrastructure**

Our cloud-based delivery platform enables us to build and manage applications without having to create and maintain the underlying infrastructure for each client. It enables us to provide enterprises with solutions to operate applications without purchasing, configuring or managing the underlying hardware and software. We currently operate at a throughput per second (TPS) capacity. Our all applications are deployed on cloud servers.

- **Experienced Promoter and senior management team**

Our Promoter, Rahul Bhanushali possess experience of more than a decade of working in the telecom sector. His experience in the telecommunications field, is supplemented by our senior management team, which includes seasoned professionals with experience in various companies, as well as professionals with deep experience in sales and marketing. Our senior management team significant experience in all aspects of our business operations. Our Experienced management team's in-depth understanding of Industry trends, target markets, client demand and preferences for communication applications have enabled us to adapt and diversify our offerings and also leverage market opportunities which in turn has helped our business to grow. For further information on our management team, see *"Our Management"* on page 187.

Business Strategies

Our business strategies are focused on the following elements:

- ***Continue to* develop *omni-channel digital communication offerings and innovative solutions***

We have continuously focused on retaining and deepening relationships with our existing customer base with the help of a dedicated key accounts management team. We have grown our revenues with respect to particular customers and intend to focus on revenue expansion through a wider range of services and solutions to our existing customers. We intend to leverage newer solutions with our existing customers and position ourselves as the partner of choice for these customers. We believe that offering a one-stop solution addressing enterprises' communication requirements across all digital channels will increase stickiness of our relationship with our existing customers and augment our ability to serve start-ups and young enterprises. These differentiated offerings will also help us initiate business engagement with potential customers who do not currently use our services. We continue to track new technologies, industry segments and market trends in the mobile technology sector. We intend to leverage our existing platform, diverse enterprise client base and Super Network to capitalize on the growth opportunity in cloud-communications space and endeavour to be a one stop communications solution provider to such enterprise clients and MNOs.

- **Grow *presence in additional markets to serve clients locally and globally***

With our position in the cloud-communication space coupled with the anticipated growth in this sector, we intend to continue to grow in the markets where we currently operate and further expand our offerings in additional markets. We intend to meet the requirements of a broader range of global enterprises. In order to attract and secure new clients, we will continue to develop our network of offices to increase awareness amongst enterprises. Currently, we are operating in Dubai through one of our Subsidiary entity namely Dove Soft Global FZCO. In addition to the aforementioned, we continue to target expansion into newer geographies directly through strategic acquisitions. We believe this allows us to meet regulatory requirements that require service providers to have a direct presence in the region, ensures regional expertise and enables us to maintain lower operating costs.

- ***Enhance service* offerings *through organic and inorganic opportunities***

We continue to focus on building our presence in new markets and addressing the need for cloud-communications services in new industries. We intend to continue our strategic expansion plans through inorganic growth opportunities in new markets and geographies allowing us to complement our existing operations. Through strategic acquisitions, we intend to increase the scale of our operations, access new clients and enter high-growth geographies in a cost-effective manner.

We believe that our experience, track-record and approach of identifying and implementing our inorganic growth strategy will enable us to acquire and successfully integrate new businesses. In conjunction with our organic growth strategies, we intend to pursue strategic acquisitions or investments by selectively evaluating targets in order to increase our product and service offerings, expand our existing client base and our geographic reach to strengthen our position as a global cloud-communication platform services provider. We continue to evaluate potential opportunities that would allow us access to superior technology, a larger client base as well as direct connectivity to mobile operators. We also intend to leverage our inorganic growth and strategic acquisitions and partnerships to increasingly cross-sell our products and services to our expanded client base.

- ***Invest in Research and Development***

To maintain a competitive edge and drive innovation, allocate resources to research and development (R&D). Continue to invest in cutting-edge technologies, such as AI, machine learning, and blockchain, to enhance your CPaaS offerings. Focus on creating new features and functionalities that cater to evolving customer needs. Additionally, explore opportunities to develop custom solutions for specific industries, like healthcare, finance, and e-commerce, to broaden your market reach and revenue streams. Demonstrating a commitment to R&D can be an attractive proposition for potential investors and show that your company is at the forefront of technological advancements in the CPaaS industry.

Export obligations:

Our Company does not have any export obligation as on date of this Red Herring Prospectus.

Marketing & Promotion:

Our marketing team executes a strategy to raise awareness and inform current and prospective clients about our products and services as well as new offerings. Primary channels used by us include digital marketing, events and exhibition participation. We also attend several other regional exhibitions to interact with MNOs, enterprises, partners and existing and potential clients. The sales team is primarily focused on selling our services and solutions to enterprises and growing existing enterprise client accounts. In addition, we strategically work with channel partners to further extend our sales and marketing reach. These partners have a strong reach in their respective geographies, and they resell our services.

Technology

We are a technology driven company, where our capabilities are underpinned by our in-house team. Our technology provides us with data analytics and scalable technology platforms that are capable of delivering our wide range of integrated products with ease of use.

KEY REGULATIONS AND POLICIES

The following description is a summary of certain sector-specific laws currently in force in India, which are applicable to our Company. The information detailed in this chapter has been obtained from various legislations including rules and regulations promulgated by regulatory bodies and the bye laws of the respective local authorities and publications available in the public domain. The description below may not be exhaustive and is only intended to provide general information to investors, and is neither designed as, nor intended to substitute, professional legal advice. Judicial and administrative interpretations are subject to modification or clarification by subsequent legislative, judicial or administrative decisions. The information detailed in this chapter has been obtained from various legislations, including rules and regulations promulgated by the regulatory bodies that are available in the public domain.

The Company may be required to obtain licenses and approvals depending upon the prevailing laws and regulations as applicable. For information on regulatory approvals obtained by us, see "*Government and Other Approvals*" on page 240. We are required to obtain and regularly renew certain licenses / registrations / sanctions / permissions required statutorily under the provisions of various Central and State Government regulations, rules, bye laws, acts and policies. Additionally, the projects undertaken by us require, at various stages, the sanction of the concerned authorities under the relevant central and state legislations and local byelaws.

Following is an overview of some of the important laws and regulations, which are relevant to our business.

INDUSTRY-SPECIFIC LAWS

The Indian Telegraph Act, 1885 ("Telegraph Act")

The Telegraph Act governs all forms of the usage of telegraph, which expression has been defined to mean any appliance, instrument, material or apparatus used or capable of use for transmission or reception of signs, signals, writing, images, and sounds or intelligence of any nature, by wire, visual or other electro-magnetic emissions, radiowaves or hertzian waves, galvanic, electric or magnetic means. Under Section 7, the Central Government has the power to make rules for conduct of all telegraphs established, maintained or worked by the Government or by persons licensed under the Act, including but not limited to governing the conditions and restrictions, subject to which any telegraph line, appliance or apparatus for telegraphic communication shall be established, maintained, worked, repaired, transferred, shifted, withdrawn or disconnected. Further, the rules prescribed by the Central Government may prescribe the fines for any breach of such rules.

The Indian Wireless Telegraphy Act, 1933 ("Wireless Telegraphy Act")

The Wireless Telegraphy Act regulates the possession of wireless telegraphy apparatus in India. Under the Wireless Telegraphy Act, wireless telegraphy apparatus has been defined to mean any apparatus, appliance, instrument or material used or capable of use in wireless communication, and includes any article determined by rule made under this act to be wireless telegraphy apparatus, but does not include any such apparatus, appliance, instrument or material commonly used for other electrical purposes, unless it has been specially designed or adapted for wireless communication or forms part of some apparatus, appliance, instrument or material specially so designed or adapted, nor any article determined by rule made under this act not to be wireless telegraphy apparatus. Under Section 10 of the Wireless Telegraphy Act, the Central Government has the power to make rules with respect to the maintenance of records containing details of the acquisition and disposal by sale or otherwise of wireless telegraphy apparatus possessed by dealers and the power to make provisions for penalty of breach of such rules.

The Telecom Commercial Communications Customer Preference Regulations, 2018 ("TCCCPR")

The TCCCPR has been enacted with an objective to curb menace of unsolicited commercial communications to subscribers and to regulate telemarketers. TCCCPR was notified by the Telecom Regulatory Authority of India on July 19, 2018, which came into effect in a phased manner over a period of 150 days from the aforesaid date of notification and replaced the Telecom Commercial Communications Customer Preference Regulations, 2010. TCCCPR covers both calls as well as SMSs. Under these regulations a customer can register themselves in order to completely block unsolicited commercial communications or in the alternative can opt to receive promotions for specific categories. Those customers already registered on the Do Not Call Registry will be transferred to the fully Blocked list of the National Customer Preference Register. An aggrieved customer can lodge a complaint with his service provider, who is required to take appropriate action and inform the customer of the action taken within seven days of such complaint. TCCCPR provide for a wide range of customer preferences which are implemented in near time using distributing ledger technology to make communications

National Telecom Policy 2012 ("NTP 2012")

The Department of Telecommunications, Ministry of Communications and Information Technology, Government of India, has formulated the NTP 2012, for creating an enabling framework for development of the telecom industry. In this regard,

NTP 2012 was created with a view to provide secure, reliable, affordable and high quality converged telecommunication services anytime, anywhere for an accelerated inclusive socio-economic development. The primary objective of NTP 2012 is maximizing public good by making available affordable, reliable and secure telecommunication and broadband services across the entire country. The main thrust of the Policy is on the multiplier effect and transformational impact of such services on the overall economy. It recognizes the role of such services in furthering the national development agenda while enhancing equity and inclusiveness. NTP 2012 also recognizes the predominant role of the private sector in this field and the consequent policy imperative of ensuring continued viability of service providers in a competitive environment. Pursuant to NTP 2012, these principles would guide decisions needed to strike a balance between the interests of users/ consumers, service providers and government revenue.

Telecom Regulatory Authority of India Act, 1997 (the "TRAI Act")

The TRAI Act provides for the establishment of the TRAI for the purpose of regulating the telecommunication services industry. The TRAI Act also provides for the constitution of the TDSAT, the adjudicatory body in this sector. The functions and responsibilities of TRAI include, among others, (i) making recommendations in connection with matters such as the need and timing for introduction of new service providers, (ii) specifying the terms and conditions for compliance with the provisions of the TRAI Act, (iii) regulating revenue sharing arrangements among service providers and ensuring that such quality of service is provided so as to protect the interest of the consumers, (iv) specifying standards of quality of service to be provided by service providers, (v) ensuring effective compliance of universal service obligations, and (vi) rendering advice to the Government in matters relating to development of telecommunication technology and the telecommunication industry in general. Additionally, TRAI is empowered to specify the rates at which the telecommunication services within and outside India will be provided, fix the terms and conditions of inter-connectivity between the service providers; lay-down the standards of quality of service to be provided by the service providers, etc. For effective discharge of its functions, the TRAI is empowered to call upon any service provider at any time to furnish in writing such information or explanation as is required or to conduct an investigation into the affairs of any service provider or issue directions in respect thereof. TRAI has introduced Telecom Commercial Communication Customer Preference Regulation, 2018 for not receiving unsolicited Commercial calls and proper registration of telemarketers and SMS Headers to reduce the Unsolicited Commercial Communications related complaints. TRAI has also introduced Standards of Quality of Service of Basic Telephone Service (wireline) and Cellular Mobile Telephone Service, 2009, which specifies that the performance by service providers in respect of achieving Quality of Service standards shall be transparent and put in public domain.

National Digital Communications Policy, 2018 (the "NDCP 2018")

The NDCP 2018 was approved by the Government on September 26, 2018. The policy seeks to support India's transition to a digitally empowered economy and society. The NDCP 2018 aims to accomplish the following strategic objectives by 2022: (i) provision of broadband for all, (ii) creating four million additional jobs in the digital communications sector, (iii) enhancing the contribution of the digital communications sector to eight percent of India's GDP, (iv) propelling India to the top 50 nations in the ICT Development Index published by the United Nations International Telecommunication Union, (v) enhancing India's contribution to global value chains, and (vi) ensuring digital sovereignty.

The Information Technology Act, 2000 ("Information Technology Act")

The Information Technology Act has been enacted to provide legal recognition for transactions carried out by means of electronic data interchange and other means of electronic communication, commonly referred to as "Electronic Commerce", which involve the use of alternatives to paper-based methods of communication and storage of information etc. Additionally, the said Act also provides for civil and criminal liabilities including fines and imprisonment for various computer related offences. These include offences relating to unauthorized access to computer systems, it also recognizes contracts concluded through electronic means, creates liability for failure to protect sensitive personal data and gives protection to intermediaries in respect of third party information liability. It also provides civil and criminal liabilities. The Information Technology Act also provides punishment for offences committed outside India. The Department of Information and technology, under the Ministry of Communications & information Technology, Government of India, has notified the Information Technology (Reasonable Security Practices and Procedures and Sensitive personal Data or Information) Rules 2011, which gives directions for the collection, disclosure, transfer and protection of sensitive personal data by a body corporate or any person acting on behalf of a body corporate. The said rules also require the body corporate to provide a privacy policy for handling and dealing on personal information, including sensitive personal data.

Information Technology (Amendment) Act 2008

The Information Technology Amendment Act 2008 (IT Act 2008) was passed in October 2008 and came into effect the following year as a substantial addition to the IT Act of 2000. These amendments helped improve the original bill, which originally failed to pave the way for further IT-related development. It was hailed as an innovative and long-awaited step towards an improved cyber security framework in India.

IT Act 2008 added updated and redefined terms for current use, expanding the definition of cybercrime and the validation of electronic signatures. It also strongly encourages companies to implement better data security practices and makes them liable for data breaches.

The IT Act of 2008 applies to any individual, company, or organization (intermediaries) that uses computer resources, computer networks, or other information technology in India. It also includes service providers of web hosting, internet, network, and telecom. It also includes foreign organizations that have a presence in India and businesses outside of the country that has operations in India.

Covering important information security practices for cybercrime and data protection with over nine chapters and 117 sections, the new Information Technology Amendment Act of 2008 includes the following responsibilities:

Improving cyber security measures and forensics:

- Requiring intermediaries and body corporates to report cyber-security incidents to CERT-In;
- Preventing unauthorized/unlawful use of a computer system;
- Protecting private data and information from cyber terrorism, DDoS attacks, phishing, malware, and identity theft;
- Legal recognition for cyber security of organizations;
- Safeguarding e-payments and electronic transactions and monitoring and decryption of electronic records;
- Establishing a legal framework for digital signatures;
- Recognizing and regulating intermediaries.

It's important to note that the biggest problem with the IT Act 2008 is in Subsection 69, which authorizes the Indian government to expeditiously intercept, monitor, decrypt, block, and remove data and content at its discretion, which can pose serious privacy concerns. Violation of the IT Act may incur penalties ranging from $1,250 to 3-year imprisonment, while penalties for more serious offenses and cybercrimes may reach imprisonment of up to 10 years.

Information Technology Rules, 2011

Under the IT Act, another important segment of the cyber security legislation is the Information Technology (Reasonable Security Practices and Procedures and Sensitive Personal Data or Information) Rules 2011 (Privacy Rules). The most significant amendments include provisions for the regulation of intermediaries, updated penalties and violation fees for cybercrime, cheating, slander, and non-consensual publishing of private images, as well as censoring/restriction of certain speech. Both the Information Technology Act (ITA) and the IT Rules are important for governing how Indian entities and organizations process sensitive info, data protection, data retention, and collection of personal data and other sensitive information. Other Indian sectors, like banking, insurance, telecom, and healthcare, also include data privacy provisions as part of their separate statutes.

Non-Personal Data

The Government of India is also considering enacting a legislation governing non-personal data. In September 2019, the Ministry of Electronics and Information Technology, Government of India, formed a committee of experts ("**NPD Committee**") to recommend a regulatory regime to govern non-personal data ("**NPD**"). The NPD Committee has released two reports till date, which recommend, among other items, a framework to govern NPD (defined as any data other than personal data), access and sharing of NPD with government and corporations alike and a registration regime and for "data businesses", being business that collect, process or store data, both personal and non-personal.

KYC (Know Your Customer)

KYC (Know Your Customer) processes are standards and practices used worldwide and mandated by the RBI (Reserve Bank of India). KYC is the tracking and monitoring of customer data security for improved safeguarding against fraud and payment credential theft. It requires banks, insurance companies, and any other digital payment companies that carry out financial transactions to verify and identify all of their customers.

For proper KYC compliance and to meet financial regulatory requirements, businesses need to include the following cyber security steps:

- Having a knowledge-based questionnaire test for verifying customer identities;
- Implementing pre-screening KYC verification methods like email verification, phone verification, Device ID intelligence, and reputational data, among others;
- Using AI-based technology and machine learning for verifying documents and government-issued IDs;
- Using biometrics like fingerprinting and facial recognition to verify a user's identity;
- Maintaining a database of customers for verification purposes.

Businesses with KYC policies assure customers they have the relevant compliance management and anti-fraud solutions to protect their digital identities and payment transaction data. With KYC Compliance, Indian merchants can have peace of mind with safe and secure payment processing, complying with regulations from SEBI, as well as establishing trust with customers.

Failing to adhere to the KYC directions, banks, businesses, and corporations may face a monetary penalty of ₹ 2 lakh (₹ 2,00,000).

Indian SPDI Rules, 2011 for Reasonable Security Practices

The IS/ISO/IEC 27001 regulations are identified by the Indian SPDI Rules, 2011, as international standards. As such, Indian companies aren't obligated — but are highly advised — to implement these standards, which can help meet the "reasonable security practices" under Indian jurisdiction.

The rules can also give individuals the right to correct their information and impose restrictions on disclosure, data transfer, and security measures. They only apply to corporate entities, but they aren't responsible for the authenticity of sensitive personal data (SPD) like sexual orientation, medical records and history, biometric information, and passwords.

Digital Personal Data Protection ("DPDP") Act, 2023

On August 11, 2023, the Central Government published the DPDP Act for general information, to come into force on such date as the Central Government notifies in the Official Gazette. The Act provides for the processing of digital personal data in a manner that recognizes both the right of individuals to protect their personal data and the need to process such personal data for lawful purposes and for matters connected therewith or incidental thereto. The Act is based on the principles of consented, lawful and transparent use of personal data, purpose limitation, data minimization, data accuracy, storage limitation, reasonable security safeguards and accountability. The DPDP Act lays down the obligations of a data fiduciary, the rights and duties of a data principal, grievance redressal mechanism, setting up of a data protection board and penalties in respect of various breaches.

National Cyber Security Policy -2013

National Cyber Security Protection Act was passed in 2014. It is a cyber-security law establishing national cyber security centres and methods to protect the critical infrastructure and cyber security protection for use in the Department of Homeland Security. The term cyber security refers to techniques and practices designed to protect digital data. The data that is stored, transmitted or used on an information system or cyber security is the protection of Internet-connected systems, including hardware, software, and data from cyber-attacks.

National Cyber Security Policy, 2013

In 2013, the Department of Electronics and Information Technology ("**Deity**") released the National Cyber Security Policy 2013 as a security framework for public and private organizations to better protect themselves from cyber-attacks. The goal behind the National Cyber Security Policy ("**NSCP**") is to create and develop more dynamic policies to improve the protection of India's cyber ecosystem. The policy aims to create a workforce of over 500,000 expert IT professionals over the following five years through skill development and training.

The NSCP's other goals include:

- Creating a resilient and safe cyberspace for individuals, organizations, and the government;
- Monitoring, safeguarding cyber infrastructure and information, reducing vulnerabilities, and strengthening defences against cyber attacks;
- Creating frameworks, capabilities, and vulnerability management strategies for minimizing, faster prevention, or responding to cyber incidents and cyber threats;
- Encourages organizations to develop cyber security policies that align with strategic goals, business workflows, and general best practices;
- Simultaneously create institutional structures, people, processes, technology, and cooperation to minimize the damage caused by cybercrime.

The Telecommunications Act, 2023 ("Telecom Act")

On December 24, 2023, the Telecom Act received Presidential assent. The Telecom Act amends and consolidates laws relating to development, expansion and operation of telecommunication services and telecommunication networks and assignment of spectrum. In terms of the Telecom Act, any person intending to provide telecommunication services; to

establish operate, maintain or expand telecommunication network; or possess radio equipment; is required to obtain an authorisation from the Government of India subject to terms and conditions and fees and charges as prescribed thereunder. The Telecom Act also provides that the Government of India, being the owner of the spectrum on behalf of the people, shall assign the spectrum in accordance with the Telecom Act, and may notify National Frequency Allocation Plan from time to time. In terms of the Telecom Act, any facility provider may submit an application to a public entity under whose control, ownership or management, the public property is vested, to seek permissions for right of way for telecommunication network under, over, along, across, in or upon such public property.

The Government of India has also been empowered to notify standards and conformity assessment measures in respect of, amongst other things, telecommunication equipment, identifiers, network, services and security. The universal service obligation fund created under the Indian Telegraph Act, 1885 shall, from the appointed day, be the "Digital Bharat Nidhi" under the control of the Government of India and has been empowered to discharge functions in terms of the Telecom Act. The Government of India, for the purposes of encouraging and facilitating technological development in telecommunication, may create regulatory sandboxes in terms of the Telecom Act. Further, in terms of the Telecom Act, the Government of India may provide measures for protection of users in consonance with regulations notified by TRAI, including measures such as prior consent of users for receiving specified messages; preparation and maintenance of registers such as 'Do Not Disturb' registers; and the mechanism to enable users to report malware or specified messages in contravention of the Telecom Act. The Telecom Act also prescribes certain penalties for offences such as attempt to gain unauthorised access to a telecommunication network or possession of any equipment that blocks telecommunication without an authorization; and also empowers the Government of India to establish online dispute resolution mechanisms for resolution of disputes between users and authorized entities providing telecommunication services.

The Telecom Act will come into force on such date as the Central Government may, by notification in the Official Gazette, appoint and different dates may be appointed for different provisions of the Telecom Act. Subject to provisions of the Telecom Act, the enforcement of the Telecom Act shall repeal the Indian Telegraph Act, 1885, Indian Wireless Telegraphy Act, 1933, and the Telegraph Wires (Unlawful Possession) Act, 1950, and amend the provisions of the Telecom Regulatory Authority of India Act, 1997. Part III of the Indian Telegraph Act, 1885 shall continue to apply to laying of transmission lines under the section 164 of the Electricity Act, 2003.

The Bureau of Indian Standards Act, 2016 ("BIS Act")

The BIS Act, and Rules made thereunder and amendments thereto, establishes, publishes and regulates national standards to ensure conformity assessment, standardization, and quality assurance of goods, articles, processes, systems and services. The BIS Act empowers the Bureau of Indian Standards to inspect and monitor the quality of goods and materials to ensure conformity with the BIS Act. In furtherance of such powers, the officials may inspect the premises for evaluating a manufacturer's compliance with use of standard marks. The BIS Act also enables the central government to appoint any authority to verify the conformity of products and services to a standard and issue certificate of conformity. Further, the BIS Act sets out inter alia, liability for use of standard mark on products that do not conform to the relevant Indian Standard. Under the BIS Act, such products may be recalled from the market.

Shops and Establishments Legislations

Under the provisions of local shops and establishments legislations applicable in the states in which establishments are set up, establishments are required to be registered. Such legislations regulate the working and employment conditions of the workers employed in shops and establishments including commercial establishments and provide for fixation of working hours, rest intervals, overtime, holidays, leave, termination of service, maintenance of shops and establishments and other rights and obligations of the employers and employees. All establishments must be registered under the shops and establishments legislations of the state where they are located. There are penalties prescribed in the form of monetary fine or imprisonment for violation of the legislations, as well as the procedures for appeal in relation to such contravention of the provisions.

The Micro, Small and Medium Enterprises Development Act, 2006 (the "MSME Act")

MSME Act was enacted to provide for facilitating the promotion and development and enhancing the competitiveness of micro, small and medium enterprises. Any person who intends to establish (a) a micro or small enterprise, at its discretion; (b) a medium enterprise engaged in providing or rendering of services may, at its discretion; or (c) a medium enterprise engaged in manufacture or production of goods pertaining to any industry specified in the First Schedule to the Industries (Development and Regulation) Act, 1951 is required to file a memorandum before such authority as specified by the State Government or the Central Government. The form of the memorandum, the procedure of its filing and other matters incidental thereto shall be such as may be specified by the Central Government, based on the recommendations of the advisory committee. Accordingly, in exercise of this power under the MSME Act, the Ministry of Micro, Small and Medium Enterprises notification dated September 18, 2015 specified that every micro, small and medium enterprises is required to file a Udyog Adhaar Memorandum in the form and manner specified in the notification.

Legal Entity Identifier (LEI) Regulations

The LEI is a 20-character alphanumeric code, based on the ISO 17442 standard, used to uniquely identify legal entities participating in financial transactions globally. All legal entities, such as companies, government entities, and financial institutions, that participate in financial transactions. In India, entities like listed companies and large corporate borrowers with outstanding credit of ₹5 crore or more are required to obtain an LEI.

Local Municipal Laws

Our Company is subject to various laws framed by the municipal corporations of the state in which operational facility is located, which regulate and require us to obtain licenses for, among others, relevant and necessary for the business of the Company.

TAX RELATED LAWS

Income Tax

The Income-tax Act, 1961 ("**IT Act**") is applicable to every Company, whether domestic or foreign whose income is taxable under the provisions of this Act or Rules made there under depending upon its "Residential Status" and "Type of Income" involved. Every Company assessable to income tax under the IT Act is required to comply with the provisions thereof, including those relating to Tax Deduction at Source, Advance Tax, Minimum Alternative Tax and like. Every such Company is also required to file its returns by 30th September of each assessment year.

Goods and Service Tax (GST)

Goods and Services Tax (GST) is levied on supply of goods or services or both jointly by the Central and State Governments. It was introduced as The Constitution (One Hundred and First Amendment) Act 2017 and is governed by the GST Council. GST provides for imposition of tax on the supply of goods or services and will be levied by centre on intra-state supply of goods or services and by the States including Union territories with legislature/ Union Territories without legislature respectively. A destination-based consumption tax GST would be a dual GST with the centre and states simultaneously levying tax with a common base. The GST law is enforced by various acts viz. Central Goods and Services Act, 2017 (CGST), State Goods and Services Tax Act, 2017 (SGST), Union Territory Goods and Services Tax Act, 2017 (UTGST), Integrated Goods and Services Tax Act, 2017 (IGST) and Goods and Services Tax (Compensation to States) Act, 2017 and various rules made there under. It replaces following indirect taxes and duties at the central and state levels.

Professional Tax

The professional tax slabs in India are applicable to those citizens of India who are either involved in any profession or trade. The State Government of each State is empowered with the responsibility of structuring as well as formulating the respective professional tax criteria and is also required to collect funds through professional tax. The professional taxes are charged on the incomes of individuals, profits of business or gains in vocations. The professional taxes are classified under various tax slabs in India. The tax payable under the State Acts by any person earning a salary or wage shall be deducted by his employer from the salary or wages payable to such person before such salary or wages is paid to him, and such employer shall, irrespective of whether such deduction has been made or not when the salary and wage is paid to such persons, be liable to pay tax on behalf of such person and employer has to obtain the registration from the assessing authority in the prescribed manner. Every person liable to pay tax under these Acts (other than a person earning salary or wages, in respect of whom the tax is payable by the employer), shall obtain a certificate of enrolment from the assessing authority.

ENVIRONMENT RELATED LAWS

Environment Protection Act, 1986

The EPA has been enacted for the protection and improvement of the environment. It stipulates that no person carrying on any industry, operation or process shall discharge or emit or permit to be discharged or emitted any environmental pollutant in excess of such standards as may be prescribed. Further, no person shall handle or cause to be handled any hazardous substance except in accordance with such procedure and after complying with such safeguards as may be prescribed. The EPA empowers the Central Government to take all measures necessary to protect and improve the environment such as laying down standards for emission or discharge of pollutants, providing for restrictions regarding areas where industries may operate and generally to curb environmental pollution. Penalties for violation of the EPA include fines up to ₹100,000 or imprisonment of up to five years, or both.

E-Waste (Management and Handling) Rules, 2022 ("E-Waste Rules")

Under the E-Waste Rules, a manufacturer is responsible for the collection of E-waste generated during the manufacture of any electrical and electronic equipment and channelizes it for recycling or disposal. Further, the E-Waste Rules also require that relevant authorizations must be obtained from the state pollution control boards, where manufacturing activities resulting in generation of E-Waste, are carried out.

Plastic Waste Management (PWM) Rules, 2016 and amendments thereto

The government of India, through the Ministry of Environment, Forest and Climate Change notified the new Plastic Waste Management Rules, 2016 (through a Gazette notification dated 18 March, 2016). This supersedes the Plastic Waste (Management and Handling) Rules, 2011 that governed such activities earlier. This provides the framework for how plastic waste generators, local bodies, manufacturers, importers etc., to manage plastic waste.

Solid Waste Management Rules, 2016 ("the Solid Waste Management Rules")

These rules mandate proper segregation, collection, treatment, and disposal of solid waste. The Solid Waste Management Rules would be required to manage the solid waste generated in their offices (paper, packaging, electronic waste, etc.) according to these rules. This includes segregation at source and ensuring proper disposal through authorized channels.

Energy Conservation Act, 2001 (as amended):

The Energy Conservation Act, 2001, is a key piece of Indian legislation aimed at promoting the efficient use and conservation of energy, establishing the Bureau of Energy Efficiency (BEE), and setting standards for energy consumption in various sectors.

LABOUR LAWS

The employment of workers, depending on the nature of activity, is regulated by a wide variety of generally applicable labour laws, including the Minimum Wages Act, 1948, the Employee's State Insurance Act, 1948, the Employees' Provident Funds and Miscellaneous Provisions Act, 1952, Payment of Gratuity Act, 1972, the Payment of Bonus Act, 1965, Equal Remuneration Act, 1976, Inter-State Migrant Workmen (Regulation of Employment and Conditions of Service) Act, 1979, Public Liability Insurance Act, 1991, Trade Union Act, 1926, Child Labour (Prohibition and Regulation) Act, 1986 and the Maternity Benefit Act, 1961.

Contract Labour (Regulation and Abolition) Act, 1970 ("CLRA Act")

The CLRA Act was enacted to regulate the employment of contract labour in certain establishments and to provide for its abolition in certain circumstances. The CLRA Act is applicable to every establishment in which 20 or more workmen are or were employed in the preceding 12 months as contract labour and to every contractor who employs or employed on any day during the preceding 12 months, 20 or more workmen. Every principal employer of an establishment to which the CLRA Act applies, shall apply for registration of the establishment with the appropriate registering office and get registered. Under the CLRA Act, the principal employer has to provide essential amenities like canteens, rest rooms, drinking water facilities and first aid facilities if the same is not provided by the contractor. Every contractor to whom the CLRA Act applies, is also required to obtain a license and not to undertake or execute any work through contract labour, except under and in accordance with such license. Further under the CLRA Act, the principal employer has to ensure through a nominated representative the Contractor distributes wages within the prescribed time, failing which the principal employer shall be liable to make payment of wages in full or the unpaid balance and recover the amount so paid from the Contractor.

Payment of Wages Act, 1936 ("POW Act")

The POW Act was enacted with a view to ensuring that wages payable to employed persons covered by the Act were disbursed by the employers within the prescribed time limit and that no deductions other than those authorised by law were made by them. It applies to the persons employed in a factory, industrial or other establishment, where the monthly wages payable are less than Rs.21,000/- whether directly or indirectly, through a sub-contractor and provides for the imposition of fines on persons responsible for payment of wages and deductions and lays down wage periods. Employers have to compulsorily maintain register of wages, register of fines, register of deduction for damages or loss, and register of advances in the prescribed forms.

Workmen's Compensation Act, 1923 ("WCA")

Workmen's Compensation Act, 1923 has been enacted with the objective to provide for the payment of compensation to workmen by employers for injuries by accident arising out of and in the course of employment, and for occupational diseases resulting in death or disablement. The WCA makes every employer liable to pay compensation in accordance with

the WCA if a personal injury/disablement/loss of life is caused to a workman (including those employed through a contractor) by accident arising out of and in the course of his employment. In case the employer fails to pay compensation due under the WCA within one month from the date it falls due, the commissioner appointed under the WCA may direct the employer to pay the compensation amount along with interest and may also impose a penalty.

Employees' State Insurance Act, 1948

It Employees' State Insurance Act to provide for certain benefits to employees in case of sickness, maternity and employment injury and to make provision for certain other matters in relation thereto. Whereas it is expedient to provide for certain benefits to employees in case of sickness, maternity and employment injury and to make provision for certain other matters in relation thereto; this Act requires all the employees of the establishment to which this act applies to be insured to the manner provided there under. The Employer and Employees both are required to make contribution to the fund. The return of the contribution made is required to be filed with the Employee State Insurance department.

Employees' Provident Funds And Miscellaneous Provisions Act, 1952 ("EPF ACT")

The EPF Act applies to factories employing over 20 employees and such other establishments and industrial undertakings as notified by the Government of India from time to time. It requires all such establishments to be registered with the State provident fund commissioner and requires such employers and their employees to contribute in equal proportion to the employees' provident fund the prescribed percentage of basic wages and dearness and other allowances payable to employees. The EPF Act also requires the employer to maintain registers and submit a monthly return to the State provident fund commissioner.

The Employees' Pension Scheme, 1995

Family pension in relation to this act means the regular monthly amount payable to a person belonging to the family of the member of the Family Pension Fund in the event of his death during the period of reckonable service. The scheme shall apply to all the employees who become a member of the EPF or PF of the factories provided that the age of the employee should not be more than 59 years in order to be eligible for membership under this act. Every employee who is member of EPF or PF has an option of the joining scheme. The employer shall prepare a Family Pension Fund contribution card in respect of the entire employee who is member of the fund.

The Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013

The POSH Act was enacted to provide protection against sexual harassment of women at workplace and for the prevention and redressal of complaints of sexual harassment and for matters connected therewith or incidental thereto. The POSH Act mandates every employer to provide a safe working environment at the workplace which shall include safety from the persons coming into contact at the workplace. The POSH Act provides that employers must formulate a policy against sexual harassment at workplace and that policy needs to be disseminated. The POSH Act defines sexual harassment to include any unwelcome acts or a sexually determined behaviour (whether directly or by implication). Workplace under the POSH Act has been defined very broadly to include government bodies, private and public sector organisations, non-governmental organisations, organisations carrying on commercial, vocational, educational, entertainment, industrial, financial activities, hospitals and nursing homes, educational institutes, sports institutions and any place visited by the employee arising out of or during the course of employment.

Industrial Disputes Act, 1947 ("ID Act")

The ID Act was enacted to make provisions for, inter alia, the investigation and settlement of industrial disputes. Industrial dispute under the ID Act means any dispute or difference between employers and employers, or between employers and workmen, or between workmen and workmen, which is connected with the employment or non-employment or the terms of employment or with the conditions of labour, of any person. The ID Act enumerates the contingencies when a strike or lock-out can be lawfully resorted to, when they can be declared illegal or unlawful, conditions for laying off, retrenching, discharging or dismissing a workman, circumstances under which an industrial unit can be closed down and other matters related to industrial employees and employers.

In order to rationalize and reform labour laws in India, the Government has enacted the following codes:

a) The Code on Social Security, 2020 ("Social Security Code")

The Government of India enacted The Code on Social Security, 2020 which received the assent of the President of India. The provisions of this code will be brought into force on a date to be notified by the Central Government, with certain of the provisions thereunder notified already. The code proposes to subsume, inter alia, the Employees Compensation Act, 1923, the Employees, State Insurance Act, 1948, the Employees Provident Funds and Miscellaneous Provisions Act, 1952,

the Maternity Benefit Act, 1961 and the Payment of Gratuity Act, 1972. The Ministry of Labour and Employment, Government of India has notified the draft rules relating to Employees Compensation under the Code on Social Security, 2020 on June 3, 2021, inviting objections and suggestions, if any, from the stakeholders. Further, draft rules under the Code on Social Security, 2020 were notified on November 13, 2020. The draft rules propose to subsume, inter alia, the Employees State Insurance (Central) Rules, 1950 and the Payment of Gratuity (Central) Rules, 1972.

b) The Industrial Relations Code, 2020

The Industrial Relations Code, 2020 received the assent of the President of India on September 28, 2020 and it proposes to subsume three existing legislations, namely, the Industrial Disputes Act, 1947, the Trade Unions Act, 1926 and the Industrial Employment (Standing Orders) Act, 1946. The provisions of this code will be brought into force on a date to be notified by the Central Government.

c) The Code on Wages, 2019 (the "Wage Code")

The Government of India enacted The Code on Wages, 2019 which received the assent of the President of India. The code proposes to subsume the Equal Remuneration Act, 1976, the Minimum Wages Act, 1948, the Payment of Bonus Act, 1965 and the Payment of Wages Act, 1936. The provisions of this code will be brought into force on a date to be notified by the Central Government, with certain of the provisions thereunder notified already. In pursuance of the code, the Code on Wages (Central Advisory Board) Rules, 2021 have been notified, which prescribe, inter alia, the constitution and functions of the Central Advisory Board set up under the Code on Wages, 2019.

d) The Occupational Safety, Health and Working Conditions Code, 2020

The Act consolidates and amends the laws regulating the occupational safety and health and working conditions of the persons employed in an establishment. It replaces 13 old central labour laws including the Contract Labour (Regulation and Abolition) Act, 1970 and received the presidential assent on September 28, 2020.

These provisions of these codes shall become effective on the day that the Government shall notify for this purpose.

Certain other Labour laws and regulations that may be applicable to our Company include the following:

- Child Labour (Prohibition and Regulation) Act, 1986;
- Equal Remuneration Act, 1976;
- Inter-State Migrant Workmen (Regulation of Employment and Conditions of Service) Act, 1979;
- Minimum Wages Act 1948;
- Payment of Bonus Act, 1965;
- The Maternity Benefit Act, 1961;
- Trade Union Act, 1926;
- Public Liability Insurance Act, 1991

INTELLECTUAL PROPERTY LAWS

Certain laws relating to intellectual property rights applicable to us are as follows:

The Trade Marks Act, 1999 ("Trade Marks Act")

The Trade Marks Act governs the law pertaining to the protection of trademarks in India. It provides for the application and registration of trademarks in India for granting exclusive rights to marks such as a brand, label and heading and obtaining relief in case of infringement. Once a mark is registered, it is valid in India only for a period of 10 years and can be renewed from time to time in perpetuity. The Trade Marks Act also prohibits any registration of deceptively similar trademarks or compounds, among others. It also provides for infringement, falsifying and falsely applying for trademarks.

The Patents Act, 1970

The Patents Act, 1970 as amended from time to time, in India has been enacted to protect inventions. Patents provide the exclusive rights for the owner of a patent to make, use, exercise, distribute and sell a patented invention. The patent registration confers on the patentee the exclusive right to use, manufacture and sell his invention for the term of the patent.

The Designs Act, 2000 (Designs Act)

The objective of Designs Act and rules made thereunder it to promote and protect the design element of industrial production. It is also intended to promote innovative activity in the field of industries. The Controller General of Patents,

Designs and Trade Marks appointed under the Trademarks Act shall be the Controller of Designs for the purposes of the Designs Act. When a design is registered, the proprietor of the design has copyright in the design during ten years from the date of registration.

The Copyright Act, 1957 ("Copyright Act")

The Copyright Act serves to create property rights for certain kinds of intellectual property, generally called works of authorship. The intellectual property protected under the Copyright Act includes copyrights subsisting in original literary, dramatic, musical or artistic works, cinematograph films, and sound recordings, including computer programmes, tables and compilations including computer databases. While copyright registration is not a prerequisite for acquiring or enforcing a copyright in an otherwise copyrightable work, registration under the Copyright Act acts as prima facie evidence of the particulars entered therein and may help expedite infringement proceedings and reduce delay caused due to evidentiary considerations. Upon registration, the copyright protection for a work exists for a period of 60 years following the demise of the author. Reproduction of a copyrighted work for sale or hire and issuing of copies to the public, among others, without consent of the owner of the copyright are acts which expressly amount to an infringement of copyright.

GENERAL LAWS

Indian Contract Act

The Indian Contract Act codifies the way in which a contract may be entered into, executed, implementation of the provisions of a contract and effects of breach of a contract. A person is free to contract on any terms he chooses. The Contract Act consists of limiting factors subject to which contract may be entered into, executed and breach enforced. It provides a framework of rules and regulations that govern formation and performance of contract.

SEBI Regulations

Securities and Exchange Board of India is the regulatory body for securities market transactions including regulation of listing and delisting of securities. It forms various rules and regulations for the regulation of listed entities, transactions of securities, exchange platforms, securities market and intermediaries thereto. Apart from other rules and regulations, listed entities are mainly regulated by SEBI Act, 1992, Securities Contract Regulation Act, 1956, Securities Contracts (Regulation) Rules, 1957, SEBI (Issue of Capital and Disclosure Requirements) Regulations, 2018 and SEBI (Listing Obligations and Disclosure Requirement) Regulations, 2015, SEBI (Substantial Acquisition of Shares and Takeover) Regulations, 2011 and SEBI (Prohibition of Insider Trading) Regulations, 2015.

Sale of Goods Act, 1930 (the "Sale of Goods Act")

The Sale of Goods Act governs contracts relating to sale of goods in India. The contracts for sale of goods are subject to the general principles of the law relating to contracts. A contract of sale may be an absolute one or based on certain conditions. The Sale of Goods Act contains provisions in relation to the essential aspects of such contracts, including the transfer of ownership of the goods, delivery of goods, rights and duties of the buyer and seller, remedies for breach of contract and the conditions and warranties implied under a contract for sale of goods.

The Companies Act, 2013

The Act deals with laws relating to companies and certain other associations. The Companies Act primarily regulates the formation, financing, functioning and winding up of companies. The Act prescribes regulatory mechanism regarding all relevant aspects including organizational, financial and managerial aspects of companies. Regulation of the financial and management aspects constitutes the main focus of the Act. In the functioning of the corporate sector, although freedom of companies is important, protection of the investors and shareholders, on whose funds they flourish, is equally important. The Companies Act plays the balancing role between the set of competing factors, namely, management autonomy and investor protection.

Competition Act, 2002

The Competition Act, 2002 ("Competition Act") aims to prevent anti-competitive practices that cause or are likely to cause an appreciable adverse effect on competition in the relevant market in India. The Competition Act regulates anticompetitive agreements, abuse of dominant position and combinations. The Competition Commission of India ("Competition Commission") which became operational from May 20, 2009, has been established under the Competition Act to deal with inquiries relating to anti-competitive agreements and abuse of dominant position and regulate combinations. The Competition Act also provides that the Competition Commission has the jurisdiction to inquire into and pass orders in relation to an anti-competitive agreement, abuse of dominant position or a combination, which even though entered into, arising, or taking place outside India or signed between one or more non-Indian parties, but causes an appreciable adverse

effect in the relevant market in India.

Consumer Protection Act, 2019 (the "Consumer Protection Act")

The Consumer Protection Act was designed and enacted to provide simpler and quicker access to redress consumer grievances. It seeks, among other things, to promote and protect the interests of consumers against deficiencies and defects in goods or services and secure the rights of a consumer against unfair trade practices, which may be practiced by manufacturers, service providers and traders. The definition of "consumer" under the Consumer Protection Act includes persons engaged in offline or online transactions through electronic means or by tele-shopping or direct selling or multi-level marketing. It provides for the establishment of consumer disputes redressal forums and commissions for the purpose of redressal of consumer grievances. In addition to awarding compensation and/or passing corrective orders, the forums and commissions under the Consumer Protection Act, in cases of misleading and false advertisements, are empowered to impose imprisonment for a term, which may extend to two years and fine which may extend to rupees ten lakh, and for every subsequent offence, imprisonment for a term which may extend to five years and a fine which may extend to fifty lakh rupees. In line with the Consumer Protection Act, the Ministry of Consumer Affairs, Food and Public Distribution, Government of India has also notified the Consumer Protection (E-Commerce) Rules, 2020 ("**E-Commerce Rules**") which provides a framework to regulate the marketing, sale and purchase of goods and services online. The E-Commerce Rules govern e-commerce entities which own, operate, or manage a digital or electronic facility or platform for electronic commerce, and sellers of products and services.

Negotiable Instruments Act, 1881

In India, cheques are governed by the Negotiable Instruments Act, 1881, which is largely a codification of the English Law on the subject. The Act provides effective legal provision to restrain people from issuing cheques without having sufficient funds in their account or any stringent provision to punish them in the event of such cheque not being honoured by their bankers and returned unpaid. Section 138 of the Act, creates statutory offence in the matter of dishonour of cheques on the ground of insufficiency of funds in the account maintained by a person with the banker which is punishable with imprisonment for a term which may extend to two year, or with fine which may extend to twice the amount of the cheque, or with both.

Industrial (Development and Regulation) Act, 1951

The Industrial (Development and Regulation) Act, 1951 has been liberalized under the New Industrial Policy dated July 24, 1991, and all industrial undertakings have been made exempt from licensing except for certain industries such as distillation and brewing of alcoholic drinks, cigars and cigarettes of tobacco and manufactured tobacco substitutes, all types of electronic aerospace and defense equipment, industrial explosives including detonating fuses, safety fuses, gun powder, nitrocellulose and matches and hazardous chemicals and those reserved for the small scale sector. An industrial undertaking, which is exempt from licensing, is required to file an Industrial Entrepreneurs Memorandum ("IEM") with the Secretariat for Industrial Assistance, Department of Industrial Policy and Promotion, Ministry of Commerce and Industry, Government of India, and no further approvals are required.

The Specific Relief Act, 1963

The Specific Relief Act, 1963 is complimentary to the provisions of the Contract Act and the Transfer of Property Act, as the Act applies both to movable property and immovable property. The Act applies in cases where the Court can order specific performance of a contract. Specific relief can be granted only for purpose of enforcing individual civil rights and not for the mere purpose of enforcing a civil law. "Specific performance" means Court will order the party to perform his part of agreement, instead of imposing on him any monetary liability to pay damages to other party.

The Registration Act, 1908

The Registration Act, 1908 was passed to consolidate the enactments relating to the registration of documents. The main purpose for which the Registration Act was designed was to ensure information about all deals concerning land so that correct land records could be maintained. The Registration Act is used for proper recording of transactions relating to other immovable property also. The Registration Act provides for registration of other documents also, which can give these documents more authenticity. Registering authorities have been provided in all the districts for this purpose. The purpose of Registration Act is the conservation of evidence, assurances, title and publication of documents and prevention of fraud. Evidence of registration is available through an inspection of relevant land records, which usually contains details of the registered property.

The Indian Stamp Act, 1899 ("Stamp Act")

Stamp duty in relation to certain specified categories of instruments as specified under Entry 91 of the list, is governed by

the provisions of the Indian Stamp Act, 1899 which is enacted by the Central Government. All others instruments are required to be stamped, as per the rates prescribed by the respective State Governments. Stamp duty is required to be paid on all the documents that are registered and as stated above the percentage of stamp duty payable varies from one State to another. Certain State in India have enacted their own legislation in relation to stamp duty while the other State have adopted and amended the Stamp Act, as per the rates applicable in the State. On such instruments stamp duty is payable at the rates specified in Schedule I of the Stamp Act. Instruments chargeable to duty under the Stamp Act which are not duly stamped are incapable of being admitted in court as evidence of the transaction contained therein. The Stamp Act also provides for impounding of instruments which are not sufficiently stamped or not stamped at all. Unstamped and deficiently stamped instruments can be impounded by the authority and validated by payment of penalty. The amount of penalty payable on such instruments may vary from State to State.

Code of Civil Procedure, 1908

The Code of Civil Procedure, 1908 is a procedural law related to the administration of civil proceedings in India. The Civil Procedure Code consolidates and amends the law relating to the procedure of the Courts of Civil jurisdiction. The Code of Civil Procedure is an adjective law it neither creates nor takes away any right. It is intended to regulate the procedure to be followed by Civil Courts. The Civil Procedure Code consists of two parts. 158 Sections form the first part and the rules and orders contained in Schedule I form the second part. The object of the Code generally is to create jurisdiction while the rules indicate the mode in which the jurisdiction should be exercised. The Code does not affect any special or local laws nor does it supersede any special jurisdiction or power conferred or any special form of procedure prescribed by or under any other law for the time being in force. The Code is the general law so that in case of conflict between the Code and the special law the latter prevails over the former. Where the special law is silent on a particular matter the Code applies, but consistent with the special enactment.

Commercial Courts Act, 2015 ("the Act")

The Commercial Courts Act, 2015 was enacted to streamline the adjudication process for commercial disputes in India. The Act established dedicated courts to resolve these disputes in a timely manner. Here are some of the key features of the Act. The Act's purpose was to reduce the pendency of commercial disputes and to gain the trust of domestic and foreign investors in Indian markets. The Act established Commercial Courts at the district level and Commercial Divisions and Commercial Appellate Divisions in the High Courts. The Act covers commercial disputes with a value of at least one crore rupees.

The Arbitration and Conciliation Act, 1996

This act was enacted by Parliament in the Forty-seventh Year of the Republic of India to consolidate and amend the law relating to domestic arbitration, international commercial arbitration and enforcement of foreign arbitral awards as also to define the law relating to conciliation and for matters connected therewith or incidental thereto. The main objectives of the Act is to comprehensively cover international and commercial arbitration and conciliation as also domestic arbitration and conciliation, to make provision for an arbitral procedure which is fair, efficient and capable of meeting the needs of the specific arbitration, to provide that the arbitral tribunal gives reasons for its arbitral award, to ensure that the arbitral tribunal remains within the limits of its jurisdiction, to 113ynchron the supervisory role of courts in the arbitral process, to permit an arbitral tribunal to use mediation, conciliation or other procedures during the arbitral proceedings to encourage settlement of disputes, to provide that every final arbitral award is enforced in the same manner as if it were a decree of the court, to provide that a settlement agreement reached by the parties as a result of conciliation proceedings will have the same status and effect as an arbitral award on agreed terms on the substance of the dispute rendered by an arbitral tribunal and to provide that, for purposes of enforcement of foreign awards, every arbitral award made in a country to which one of the two International Conventions relating to foreign arbitral awards to which India is a party applies, will be treated as a foreign award.

The Insolvency and Bankruptcy Code, 2016

The Insolvency and Bankruptcy Code, 2016 (the "**Code**") cover Insolvency of individuals, unlimited liability partnerships, Limited Liability partnerships (LLPs) and companies. The Code proposes to establish an Insolvency Regulator (The Insolvency and Bankruptcy Board of India) to exercise regulatory oversight over (a) Insolvency Professionals, (b) Insolvency Professional Agencies and (c) Information Utilities; these agencies will develop professional standards, codes of ethics and exercise a disciplinary role over errant members leading to the development of a competitive industry for insolvency professionals. The Code proposes for a fast track insolvency resolution process for companies with smaller operations. The process will have to be completed within 90 days, which may be extended up to 45 more days if 75% of financial creditors agree. Extension shall not be given more than once.

Bhartiya Nyaya Sanhita, 2023

This act supersedes the Indian Penal Code, 1860, this comprehensive legal framework addresses various facets of criminal

law, including offenses, penalties, defenses, and procedural guidelines. The Bhartiya Nyaya Sanhita Act largely retains provisions from the Indian Penal Code, 1860, but also introduced new offences including but not limited to cybercrimes, environmental violations, and removed invalidated offences that were earlier there, and enhances penalties for certain offences. Notably, community service replaced the sedition as a form of punishment and terrorism is also explicitly recognizes as an offence. The Bhartiya Nyaya Sanhita Act streamlines legal procedures, ensuring faster trials and emphasizes on witness protection and evidence collection.

Bhartiya Nagrik Suraksha Sanhita Act, 2023

This act superseded the Code of Criminal Procedure, 1973, and became the main legislation on procedure for administration of substantive criminal law in India, this act received assent from the president of India on December 25, 2023 and came into effect from July 01, 2024. The Bhartiya Nagrik Suraksha Sanhita Act, introduces specific timelines for investigation and trial, ensures timely FIR registration for complaints submitted through electronic communication, mandates forwarding medical examination reports of rape victims within seven days, and empowers courts to conduct trial in absentia against proclaimed offenders. Additionally, the Act emphasizes prompt judgment pronouncement and requires audio-video recording of search and seizure during investigations. Notably, proceeds of crime can be attached by the court and distributed among victims. The Bhartiya Nagrik Suraksha Sanhita Act aims to expedite proceedings and enhance transparency in the criminal justice system.

Bhartiya Sakshya Adhiniyam Act, 2023

This act superseded the Indian Evidence Act, 1872, this act modernizes evidence handling within the Indian legal system, addressing digital evidence and other contemporary issues. This act focuses on procedural aspect of law, governing how rights may be enforced before a court of law. This act introduces changes related to electronic evidence definitions and admissibility procedures. This act received presidential assent on December 25, 2023 and came into effect from July 01, 2024, this act has omitted certain terms which were earlier present in the Indian Evidence Act and the major change was to include electronic evidence as part of the definition of documentary records and also included the possibility of giving oral evidence electronically.

FDI POLICY

The Foreign Trade (Regulation And Development) Act, 1992 And The Rules Framed Thereunder ("FTA")

The FTA is the main legislation concerning foreign trade in India. The FTA, read along with Foreign Trade (Regulation) Rules, 1993, provides for the development and regulation of foreign trade by facilitating imports into, and augmenting exports from, India and for matters connected therewith or incidental thereto. As per the provisions of the FTA, the Government:- (i) may make provisions for facilitating and controlling foreign trade; (ii) may prohibit, restrict and regulate exports and imports, in all or specified cases as well as subject them to exemptions; (iii) is authorised to formulate and announce an export and import policy and also amend the same fro m time to time, by notification in the Official Gazette; (iv) is also authorised to appoint a 'Director General of Foreign Trade' for the purpose of the FTA, including formulation and implementation of the Export-Import ("**EXIM**") Policy. The FTA prohibits anybody from undertaking any import or export except under an Importer-Exporter Code number ("**IEC**") granted by the Director General of Foreign Trade pursuant to Section 7 of the FTA. Hence, every entity in India engaged in any activity involving import/export is required to obtain an IEC unless specifically exempted from doing so. Failure to mention IEC number attracts a penalty of not less than ₹10,000 and not more than five times the value of the goods or services or technology in respect of which any contravention is made or is attempted to be made, whichever is made. The IEC shall be valid until it is cancelled by the issuing authority.

Foreign Trade Policy

The Foreign Trade Policy provides that no export or import can be made by a person without an IEC unless such person is specifically exempted. The policy provides for all exports and imports made shall be governed by the Foreign Trade Policy, unless otherwise specified. FTP provides for handbook of procedures laying down the procedure to be followed by an exporter or importer or by any Licensing/Regional Authority or by any other authority for purposes of implementing provisions of FT (D&R) Act, the Rules and the Orders made there under and provisions of FTP. Under the Foreign Trade (Development and Regulation) Act, 1992, the Central Government is empowered to periodically formulate the Export Import Policy (the ―EXIM Policy) and amend it thereafter whenever it deems fit. All exports and imports must be in compliance with the EXIM Policy. The iron and steel industry has been extended various schemes for the promotion of exports of finished goods and imports of inputs. The major schemes available are the Duty Exemption and Remission Scheme and the Export Promotion of Capital Goods (―EPCG) Scheme. The Duty Exemption Scheme enables duty free imports of inputs required for the production of exports by obtaining an advance license. The Duty Remission Scheme enables post export replenishment/remission of duty on inputs used in the export product. This scheme consists of a Duty Free Import Authorisation Scheme (―DFIA), the Duty Drawback Scheme (―DBK) and the Duty Entitlement Pass Book

(the ―DEPB). DFIA enables duty free replenishment of inputs used in manufacture of exports. Under the DEPB Scheme, exporters on the basis of notified entitled rates are granted duty credit, which would entitle them to import goods, except capital goods, without duty.

Foreign Exchange Management Act, 1999 ("FEMA") And Regulations Framed Thereunder.

Foreign investment in India is governed primarily by the provisions of the FEMA which relates to regulation primarily by the RBI and the rules, regulations and notifications there under, and the policy prescribed by the Department of Promotion of Industry and Internal Trade. As laid down by the FEMA Regulations no prior consents and approvals are required from the Reserve Bank of India, for Foreign Direct Investment under the 'automatic route' within the specified sectoral caps. In respect of all industries not specified as FDI under the automatic route, and in respect of investment in excess of the specified sectoral limits under the automatic route, approval may be required from the FIPB and/or the RBI. The RBI, in exercise of its power under the FEMA, has notified the Foreign Exchange Management (Transfer or Issue of Security by a Person Resident Outside India) Regulations, 2000 ("**FEMA Regulations**"), as amended from time to time to prohibit, restrict or regulate, transfer by or issue security to a person resident outside India and Foreign Exchange Management (Export of Goods and Services) Regulations, 2000 for regulation on exports of goods and services.

The Foreign Direct Investment ("FDI")

The Foreign Direct Investment (FDI) policy of India governs the rules and regulations for investments made by entities outside India into Indian companies. The primary objective of this policy is to attract foreign capital for economic development. The policy is formulated and administered by the Government of India, mainly through the Department for Promotion of Industry and Internal Trade (DPIIT) under the Ministry of Commerce and Industry, and the Reserve Bank of India (RBI), which handles the implementation and monitoring aspects under the Foreign Exchange Management Act (FEMA), 1999. The most crucial aspect is the sectoral cap and entry route prescribed for the telecommunications sector. According to the latest information, 100% Foreign Direct Investment (FDI) is allowed under the automatic route in the telecom sector.

NOTE 1 : SIGNIFICANT ACCOUNTING POLICIES

I. **Basis of accounting and preparation of financial statements**

The financial statements of the Company have been prepared in accordance with the Generally Accepted Accounting Principles in India (Indian GAAP) to comply with the Accounting Standards notified under the Companies (Accounting Standards) Rules, 2015 (as amended) and the relevant provisions of the Companies Act, 2013. The financial statements have been prepared on accrual basis under the historical cost convention. The accounting policies adopted in the preparation of the financial statements are consistent with those followed in the previous year.

II. **Principles of Consolidation.**

The financial statements of Parent Company and its Subsidiary have been consolidated on a line by line basis by adding together the book values of like items of assets, liabilities, income and expenses after eliminating intra group balances, intra group transactions and unrealised profits, if any.

III. **Use of Estimates.**

The preparation of the financial statements in conformity with Indian GAAP requires the Management to make estimates and assumptions considered in the reported amounts of assets and liabilities (including contingent liabilities) and the reported income and expenses during the year. The Management believes that the estimates used in preparation of the financial statements are prudent and reasonable. Future results could differ due to these estimates and the differences between the actual results and the estimates are recognized in the periods in which the results are known / materialize.

IV. **Going Concern Assumption**

The Management believes that the Company would be in a position to continue as a going concern for the foreseeable future and may meet its financial obligations as they fall due. Accordingly, these financial statements have been prepared under the going concern assumption.

V. **Property, Plant and Equipment**

Property Plant & Equipment are stated at cost of acquisition less accumulated depreciation and impairment loss, if any. Capital Work in progress are stated at cost, net off accumulated impairment losses if any. The cost of acquisition includes direct cost attributable to bringing the assets to their present location and working condition for their intended use. The cost of fixed assets includes interest on borrowings attributable to acquisition of qualifying fixed assets up to the date the asset is ready for its intended use and other incidental expenses incurred up to that date and excludes any tax for which input credit is taken.

Subsequent expenditure is capitalised only when it increases the future economic benefits for its intended from the existing assets beyond its previously assessed standard of performance. When significant parts of plant and equipment are required to be replaced at intervals, the Company depreciates them separately based on their specific useful lives and capitalises cost of replacing such parts if capitalisation criteria are met. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

Gains or losses arising from derecognition of property, plant and equipment are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the Statement of Profit and Loss when the asset is derecognized

VI. **Depreciation**

Depreciation on Tangible Assets has been provided on Written Down Value (WDV) method and the amount of depreciation has been computed as per the useful life specified under Companies Act, 2013.

The estimated useful lives of assets are as follows:

Assets	Useful Life	Method
Computer	3 years	WDV
Furniture and Fixture	10 years	WDV
Office Equipment	5 years	WDV
Motor Cycle	10 years	WDV
Motor Car	8 years	WDV

VII. Impairment of Assets

An asset is treated as impaired when the carrying cost of assets exceeds its recoverable value. An impairment loss is charged to the Profit & Loss Account in the year in which an asset is identified as impaired. The impairment loss recognised in prior accounting period is reversed if there has been a change in the estimate of recoverable amount.

VIII. Intangible asset:

Computer software

Cost associated with maintaining software programmes are recognized as expense as incurred. Development costs that are directly attributable to the design and testing of identifiable and unique software products controlled by the company are recognized as intangible assets when the following criteria are met:-

1) it is probable that the future economic benefits that are attributable to the asset will flow to the enterprise; and
2) the cost of the asset can be measured reliably

Following initial recognition, intangible assets are carried at cost less accumulated amortization and accumulated impairment losses, if any. Computer Software is amortized using the written down value method. The amortization period and the amortization method are reviewed at least at each financial year end. If the expected useful life of the asset is significantly different from previous estimates, the amortization period is changed accordingly. The Useful life of Intangible Asset is considered as 7 Years.

IX. Investments

Classification of Investment:

Investment that are by their nature are readily realisable and are intended to be held for not more than one year from the date of on which such investment are made is classified as current investments.
Investment other than current investment are classified as Non Current Investments
Investments are initial recognized at cost

Valuation of Investment:
i. Investments are initially recognized at cost.
The cost of an investment includes acquisition charges such as brokerage, fees and duties
ii. If an investment is acquired, or partly acquired, by the issue of shares or other securities, the acquisition cost is the fair value of the securities issued
iii. If an investment is acquired in exchange, or part exchange, for another asset, the acquisition cost of the investment is determined by reference to the fair value of the asset given up.

Current Investments are valued at cost or fair value whichever is lower
where as long term investments are always valued at cost

X. Revenue recognition

Revenue is recognized upon transfer of control of promised products or services to customers in a amount that reflects the consideration which the Company expects to receive in exchange for those products or services. Revenue is measured at the fair value of the consideration received or receivable, net of returns, discounts and volume rebates.

Interest Income
Interest income is recognized on a time proportionate basis taking into account the amount outstanding and the applicable effective interest rate. Interest income is included under the head "Interest Income" in the statement of profit & loss.

Dividends
Dividends income is recognized when the company's right to receive dividend is established. Profit on Sale of Investment is calculated on Selling Price less the Cost of Acquisition for the Investment.

Income from investments
Profit / (Loss) earned from sale of securities is recognised on trade date basis. The cost of securities is computed based on weighted average basis.

XI. Employee benefits

(i) Short term employee benefits
All employee benefits falling due wholly within twelve months of rendering the service are classified as short term employee benefits. The benefits like salaries, wages, and short term compensated absences and performance incentives are recognized in the period in which the employee renders the related service.

(ii) Post-employment benefits
a) Defined contribution plan
The Company's state governed provident fund scheme are classified as defined contribution plans. The contribution paid / payable under the schemes is recognised in the statement of profit and loss in the period in which the employee renders the related service.

b) Defined benefits plan
The Employee's gratuity fund scheme is the Company's defined benefit plans. The cost of providing defined benefits is determined using the Projected Unit Credit method with actuarial valuations being carried out at each reporting date. The defined benefit obligations recognized in the Balance Sheet represent the present value of the defined benefit obligations as reduced by the fair value of plan assets, if applicable. All expenses represented by current service cost, past service cost, if any, and net interest on the defined benefit liability (asset) are recognized in the Statement of Profit and Loss

(iii). Long term employee benefits:
The obligation for long term employee benefits like long term compensation absences is recognized in the similar manner as in the case of defined benefit plans as mentioned in (ii) (b) above.

Gratuity
Following table sets out the status of Gratuity plans and amounts recognized in financial statement for F.Y. ended 31st March 2026 ,31st March 2025, and 31st March 2024

(Rs. In lakhs)

Gratuity Balance sheet Reconciliation	FY 2025-26	FY 2024-25	FY 2023-24
Opening net liability as per Financials	65.69	46.53	40.21
Expenses / (income) for period of Gratuity	20.51	19.16	6.32
Benefit paid directly by employer		-	-
Employers Contribution		-	-
Closing net liability / (asset) recognized	86.34	65.69	46.53
Current Liability	12.35	7.29	6.12
Non-Current Liability	73.99	58.40	40.41

The discounting rates and other information used for the calculation of employee benefit obligation are as follows:

Gratuity Balance sheet Reconciliation	FY 2025-26	FY 2024-25	FY 2023-24
Discounting Rate used to calculate employee benefit obligation	7.14%	6.65%	7.17%
Average future expected working life of employees value of	6 Years	7 Years	5 Years
Salary Escalation rate considered for future years	8%	8%	8%

*Rate taken for each financial year are taken as per the deal rate as on 31st March of respective financial year.

The sensitivity analysis have been determined based on reasonably possible changes of the respective assumptions occurring at the end of the reporting period, while holding all other assumptions constant.

The sensitivity analysis presented above may not be representative of the actual change in the defined benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated. Furthermore, in presenting the above sensitivity analysis, the present value of the defined benefit obligation has been calculated using the projected unit credit method at the end of the reporting period, which is the same method as applied in calculating the defined benefit obligation as recognised in the balance sheet

Expenses to be Recognized in the Statement of Profit or Loss for the year **(Rs. In lakhs)**

Gratuity Balance sheet Reconciliation	FY 2025-26	FY 2024-25	FY 2023-24

Past Service cost - Vested Benefit Recognized	0.15		
Expenses Recognized in statement of Profit or loss	**17.70**	**19.16**	**6.32**

The company does not have any plan assets for gratuity.

XII. Taxes on Income

Provision for current tax is made in terms of provisions of the Income Tax Act, 1961. Deferred tax on account of timing difference between taxable and accounting income is provided considering the tax rates and tax laws enacted or substantively enacted by Balance sheet date, the deferred tax asset is recognized and carried forward only to the extent that there is a reasonable certainty that the assets will be realized in future.

Minimum Alternate Tax credit is recognized as an asset only when and to the extent there is convincing evidence that the Company will pay normal income tax during the specified period. The Company reviews the same at each balance sheet date and writes down the carrying amount of MAT Credit Entitlement to the extent there is no longer convincing evidence to the effect that the Company will pay normal Income Tax during the specified period.

XIII. Borrowing Cost:

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

XIV. Provision, Contingent Liabilities & Contingent Assets :

Provisions are recognized only when there is a present obligation as a result of past events and when a reliable estimate of the amount of the obligation can be made.
Contingent Liabilities is disclosed in Notes to the account for:-
(i) Possible obligations which will be confirmed only by future events not wholly within the control of the company or

(ii) Present Obligations arising from past events where it is not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount of the obligation cannot be made.
Contingent assets are not recognized in the financial statement since this may result in the recognition of the income that may never be realized.

XV. Current and non-current classification

The Company presents assets and liabilities in the balance sheet as restated based on current / non-current classification.

An asset is classified as current when it satisfies any of the following criteria:
-It is expected to be realised in, or is intended for sale or consumption in, the Company's normal operating cycle.
- It is held primarily for the purpose of being traded;
-It is expected to be realised within 12 months after the reporting date; or
-It is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least 12 months after the reporting date.
- All other assets are classified as non-current.

A liability is classified as current when it satisfies any of the following criteria:
- It is expected to be settled in the Company's normal operating cycle;
- It is held primarily for the purpose of being traded
- It is due to be settled within 12 months after the reporting date; or the Company does not have an unconditional right to defer settlement of the liability for at least 12 months after the reporting date. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.
-All other liabilities are classified as non-current.

XVI. Contingencies & Events occurring after the balance sheet date

Event occurring after the date of balance sheet, which provide further evidence of conditions that existed at the Balance Sheet or that arise subsequently, are considered up to the date of approval of accounts by the Board of Directors, Where material.

XVII. Lease expense

Lease payments under an operating lease recognised as an expense in the statement of profit and loss on a straight line basis over the lease term.
Company has not entered into any finance lease arrangements.

XVIII. Foreign Currency Transactions

(i) Initial recognition - Average monthly exchange rate is considered for all transactions in each foreign currency occurring during that period.
(ii) Conversion -As at balance sheet date, foreign currency monetary items are translated at closing exchange rate. Foreign currency non-monetary items are carried at historical cost using exchange rate on the date of transaction.

Exchange Difference Exchange difference arising on settlement or translation of foreign currency monetary items are recognized as income or expense in the year in which they arise except to the extent exchange differences are regarded as an adjustment to interest cost and treated in accordance with Accounting Standard 16- Borrowing Cost

XIX. Other Income

Interest income: Interest income is recognized on time proportion basis taking into account the amount outstanding and rate applicable.
Other Income: Income from investment and other income are accounted on accrual basis.

XX. Earning Per Share

Basic earning per share is calculated by dividing the net profit after tax by the weighted average number of equity shares outstanding during the year. Diluted earing per share adjusts the figures used in determination of basic earnings per share to take into account the conversion of all dilutive potential equity shares.

XXI. CSR

During Previous Year , the profit of the Company crossed the prescribed limit of Rs. 5 crore for applicability of CSR. Accordingly, CSR of Rs. 27.93 lakhs are spent for FY 25-26.

- The Company reported RCS Notification revenue of ₹72.79 Lakhs in FY 2024-25 compared to Nil in FY 2023-24 due to introduction of new and improved products;
- The above increase was offset to some extent by decline revenue from WhatsApp and Digital Marketing segments.

The increase in revenue during can be attributed to increase in volume of business from the existing customer's due to growing demand of SMS services and also due to introduction of RCS services.

Other Income

In the financial year 2024-25, the other income recorded an increase of 720.38%, amounting to ₹ 51.93 Lakhs, as compared to ₹ 6.33 Lakhs in financial year 2023-24. This increase was primarily due to increase in other income and profit on sale of car amounting to ₹ 36.77 Lakhs and ₹ 14.97 Lakhs respectively.

Purchase of Messaging services and Direct Expenses

The Purchase of Messaging services rose from ₹ 9,631.90 Lakhs during the financial year 2023-24 to ₹ 15,223.00 Lakhs in the financial year 2024-25. This represents an increase of approximately ₹ 5,591.09 Lakhs, which is equivalent to a 58.05% increase. This uptick can be attributed mainly to increase in costs related to SMS, email, and voice call expenses amounting to ₹ 8,055.89 Lakhs, commission paid amounting to ₹ 49.96 Lakhs and RCS purchases amounting to ₹ 50.59 Lakhs. However, it's important to note that this increase was partially offset by international purchases of ₹ 1,919.03 Lakhs.

Employee Benefits Expenses

Employee benefit expenses in the Financial Year 2024-25 surged by 30.87%, reaching ₹ 638.72 Lakhs in comparison to the ₹ 488.05 Lakhs incurred in the Financial Year 2023-24. This rise in employee expenses primarily stemmed from increases in salary wages and bonuses, which went up by ₹ 125.53 Lakhs, as well as director remunerations and gratuity expenses, which saw an increase of ₹ 5.38 Lakhs and ₹ 12.84 Lakhs respectively.

Finance Cost

The Finance cost increase by 264.50% to ₹ 115.92 Lakhs in the Financial Year 2024-25 against that of ₹ 31.80 Lakhs in Financial Year 2023-24. The increase of the Finance Charges is on account of substantial increase in interest on Loan/OD charges by ₹ 68.01 Lakhs and processing charges by ₹ 16.11 Lakhs.

Depreciation and Amortisation Expenses

Depreciation and amortization expenses increased by ₹ 51.63 Lakhs to reach ₹ 130.31 Lakhs during the financial year 2024-25, compared to the ₹ 78.68 Lakhs recorded in the financial year 2023-24. This increase in depreciation was a result of purchase of motor vehicles and purchase of property.

Other Expenses

Other expenses saw an increase of 32.78%, totalling ₹ 498.72 Lakhs during the financial year 2024-25, as opposed to the ₹

375.59 Lakhs incurred in the financial year 2023-24. This increase in other expenses was primarily attributed to several factors, including, ₹ 25.55 Lakhs increase in server & domain charges, ₹ 10.67 Lakhs increase in legal and professional charges, ₹ 22.96 Lakhs increase in Provision for Doubtful Debt, ₹ 10.55 Lakhs increase in office expenses.

Tax Expenses

Profit after Tax (PAT)

As a result of the factors mentioned earlier, the profit showed an increase, primarily due to the growth in Total income. The Profit After Tax (PAT) for the financial year 2024-25 amounted to ₹1,654.00 Lakhs, in contrast to ₹ 1,027.18 Lakhs in the financial year 2023-24. In the financial year 2024-25, the PAT represented 8.79% of the total income, as opposed to 8.57% of the total income in the financial year 2023-24.

PAT Margin

The PAT margin for FY24-25 remained consistent with FY 23-24, supported by strong revenue growth. This stability was primarily driven by business expansion-related costs, competitive pricing strategies to capture market share, increased spending on client acquisition and retention, higher investments in technology and manpower, and additional compliance expenses associated with scaling operations and international expansion. These are strategic, growth-focused initiatives that have supported margin stability and are expected to enhance the Company's long-term positioning and profitability.

COMPARISON OF F.Y. 2024 WITH F.Y. 2023

Revenue from Operations

The Company's revenue from operations for the financial year 2023-24 stood at ₹ 11,972.69 Lakhs, marking an increase of ₹ 4,626.25 Lakhs (62.97%) compared to the previous financial year 2022-23, where revenue was ₹ 7,346.44 Lakhs.

The sales growth can be attributed to a surge in demand for the Company's extensive cloud communication solutions, including SMS, Voice, WhatsApp, and Email services, across various industries such as Telecom, IT, Travel & Tourism, Entertainment, Media, Advertising, and Events.

Key contributors to the revenue increase include:

- SMS Revenue grew by ₹4,701.03 Lakhs (74.88%), from ₹ 6,278.27 Lakhs in FY 2022-23 to ₹10,979.24 Lakhs in FY 2023-24, accounting for 91.70 % of Revenue from operations;
- WhatsApp Revenue grew by ₹ 271.15 Lakhs (162.48%), increasing from ₹166.88 Lakhs in FY 2022-23 to ₹438.03 Lakhs in FY 2023-24;
- Digital Marketing Revenue saw a ₹ 145.73 Lakhs (39.65%) increase, rising from ₹ 367.58 Lakhs to ₹ 513.31 Lakhs, driven by growth in Digital Sales;
- The above increase was offset to some extent by decline revenue from Voice call, Email services and RCS.

Other Income

In the financial year 2023-24, the other income recorded a decrease of 79.24%, amounting to ₹ 6.33 Lakhs, as compared to ₹ 30.49 Lakhs in financial year 2022-23. This decline was primarily due to decrease in profit from sale of shares amounting to ₹ 24.95 Lakhs.

Purchase of Messaging services and Direct Expenses

The Purchase of Messaging services rose from ₹ 5,797.22 Lakhs during the financial year 2022-23 to ₹ 9,631.90 Lakhs in the financial year 2023-24. This represents an increase of approximately ₹ 3,834.69 Lakhs, which is equivalent to a 66.15% increase. This uptick can be attributed mainly to increase in costs related to SMS, email, and voice call expenses amounting to ₹ 3,304.68 Lakhs, Digital expenses amounting to ₹ 517.63 Lakhs and WhatsApp purchases amounting to ₹ 165.80 Lakhs. However, it's important to note that this increase was partially offset by international purchases of ₹ 187.99 Lakhs.

I. LITIGATIONS INVOLVING OUR COMPANY

A. *Litigation filed against our Company* – 5*

- Criminal proceedings: Nil
- Outstanding actions by regulatory and statutory authorities: Nil
- Civil Proceedings: Nil
- Tax Proceedings: 5*

1) **For the Assessment Year 2017-18, the Company has received a demand dated April 20, 2023, from the assessing office of the income tax authority under Section 147 of the Income Tax Act, 1961 for an amount of ₹ 1.82 lakhs. The assessing officer has raised the demand under Section 147 of the Income Tax Act, 1961 as he has reasons to believe that some of the income has escaped the assessment as a result of which the assessing officer has reopened the assessment proceedings. The Company has submitted written submissions along with supporting documents viz. the sales ledger, financial statement in support of its submissions which has been satisfactorily considered by the assessing officer to conclude that the written submissions along with supporting documents provide sufficient explanation to the demand notice, thus, no adverse inference has been drawn by the assessing officer in the present case. Though the demand of ₹ 1.82 lakhs is still showing on the income tax website, the Company shall take appropriate steps with the jurisdictional assessing officer for removal of the said demand from the income tax website.*

2) An income tax case pertains to the Assessment Year 2018-19, in which a search was conducted by the Income Tax office under Section 132 of the Income Tax Act, 1961 on one Mr. Jignesh S. Shah and Mr. Sanjay Shah resulting into seizure of unaccounted cash related to accommodation entries and commission earned thereon along with incriminating digital as well as documentary evidences. The clandestine record of unaccounted cash, synchronized trading, proving bogus LTCG in various BSE listed scrips and transport of such cash through angadiyas was found to be maintained in secret tally data file with company name "123", which was impounded during survey proceedings u/s 133A from business premises of Mr. Sanjay Shah. In this secret and coded file, delivery and movement (through angadiya etc.) of cash is recorded against transactions of shares on BSE platform. Furthermore, the receipt of commission in form of cash is also recorded under the head "LTCG COMMISSION". The evidences manifest that this is the record of accommodation entries of LTCG against receipt of cash. The evidences demonstrate that accommodation entry provider duo has resorted to synchronized trading in shares of various listed companies, because it is only through synchronized trading that the sellers are ensured accommodation entry of bogus LTCG against cash and the buyers are ensured delivery of cash against such pre-determined purchase of shares. According to the office of the Income Tax, the Company is alleged to be one of the beneficiaries of the said persons as it has received amounts aggregating to ₹.100 lakhs from the said persons on different dates through two companies i.e. M/s. Pranatpal Trade Link Private Limited and Taru Pallav Projects Private Limited who according to the income tax authority are merely paper companies controlled by Mr. Jignesh S. Shah. The notice under the Act has been issued upon the Company alleging that income chargeable to tax has escaped assessment and has treated an amount of ₹.100 lakhs as unexplained cash credit under Section 68 of the Income Tax Act, 1961. The Company has filed its response but has not been found acceptable to the office of the Income Tax and accordingly the office of Income Tax has made an addition of ₹.100 lakhs and ₹.2 lakhs as an unexplained expenditure to the income as per return filed by the Company under Section 139 of the Income Tax Act, 1961. An order dated March 19, 2024 has been passed by the assessing office under Section 147 of the Income Tax Act, 1961 and a demand notice dated March 19, 2024 for an amount of ₹ 125.57 lakhs has been served upon the Company. The penalty proceedings have also been initiated under Section 271AAC(1) of the Income Tax Act, 1961. Against the said order dated March 19, 2024, the Company has filed an Appeal before the Commissioner of Income Tax (Appeals)
Stage of the case: Hearing of Appeal.
Next date of hearing: No date of hearing has been assigned yet.

3) **For the Assessment Year 2021-22, the Company has received a demand dated March 30, 2023, from the assessing office of the income tax authority under Section 168 of the Income Tax Act, 1961 for an amount of ₹ 2.37 lakhs. The demand is raised for non-payment of equalization levy. The Company has duly paid the said equalization levy but the*

income tax website is yet to update the payment made by the Company. The demand in the present case is NIL and the Company shall take appropriate steps with the jurisdictional assessing officer for removal of the said demand from the income tax website.

4) **For the Assessment Year 2022-23, the Company has received a demand dated March 25, 2024, from the assessing office of the income tax authority under Section 168 of the Income Tax Act, 1961 for an amount of ₹ 2.14 lakhs. The demand is raised for non-payment of equalization levy. The Company has duly paid the said equalization levy but the income tax website is yet to update the payment made by the Company. The demand in the present case is NIL and the Company shall take appropriate steps with the jurisdictional assessing officer for removal of the said demand from the income tax website.*

5) The Company is in receipt of an Intimation issued by the Centralized Processing Center (CPC), Income Tax Department, Bengaluru under Section 168(1) of the Finance Act, 2016, for the Financial Year 2020–21, with acknowledgment no. 212910620300721 and DIN CPC/2122/A12/325951861, wherein the department processed the statement filed by the Company in Form-1 under Section 167(1) concerning Equalisation Levy on specified services, and upon such processing determined that the Company had made payments for specified services amounting to ₹26 lakhs, on which Equalisation Levy at the prescribed rate of 6% amounting to ₹1.54 lakhs was deductible, while the Company had reported ₹1.54 lakhs as equalisation levy deducted but the records showed that no corresponding payment of such levy was actually deposited with the Government, thereby resulting in equalisation levy payable of ₹1.54 lakhs, and after computing interest under Section 170 of the Finance Act, 2016 amounting to ₹0.40 lakhs for delay or non-payment of the levy, and adjusting the minor interest shown as paid by the Company, the CPC determined a total outstanding demand of ₹1.94 lakhs for FY 2020-21, bearing Demand Reference No. 20222021371537543 44T. The intimation clarifies that the said communication shall be deemed to be a notice of demand under Rule 7 of the Equalisation Levy Rules, 2016, requiring the Company to pay the entire demand within 30 days of receipt of the intimation, while also providing the option to seek rectification under Section 169 of the Finance Act, 2016 if any part of the intimation is incorrect, and enclosing a pre-filled challan (ITNS-285) and e-payment link for payment of the equalisation levy demand along with interest through the tax payment portal or authorized bank branch.

6) The Company is in receipt of an Intimation issued by the Centralized Processing Center (CPC), Income Tax Department, Bengaluru under Section 168(1) of the Finance Act, 2016 relating to Financial Year 2021–22, with Acknowledgment No. 726710030300622 and DIN CPC/2223/A12/417503931, whereby the statement filed by the Company in Form-1 under Section 167(1) for Equalisation Levy was processed and it was determined that the Company had made payments for specified services amounting to ₹114 lakhs, on which Equalisation Levy at 6% amounting to ₹6.84 lakh was deductible, while the records reflected that although the Company reported deduction of the levy and partial payments aggregating to ₹5.42 lakhs, the levy and interest payable under Section 170 were recomputed by the department, leading to a total Equalisation Levy and interest liability of ₹6.88 lakhs, resulting in a net outstanding demand of ₹1.95 lakhs (Demand Reference No. 20232022372463352 65T) for the said financial year. The said intimation further clarifies that no penalty under Sections 171 or 172 has been imposed, and that the intimation shall operate as a notice of demand under Rule 7 of the Equalisation Levy Rules, 2016, requiring payment of the outstanding demand within 30 days of receipt, with an option to seek rectification under Section 169 of the Finance Act, 2016, along with a pre-filled challan and e-payment facility for discharge of the demand.

7) For the Financial Year 2022-23, the Company is in receipt of notice under e-verification scheme, 2021 from the income tax department stating that one Mr. Jitendra Kumar has furnished disagreement on the information filed by the Company in Form 26Q for the said financial year. The Company has been called upon through the said notice to provide confirmation reported by it in Form 26Q on or before January 15, 2025. In response dated January 03, 2025, the Company has stated that the payment has been made to Mr. Jitendra Kumar under Section 194H (TDS deducted on payment of commission or brokerage) and has submitted annexures to substantiate its response. The amount involved in the present case is ₹ 3.50 Lakhs.

8) The Company is in receipt of an Intimation Order under Section 143(1) of the Income Tax Act, 1961 issued by the Centralized Processing Center (CPC), Bengaluru for the Assessment Year 2024-25, based on the ITR-6 return filed on October 17, 2024 against the due date of October 31, 2024 (extended to November 15, 2024), wherein the Company declared total income of ₹1298 lakhs, which upon processing under Section 143(1) was marginally recomputed by CPC at ₹12.99 lakhs consisting primarily of business income of ₹1292 lakhs, capital gains of ₹5.61 lakhs and income from other sources of ₹0.91 lakhs, accordingly the tax liability on total income was determined at ₹326 lakhs including surcharge and health and education cess, and interest under Sections 234B and 234C aggregating to ₹15.96 lakhs, resulting in a total liability of ₹342 lakhs, whereas pre-paid taxes comprising TDS and self-assessment tax amounted to ₹333 lakhs, leading to a net demand of ₹9.25 lakhs payable by the Company. The demand having arisen largely due to differences between TDS claimed in the return and the credits reflected in Form 26AS in respect of several deductors, as detailed in the annexure to the intimation, and the notice further directs the Company to pay the demand within 30 days or seek rectification under Section 154 through the income-tax e-filing portal in case of any discrepancy.

1) For the Assessment Year 2019-20, Mr. Rahul Bhupendra Bhanushali is in receipt of an assessment order dated February 03, 2025 under Section 147 read with Section 144B of the Income Tax Act, 1961. from the Income Tax Department and furtherance to such assessment order, a notice of demand dated February 03, 2025 has been sent to Mr. Rahul Bhupendra Bhanushali demanding a sum of ₹.460 Lakhs. Based on the information received by the Assessing Officer in accordance with the Risk Management Strategy it is alleged that the Mr. Rahul Bhupendra Bhanushali is one of the beneficiaries of the fictitious loan entries provided by Mr. Jignesh Shah on April 11, 2018, through the company M/s. TaruPallav Projects Pvt. Ltd. to the tune of ₹ 50 lakhs. It is alleged that M/s. TaruPallav Projects Pvt. Ltd. are non-existent at the address mentioned by such entity and that it is not carrying out any genuine business activities except for providing accommodation entries through Mr. Jignesh Shah. Further, in the said assessment order, it is alleged that Mr. Rahul Bhupendra Bhanushali has purchased an immovable property for an amount of ₹.403 Lakhs from M/s. Macrotech Developers Limited. Accordingly, a notice u/s 142(1) of the Income Tax Act, 1961, was issued on January 03, 2025, wherein Mr. Rahul Bhupendra Bhanushali was specifically requested for furnishing the details of purchase of immovable property, source for purchase of property, copy of bank statement reflecting such purchase transaction. On verification of bank statement of Axis Bank Ltd of Mr. Rahul Bhupendra Bhanushali, it is seen that Mr. Rahul Bhupendra Bhanushali has paid ₹ 20 Lakhs on April 06, 2018, ₹ 50 Lakhs on May 03, 2018 and ₹ 41 Lakhs on May 03, 2018 to M/s. Lodha Developers Ltd (the group concern of M/s. Macrotech Developers Ltd), thus the source for purchase of immovable property from M/s. M/s. Macrotech Developers Ltd to the extent of ₹ 110 lakhs stands explained and for balance amount of source of purchase consideration of ₹292 Lakhs remains unexplained. It is alleged by the Assessing Officer that the said amount received has not been offered to the income arising out of the said transactions to taxes. Therefore, in the backdrop of this information, an amount of ₹50 Lakhs has been added under Section 68 read with Section 115BBE of the Income Tax Act, 1961 and an amount of ₹ 292 Lakhs has been added under Section 69 read with Section 115BBE of the Income Tax Act, 1961 to the return of income of Mr. Rahul Bhupendra Bhanushali. Additionally, penalty proceedings under Section 271AAC(1) and interest under Section 234A, 234B, 234C and 234D

of the Income Tax Act, 1961 have been levied. Against the said assessment order dated February 03, 2025, Mr. Rahul Bhupendra Bhanushali has filed an Appeal before the Commissioner of Income Tax (Appeals) which is pending for further hearing.
Stage of the case: Hearing of Appeal.
Next date of hearing: No date of hearing has been assigned yet.

2) SKY OCCEAN INFRASTRUCTURE LIMITED (CIN: U70109GJ2017PLC096991; PAN: AAYCS5490F)

1. For the Assessment Year 2019–20, the case pertains to M/s. SKY Occean Infrastructure Limited (PAN: AAYCS5490F) ("SOIL"), wherein proceedings were initiated on the basis of information flagged under the Risk Management Strategy (RMS) through the Insight Portal for non-filing of return cases. The department received specific information indicating that during the Financial Year 2018–19, SOIL had undertaken financial transactions involving the purchase of immovable property amounting to ₹200 lakhs, despite which no return of income was filed for the relevant assessment year, thereby giving rise to a prima facie belief that income chargeable to tax had escaped assessment within the meaning of the explanation to Section 149(1) of the Income-tax Act, 1961. After examining the available information and obtaining the requisite approval from the competent authority, the Assessing Officer initiated reassessment proceedings by issuing notice under Section 148 dated March 25, 2023 along with an order passed under Section 148A(d) requiring SOIL to furnish the return of income for A.Y. 2019-20 within the prescribed time, however, it is alleged that SOIL failed to respond. Thereafter, multiple statutory opportunities were granted to SOIL to comply and furnish details including notices under Section 142(1) dated August 21, 2023, October 10, 2023 and October 20, 2023, along with communications and show cause notices dated November 23, 2023 and December 13, 2023, all of which were duly served through the registered email on the e-filing portal, yet no response, explanation or documentary evidence was furnished by the SOIL at any stage of the proceedings. Consequently, considering the continuous non-compliance and the approaching limitation period, the Assessing Officer proceeded to complete the assessment ex-parte under Section 144 read with Sections 147 and 144B of the Act, relying on material available on record and information independently obtained through third-party verification under Section 133(6), which confirmed that SOIL had undertaken transactions relating to purchase of immovable property amounting to ₹200 lakhs during the relevant financial year. The Assessing Officer concluded that the amount represented unexplained expenditure, and accordingly proposed and finalized an addition of ₹200 lakhs to the total income under Section 69C of the Income-tax Act, after issuing a final show cause notice regarding the proposed variation. It is alleged that as the SOIL again failed to respond to the show cause notice by the stipulated date, the proposed addition was confirmed and the total income for A.Y. 2019-20 was assessed at ₹200 lakhs. The order further records that due to the SOIL's failure to comply with statutory notices issued under Section 142(1), penalty proceedings under Section 272A(1)(d) were initiated, and since the addition pertains to unexplained expenditure, penalty proceedings under Section 271AAC were also initiated separately, while fees under Section 234F were levied for failure to furnish the return of income. Accordingly, the reassessment proceedings culminated in an assessment order dated March 18, 2024 passed by the Assessment Unit of the Income Tax Department under Section 147 read with Sections 144 and 144B, determining the taxable income of SOIL at ₹200 lakhs with consequential demand and penalty proceedings, and directing issuance of computation of income and demand notice under Section 156. The total demand levied is ₹331 Lakhs.

2. The Assessment Unit of the Income Tax Department passed a penalty order under Section 272A(1)(d) of the Income-tax Act, 1961, dated June 20, 2024 (DIN: ITBA/PNL/F/272A(1)(d)/2024-25/1065964854(1)), imposing a total monetary penalty of ₹30,000 on Sky Occean Infrastructure Limited for Assessment Year 2019–20. The proceedings originated from reassessment under Sections 147/148 of the Income Tax Act, 1961, following information that the said company purchased immovable property worth ₹2 Crores during F.Y. 2018–19 without filing a statutory return of income under Section 139 of the Income Tax Act, 1961. During assessment, it is alleged that the said company repeatedly failed to comply with statutory notices issued under Section 142(1) on August 21, 2023, October 10, 2023, and October 20, 2023. Show-cause notices were subsequently issued on December 7, 2023, April 2, 2024, and April 18/26, 2024; however, it is also alleged that the said company remained completely non-responsive. Finding no reasonable cause for the failure, the Department levied the statutory penalty of ₹10,000 for each of the three defaults. Concurrently, a Notice of Demand under Section 156 dated June 20, 2024 (DIN: ITBA/PNL/S/156/2024-25/1065964732(1)), was served on the said company directing full payment of the ₹30,000 demand within the specified statutory period. The penalty proceeding initiated under Section 272A(1)(d) (levying ₹30,000 for non-compliance with notices) is directly consequential to and stem entirely from the ex-parte assessment order dated March 18, 2024, passed under Section 147 read with Sections 144 and 144B for Assessment Year 2019–20. Consequently, the legal validity, continuation, and ultimate fate of this penalty order and the corresponding demands under Section 156 are intrinsically linked to and strictly dependent upon the procedural steps taken to challenge the primary assessment order, as any setting aside, modification, or annulment of the foundational reassessment and Section 69C addition will automatically render the derivative penalty proceeding unsustainable in law.

3. The Assessment Unit of the Income Tax Department issued a penalty order dated August 9, 2024 (DIN: ITBA/PNL/F/271AAC(1)/2024-25/1067531375(1)), under Section 271AAC(1) of the Income-tax Act, 1961, imposing a penalty of ₹15,60,000 on Sky Occean Infrastructure Limited for Assessment Year 2019–20. The case originated from

reassessment proceedings under Section 147 read with Section 144B completed on March 18, 2024, wherein an addition of ₹ 2 Crores was made under Section 69C for unexplained expenditure incurred to purchase immovable property during F.Y. 2018–19 without filing a return under Section 139. Tax on this income was charged under Section 115BBE (amounting to ₹1,56,00,000 including surcharge and cess), triggering penalty proceedings under Section 271AAC(1) calculated at 10% of the tax payable. Despite multiple show-cause notices (issued March 18, 2024, April 15, 2024, May 14, 2024, and May 20, 2024), it is alleged that the said company provided no response. Consequently, the Penalty Unit finalized the ₹15,60,000 penalty, and a Notice of Demand under Section 156 dated August 9, 2024 (DIN: ITBA/PNL/S/156/2024-25/1067531345(1)), was served for the sum payable. The penalty proceeding initiated under and Section 271AAC(1) (imposing ₹15,60,000 in connection with the Section 69C addition under Section 115BBE) is directly consequential to and stem entirely from the ex-parte assessment order dated March 18, 2024, passed under Section 147 read with Sections 144 and 144B for Assessment Year 2019–20. Consequently, the legal validity, continuation, and ultimate fate of this penalty order and the corresponding demands under Section 156 is intrinsically linked to and strictly dependent upon the procedural steps taken to challenge the primary assessment order, as any setting aside, modification, or annulment of the foundational reassessment and Section 69C addition will automatically render the derivative penalty proceeding unsustainable in law.

1) For the Assessment Year 2022-23, Mr. Chandra Prakash Maurya, the Director of the Company has received a demand dated February 21, 2023, from the assessing office of the income tax authority under Section 143(1)(a) of the Income Tax Act, 1961 for an amount of ₹ 0.11 lakhs. Mr. Chandra Prakash Maurya has disagreed with the demand and submitted his response dated October 31, 2023, stating that, as per Form 26AS viewed on the Income Tax portal, the TDS reflected therein matches with the TDS claimed in the return of income filed by him, therefore, the basis of the discrepancy raised in the demand is unclear and not correct. A request has been made by him to the income tax department to provide relevant details or clarification regarding the source of such mismatch, thus raising a challenge to the discrepancy arising in the said demand. The matter is lying with the income tax department for further consideration on the representation made by Mr. Chandra Prakash Maurya.

E TRAV TECH LIMITED (CIN: U63000GJ1995PLC027714; PAN: AAECR8945A)

1) For the Assessment Year 2020-21, E Trav Tech Limited has received a notice of demand dated September 27, 2022, under Section 156 of the Income Tax Act, 1961 for a sum of ₹ 207 Lakhs. A statutory notice under Section 143(2) of

the Income Tax Act, 1961 was issued and consequently a notice under section 142(1) of the Income Tax Act, 1961 along with questionnaire was issued to E Trav Tech Limited. It is alleged that E Trav Tech Limited has taken unsecured loans for a sum of ₹ 597 Lakhs from different parties and to understand the nature of such unsecured loans, the identity, genuineness and creditworthiness of the creditors, the details were sought from E Trav Tech Limited. It is further alleged by the income tax department that E Trav Tech Limited did not submit the genuineness and creditworthiness of the creditors due to which a notice under Section 133(6) was issued to various creditors of whom some replied while others did not file any response to such notice. Subsequently, a show cause notice was issued to E Trav Tech Limited to show cause why the unsecured loan taken from the creditors should not be treated as unexplained cash credit under Section 68 of the Income Tax Act, 1961. It is alleged that E Trav Tech Limited could partly explain and satisfy the explanation of the loan transaction and for an amount of ₹ 200 Lakhs, it could not provide any explanation and thus such amount was treated as unexplained cash credit under Section 68 of the Income Tax Act, 1961 and an addition has been made of ₹ 200 Lakhs to the return of income filed by E Trav Tech Limited under Section 68 of the Income Tax Act, 1961 and a penalty proceeding has been initiated under Section 270A of the Income Tax Act, 1961 and interest under Section 234A, 234B and 234C of the Income Tax Act, 1961 has been charged. Against such an order, E Trav Tech Limited had filed an Appeal before the Commissioner of Income Tax (Appeals) who has dismissed the said Appeal by an order dated March 29, 2024.

2) For the Assessment Year 2023-24, E Trav Tech Limited has received a notice of demand dated March 24, 2025 under Section 156 of the Income Tax Act, 1961 demanding a sum of ₹34 Crores. The said company had filed its return of income under Section 139(1) of the Income Tax Act, 1961 on October 21, 2023 declaring an income of ₹23 Crores and subsequently revised the return under Section 139(5) on December 27, 2023 declaring an income of ₹23 Crores. The case was selected for scrutiny under the CASS module on account of substantial short-term capital gains disclosed under Section 111A in Schedule CG of the ITR, warranting verification of the correctness of such declaration, the reconciliation of sale consideration from securities and mutual funds vis-à-vis the trading account, and the examination of the source of investments. As per the income tax department, despite being afforded multiple opportunities, the said company remained largely non-compliant and failed to furnish requisite details and explanations as mandated under notices issued under Section 142(1) dated February 27,2025, March 13, 2025, as well as the show cause notices dated March 07, 2025 and March 18, 2025. Except for a partial response filed, the said company neither provided adequate documentary evidence nor discharged its primary onus under Section 68 of the Act to establish the identity, creditworthiness, and genuineness of investors in respect of the increase in share capital during the year. In the absence of any credible substantiation, the assessing officer treated a sum of ₹12 Crores as unexplained credit under Section 68 of the Act and added the same to the returned income, further initiating penalty proceedings under Section 271AAC(1) of the Act for income chargeable under Section 115BBE of the Income Tax Act, 1961 by an order dated March 24, 2025. Against such an order, E Trav Tech Limited had filed an Appeal before the Commissioner of Income Tax (Appeals) which is pending for further consideration.
Stage of the case: Hearing of Appeal.
Next date of hearing: No date of hearing has been assigned yet.

3) For the Assessment Year 2024-25, E Trav Tech Limited filed its original return of income on November 5, 2024, declaring a total income of ₹21 Crores. The case was selected for limited scrutiny under Computer Aided Scrutiny Selection (CASS) to verify issues including share capital/premium, squared-up unsecured loans, and legacy additions. Following the issuance of notices under Section 143(2) on June 24, 2025, and Section 142(1) on August 22, 2025, December 8, 2025, and January 10, 2026, the Assessing Officer issued an Assessment Order under Section 143(3) read with Section 144B on March 28, 2026 (DIN: ITBA/AST/S/143(3)/2025-26/1088042630(1)). The Assessing Officer accepted the explanations regarding share premium, unsecured loans, and legacy issues, but made a single addition of ₹57.73 Lakhs on account of an un-reconciled difference between the revenue reflected in Form 26AS (₹37,03,96,849) and the income offered in the books (₹36,40,92,251), revising the assessed total income to ₹21.58 Crores. Concurrently, on March 28, 2026, a Notice of Demand under Section 156 (DIN: ITBA/AST/S/156/2025-26/1088042684(1)) was issued, determining a total payable demand of ₹16.79 Lakhs along with the initiation of penalty proceedings under Section 270A. Aggrieved by the order and demand, the taxpayer filed Form 35 (Acknowledgement No: 712848760140426) before the Commissioner of Income-tax (Appeals) under Section 246A on April 14, 2026, contesting the entire disputed addition of ₹57.73 Lakhs and the tax demand of ₹16.79 Lakhs.
Stage of the case: Hearing of Appeal.
Next date of hearing: No date of hearing has been assigned yet.

MOS UTILITY LIMITED (CIN: U66000MH2009PLC194380; PAN: AAGCM1227N)

1) For the Assessment Year 2016-17, MOS Utility Limited has received a notice of demand dated May 30, 2023, under Section 156 of the Income Tax Act, 1961 for a sum of ₹ 40.86 Lakhs. A notice under Section 148 of the Income Tax Act, 1961 was issued and a return of income was submitted by MOS Utility Limited in response to the said notice. It is alleged that MOS Utility Limited had credits amounting to ₹ 98 Lakhs through cash deposits and Mr. Thomas Edwards who was alleged to be connected to the said transaction was issued a notice under Section 133(6) of the Income Tax Act, 1961 but no response was submitted by him. The said transaction came to light due to frequent low

cash deposits into the account of MOS Utility Limited during period from January 01, 2015 to November 25, 2015. Since there was no response from Mr. Thomas Edwards, his income tax return for the Assessment Year 2016-17 was also perused. The authenticity of the said transaction was questioned by the income tax department and the deposit of ₹ 98 Lakhs was treated as unexplained cash credit/deposit and an addition to the return of income was made as per the provisions of Section 68 read with Section 115BBE of the Income Tax Act, 1961. MOS Utility Limited has filed an Appeal before the Commissioner of Income Tax (Appeals) against the said order of demand.
Stage of the case: Hearing of Appeal.
Next date of hearing: No date of hearing has been assigned yet.

2) For the period 2017-18, MOS Utility Limited is in receipt of order dated January 14, 2025 from the Office of Deputy Commissioner, Division-10, Central GST Mumbai (West) demanding payment of short paid tax amount of ₹ 29 Lakhs and penalty of ₹ 29 Lakhs under Section 122 of the Central Goods and Service Tax Act, 2017. It is alleged that there is a mismatch between the tax declared and paid in GSTR-9 by MOST Utility Limited. It is further alleged that there has been contravention of provisions of the Central Goods and Service Tax Act, 2017 with the intent to evade payment of GST, suppression and mis-delcaration of facts, intentional availment of ineligible input tax credit. A show cause notice was issued to MOS Utility Limited who had submitted it response to the said show cause notice. The Deputy Commissioner did not fine the said response relevant and accordingly, the demand has been made upon MOST Utility Limited. Against the said order of demand, MOST Utility Limited has filed an Appeal before the Office of Additional/ Joint Commissioner, Central Tax (Appeal) Mumbai-III.
Stage of the case: Hearing of Appeal.
Next date of hearing: No date of hearing has been assigned yet.

IN-PRINCIPLE APPROVAL

Our Company has received an In-principle Approval letter dated August 14, 2026 from BSE SME for using its name in this Red Herring Prospectus for listing our shares on the SME Platform of BSE. BSE Limited is the Designated Stock Exchange for the purpose of this Offer.

PROHIBITION BY SECURITIES MARKET REGULATORS

Our Company, Promoters, each of the Selling Shareholders, Directors, members of our Promoter Group, the persons in control of our Company, as applicable, are not prohibited from accessing the capital market or debarred from buying, selling or dealing in securities under any order or direction passed by SEBI or any securities market regulator in any other jurisdiction or any other authority/court. Except in past, one of our Promoter Group members, Hitesh Rupareliya, was previously involved in a matter concerning Veronica Production Limited ("**VPL**"), he was the shareholder and managing director of VPL the details of which are as follows:

The equity shares of VPL were suspended from trading by BSE Limited effective January 18, 2019, due to non-compliance with Regulation 34 of the SEBI (LODR) Regulations, 2015, for two consecutive years (FY 2017 and 2018), as per SEBI Circular dated May 03, 2018. On January 05, 2024, BSE's Delisting Committee ordered compulsory delisting of VPL's equity shares. VPL subsequently filed Appeal No. 118 of 2024 before the Securities Appellate Tribunal ("**SAT**"), Mumbai. On January 15, 2025, the Tribunal, upon considering the merits and noting VPL's compliance with all requirements and payment of penalties, set aside the delisting order and directed the relisting of VPL's shares and unfreezing of promoter demat accounts. Please note, as on the date of the Red Herring Prospectus, the matter stands resolved and disposed of by BSE.

Our Directors and Promoters are not directors or promoters of any other company which has been debarred from accessing the capital markets by SEBI. Further, there has been no violation of any securities law committed by any of them in the past which is currently pending against any of them.

PROHIBITION BY RBI

MECHANISM FOR REDRESSAL OF INVESTOR GRIEVANCES

The Registrar Agreement provides for the retention of records with the Registrar to the Offer for a minimum period of three years from the date of listing and commencement of trading of the Equity Shares on the Stock Exchanges, subject to agreement with our Company for storage of such records for longer period, to enable the investors to approach the Registrar to the Offer for redressal of their grievances.

In terms of SEBI Master Circular, SEBI circular no. *SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M* dated *March 16, 2021*, as amended pursuant to SEBI circular no. *SEBI/HO/CFD/DIL2/P/CIR/2021/570* dated *June 02, 2021*, *SEBI/HO/CFD/DIL2/CIR/P/2022/51* date *April 20, 2021* and *SEBI/HO/CFD/DIL2/P/CIR/2022/75* dated *May 30, 2022* subject to applicable law, any ASBA Bidder whose Bid has not been considered for Allotment, due to failure on the part of any SCSB, shall have the option to seek redressal of the same by the concerned SCSB within three months of the date of listing of the Equity Shares. SCSBs are required to resolve these complaints within 15 days, failing which the concerned SCSB would have to pay interest at the rate of 15% per annum for any delay beyond this period of 15 days. Further, the investors shall be compensated by the SCSBs at the rate higher of ₹ 100 per day or 15% per annum of the application amount in the events of delayed or withdrawal of applications, blocking of multiple amounts for the same UPI application, blocking of more amount than the application amount, delayed unblocking of amounts for non- allotted/partially allotted applications for the stipulated period. In the event there is a delay in redressal of the investor grievance in relation to unblocking of amounts, the Book Running Lead Managers shall compensate the investors at rate higher of ₹100 per day or 15% per annum of the application amount.

SEBI pursuant to its circular bearing reference number *SEBI/HO/CFD/TPD1/CIR/P/2023/140* dated *August 09, 2023* has reduced the time taken for listing of specified securities after the closure of public issue to 3 working days (T+3 days) as against the present requirement of 6 working days (T+6 days). 'T' being issue closing date. In partial modification to circulars dated March 16, 2021 and April 20, 2022, the compensation to investors for delay in unblocking of ASBA application monies (if any) shall be computed from T+3 day. The provisions of this circular were applicable, on a voluntary basis for public issues opening on or after September 1, 2023 and on mandatory basis for public issues opening on or after December 1, 2023. Our Company shall follow the timeline prescribed under the SEBI circular bearing number *SEBI/HO/CFD/TPD1/CIR/P/2023/140* dated *August 09, 2023*. The timelines prescribed for public issues as mentioned in SEBI circulars dated November 1, 2018, June 28, 2019, November 8, 2019, March 30, 2020, March 16, 2021, June 2, 2021, and April 20, 2022 shall stand modified to the extent stated in this Circular.

2) *Our Company in consultation with the BRLM, consider closing the Bid/Offer Period for QIBs one Working Day prior to the Bid/Issue Closing Date in accordance with the SEBI ICDR Regulations;*
3) *UPI Mandate Acceptance and Confirmation shall be at 5.00 pm IST on offer closing date.*

**In case of any delay in unblocking of amounts in the ASBA Accounts (including amounts blocked through the UPI Mechanism) exceeding four Working Days from the Bid/Offer Closing Date, the Bidder shall be compensated at a uniform rate of ₹ 100/- per day for the entire duration of delay exceeding four Working Days from the Bid/Offer Closing Date by the intermediary responsible for causing such delay in unblocking. The BRLM shall, in their sole discretion, identify and fix the liability on such intermediary or entity responsible for such delay in unblocking. For the avoidance of doubt, the provisions of the SEBI circular dated March 16, 2021, as amended pursuant to SEBI circular dated June 02, 2021 shall be deemed to be incorporated in the agreements to be entered into by and between the Company and the relevant intermediaries, to the extent applicable.*

The above timetable, other than the Bid/Offer Closing Date, is indicative and does not constitute any obligation on our Company the BRLM. While our Company shall ensure that all steps for the completion of the necessary formalities for the listing and the commencement of trading of the Equity Shares on the Stock Exchange are taken within 3 Working Days of the Bid/Offer Closing Date, the timetable may change due to various factors, such as extension of the Bid/ Offer Period by our Company, revision of the Price Band or any delays in receiving the final listing and trading approval from the Stock Exchange. The Commencement of trading of the Equity Shares will be entirely at the discretion of the Stock Exchange and in accordance with the applicable laws.

Bid-Cum-Application Forms and any revisions to the same will be accepted only between 10.00 A.M. to 5.00 P.M. (IST) during the Offer Period (except for the Bid/Offer Closing Date). On the Bid/Offer Closing Date, the Bid-Cum-Application Forms will be accepted only between 10.00 A.M. to 3.00 P.M. (IST) for Individual investors who applies for minimum application size and Non-Individual Bidders. The time for applying for Individual Investor who applies for minimum application size on Bid/Offer Closing Date may be extended in consultation with the BRLM, RTA, and BSE SME taking into account the total number of applications received up to the closure of timings.

On the Bid/ Offer Closing Date, the Bids shall be uploaded until:

- 4 P.M. IST in case of Bids by QIBs and Non-Institutional Bidders, and
- until 5.00 P.M. IST or such extended time as permitted by the Stock Exchange, in case of Bids by Individual investor who applies for minimum application size.

On the Bid/Offer Closing Date, an extension of time will be granted by the Stock Exchange only for uploading Bids received from Individual investor who applies for minimum application size after taking into account the total number of Bids received and as reported by the BRLM to the Stock Exchange.

The Registrar to the Issue shall submit the details of cancelled/ withdrawn/ deleted applications to the SCSBs on a daily basis within 60 minutes of the Bid closure time from the Bid/Offer Opening Date till the Bid/Offer Closing Date by obtaining the same from the Stock Exchanges. The SCSBs shall unblock such applications by the closing hours of the Working Day and submit the confirmation to the BRLM and the RTA on a daily basis.

To avoid duplication, the facility of re-initiation provided to Syndicate Members, if any shall preferably be allowed only once per Bid/batch and as deemed fit by the Stock Exchange, after the closure of the time for uploading Bids.

It is clarified that Bids not uploaded on the electronic bidding system or in respect of which the full Bid Amount is not blocked by SCSBs or not blocked under the UPI Mechanism in the relevant ASBA Account, as the case may be, would be rejected.

Due to the limitation of time available for uploading the Bid-Cum-Application Forms on the Bid/Offer Closing Date, Applicants are advised to submit their applications 1(one) day prior to the Offer Closing Date and, in any case, not later than 3:00 p.m. (IST) on the Bid/Offer Closing Date. Any time mentioned in this Red Herring Prospectus is IST. Applicants are cautioned that, in the event a large number of Bid-Cum-Application Forms are received on the Offer Closing Date, as is typically experienced in Public Offer, some Bid-Cum-Application Forms may not get uploaded due to the lack of sufficient time. Such Bid-Cum-Application Forms that cannot be uploaded will not be considered for allocation under this Offer. Bid-Cum-Applications will be accepted only on Working Days, i.e., Monday to Friday (excluding any public holidays). Neither our Company nor the Book Running Lead Manager is liable for any failure in uploading the Bid-Cum-Application Forms due to faults in any software/hardware system or otherwise.

In accordance with ICDR Regulations, QIBs and Non-Institutional Applicants are not allowed to withdraw or lower the size of their application (in terms of the quantity of the Equity Shares or the Application Amount) at any stage. Individual investor who applies for minimum application size can revise or withdraw their Application Forms prior to the Offer Closing Date. Allocation to Individual investor who applies for minimum application size, in this Offer will be on a proportionate basis.

In case of discrepancy in the data entered in the electronic book vis-à-vis the data contained in the physical Application Form, for a particular Applicant, the details as per the file received from SME Platform of BSE Limited may be taken as the final data for the purpose of Allotment. In case of discrepancy in the data entered in the electronic book vis-à-vis the data contained in the physical or electronic Application Form, for a particular ASBA Applicant, the Registrar to the Offer shall ask the relevant SCSBs / RTAs / DPs / stockbrokers, as the case may be, for the rectified data.

Our Company in consultation with the BRLM, reserves the right to revise the Price Band during the Bid/Offer Period. The revision in the Price Band shall not exceed 20% on either side, i.e. the Floor Price can move up or down to the extent of 20% of the Floor Price and the Cap Price will be revised accordingly. The Floor Price shall not be less than the face value of the Equity Shares.

In case of any revision to the Price Band, the Bid/Offer Period will be extended by at least three additional Working Days following such revision of the Price Band, subject to the Bid/Offer Period not exceeding a total of 10 Working Days. In cases of force majeure, banking strike, or similar circumstances, our Company in consultation with the BRLM, for reasons to be recorded in writing, extends the Bid/Offer Period for a minimum of three Working Days, subject to the Bid/Offer Period not exceeding 10 Working Days. Any revision in the Price Band and the revised Bid/Offer Period, if applicable, will be widely disseminated by notification to the Stock Exchange, by issuing a public notice, and also by indicating the change on the respective websites of the BRLM and the terminals of the Syndicate Members, if any and by intimation to SCSBs, other Designated Intermediaries and the Sponsor Bank, as applicable. In case of revision of the Price Band, the Bid Lot shall remain the same.

In case of force majeure, banking strike or similar circumstances, the issuer may, for reasons to be recorded in writing, extend the bidding (Offer) period disclosed in the Red Herring Prospectus (in case of a book built issue) or the Offer period disclosed in the Prospectus (in case of a fixed price Offer), for a minimum period of three working days, subject to the Bid/Offer Period not exceeding 10 working days.

MINIMUM SUBSCRIPTION

This Offer is not restricted to any minimum subscription level and is 100% underwritten. As per Section 39 of the Companies Act, 2013, if the - stated minimum amount has not been subscribed and the sum payable on application is not received within a period of 30 days from the date of the Red Herring Prospectus, the application money has to be returned within such period as may be prescribed. Phased implementation of Unified Payments Interface

SEBI has issued UPI Circulars in relation to streamlining the process of public issue of equity shares and convertibles. Pursuant to the UPI Circulars, UPI has been introduced in a phased manner as a payment mechanism (in addition to mechanism of blocking funds in the account maintained with SCSBs under ASBA) for applications by RIIs through intermediaries with the objective to reduce the time duration from public issue closure to listing from six Working Days to upto three Working Days. Considering the time required for making necessary changes to the systems and to ensure complete and smooth transition to the UPI Mechanism, the UPI Circulars proposes to introduce and implement the UPI Mechanism in three phases in the following manner:

a) **Phase I:** This phase was applicable from January 01, 2019 and lasted till June 30, 2019. Under this phase, a Individual Bidder, besides the modes of Bidding available prior to the UPI Circulars, also had the option to submit the Bid cum Application Form with any of the intermediary and use his / her UPI ID for the purpose of blocking of funds. The time duration from public issue closure to listing continued to be six Working Days.

b) **Phase II:** This phase has commenced with effect from July 01, 2019 and will continue for a period of three months or floating of five main board public issues, whichever is later. Under this phase, submission of the Bid cum Application Form by an Individual Investor through intermediaries to SCSBs for blocking of funds has been discontinued and has been replaced by the UPI Mechanism. However, the time duration from public issue closure to listing continues to be

six Working Days during this phase. SEBI vide its circular no. *SEBI/HO/CFD/DIL2/CIR/P/2020/50* dated *March 30, 2020* extended the timeline for implementation of UPI Phase II till further notice.

c) **Phase III/T+3:** This phase has become applicable vide T+3 Press Release. In this phase, the time duration from public issue closure to listing has been reduced to three Working Days. The Offer shall be undertaken pursuant to the processes and procedures as notified in the T+3 Press Release as applicable, subject to any circulars, clarification or notification issued by SEBI from time to time, including any circular, clarification or notification which may be issued by SEBI.

Pursuant to the UPI Circular, SEBI has set out specific requirements for redressal of investor grievances for applications that have been made through the UPI Mechanism. The requirements of the UPI Circular include, appointment of a nodal officer by the SCSB and submission of their details to SEBI, the requirement for SCSBs to send SMS alerts for the blocking and unblocking of UPI mandates, the requirement for the Registrar to submit details of cancelled, withdrawn or deleted applications, and the requirement for the bank accounts of unsuccessful Bidders to be unblocked not later than one day from the date on which the Basis of Allotment is finalized. Failure to unblock the accounts within the timeline would result in the SCSBs being penalised under the relevant securities law. Additionally, if there is any delay in the redressal of investors complaints in this regard, the relevant SCSB as well as the post – Offer BRLM will be required to compensate the concerned investor.

All SCSBs offering the facility of making applications in public issues shall also provide the facility to make application using UPI. The Company will be required to appoint one of the SCSBs as a Sponsor Bank to act as a conduit between the Stock Exchanges and NPCI in order to facilitate collection of requests and/ or payment instructions of the Individual Bidders using the UPI.

The processing fees for applications made by Individual Bidders using the UPI Mechanism may be released to the remitter banks (SCSBs) only after such banks provide a written confirmation on compliance with SEBI Circular No: *SEBI/HO/CFD/DIL2/P/CIR/2021/570* dated *June 02, 2021* read with SEBI Circular No: *SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M* dated *March 16, 2021*.

For further details, refer to the "General Information Document" available on the websites of the Stock Exchange and the BRLM.

Any revision in the Price Band and the revised Bid/ Offer Period, if applicable, will be published in all editions of Financial Express, an English national newspaper, all editions of Jansatta, a Hindi national newspaper and regional editions of Mumbai Lakshdeep, a Marathi daily newspaper, (Marathi being the regional language of Maharashtra where our Registered Office is located) each with wide circulation and also by indicating the change on the website of the Book Running Lead Manager.

b) During the Bid/OfferPeriod, Individual Bidders, should approach the BRLM or their authorized agents to register their Bids. The BRLM shall accept Bids from Anchor Investors and ASBA Bidders in Specified Cities and it shall have the right to vet the Bids during the Bid/Offer Period in accordance with the terms of the Red Herring Prospectus. ASBA Bidders should approach the Designated Branches or the BRLM (for the Bids to be submitted in the Specified Cities) to register their Bids.

c) Each Bid cum Application Form will give the Bidder the choice to Bid for up to three optional prices (for details refer to the paragraph titled ***"Bids at Different Price Levels and Revision of Bids"*** below) within the Price Band and specify the demand (i.e., the number of Equity Shares Bid for) in each option. The price and demand options submitted by the Bidder in the Bid cum Application Form will be treated as optional demands from the Bidder and will not be cumulated. After determination of the Offer Price, the maximum number of Equity Shares Bid for by a Bidder/Applicant at or above the Issue Price will be considered for allocation/Allotment and the rest of the Bid(s), irrespective of the Bid Amount, will become automatically invalid.

d) The Bidder/Applicant cannot Bid through another Bid cum Application Form after Bids through one Bid cum Application Form have been submitted to a BRLM or the SCSBs. Submission of a second Bid cum Application Form to either the same or to another BRLM or SCSB will be treated as multiple Bid and is liable to be rejected either before entering the Bid into the electronic bidding system, or at any point of time prior to the allocation or Allotment of Equity Shares in this Offer. However, the Bidder can revise the Bid through the Revision Form, the procedure for which is detailed under the paragraph ***"Buildup of the Book and Revision of Bids".***

e) Except in relation to the Bids received from the Anchor Investors, the BRLM/the SCSBs will enter each Bid option into the electronic bidding system as a separate Bid and generate a Transaction Registration Slip, (**"TRS"**), for each price and demand option and give the same to the Bidder. Therefore, a Bidder can receive up to three TRSs for each Bid cum Application Form.

f) The BRLM shall accept the Bids from the Anchor Investors during the Anchor Investor Bid/Offer Period i.e. one working day prior to the Bid/Issue Opening Date. Bids by QIBs under the Anchor Investor Portion and the QIB Portion shall not be considered as multiple Bids.

g) Along with the Bid cum Application Form, Anchor Investors had made payment in the manner described in "***Payment into Escrow Account for Anchor Investors***" in the section *"Offer Procedure"* beginning on page 273 of the Red Herring Prospectus.

h) Upon receipt of the Bid cum Application Form, submitted whether in physical or electronic mode, the Designated Branch of the SCSB shall verify if sufficient funds equal to the Bid Amount are available in the ASBA Account, as mentioned in the Bid cum Application Form prior to uploading such Bids with the Stock Exchange.

i) If sufficient funds are not available in the ASBA Account, the Designated Branch of the SCSB shall reject such Bids and shall not upload such Bids with the Stock Exchange.

j) If sufficient funds are available in the ASBA Account, the SCSB shall block an amount equivalent to the Bid Amount mentioned in the Bid cum Application Form and will enter each Bid option into the electronic bidding system as a separate Bid and generate a TRS for each price and demand option. The TRS shall be furnished to the ASBA Bidder on request.

k) The Bid Amount shall remain blocked in the aforesaid ASBA Account until finalisation of the Basis of Allotment and consequent transfer of the Bid Amount against the Allotted Equity Shares to the Public Offer Account, or until withdrawal/failure of the Offer or until withdrawal/rejection of the Bid cum Application Form, as the case may be. Once the Basis of Allotment is finalized, the Registrar to the Offer shall send an appropriate request to the SCSB for unblocking the relevant ASBA Accounts and for transferring the amount allocable to the successful Bidders to the Public Offer Account. In case of withdrawal/failure of the Offer, the blocked amount shall be unblocked on receipt of such information from the Registrar to the Issue.

BIDS AT DIFFERENT PRICE LEVELS AND REVISION OF BIDS

a. Our Company in consultation with the BRLM, and without the prior approval of, or intimation, to the Bidders, reserves the right to revise the Price Band during the Bid/ Offer Period, provided that the Cap Price shall be less than or equal to 120% of the Floor Price and the Floor Price shall not be less than the face value of the Equity Shares. The revision in Price Band shall not exceed 20% on the either side i.e. the floor price can move up or down to the extent of 20% of the floor price disclosed. If the revised price band decided, falls within two different price bands than the minimum application lot size shall be decided based on the price band in which the higher price falls into.

b. Our Company in consultation with the BRLM, will finalize the Offer Price within the Price Band, without the prior approval of, or intimation, to the Bidders.

c. The Bidders can Bid at any price within the Price Band. The Bidder has to Bid for the desired number of Equity Shares at a specific price. Individual Bidders may Bid at the Cut-off Price. However, bidding at the Cut-off Price is prohibited for QIB and Non-Institutional Bidders and such Bids from QIB and Non-Institutional Bidders shall be rejected.

d. Individual Bidders, who Bid at Cut-off Price agree that they shall purchase the Equity Shares at any price within the Price Band. Individual Bidders shall submit the Bid cum Application Form along with a cheque/demand draft for the Bid Amount based on the Cap Price with the Syndicate. In case of ASBA Bidders (excluding Non-Institutional Bidders and QIB Bidders) bidding at Cut-off Price, the ASBA Bidders shall instruct the SCSBs to block an amount based on the Cap Price.

PARTICIPATION BY ASSOCIATES /AFFILIATES OF BRLM AND THE SYNDICATE MEMBERS

The BRLM and the Syndicate Members, if any, shall not be allowed to purchase in this Offer in any manner, except towards fulfilling their underwriting obligations. However, the associates and affiliates of the BRLM and the Syndicate Members, if any, may subscribe the Equity Shares in the Offer, either in the QIB Category or in the Non-Institutional Category as may be applicable to such Bidders, where the allocation is on a proportionate basis and such subscription may be on their own account or on behalf of their clients.

Neither the BRLM nor any persons related to the BRLM (other than Mutual Funds sponsored by entities related to the BRLM), Promoters and Promoter Group can apply in the Issue under the Anchor Investor Portion.

OPTION TO SUBSCRIBE IN THE OFFER

a. As per Section 29(1) of the Companies Act 2013, allotment of Equity Shares shall be made in dematerialized form only. Investors will not have the option of getting allotment of specified securities in physical form.

b. The Equity Shares, on allotment, shall be traded on the Stock Exchange in demat segment only.

c. A single application from any investor shall not exceed the investment limit/minimum number of Equity Shares that can be held by him/her/it under the relevant regulations/statutory guidelines and applicable law.

INFORMATION FOR THE BIDDERS

1. Our Company and the Book Running Lead Manager shall declare the Offer Opening Date and Offer Closing Date in the Red Herring Prospectus to be file with the RoC and also publish the same in all editions of Financial Express, an English national newspaper, all editions of Jansatta, a Hindi national newspaper and regional editions of Mumbai Lakshdeep, a Marathi daily newspaper, (Marathi being the regional language of Maharashtra where our Registered Office is located) each with wide circulation.

2. Our Company will file the Red Herring Prospectus with the RoC at least 3 (three) days before the Offer Opening Date or such time as may be prescribed under the applicable laws.

3. Copies of the Bid Cum Application Form along with Abridged Prospectus and copies of the Red Herring Prospectus will be available with the, the Book Running Lead Manager, the Registrar to the Offer, and at the Registered Office of our Company. Electronic Bid Cum Application Forms will also be available on the websites of the Stock Exchange.

4. Any Bidder who would like to obtain the Red Herring Prospectus and/ or the Bid Cum Application Form can obtain the same from our Registered Office.

5. Bidders who are interested in subscribing for the Equity Shares should approach Designated Intermediaries to register their applications.

6. Bid Cum Application Forms submitted directly to the SCSBs should bear the stamp of the SCSBs and/or the Designated Branch, or the respective Designated Intermediaries. Bid Cum Application Form submitted by Applicants whose beneficiary account is inactive shall be rejected.

7. The Bid Cum Application Form can be submitted either in physical or electronic mode, to the SCSBs with whom the ASBA Account is maintained, or other Designated Intermediaries (Other than SCSBs). SCSBs may provide the electronic mode of collecting either through an internet enabled collecting and banking facility or such other secured, electronically enabled mechanism for applying and blocking funds in the ASBA Account. The Individual Applicants has to apply only through UPI Channel, they have to provide the UPI ID and validate the blocking of the funds and such Bid Cum Application Forms that do not contain such details are liable to be rejected.

8. Bidders applying directly through the SCSBs should ensure that the Bid Cum Application Form is submitted to a Designated Branch of SCSB, where the ASBA Account is maintained. Applications submitted directly to the SCSB's or other Designated Intermediaries (Other than SCSBs), the relevant SCSB, shall block an amount in the ASBA Account equal to the Application Amount specified in the Bid Cum Application Form, before entering the ASBA application into the electronic system.

9. Except for applications by or on behalf of the Central or State Government and the Officials appointed by the courts and by investors residing in the State of Sikkim, the Bidders, or in the case of application in joint names, the first Bidder (the first name under which the beneficiary account is held), should mention his/her PAN allotted under the Income Tax Act. In accordance with the SEBI Regulations, the PAN would be the sole identification number for participating transacting in the securities market, irrespective of the amount of transaction. Any Bid Cum Application Form without PAN is liable to be rejected. The demat accounts of Bidders for whom PAN details have not been verified, excluding person resident in the State of Sikkim or persons who may be exempted from specifying their PAN for transacting in the securities market, shall be "suspended for credit" and no credit of Equity Shares pursuant to the Offer will be made into the accounts of such Bidders.

10. The Bidders may note that in case the PAN, the DP ID and Client ID mentioned in the Bid Cum Application Form and entered into the electronic collecting system of the Stock Exchange Designated Intermediaries do not match with PAN, the DP ID and Client ID available in the Depository database, the Bid Cum Application Form is liable to be rejected.

BIDS BY HUFs

Bids by Hindu Undivided Families or HUFs should be made in the individual name of the Karta. The Bidder should specify that the Bid is being made in the name of the HUF in the Bid cum Application Form/Application Form as follows: "Name of sole or first Bidder: XYZ Hindu Undivided Family applying through XYZ, where XYZ is the name of the Karta". Bids/Applications by HUFs will be considered at par with Bids/Applications from individuals.

BIDS BY MUTUAL FUNDS

With respect to Bids by Mutual Funds, a certified copy of their SEBI registration certificate must be lodged along with the Bid cum Application Form. Failing this, our Company, in consultation with the BRLM, reserve the right to reject any Bid without assigning any reason thereof.

Bids made by asset management companies or custodians of Mutual Funds shall specifically state names of the concerned schemes for which such Bids are made.

In case of a Mutual Fund, a separate Bid can be made in respect of each scheme of the Mutual Fund registered with SEBI and such Bids in respect of more than one scheme of the Mutual Fund will not be treated as multiple Bids provided that the Bids clearly indicate the scheme concerned for which the Bid has been made.

No Mutual Fund scheme shall invest more than 10.00% of its net asset value in equity shares or equity related instruments

of any single company provided that the limit of 10.00% shall not be applicable for investments in case of index funds or sector or industry specific schemes. No Mutual Fund under all its schemes should own more than 10.00% of any company's paid-up share capital carrying voting rights.

BIDS BY ELIGIBLE NRIs

Eligible NRIs may obtain copies of Bid cum Application Form from the Designated Intermediaries. Only Bids accompanied by payment in Indian Rupees or freely convertible foreign exchange will be considered for Allotment. Eligible NRI Bidders bidding on a repatriation basis by using the Non-Resident Forms should authorize their SCSB (if they are Bidding directly through the SCSB) or confirm or accept the UPI Mandate Request (in case of Bidding through the UPI Mechanism) to block their Non-Resident External ("**NRE**") accounts, or Foreign Currency Non-Resident ("**FCNR**") Accounts, and eligible NRI Bidders bidding on a non- repatriation basis by using Resident Forms should authorize their SCSB (if they are Bidding directly through SCSB) or confirm or accept the UPI Mandate Request (in case of Bidding through the UPI Mechanism) to block their Non-Resident Ordinary ("**NRO**") accounts for the full Bid Amount, at the time of the submission of the Bid cum Application Form. Participation of Eligible NRIs in the Offer shall be subject to the FEMA Rules.

In accordance with the Consolidated FDI Policy, the total holding by any individual NRI, on a repatriation or non-repatriation basis, shall not exceed 5.00% of the total paid-up equity capital on a fully diluted basis or shall not exceed 5.00% of the paid-up value of each series of debentures or preference shares or share warrants issued by an Indian company and the total holdings of all NRIs and OCIs put together, on a repatriation or non- repatriation basis, shall not exceed 10% of the total paid-up equity capital on a fully diluted basis or shall not exceed 10% of the paid-up value of each series of debentures or preference shares or share warrant. Provided that the aggregate ceiling of 10.00% may be raised to 24.00% if a special resolution to that effect is passed by the general body of the Indian company.

NRIs will be permitted to apply in the Offer through Channel I or Channel II (as specified in the UPI Circular). Further, subject to applicable law, NRIs may use Channel IV (as specified in the UPI Circular) to apply in the Offer, provided the UPI facility is enabled for their NRE/ NRO accounts.

NRIs applying in the Offer using UPI Mechanism are advised to enquire with the relevant bank whether their bank account is UPI linked prior to making such application. For details of investment by NRIs, see *"Restrictions on Foreign Ownership of Indian Securities"* beginning on page 303. Participation of eligible NRIs shall be subject to FEMA NDI Rules.

BIDS BY FPIs

In terms of the SEBI FPI Regulations, the Offer of Equity Shares to a single FPI or an investor group (which means the same multiple entities having common ownership directly or indirectly of more than 50% or common control) must be below 10% of our post-Offer Equity Share capital. Further, in terms of the FEMA NDI Rules, with effect from April 1, 2020, the aggregate FPI investment limit is the sectoral cap applicable to an Indian company as prescribed in the FEMA NDI Rules with respect to its paid-up equity capital on a fully diluted basis. Currently, the sectoral cap for retail trading of food products manufactured and/ or produced in India is 100% under automatic route.

FPIs are permitted to participate in the Offer subject to compliance with conditions and restrictions which may be specified by the Government from time to time. In case of Bids made by FPIs, a certified copy of the certificate of registration issued under the SEBI FPI Regulations is required to be attached to the Bid cum Application Form, failing which our Company reserves the right to reject any Bid without assigning any reason. FPIs who wish to participate in the Offer are advised to use the Bid cum Application Form for Non-Residents.

In terms of the FEMA for calculating the aggregate holding of FPIs in a company, holding of all registered FPIs shall be included.

The FEMA NDI Rules were enacted on October 17, 2019 in supersession of the Foreign Exchange Management (Transfer or Issue of Security by a Person Resident Outside India) Regulations, 2017, except as respects things done or omitted to be done before such supersession. FPIs are permitted to participate in the Offer subject to compliance with conditions and restrictions which may be specified by the Government from time to time.

Subject to compliance with all applicable Indian laws, rules, regulations, guidelines and approvals in terms of Regulation 21 of the SEBI FPI Regulations, an FPI, may issue, subscribe to or otherwise deal in offshore derivative instruments (as defined under the SEBI FPI Regulations as any instrument, by whatever name called, which is issued overseas by a FPI against securities held by it in India, as its underlying) directly or indirectly, only in the event (i) such offshore derivative instruments are issued only by persons registered as Category I FPIs; (ii) such offshore derivative instruments are issued only to persons eligible for registration as Category I FPIs; (iii) such offshore derivative instruments are issued after compliance with 'know your client' norms; and (iv) such other conditions as may be specified by SEBI from time to time.

An FPI issuing off-shore derivative instruments is also required to ensure that any transfer of off-shore derivative instruments issued by, or on behalf of it subject to, inter alia, the following conditions:

(i). such offshore derivative instruments are transferred to person subject to fulfilment of SEBI FPI Regulations; and
(ii). Prior consent of the FPI is obtained for such transfer, except when the persons to whom the offshore derivative instruments are to be transferred are pre-approved by the FPI.

Bids by FPIs which finalize the multi-investment manager structure in accordance with the Operational Guidelines for Foreign Portfolio Investors and Designated Depository Participants issued to facilitate implementation of the SEBI FPI Regulations ("**Operational FPI Guidelines**"), submitted with the same PAN but with different beneficiary account numbers, Client IDs and DP IDs shall not be treated as multiple Bids ("**MIM Bids**"). It is hereby clarified that FPIs bearing the same PAN may be treated as multiple Bids by a Bidder and may be rejected, except for Bids from FPIs that finalize the multi- investment manager structure in accordance with the Operational FPI Guidelines (such structure referred to as "**MIM Structure**"). In order to ensure valid Bids, FPIs making MIM Bids using the same PAN and with different beneficiary account numbers, Client IDs and DP IDs, are required to submit a confirmation that their Bids are under the MIM Structure and indicate the name of their investment managers in such confirmation which shall be submitted along with each of their Bid cum Application Forms. In the absence of such confirmation from the relevant FPIs, such MIM Bids shall be rejected.

BIDS BY SEBI-REGISTERED AIFs, VCFs AND FVCIs

The SEBI FVCI Regulations, SEBI VCF Regulations and the SEBI AIF Regulations prescribe, inter alia, the investment restrictions on the FVCIs, VCFs and AIFs registered with SEBI respectively. FVCIs can invest only up to 33.33% of the investible funds by way of subscription to an initial public offering. Category I AIF and Category II AIF cannot invest more than 25% of the investible funds in one Investee Company directly or through investment in the units of other AIFs. A Category III AIF cannot invest more than 10% of the investible funds in one Investee Company directly or through investment in the units of other AIFs. AIFs which are authorized under the fund documents to invest in units of AIFs are prohibited from offering their units for subscription to other AIFs. A VCF registered as a Category I AIF, as defined in the SEBI AIF Regulations, cannot invest more than 1/3rd of its investible funds by way of subscription to an initial public offering of a venture capital undertaking. Additionally, a VCF that has not re-registered as an AIF under the SEBI AIF Regulations shall continue to be regulated by the SEBI VCF Regulations (and accordingly shall not be allowed to participate in the Issue) until the existing fund or scheme managed by the fund is wound up and such funds shall not launch any new scheme after the notification of the SEBI AIF Regulations.

There is no reservation for Eligible NRIs, FPIs and FVCIs and all Bidders will be treated on the same basis with other categories for the purpose of allocation.

Further, the shareholding of VCFs, category I AIFs or category II AIFs and FVCIs holding Equity Shares prior to Offer, shall be locked-in for a period of at least one year from the date of purchase of such Equity Shares.

All non-resident investors should note that refunds, dividends and other distributions, if any, will be payable in Indian Rupees only and net of bank charges and commission.

The Company or the BRLM will not be responsible for loss, if any, incurred by the Bidder on account of conversion of foreign currency.

BIDS BY LIMITED LIABILITY PARTNERSHIPs

In case of Bids made by limited liability partnerships registered under the Limited Liability Partnership Act, 2008, a certified copy of certificate of registration issued under the Limited Liability Partnership Act, 2008, must be attached to the Bid cum Application Form. Failing this, our Company and the Selling Shareholders, in consultation with the BRLM, reserve the right to reject any Bid without assigning any reason thereof.

BIDS BY BANKING COMPANIES

In case of Bids made by banking companies registered with RBI, certified copies of: (i) the certificate of registration issued by RBI, and (ii) the approval of such banking company's investment committee are required to be attached to the Bid cum Application Form. Failing this, our Companyand the Selling Shareholders, in consultation with the BRLMs, reserves the right to reject any Bid without assigning any reason thereof. The investment limit for banking companies in non-financial services companies as per the Banking Regulation Act, the Reserve Bank of India (Financial Services provided by Banks) Directions, 2016, as amended and Master Circular on Basel III Capital Regulations dated July 1, 2014, as amended, is 10.00% of the paid up share capital of the investee company, not being its subsidiary engaged in non-financial services, or

10.00% of the bank's own paid-up share capital and reserves, whichever is lower.

However, a banking company would be permitted to invest in excess of 10% but not exceeding 30% of the paid up share capital of such investee company, subject to prior approval of the RBI if

(i) the Investee Company is engaged in non-financial activities permitted for banking companies in terms of Section 6(1) of the Banking Regulation Act; or

(ii) the additional acquisition is through restructuring of debt, or to protect the banking company's interest on loans/investments made to a company. The bank is required to submit a time-bound action plan to the RBI for the disposal of such shares within a specified period. The aggregate investment by a banking company along with its subsidiaries, associates or joint ventures or entities directly or indirectly controlled by the bank; and mutual funds managed by asset management companies controlled by the bank, more than 20% of the investee company's paid up share capital engaged in non-financial services. However, this cap doesn't apply to the cases mentioned in (i) and (ii) above. The aggregate equity investments made by a banking company in all subsidiaries and other entities engaged in financial services and non-financial services, including overseas investments shall not exceed 20% of the bank's paid-up share capital and reserves.

In terms of the Master Circular on Basel III Capital Regulations dated July 1, 2014, as amended (i) a bank's investment in the capital instruments issued by banking, financial and insurance entities should not exceed 10% of its capital funds;

(iii) banks should not acquire any fresh stake in a bank's equity shares, if by such acquisition, the investing bank's holding exceeds 5% of the investee bank's equity capital; (iii) equity investment by a bank in a subsidiary company, financial services company, financial institution, stock and other exchanges should not exceed 10% of the bank's paid-up share capital and reserves; (iv) equity investment by a bank in companies engaged in non-financial services activities would be subject to a limit of 10% of the investee company's paid- up share capital or 10% of the bank's paid-up share capital and reserves, whichever is less; and (v) a banking company is restricted from holding shares in any company, whether as pledgee, mortgagee or absolute owner, of an amount exceeding 30% of the paid-up share capital of that company or 30% of its own paid-up share capital and reserves, whichever is less. For details in relation to the investment limits under Master Direction – Ownership in Private Sector Banks, Directions, 2016, see *"Key Regulations and Policies"* beginning on page 167.

BIDS BY SCSBs

SCSBs participating in the Offer are required to comply with the terms of the circulars issued by the SEBI dated September 13, 2012 and January 02, 2013. Such SCSBs are required to ensure that for making applications on their own account using ASBA, they should have a separate account in their own name with any other SEBI registered SCSBs. Further, such account shall be used solely for the purpose of making application in public issues and clear demarcated funds should be available in such account for such applications.

BIDS BY SYSTEMICALLY IMPORTANT NBFCs

In case of Bids made by Systemically Important NBFCs registered with RBI, certified copies of: (i) the certificate of registration issued by RBI, (ii) the last audited financial statements on a standalone basis, (iii) a net worth certificate from its statutory auditors, and (iv) such other approval as may be required by the Systemically Important NBFCs are required to be attached to the Bid cum Application Form. Failing this, our Companyand the Selling Shareholders, in consultation with the BRLM, reserves the right to reject any Bid without assigning any reason thereof.

Systemically Important NBFCs participating in the Offer shall comply with all applicable regulations, directions, guidelines and circulars issued by the RBI from time to time.

The investment limit for Systemically Important NBFCs shall be as prescribed by RBI from time to time.

BIDS BY INSURANCE COMPANIES

In case of Bids made by insurance companies registered with the IRDAI, a certified copy of certificate of registration issued by IRDAI must be attached to the Bid cum Application Form. Failing this, our Company and the Selling Shareholders, in consultation with the BRLM, reserves the right to reject any Bid without assigning any reason thereof.

The exposure norms for insurers are prescribed under the IRDAI Investment Regulations, based on investments in equity shares of the investee company, the entire group of the Investee Company and the industry sector in which the investee

company operates. Insurance companies participating in the Offer are advised to refer to the IRDAI Investment Regulations 2016, as amended, which are broadly set forth below:

a) equity shares of a company: the lower of 10%* of the outstanding equity shares (face value) or 10% of the respective fund in case of life insurer or 10% of investment assets in case of general insurer or reinsurer;

b) the entire group of the investee company: not more than 15% of the respective fund in case of a life insurer or 15% of investment assets in case of a general insurer or reinsurer or 15% of the investment assets in all companies belonging to the group, whichever is lower; and

c) the industry sector in which the investee company operates: not more than 15% of the fund of a life insurer or a general insurer or a reinsurer or 15% of the investment asset, whichever is lower.

The maximum exposure limit, in the case of an investment in equity shares, cannot exceed the lower of an amount of 10% of the investment assets of a life insurer or general insurer and the amount calculated under (a), (b) and (c) above, as the case may be.

**The above limit of 10% shall stand substituted as 15% of outstanding equity shares (face value) for insurance companies with investment assets of ₹ 25,000,000 Lakhs or more and 12% of outstanding equity shares (face value) for insurers with investment assets of ₹ 5,000,000 Lakhs or more but less than ₹ 25,000,000 Lakhs.*

Insurance companies participating in this Offer shall comply with all applicable regulations, guidelines and circulars issued by IRDAI from time to time.

BIDS BY PROVIDENT FUNDS/PENSION FUNDS

In case of Bids made by provident funds/pension funds, subject to applicable laws, with minimum corpus of ₹ 2,500 Lakhs, a certified copy of a certificate from a chartered accountant certifying the corpus of the provident fund/pension fund must be attached to the Bid cum Application Form. OFFER PROCEDURE FOR APPLICATION SUPPORTED BY BLOCKED ACCOUNT (ASBA) BIDDERS

In accordance with the SEBI Circular No. CIR/CFD/POLICYCELL/11/2015 dated November 10, 2015 all the Bidders have to compulsorily apply through the ASBA Process. Our Company and the Book Running Lead Manager are not liable for any amendments, modifications, or changes in applicable laws or regulations, which may occur after the date of this Red Herring Prospectus. ASBA Bidders are advised to make their independent investigations and to ensure that the ASBA Bid Cum Application Form is correctly filled up, as described in this section.

The lists of banks that have been notified by SEBI to act as SCSB (Self Certified Syndicate Banks) for the ASBA Process are provided on https://www.sebi.gov.in/sebiweb/other/OtherAction.do?doRecognised=yes. For details on designated branches of SCSB collecting the Bid Cum Application Form, please refer the above-mentioned SEBI link.

TERMS OF PAYMENT

The Offer price of ₹ [●]/- per share is payable on application. In case of allotment of lesser number of Equity Shares than the number applied, the Registrar shall instruct the SCSBs to unblock the excess amount paid on Application to the Bidders.

SCSBs will transfer the amount as per the instruction of the Registrar to the Public Offer Account, the balance amount after transfer will be unblocked by the SCSBs.

The Bidders should note that the arrangement with Bankers to the Offer or the Registrar is not prescribed by SEBI and has been established as an arrangement between our Company, Banker to the Offer and the Registrar to the Offer to facilitate collections from the Bidders.

PAYMENT MECHANISM

The Bidders shall specify the bank account number in their Bid Cum Application Form and the SCSBs shall block an amount equivalent to the Application Amount in the bank account specified in the Bid Cum Application Form. The SCSB shall keep the Application Amount in the relevant bank account blocked until withdrawal/rejection of the Application or receipt of instructions from the Registrar to unblock the Application Amount. However, Non-Individual Bidders shall neither withdraw nor lower the size of their applications at any stage. In the event of withdrawal or rejection of the Bid Cum Application Form or for unsuccessful Bid Cum Application Forms, the Registrar to the Offer shall give instructions to the SCSBs to unblock the application money in the relevant bank account within one day of receipt of such instruction. The Application Amount shall remain blocked in the ASBA Account until finalization of the Basis of Allotment in the Offer and consequent transfer of the Application Amount to the Public Offer Account, or until withdrawal/failure of the Offer or until rejection of the Application by the ASBA Bidder, as the case may be.

Please note that, in terms of SEBI Circular No. *CIR/CFD/POLICYCELL/11/2015* dated *November 10, 2015* and the SEBI (Issue of Capital and Disclosure Requirements) Regulations, 2018, all the investors applying in a public Offer shall use only Application Supported by Blocked Amount (ASBA) process for application providing details of the bank account which will be blocked by the Self-Certified Syndicate Banks (SCSBs) for the same. Further, pursuant to SEBI Circular No. *SEBI/HO/CFD/DIL2/CIR/P/2018/138* dated *November 01, 2018*, Individual Investors applying in public Offer have to use UPI as a payment mechanism with Application Supported by Blocked Amount for making application.

PAYMENT INTO ESCROW ACCOUNT FOR ANCHOR INVESTORS

BUILD OF THE BOOK

a) Bids received from various Bidders through the Designated Intermediaries may be electronically uploaded on the Bidding Platform of the Stock Exchange on a regular basis. The book gets built up at various price levels. This information may be available with the BRLM at the end of the Bid/Offer Period.

b) Based on the aggregate demand and price for Bids registered on the Stock Exchange Platform, a graphical representation of consolidated demand and price as available on the websites of the Stock Exchange may be made available at the Bidding centers during the Bid/Offer Period.

WITHDRAWAL OF BIDS

QIBs and Non-Institutional Investors are not permitted to withdraw or lower their Bids (in terms of quantity of Equity Shares or the Bid Amount) at any stage after submitting a Bid, and Individual Investors are not permitted to withdraw their Bids after Bid/Offer Closing Date.

PRICE DISCOVERY AND ALLOCATION

a) Based on the demand generated at various price levels, our Company in consultation with the BRLM, shall finalize the Offer Price.

b) The SEBI ICDR Regulations, 2018 specify the allocation or Allotment that may be made to various categories of Bidders in an Offer depending on compliance with the eligibility conditions. Certain details pertaining to the percentage of Offer size available for allocation to each category is disclosed overleaf of the Bid cum Application Form and in the RHP. For details in relation to allocation, the Bidder may refer to the RHP.

c) Under-subscription in any category (except QIB Category) is allowed to be met with spillover from any other category or combination of categories at the discretion of the Issuer in consultation with the BRLM and the Designated Stock Exchange and in accordance with the SEBI ICDR Regulations. Unsubscribed portion in QIB Category is not available for subscription to other categories.

d) In case of under subscription in the Offer, spill-over to the extent of such under-subscription may be permitted from the Reserved Portion to the Offer. For allocation in the event of an undersubscription applicable to the Issuer, Bidders may refer to the RHP.

e) In case, if the Individual Investor category is entitled to more than the allocated portion on proportionate basis, the category shall be allotted that higher percentage.

Illustration of the Book Building and Price Discovery Process: Bidders should note that this example is solely for illustrative purposes and is not specific to the Offer, it also excludes Bidding by Anchor Investors. Bidders can bid at any price within the Price Band. For instance, assume a Price Band of ₹20 to ₹ 24 per share, Offer size of 3,000 Equity Shares and receipt of five Bids from Bidders, details of which are shown in the table below. The illustrative book given below shows the demand for the Equity Shares of the Issuer at various prices and is collated from Bids received from various investors.

Bid Quantity	Bid Amount (₹)	Cumulative Quantity	Subscription
500	24	500	16.67%
1,000	23	1,500	50.00%
1,500	22	3,000	100.00%
2,000	21	5,000	166.67%
2,500	20	7,500	250.00%

The price discovery is a function of demand at various prices. The highest price at which the Issuer is able to Offer the desired number of Equity Shares is the price at which the book cuts off, i.e., ₹ 22.00 in the above example. The Issuer, in consultation with the BRLMs, may finalize the Offer Price at or below such Cut-Off Price, i.e., at or below ₹ 22.00. All Bids at or above this Offer Price and cut-off Bids are valid Bids and are considered for allocation in the respective categories.

Anchor Investors are not allowed to withdraw their Bids after Anchor Investors bidding date.

i. not more than 60% of the QIB Portion will be allocated to Anchor Investors;
ii. one-third of the Anchor Investor Portion shall be reserved for domestic Mutual Funds, subject to valid Bids being received from domestic Mutual Funds at or above the price at which allocation is being done to other Anchor Investors; and
iii. allocation to Anchor Investors shall be on a discretionary basis and subject to:

- maximum number of two Anchor Investors for allocation up to ₹ 2 crores; a minimum number of two Anchor Investors and maximum number of 15 Anchor Investors for allocation of more than ₹ 2 crores and up to ₹ 25 crores subject to minimum allotment of ₹ 1 crores per such Anchor Investor; and
- in case of allocation above twenty-five crore rupees; a minimum of 5 such investors and a maximum of 15 such investors for allocation up to twenty-five crore rupees and an additional 10 such investors for every additional twenty-five crore rupees or part thereof, shall be permitted, subject to a minimum allotment of one crore rupees per such investor.

For QIBs

Bids received from QIBs Bidding in the QIB Category at or above the Offer Price may be grouped together to determine the total demand under this category. The QIB Category may be available for Allotment to QIBs who have Bid at a price that is equal to or greater than the Offer Price. Allotment may be undertaken in the following manner: Allotment shall be undertaken in the following manner:

i. In the first instance, allocation to Mutual Funds for [●]% of the QIB Portion shall be determined as follows:

- In the event that Bids by Mutual Fund exceeds [●]% of the QIB Portion, allocation to Mutual Funds shall be done on a proportionate basis for [●]% of the QIB Portion.
- In the event that the aggregate demand from Mutual Funds is less than [●]% of the QIB Portion then all Mutual Funds shall get full Allotment to the extent of valid Bids received above the Offer Price.
- Equity Shares remaining unsubscribed, if any, not allocated to Mutual Funds shall be available for Allotment to all QIB Bidders as set out in (b) below;

ii. In the second instance, allotment to all QIBs shall be determined as follows:

- In the event of oversubscription in the QIB Portion, all QIB Bidders who have submitted Bids above the Offer Price shall be allotted Equity Shares on a proportionate basis, upto a minimum of [●] Equity Shares and in multiples of [●] Equity Shares thereafter for [●]% of the QIB Portion.
- Mutual Funds, who have received allocation as per (a) above, for less than the number of Equity Shares Bid for by them, are eligible to receive Equity Shares on a proportionate basis, upto a minimum of [●] Equity Shares and in multiples of [●] Equity Shares thereafter, along with other QIB Bidders.
- Under-subscription below [●]% of the QIB Portion, if any, from Mutual Funds, would be included for allocation to the remaining QIB Bidders on a proportionate basis. The aggregate Allotment to QIB Bidders shall not be more than [●] Equity Shares.

iii. Basis of Allotment for QIBs and NIIs in case of Over Subscribed Offer:

In the event of the Offer being Over-Subscribed, the Issuer may finalize the Basis of Allotment in consultation with the BSE (The Designated Stock Exchange). The allocation may be made in marketable lots on proportionate basis as set forth hereunder:

a) The total number of Shares to be allocated to each category as a whole shall be arrived at on a proportionate basis i.e. the total number of Shares applied for in that category multiplied by the inverse of the oversubscription ratio (number of Bidders in the category multiplied by number of Shares applied for).

b) The number of Shares to be allocated to the successful Bidders will be arrived at on a proportionate basis. In marketable lots (i.e. Total number of Shares applied for into the inverse of the over subscription ratio).

c) For Bids where the proportionate allotment works out to less than [●] equity shares the allotment will be made as follows:

- Each successful Bidder shall be allotted [●] equity shares; and
- The successful Bidder out of the total bidders for that category shall be determined by draw of lots in such a manner that the total number of Shares allotted in that category is equal to the number of Shares worked out as per (b) above.

d) If the proportionate allotment to a Bidder works out to a number that is not a multiple of [●] equity shares, the Bidder would be allotted Shares by rounding off to the nearest multiple of [●] equity shares subject to a minimum allotment of [●] equity shares.

e) If the Shares allotted on a proportionate basis to any category is more than the Shares allotted to the Bidders in that category, the balance available Shares or allocation shall be first adjusted against any category, where the allotted Shares are not sufficient for proportionate allotment to the successful Bidder in that category, the balance shares, if any, remaining after such adjustment will be added to the category comprising Bidder applying for the minimum number of Shares. If as a result of the process of rounding off to the nearest multiple of [●] Equity Shares, results in the actual allotment being higher than the shares offered, the final allotment may be higher at the sole discretion of the Board of Directors, up to 110% of the size of the Offer specified under the Capital Structure mentioned in this RHP.

Individual Investors means an investor who applies for shares of value of more than ₹ 2,00,000/- and minimum 2 lots.

The Designated Person of BSE Limited – the Designated Stock Exchange in addition to Book Running Lead Manager and Registrar to the Offer shall be responsible to ensure that the basis of allotment is finalized in a fair and proper manner in accordance with the SEBI (ICDR) Regulations.

Flow of Events from the closure of bidding period (T DAY) Till Allotment:

- On T Day, RTA to validate the electronic bid details with the depository records and also reconcile the final certificates received from the Sponsor Bank for UPI process and the SCSBs for ASBA and Syndicate ASBA process with the electronic bid details.

- RTA identifies cases with mismatch of account number as per bid file/ Final Certificate and as per applicant's bank account linked to depository demat account and seek clarification from SCSBs to identify the applications with third party account for rejection.

- Third party confirmation of applications to be completed by SCSBs on T+ 1 day.

- RTA prepares the list of final rejections and circulate the rejections list with BRLM/ Company for their review/ comments.

- Post rejection, the RTA submits the basis of allotment with the Designated Stock Exchange (DSE).

- The Designated Stock Exchange (DSE), post verification approves the basis and generates drawal of lots wherever applicable, through a random number generation software.

- The RTA uploads the drawal numbers in their system and generates the final list of allotees as per process mentioned below:

Process for generating list of allotees:

- Instruction is given by RTA in their Software System to reverse category wise all the application numbers in the ascending order and generate the bucket/batch as per the allotment ratio. For example, if the application number is 78654321 then system reverses it to 12345687 and if the ratio of allottees to applicants in a category is 2:7 then the system will create lots of 7. If the drawal of lots provided by Designated Stock Exchange (DSE) is 3 and 5 then the system will pick every 3rd and 5th Application in each of the lot of the category and these applications will be allotted the shares in that category.

- In categories where there is proportionate allotment, the Registrar will prepare the proportionate working based on the over subscription times.

- In categories where there is undersubscription, the Registrar will do full allotment for all valid applications.

- On the basis of the above, the RTA will work out the allotees, partial allotees and non-allottees, prepare the fund transfer letters and advice the SCSBs to debit or unblock the respective accounts.

Allotment will be made in consultation with the Stock Exchange. In the event of oversubscription, the allotment will be made on a proportionate basis in marketable lots as set forth here:

a) The total number of Shares to be allocated to each category as a whole shall be arrived at on proportionate basis i.e., the total number of Shares applied for in that category multiplied by the inverse of the over subscription ratio (number of applicants in the category X number of Shares applied for).

b) The number of Shares to be allocated to the successful applicants will be arrived at on a proportionate basis in marketable lots (i.e., Total number of Shares applied for into the inverse of the over subscription ratio). For applications where the proportionate allotment works out to less than [●] Equity shares the allotment will be made as follows:

   i. Each successful applicant shall be allotted [●] Equity shares; and
   ii. the successful applicants out of the total applicants for that category shall be determined by the drawl of lots in such a manner that the total number of Shares allotted in that category is equal to the number of Shares worked out as per (2) above.

c) If the proportionate allotment to an applicant works out to a number that is not a multiple of [●] Equity shares, the applicant would be allotted Shares by rounding off to the nearest multiple of [●] Equity shares subject to a minimum allotment of [●] Equity shares.

d) If the Shares allotted on a proportionate basis to any category is more than the Shares allotted to the applicants in that category, the balance available Shares for allocation shall be first adjusted against any category, where the allotted Shares are not sufficient for proportionate allotment to the successful applicants in that category, the balance Shares, if any, remaining after such adjustment will be added to the category comprising of applicants applying for the minimum number of Shares. If as a result of the process of rounding off to the nearest multiple of [●] Equity shares, results in the actual allotment being higher than the shares issued, the final allotment may be higher at the sole discretion of the Board of Directors, up to 110% of the size of the Issue specified under the Capital Structure mentioned in this Red Herring Prospectus.

e) The above proportionate allotment of shares in an Offer that is oversubscribed shall be subject to the reservation for small individual applicants as described below:

- As the individual investor category is entitled to more than fifty percent on proportionate basis, the individual investors shall be allocated that higher percentage.

- The balance net Issue of shares to the public shall be made available for allotment to Individual applicants other than individual investors and other investors, including Corporate Bodies/ Institutions irrespective of number of shares applied for.

- The unsubscribed portion of the net Issue to any one of the categories specified in a) or b) shall/may be made available for allocation to applicants in the other category, if so required.

RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991 of the Government of India and Foreign Exchange Management Act, 1999 (**"FEMA"**). While the Industrial Policy, 1991 prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. Under the Industrial Policy, unless specifically restricted, foreign investment is freely permitted in all sectors of Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. The government bodies responsible for granting foreign investment approvals are the Reserve Bank of India (**"RBI"**) and Department of Industrial Policy and Promotion, Ministry of Commerce and Industry, Government of India (**"DIPP"**).

The Government of India has from time to time made policy pronouncements on FDI through press notes and press releases. The DPIIT issued the Consolidated Foreign Direct Investment Policy notified by the DPIIT File No. 5(2)/2020-FDI Policy dated October 15, 2020, with effect from October 15, 2020 (the **"FDI Policy"**), which consolidates and supersedes all previous press notes, press releases and clarifications on FDI issued by the DPIIT or the DPIIT that were in force and effect prior to October 15, 2020. The Government of India proposes to update the consolidated circular on FDI Policy once every year and therefore, the FDI Policy will be valid until the DPIIT issues an updated circular.

In terms of the FEMA NDI Rules, a person resident outside India may make investments into India, subject to certain terms and conditions, and provided that an entity of a country, which shares land border with India or the beneficial owner of an investment into India who is situated in or is a citizen of any such country, shall invest only with government approval.

The transfer of shares between an Indian resident and a non-resident does not require the prior approval of the RBI, provided that (i) the activities of the investee company are under the automatic route under the foreign direct investment policy and transfer does not attract the provisions of the Takeover Regulations; (ii) the non-resident shareholding is within the sectoral limits under the FDI policy; and (iii) the pricing is in accordance with the guidelines prescribed by the SEBI / RBI.

Further, in accordance with Press Note No. 3 (2020 Series), dated April 17, 2020 issued by the DPIIT and the Foreign Exchange Management (Non-debt Instruments) Amendment Rules, 2020 which came into effect from April 22, 2020, any investment, subscription, purchase or sale of equity instruments by entities of a country which shares land border with India or where the beneficial owner of an investment into India is situated in or is a citizen of any such country (**"Restricted Investors"**), will require prior approval of the Government, as prescribed in the Consolidated FDI Policy and the FEMA Rules. Further, in the event of transfer of ownership of any existing or future foreign direct investment in an entity in India, directly or indirectly, resulting in the beneficial ownership falling within the aforesaid restriction/ purview, such subsequent change in the beneficial ownership will also require approval of the Government. Furthermore, on April 22, 2020, the Ministry of Finance, Government of India has also made a similar amendment to the FEMA Rules. Pursuant to the Foreign Exchange Management (Non-debt Instruments) (Fourth Amendment) Rules, 2020, a multilateral bank or fund, of which India is a member, shall not be treated as an entity of a particular country nor shall any country be treated as the beneficial owner of the investments of such bank of fund in India. Each Bidder should seek independent legal advice about its ability to participate in the Issue. In the event such prior approval of the Government of India is required, and such approval has been obtained, the Bidder shall intimate our Company and the Registrar to the Issue in writing about such approval along with a copy thereof within the Issue Period.

As per the existing policy of the Government of India, OCBs cannot participate in this Issue and in accordance with the extant FDI guidelines on sectoral caps, pricing guidelines etc. as amended by Reserve bank of India, from time to time. Investors are advised to confirm their eligibility under the relevant laws before investing and / or subsequent purchase or sale transaction in the Equity Shares of our Company. Investors will not Issue, sell, pledge or transfer the Equity Shares of our Company to any person who is not eligible under applicable laws, rules, regulations, guidelines. Our Company, the Underwriters and their respective directors, officers, agents, affiliates and representatives, as applicable, accept no responsibility or liability for advising any investor on whether such investor is eligible to acquire Equity Shares of our Company.

Investment conditions/restrictions for overseas entities

Under the current FDI Policy 2020, the maximum amount of Investment (sectoral cap) by foreign investor in an issuing entity is composite unless it is explicitly provided otherwise including all types of foreign investments, direct and indirect, regardless of whether it has been made for FDI, FPI, NRI/OCI, LLPs, FVCI, Investment Vehicles and DRs under Foreign Exchange Management. (Non-debt Instruments) Rules, 2019. Any equity holding by a person resident outside India resulting from conversion of any debt instrument under any arrangement shall be reckoned as foreign investment under the composite cap.

Portfolio Investment upto aggregate foreign investment level of 49% or sectoral/statutory cap, whichever is lower, will not be subject to either Government approval or compliance of sectoral conditions, if such investment does not result in transfer of ownership and/or control of Indian entities from resident Indian citizens to non-resident entities. Other foreign investments will be subject to conditions of Government approval and compliance of sectoral conditions as per FDI Policy. The total foreign investment, direct and indirect, in the issuing entity will not exceed the sectoral/statutory cap.

Investment by FPIs under Portfolio Investment Scheme (PIS)

With regards to purchase/sale of capital instruments of an Indian company by an FPI under PIS the total holding by each FPI or an investor group as referred in SEBI (FPI) Regulations, 2014 shall not exceed 10% of the total paid-up equity capital on a fully diluted basis or less than 10% of the paid-up value of each series of debentures or preference shares or share warrants issued by an Indian company and the total holdings of all FPIs put together shall not exceed 24% of paid-up equity capital on fully diluted basis or paidup value of each series of debentures or preference shares or share warrants. The said limit of 10% and 24% will be called the individual and aggregate limit, respectively. However, this limit of 24 % may be increased up to sectoral cap/statutory ceiling, as applicable, by the Indian company concerned by passing a resolution by its Board of Directors followed by passing of a special resolution to that effect by its general body.

Investment by NRI or OCI on repatriation basis:

The purchase/sale of equity shares, debentures, preference shares and share warrants issued by an Indian company (hereinafter referred to as **"Capital Instruments"**) of a listed Indian company on a recognised stock exchange in India by Non-Resident Indian (NRI) or Overseas Citizen of India (OCI) on repatriation basis is allowed subject to certain conditions under Foreign Exchange Management (Non-debt Instruments) Rules, 2019.

The total holding by any individual NRI or OCI shall not exceed 5% of the total paid-up equity capital on a fully diluted basis or should not exceed 5% of the paid-up value of each series of debentures or preference shares or share warrants issued by an Indian company and the total holdings of all NRIs and OCIs put together shall not exceed 10% of the total paid-up equity capital on a fully diluted basis or shall not exceed 10% of the paid-up value of each series of debentures or preference shares or share warrants; provided that the aggregate ceiling of 10% may be raised to 24% if a special resolution to that effect is passed by the general body of the Indian company.

Investment by NRI or OCI on non-repatriation basis

As per current FDI Policy 2020, Foreign Exchange Management (Non-debt Instruments) Rules, 2019, Purchase/ sale of Capital Instruments or convertible notes or units or contribution to the capital of an LLP by a NRI or OCI on non-repatriation basis – will be deemed to be domestic investment at par with the investment made by residents. This is further subject to remittance channel restrictions.

The Equity Shares have not been and will not be registered under the U.S. Securities Act of 1933, as amended (**"US Securities Act"**) or any other state securities laws in the United States of America and may not be sold or Issued within the United States of America, or to, or for the account or benefit of **"US Persons"** as defined in Regulation(s) of the U.S. Securities Act, except pursuant to exemption from, or in a transaction not subject to, the registration requirements of US Securities Act and applicable state securities laws.

Accordingly, the equity shares are being Issued and sold only outside the United States of America in an offshore transaction in reliance upon Regulation S under the US Securities Act and the applicable laws of the jurisdiction where those Issues and sale occur.

Further, no issue to the public (as defined under Directive 20003/71/EC, together with any amendments) and implementing measures thereto, (the **"Red Herring Prospectus Directive"**) has been or will be made in respect of the issue in any member State of the European Economic Area which has implemented the Red Herring Prospectus Directive except for any such issue made under exemptions available under the Red Herring Prospectus Directive, provided that no such Issue shall result in a requirement to publish or supplement a Red Herring Prospectus pursuant to the Red Herring Prospectus Directive, in respect of the Issue.

Any forwarding, distribution or reproduction of this document in whole or in part may be unauthorized. Failure to comply with this directive may result in a violation of the Securities Act or the applicable laws of other jurisdictions. Any investment decision should be made on the basis of the final terms and conditions and the information contained in this Red Herring Prospectus.

The Equity Shares have not been and will not be registered, listed or otherwise qualified in any other jurisdiction outside India and may not be Issued or sold, and Application may not be made by persons in any such jurisdiction, except in compliance with the applicable laws of such jurisdiction.

The above information is given for the benefit of the Applicants. Our Company and the Book Running Lead Manager are not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of this Red Herring Prospectus. Applicants are advised to make their independent investigations and ensure that the Applications are not in violation of laws or regulations applicable to them and do not exceed the applicable limits under the laws and regulations.

25. If any certificate be worn out, defaced, mutilated, old/ or torn or in case of sub- division or consolidation then upon production and surrender such certificate to the Company, a new certificate may be issued in lieu thereof, and if any certificate is lost or destroyed then upon proof thereof to the satisfaction of the Company and on execution of such indemnity and the payment of out-of-pocket expenses incurred by the Company in investigating the evidence produced as the Board deems adequate, being given, a new certificate in lieu thereof shall be given to the party entitled to such lost or destroyed certificate. Every certificate under this Article shall be issued in case of splitting or consolidation of Share certificate(s) or in replacement of Share certificate(s) that are defaced, mutilated, torn or old, decrepit or worn out without payment of fees if the Directors so decide, or on payment of such fees (not exceeding Rs.50 for each certificate) as the Directors shall prescribe.

    Further, no duplicate certificate shall be issued in lieu of those that are lost or destroyed, without the prior consent of the Board and only on furnishing of such supporting evidence and/or indemnity as the Board may require, and the payment of out-of-pocket expenses incurred by the Company in investigating the evidence produced, without payment of fees if the Directors so decide, or on payment of such fees (not exceeding Rs.50 for each certificate) as the Directors shall prescribe.

    Provided that notwithstanding what is stated above the Directors shall comply with such rules or regulation or requirements of any Stock Exchange or the rules made under the Act or rules made under Securities Contracts (Regulation) Act, 1956, as amended or any other Act, or rules applicable thereof in this behalf; Provided further that

the Company shall comply with the provisions of Section 46 of the Act and other Applicable Law, in respect of issue of duplicate Share certificates.

26. The provision of this Article shall mutatis mutandis apply to issue of certificates of Debentures of the Company

BUY BACK OF SECURITIES BY THE COMPANY

27. Notwithstanding anything contained in these Articles but subject to the provisions of the Act and other Applicable Law as prescribed by Securities and Exchange Board of India (SEBI) or any other authority for the time being in force, the Company may purchase its own Shares or other specified Securities. The power conferred herein may be exercised by the Board, at any time and from time to time, where and to the extent permitted by Applicable Law, and shall be subject to such rules, applicable consent or approval as required.

UNDERWRITING AND BROKERAGE

Commission may be paid

28. Subject to the provisions of the Act and other Applicable Law, and subject to the applicable SEBI guidelines and subject to the terms of issue of the Shares or Debentures or any Securities, as defined in the Securities Contract (Regulations) Act, 1956, the Company may, at any time pay a commission out of proceeds of the issue or profit or both to any person in consideration of his subscribing or agreeing to subscribe (whether absolutely on conditionally) for any shares in or Debentures of the Company, or underwriting or procuring or agreeing to procure subscriptions (whether absolute or conditional) for Shares, Debentures or of the Company but so that the commission shall not exceed in the case of shares, five per cent of the price at which the Shares are issued, and in the case of Debentures, two and a half per cent of the price at which the Debentures are issued or at such rates as may be fixed by the Board within the overall limit prescribed under the Act or Securities and Exchange Board of India Act, 1992. Such commission may be satisfied by payment in cash or by allotment of fully or partly paid Shares, Securities or Debentures or partly in one way and partly in the other.

Brokerage

29. The Company may, subject to Applicable Law, pay a reasonable and lawful sum for brokerage to any person for subscribing or procuring subscription for any Securities, at such rate as approved by the Directors.

CALL ON SHARES

Directors may make calls

30. The Board of Directors may, from time to time and subject to the terms on which Shares have been issued and subject to the conditions of allotment, by a resolution passed at a meeting of the Board, or otherwise as permitted by Applicable Law make such call as it thinks fit upon the Members in respect of all moneys unpaid on the Shares held by them respectively, and each Member shall pay the amount of every call so made on him to the person or persons and at the times and places appointed by the Board of Directors. A call may be made payable in instalments.

Notice of calls

31. Each Member shall, subject to receiving at least fourteen days' notice specifying the time or times and place of payment, pay to the Company, at the time or times and place so specified, the amount called on his Shares.

32. A call may be revoked or postponed at the discretion of the Board.

Calls to date from resolution

33. A call shall be deemed to have been made at the time when the resolution authorizing such call was passed as provided herein and may be required to be paid by instalments.

Directors may extend time

34. The Board may, from time to time at its discretion, extend the time fixed for the payment of any call, but no member shall be entitled to such extension save as a member of grace and favor.

Calls to carry interest

35. If any member fails to pay any call due from him on the day appointed for payment thereof, or any such extension thereof as aforesaid, he shall be liable to pay interest on the same from the day appointed for the payment thereof to the time of actual payment at such percentage as the Board of Directors may determine. Nothing in this Article shall render it obligatory for the Board of Directors to demand or recover any interest from any such member.

36. The Board shall be at liberty to waive payment of any such interest wholly or in part.

Sums deemed to be calls

37. Any sum, which may by the terms of issue of a Share becomes payable on allotment or at any fixed date, whether on account of the nominal value of the Share or by way of premium, shall for the purposes of these Articles be deemed to be a call duly made and payable, on the date on which by the terms of issue the same becomes payable and in case of non-payment, all the relevant provisions of these Articles as to payment of interest and expenses, forfeiture or otherwise, shall apply as if such sum had become payable by virtue of a call duly made and notified.

Proof on trial of suit for money due on Shares

38. At the trial or hearing of any action or suit brought by the Company against any Member or his representatives for the recovery of any money claimed to be due to the Company in respect of his Shares, it shall be sufficient to prove that the name of the Member, in respect of whose Shares, the money is sought to be recovered appears entered on the Register of Members as the holder, at or subsequently to the date at which the money is sought to be recovered, is alleged to have become due on the Shares in respect of such money is sought to be recovered, that the resolution making the call is duly recorded in the Minutes Book, and that notice of such call was duly given to the Member or his representatives used in pursuance of these Articles and that it shall not be necessary to prove the appointment of the Directors who made such call, nor that a quorum of Directors was present at the Board at which any call was made nor that the meeting at which any call was made duly convened or constituted nor any other matters whatsoever, but the proof of the matter aforesaid shall be conclusive evidence of the debt.

Partial payment not to preclude forfeiture

39. Neither the receipt by the Company of a portion of any money which shall from time to time be due from any member to the Company in respect of his Shares, either by way of principal or interest, nor any indulgence granted by the Company in respect of the payment of any such money, shall preclude the Company from thereafter proceeding to enforce a forfeiture of such shares as hereinafter provided. Payment in anticipation of call may carry interest

40. The Directors may, if they think fit, subject to the provisions of Section 50 of the Act, agree to and receive from any member willing to advance the same whole or any part of the moneys due upon the Shares held by him beyond the sums actually called for, and upon the amount so paid or satisfied in advance, or so much thereof as from time to time exceeds the amount of the calls then made upon the shares in respect of which such advance has been made, the Company may pay interest at such rate, as the member paying such sum in advance and the Directors agree upon provided that money paid in advance of calls shall not confer a right to participate in profits or Dividend. The Directors may at any time repay the amount so advanced. The members shall not be entitled to any voting rights in respect of the moneys so paid by him until the same would but for such payment, become presently payable.

41. The provisions of these Articles shall mutatis mutandis apply to the calls on Debenture or other Securities of the Company.

LIEN

Company to have lien on Shares

42. The Company shall have a first and paramount lien upon all the Shares/ Debentures/Securities (other than fully paid-up Shares/Debentures) registered in the name of each Member (whether solely or jointly with others) and upon the proceeds of sale thereof, for all moneys (whether presently payable or not) called or payable at a fixed time in respect of such Shares/ Debentures/Securities and no equitable interest in any Shares shall be created except upon the footing, and upon the condition that this Article will have full effect and any such lien shall extend to all dividends and bonuses from time to time declared in respect of such shares. Unless otherwise agreed, the registration of a transfer of shares shall operate as a waiver of the Company's lien, if any, on such shares/Debentures/Securities:

    Provided that, fully paid shares shall be free from all lien and that in case of partly paid shares the Company's lien shall be restricted to moneys called or payable at a fixed time in respect of such shares.

As to enforcing lien by sale

43. For the purpose of enforcing such lien, the Board may sell the Shares subject thereto in such manner as they shall think fit, and for that purpose may cause to be issued a duplicate certificate in respect of such Shares and may authorize one of their number to execute a transfer thereof on behalf of and in the name of such member. The purchaser of such transferred Shares shall be registered as the holder of the Shares comprised in any such transfer. The purchaser shall not be bound to see to the application of the purchase money, nor shall his title to the Shares be affected by any irregularity or invalidity in the proceedings in reference to the sale.

44. No sale shall be made unless a sum in respect of which the lien exists is presently payable or until the expiration of fourteen days after a notice in writing of the intention to sell shall have been served on such Member or his representatives and default shall have been made by him or them in payment, fulfillment, or discharge of such debts, liabilities or engagements for fourteen days after such notice.

Application of proceeds of sale

45. The net proceeds of any such sale shall be received by the Company and applied in or towards payment of such part of the amount in respect of which the lien exists as is presently payable and the residue, if any, shall (subject to a like lien for sums not presently payable as existed upon the Shares before the sale) be paid to the persons entitled to the Shares at the date of the sale.

FORFEITURE OF SHARE

If call or installment not paid notice may be given

46. If any member fails to pay any call or installment on or before the day appointed for the payment of the same, the Board may, at any time thereafter during such time as the call or installment remains unpaid, serve notice on such Member requiring him to pay the same, together with any interest that may have accrued and all expenses that may have been incurred by the Company by reason of such non-payment.

Form of notice

47. The notice shall:

    47.1. name a further day (not being earlier than the expiry of fourteen days from the date of service of the notice) on or before which the payment required by the notice is to be made; and

    47.2. shall detail the amount which is due and payable on the Shares and shall state that in the event of non-payment at or before the time appointed, the Shares will be liable to be forfeited.

If notice not complied with, Shares may be forfeited

48. If the requisitions of any such notice as aforesaid be not complied with, any Shares in respect of which such notice has been given may, at any time thereafter, before payment of all calls or instalments, interest and expenses, due in respect thereof, be forfeited by a resolution of the Board to that effect. Such forfeiture shall include all dividends declared in respect of the forfeited Shares and not actually paid before the forfeiture.

Notice of forfeiture to a Member

49. When any Shares shall have been so forfeited, notice of the forfeiture shall be given to the Member in whose name it stood immediately prior to the forfeiture, and an entry of the forfeiture, with the date thereof, shall forthwith be made in the Register of Members, but no forfeiture shall be in any manner invalidated, by any omission to give such notice or to make any such entry as aforesaid.

Forfeited Share to become property of the Company

50. Any Share so forfeited shall be deemed to be the property of the Company, and the Board may sell, re-allot or otherwise dispose of the same in such manner as think fit.

Power to annul forfeiture

51. The Board may, at any time before any Share so forfeited shall have been sold, re- allotted or otherwise disposed of, annul the forfeiture thereof upon such conditions as it thinks fit.

Liability on forfeiture

52. Any Member whose Shares have been forfeited shall notwithstanding the forfeiture, be liable to pay and shall forthwith pay to the Company, on demand all calls, installments, interest and expenses owing upon or in respect of such Shares at the time of the forfeiture together with interest thereon from the time of the forfeiture of the payment, at such rate as the Board may determine and the Board may enforce the payment thereof, if it thinks fit. The liability of such person shall cease if and when the Company shall have received payment in full of all such monies in respect of the Shares.

Effect of forfeiture

53. The forfeiture of a Share involves extinction, at the time of the forfeiture, of all interest and all claims and demands against the Company in respect of the Share and all other rights, incidental to the Share except only such of those rights as by these Articles are expressly saved.

Evidence of forfeiture

54. A duly verified declaration in writing that the declarant is a Director, the manager or the secretary of the Company, and that certain Shares in the Company have been duly forfeited on a date stated in the declaration shall be conclusive evidence of the facts therein stated as against all persons claiming to be entitled to the Shares.

Cancellation of Share certificate in respect of forfeited shares

55. Upon any sale, re-allotment or other disposal under the provisions of the preceding Articles, the certificate or certificates originally issued in respect of the relative Shares shall (unless the same shall on demand by the Company have been previously surrendered to it by the defaulting Member) stand cancelled and become null and void and of no effect, and the Directors, shall be entitled to issue a duplicate certificate or certificates in respect of the said Shares to the person or persons, entitled thereto as per the provisions herein.

55.1. The Company may receive the consideration, if any, given for the Share on any sale or disposal thereof and may execute a transfer of the Share in favor of the person to whom the Share is sold or disposed of.

55.2. The transferee shall thereupon be registered as the holder of the Share; and

55.3. The transferee shall not be bound to see to the application of the purchase money, if any, nor shall his title to the Share be affected by any irregularity or invalidity in the proceedings in reference to the forfeiture, sale or disposal of the Share.

These Articles to apply in case of any non-payment

56. The provisions of these regulations as to forfeiture shall apply in the case of non- payment of any sum which, by the terms of issue of a Share, becomes payable at a fixed time, whether on account of the nominal value of the Share or by way of premium, as if the same had been payable by virtue of a call duly made and notified.

EMPLOYEES STOCK OPTIONS

57. Subject to the provisions of Section 62 of the Act and the Applicable Law, the Company may issue options to the any Directors, not being Independent Directors, officers, or employees of the Company, its subsidiaries or its parent, which would give such Directors, officers or employees, the benefit or right to purchase or subscribe at a future date, the Securities offered by the Company at a predetermined price, in terms of schemes of employee stock options or employees share purchase or both: Provided that it will be lawful for such scheme to require an employee, officer, or Director, upon leaving the Company, to transfer Securities acquired in pursuance of such an option/scheme, to a trust or other body established for the benefit of employees of the Company.

POWER TO ISSUE SWEAT EQUITY SHARES

58. Subject to and in compliance with Section 54 and other Applicable Law, the Company may issue equity Shares to its employees or Director(s) at a discount or for consideration other than cash for providing know-how or making available rights in the nature of intellectual property rights or value additions, by whatever name called.

PREFERENTIAL ALLOTMENT

59. Subject to the provisions of Section 62 the Act, read with the conditions as laid down in the Applicable Law, and if authorized by a Special Resolution passed in a General Meeting, the Company may issue Shares, in any manner whatsoever, by way of a preferential offer or private placement. Such issue on preferential basis or private placement should also comply with the conditions as laid down in Section 42 of the Act and/or Applicable law.

CAPITALIZATION OF PROFITS

60. The Company in General Meeting may, upon the recommendation of the Board, resolve:

60.1. that it is desirable to capitalize any part of the amount for the time being standing to the credit of any of the Company's reserve accounts (including capital redemption reserve account), or to the credit of the profit and loss account, otherwise available for distribution or securities premium account; and

60.2. that such sum be accordingly set free for distribution in the manner specified in 60.1 amongst the members who would have been entitled thereto, if distributed by way of Dividend and in the same proportions.

61. The sum aforesaid shall not be paid in cash but shall be applied, subject to applicable provisions contained herein, either in or towards:

61.1. paying up any amounts for the time being unpaid on any Shares held by such Members respectively;

61.2. paying up in full, unissued Shares of the Company to be allotted and distributed, credited as fully paid-up, to and amongst such Members in the proportions aforesaid;

61.3. partly in the way specified in Article 61.1 and partly in that specified in Article 61.1;

61.4. The Board shall give effect to the resolution passed by the members of the Company in pursuance of this Article.

61.5. Whenever such a resolution as aforesaid shall have been passed, the Board shall-

61.5.1. make all appropriations and applications of the undivided profits resolved to be capitalized thereby, and all allotments and issues of fully paid shares if any; and

61.5.2. generally, do all such acts and things required to give effect thereto.

62. For the purpose of giving effect to any resolution under Articles 60 and 61, the Board may settle any difficulty which may arise in regard to the distribution as it thinks expedient.

TRANSFER AND TRANSMISSION OF SHARES

Register of transfers

63. The Company shall keep a register to be called the 'Register of Transfers', and therein shall be fairly and directly entered particulars of every transfer or transmission of any Share. Entries in the register should be authenticated by the secretary of the Company or by any other person authorized by the Board for the purpose, by appending his signature to each entry.

Instruments of transfer

64. The instrument of transfer shall be in writing and duly stamped and in such form as may be prescribed under the Act from time to time and all provisions of Section 56 of the Act and statutory modification thereof for the time being shall be duly complied with in respect of all transfer of Shares and registration thereof.

To be executed by transferor and transferee

65. Every such instrument of transfer shall be executed both by transferor and the transferee and the transferor shall be deemed to remain the holder of such Shares until the name of the transferee shall have been entered in the Register of Members in respect thereof. The Board shall not issue or register a transfer of any Share in favor of a minor (except in cases when they are fully paid up).

66. Application for the registration of the transfer of a Share may be made either by the transferee or the transferor. Where an application is made by the transferor and relates to partly paid up shares, no registration shall be effected unless the Company gives notice of the application to the transferee subject to the provisions of these Articles,

Section 56 of the Act and other Applicable Law, and the transferee gives no objection to the transfer within two weeks from the receipt of the notice. In the event of non-receipt of any objection from the transferee within the period of two weeks as aforesaid, the Company shall enter in the Register the name of transferee in the same manner and subject to the same conditions as it the application for registration of the transfer was made by the transferee.

The Board may, subject to the right of appeal conferred by section 58 decline to register:

(a) the transfer of a share, not being a fully paid share, to a person of whom they do not approve; or
(b) any transfer of shares on which the company has a lien.

On giving not less than seven days' previous notice in accordance with section 91 and rules made thereunder, the registration of transfers may be suspended at such times and for such periods as the Board may from time to time determine:

Provided that such registration shall not be suspended for more than thirty days at any one time or for more than forty-five days in the aggregate in any year.

Transfer books when closed

67. Subject to the applicable provisions of the Act, SEBI Regulations and these Articles, the Board shall have to close the transfer books, the Register of Members, Register of Debenture holders or the Register of other Security holders at such time or times and for such period or periods, not exceeding thirty days at a time and not exceeding in the aggregate forty-five days in each year, as it may deem expedient.

Directors may refuse to register transfer

68. Subject to the provisions of the Act and other Applicable Law, the Board may at its own, discretion, decline to register or acknowledge any transfer of Securities, whether fully paid or not (notwithstanding that the proposed transferee be already a Member), provided in such cases it shall, within one month from the date on which the instrument of transfer was lodged with the Company, send to the transferee and the transferor notice of the refusal to register such transfer: Provided that registration of transfer shall not be refused on the ground of the transferor being, either alone or jointly with any person or persons, indebted to the Company on any account whatsoever except where the Company has lien on the Securities.

Directors to recognize Beneficial Owners of securities

69. Notwithstanding anything contained in these Articles, a Depository shall be deemed to be the registered owner for the purpose of effecting transfer of ownership of Securities on behalf of a Beneficial Owner.

70. Save as otherwise provided hereinabove, the Depository as a registered owner shall not have any voting rights or any other rights in respect of securities held by it, and the Beneficial Owner shall be entitled to all the rights and benefits and be subject to all the liabilities in respect of its Securities held by a Depository.

71. Except as ordered by a Court of competent jurisdiction or as required by law, the Company shall be entitled to treat the person whose name appears as the Beneficial Owner of the securities in the records of the Depository as the absolute owner thereof and accordingly the Company shall not be bound to recognize any benami, trust or equitable, contingent, future or partial interest in any Security or (except otherwise expressly provided by the Articles) any right in respect of a Security other than an absolute right thereto, in accordance with these Articles on the part of any other person whether or not it shall have express or implied notice thereof.

Nomination

72. Every holder of Shares in, or Debentures of the Company may, at any time, nominate, in the manner prescribed under the Act, a person to whom his Shares in or Debentures of the Company shall vest in the event of death of such holder.

73. Where the Shares in, or Debentures of the Company are held by more than one person jointly, the joint holders may together nominate, in the prescribed manner, a person to whom all the rights in the shares or Debentures of the Company, as the case may be, held by them shall vest in the event of death of all joint holders.

74. Notwithstanding anything contained in any other law for the time being in force or in any disposition, whether testamentary or otherwise, or in these Articles, in respect of such shares in or Debentures of the Company, where a nomination made in the prescribed manner purports to confer on any person the right to vest the shares in, or

Debentures of the Company, the nominee shall, on the death of the shareholders or holder of Debentures of the Company or, as the case may be, on the death of all the joint holders become entitled to all the rights in the shares or Debentures of the Company to the exclusion of all other persons, unless the nomination is varied or cancelled in the prescribed manner under the provisions of the Act.

75. Where the nominee is a minor, it shall be lawful for the holder of the Shares or holder of Debentures to make the nomination to appoint, in the prescribed manner under the provisions of the Act, any person to become entitled to the shares in or Debentures of the Company, in the event of his death, during the minority.

Transmission in the name of nominee

76. Any person becoming entitled to Securities in consequence of the death, lunacy, bankruptcy or insolvency of any Security holder, or by any lawful means other than by a transfer in accordance with these Presents, may with the consent of the Board of Directors and subject as hereinafter provided, elect, either:

76.1. to be registered himself as holder of the Securities; or
76.2. to make such transfer of the Securities as the deceased Security holder could have made.

Provided nevertheless that it shall be lawful for the Directors in their absolute discretion to dispense with the production of any evidence including any legal representation upon such terms as to indemnity or otherwise as the Directors may deem fit.

77. The Board shall, in either case, have the same right to decline or suspend registration as it would have had, if the deceased or insolvent member had transferred the Share before his death or insolvency.

78. If the nominee, so becoming entitled, elects himself to be registered as holder of the Securities, he shall deliver or send to the Company a notice in writing signed by him stating that he so elects and such notice shall be accompanied with death certificate of the deceased Security holder or proof of lunacy, bankruptcy or insolvency of the Security holder, as the case may be, and the certificate(s) of Securities held by such Security holder in the Company.

79. If the person aforesaid shall elect to transfer the Securities, he shall testify his election by executing a transfer of the Securities.

80. All the limitations, restrictions and provisions of these regulations relating to the right to transfer and the registration of transfers of Securities shall be applicable to any such notice or transfer as aforesaid as if the death or insolvency of the Security holder had not occurred and the notice or transfer were a transfer signed by that Member.

81. A nominee on becoming entitled to Securities by reason of the death of the holder or joint holders shall be entitled to the same Dividend or interest and other advantages to which he would be entitled if he were the registered holder such Securities, except that he shall not before being registered as holder of such Securities, be entitled in respect of them to exercise any right conferred on a Security holder in relation to meetings of the Company.

No transfer to minor, insolvent etc.

82. No transfer shall be made to a minor or person of unsound mind. However, in respect of fully paid up shares, Securities may be transferred in favor of a minor acting through legal guardian, in accordance with the provisions of Applicable Law.

Transfer to be presented with evidence of title

83. Every instrument of transfer shall be presented to the Company duly stamped for registration accompanied by such evidence as the Board of Directors may require to prove the title of the transferor, his right to transfer the Shares and generally under and subject to such conditions and regulations as the Board of Directors shall from time to time prescribe, and every registered instrument of transfer shall remain in the custody of the Company until destroyed by order of the Board of Directors.

Company not liable for disregard of a notice in prohibiting registration of transfer

84. The Company shall incur no liability or responsibility whatsoever in consequence of its registering or giving effort to any transfer of Shares made or purporting to be made by any apparent legal owner thereof (as shown or appearing in the Register of Members) to the prejudice of persons having or claiming any equitable right, title or interest to or in the said shares, notwithstanding that the Company may have had notice of such equitable right, title or interest or notice prohibiting registration of such transfer, and may have entered such notice, or deferred thereto, in any book

of the Company, and the Company shall not be bound or required to regard or attend or give effect to any notice which may be given to it of any equitable right title or interest, or be under any liability whatsoever for refusing or neglecting so to do, though it may have been entered or referred to in some book of the Company; but the Company shall nevertheless be at liberty to regard and attend to any such notice and give effect thereto, if the Board of Directors shall so think fit.

DEMATERIALISATION OF SECURITIES

Dematerialization of Securities

85. The Board shall be entitled to dematerialize its existing Securities or to offer securities in a dematerialized form pursuant to the Depositories Act, 1996, as amended and the rules framed thereunder, if any.

113. No business shall be transacted at any General Meeting unless a quorum of Members is present at the time when the meeting proceeds to business.

114. Save as otherwise provided herein, the quorum for the General Meetings shall be as provided in Section 103 of the Act.

115. If, at the expiration of half an hour from the time appointed for holding a meeting of the Company, a quorum shall not be present, the meeting, if convened by or upon the requisition of members shall stand dissolved, but in any other case the meeting shall stand adjourned to the same day in the next week or to such other day and at such other time and place as the Board may determine subject to Applicable Law and if at such adjourned meeting, a quorum is not present at the expiration of half an hour from the time appointed for holding the meeting, the members present shall be quorum and may transact the business for which the meeting was called.

Chairperson at General Meetings

116. The Chairperson, if any, of the Board shall preside as Chairperson at every General Meeting of the Company.

117. If there is no such Chairperson, or if he is not present within fifteen minutes after the time appointed for holding the meeting, or is unwilling to act as Chairperson of the meeting, the Directors present shall elect one among themselves to be Chairperson of the General Meeting.

118. If at any meeting no Director is willing to act as Chairperson or if no Director is present within fifteen minutes after the time appointed for holding the meeting, the Members present shall choose one of themselves to be Chairperson

of the General Meeting.

119. No business shall be discussed at any General Meeting except the election of a Chairperson, while the chair is vacant.

Adjournment of Meeting

120. The Chairperson may, with the consent of any meeting at which a quorum is present, and shall, if so directed by the meeting, adjourn the meeting from time to time and from place to place.

121. No business shall be transacted at any adjourned meeting other than the business left unfinished at the meeting from which the adjournment took place.

122. When a meeting is adjourned for thirty days or more, notice of the adjourned meeting shall be given as in the case of an original meeting.

Voting rights

123. No member shall be entitled to vote either personally or by proxy, at any General Meeting or Meeting of a class of shareholders in respect of any shares registered in his name on which any calls or other sums presently payable by him have not been paid or, in regard to which the Company has, and has exercised any right of lien.

124. Subject to any rights or restrictions for the time being attached to any class or classes of Shares:

124.1. on a show of hands, every member present in person shall have one vote; and
124.2. on a poll, the voting rights of Members shall be in proportion to his share in the paid-up equity Share Capital of the Company.
124.3. A Member may exercise his vote at a meeting by electronic means in accordance with Section 108 of the Act and shall vote only once.

125. In the case of joint holders, the vote of the senior who tenders a vote, whether in person or by proxy, shall be accepted to the exclusion of the votes of the other joint holders.

For this purpose, seniority shall be determined by the order in which the names stand in the Register of Members.

126. A Member of unsound mind, or in respect of whom an order has been made by any court having jurisdiction in lunacy, may vote, whether on a show of hands or on a poll, by his committee or other legal guardian, and any such committee or guardian may, on a poll, vote by proxy.

127. Any business other than that upon which a poll has been demanded may be preceded with, pending the taking of the poll.

128. No objection shall be raised to the qualification of any voter except at the General Meeting or adjourned General Meeting at which the vote objected to is given or tendered, and every vote not disallowed at such General Meeting shall be valid for all purposes.

129. Any such objection made in due time shall be referred to the Chairperson of the General Meeting, whose decision shall be final and conclusive.

Proxy

130. Subject to the provisions of these Articles, votes may be given either personally or by proxy. A body corporate being a member may vote by a representative duly authorized in accordance with Section 113 of the Act, and such representative shall be entitled to exercise the same rights and powers (including the rights to vote by proxy) on behalf of the body corporate which he represents as the body could exercise if it were an individual member.

131. The instrument appointing a proxy and the power-of-attorney or other authority, if any, under which it is signed or a notarised copy of that power or authority, shall be deposited at the registered office of the Company not less than 48 hours before the time for holding the meeting or adjourned meeting at which the person named in the instrument proposes to vote; and in default the instrument of proxy shall not be treated as valid.

132. Every proxy (whether a Member or not) shall be appointed in writing under the hand of the appointer or his attorney, or if such appointer is a body corporate, under the common seal of such corporate, if any, or be signed by an officer or any attorney duly authorized by it, and any committee or guardian may appoint such proxy. An instrument

appointing a proxy shall be in the form as prescribed in terms of Section 105 of the Act.

133. A Member present by proxy shall be entitled to vote only on a poll, except where Applicable Law provides otherwise.

134. The proxy so appointed shall not have any right to speak at the General Meeting.

135. A vote given in accordance with the terms of an instrument of proxy shall be valid, notwithstanding the previous death or insanity of the principal or the revocation of the proxy or of the authority under which the proxy was executed, or the transfer of the shares in respect of which the proxy is given:

136. Provided that no intimation in writing of such death, insanity, revocation or transfer shall have been received by the Company at its office before the commencement of the meeting or adjourned meeting at which the proxy is used.

Maintenance of records and Inspection of minutes of General Meeting by Members

137. Where permitted/required by Applicable Law, all records to be maintained by the Company may be kept in electronic form subject to the provisions of the Act and the conditions as laid down in the Applicable Law. Such records shall be kept open to inspection in the manner as permitted by the Act and Applicable Law. The term 'records' would mean any register, index, agreement, memorandum, minutes or any other document required by the Act and Applicable Law made there under to be kept by the Company.

138. The Company shall cause minutes of all proceedings of every General Meeting to be kept by making within thirty days of the conclusion of every such meeting concerned, entries thereof in books kept for that purpose with their pages consecutively numbered.

139. Any such minutes shall be evidence of the proceedings recorded therein.

140. The book containing the minutes of proceedings of General Meetings shall be kept at the registered office of the Company and shall be open during business hours, for such periods not being less than 2 hours on any day, as may be fixed by the Company Secretary from time to time, to the inspection of any Member without charge.

141. Any Member of the Company shall be entitled to a copy of minutes of the General Meeting on receipt of a specific request and at a fee of Rs. 10/- (Rupees Ten only) for each page, or such higher amount as the Board may determine, as permissible by Applicable Law.

BOARD OF DIRECTORS

142. Until otherwise determined by a General Meeting and subject to provisions of the Act, the number of directors shall not be less than three or more than fifteen.

Following are the First Directors of the Company:
Mr. Rahul Bhupendra Bhanushali
Mr. Nikhil Dineshbhai Shah

143. The Directors are not required to hold any qualification shares.

144. Composition of the Board shall be in accordance with the provisions of Section 149 of the Act and other Applicable Laws. Provided that where there are temporary gaps in meeting the requirements of Applicable Law pertaining to composition of Board of Directors, the remaining Directors shall (a) be entitled to transaction business for the purpose of attaining the required composition of the Board; and (b) be entitled to carry out such business as may be required in the best interest of the Company in the meantime.

Board's power to appoint Additional Directors

145. Subject to the provisions of Sections 149, 152 and 161 of the Act and Applicable Laws, the Board shall have power at any time, and from time to time, to appoint a person as an additional Director, provided the number of the Directors and additional Directors together shall not at any time exceed the maximum strength fixed for the Board by these Articles.

146. Such person shall hold office only up to the date of the next annual general meeting of the Company but shall be eligible for appointment by the Company as a Director at that meeting subject to the provisions of the Act or any other law as may be applicable.

Nominee Directors

147. The Company shall, subject to the provisions of the Act and these Articles, be entitled to agree with any Person that he or it shall have the right to appoint his or its nominee on the Board, not being an Independent Director, upon such terms and conditions as the Company may deem fit.

148. Whenever the Company enters into the contract with any government, central, state or local, any bank or financial institution or any person or persons (hereinafter referred to as "**the appointer**") for borrowing any money or for providing any guarantee or security or for technical collaboration or assistance or for underwriting or enter into any other arrangement whatsoever, the Board shall have, subject to the provisions of the Act, the power to agree that such appointer shall have the right to appoint or nominate by a notice in writing addressed to the Company one or more directors on the Board for such period and upon such conditions as may be mentioned in the agreement and that such director or directors shall not be liable to retire by rotation nor be required to hold any qualification shares. The directors may also agree that any such director or directors may be removed from time to time by the appointer entitled to appoint or nominate them and the appointer may appoint another or others in his or their place and also fill in any vacancy, which may occur as a result of any such director or directors ceasing to hold that office for any reason whatsoever. The directors appointed or nominated under this Article shall be entitled to exercise and enjoy all or any privileges and rights exercised and enjoyed by the directors of the Company including payment of remuneration and travelling expenses to such director or directors as may be agreed by the Company with the appointer.

Appointment of Alternate Directors

149. Subject to the provisions of Section 161 of the Act, the Board may appoint an Alternate Director to act for a Director (hereinafter called "**the Original Director**") during his absence for a period of not less than three months from India. No person shall be appointed as an Alternate Director in place of an Independent Director unless he is qualified to be appointed as an Independent Director under the Act and Applicable Law. An Alternate Director appointed under this Article shall not hold office for a period longer than that permissible to the Original Director in whose place he has been appointed and shall vacate the office if and when the Original Director returns to India. If the office of the Original Director is determined before he so returns to India, any provisions in the Act or in these Articles for the automatic reappointment of any retiring Director in default of another appointment shall apply to the Original Director, and not to the Alternate Director.

For the purpose of absence in the Board meetings in terms of Section 167 (1) (b) of the Act, the period during which an Original Director has an Alternate Director appointed in his place, shall not be considered.

Board's power to fill casual vacancies

150. Subject to the provisions of the Act, the Board shall have power at any time and from time to time to appoint any other qualified person to be a Director to fill a casual vacancy. Any person so appointed shall hold office only up to the date to which the Director in whose place he is appointed would have held office if it had not been vacated by him.

Independent Directors

151. Subject to the provisions of the Act and other Applicable Law, the Board or any other Committee as per the Act shall identify potential individuals for the purpose of appointment as Independent Director either from the date bank established under Section 150 of Act or otherwise.

152. The Board on receiving such recommendation shall consider the same and propose his appointment for approval at a General Meeting. The explanatory statement to the notice for such General Meeting shall provide all requisite details as required under the Act.

153. Any casual vacancy in the post of an Independent Director caused by way of removal, resignation, death, vacation of office under Section 167 of the Act and Applicable Law or these Articles, removal from Directorship pursuant to any court order or due to disqualification under Section 164 of Act shall be filled by following the process laid down herein below and in accordance with the Applicable Law. No such casual vacancy shall prejudice the functioning of the Board during the intervening period.

154. Every Independent Director shall at the first meeting of the Board in which he participates as a Director and thereafter at the first meeting of the Board in every financial year or whenever there is any change in the circumstances which may affect his status as an Independent Director, give a declaration that he meets the criteria of independence.

155. The Company and Independent Directors are required to abide by the provisions specified in Schedule IV of the Act.

156. An Independent Director shall not be entitled to any stock option and may receive remuneration by way of sitting fee, reimbursement of expenses for participation in the Board and other meetings and also to such commission based on profits, as may, subject to provisions of Applicable Law, be approved by the Members.

157. An Independent Director shall be held liable, only in respect of such acts of omission or commission by a Company which had occurred with his knowledge, attributable through Board processes, and with his consent or connivance or where he had not acted diligently.

158. The provisions relating to retirement of Directors by rotation shall not be applicable to appointment of Independent Directors.

Term of Office of Independent Director

159. Subject to Applicable Law, an Independent Director shall hold office for a term up to 5 (five) consecutive years on the Board of a Company, but shall be eligible for reappointment for one more term on passing of a Special Resolution by the Company and disclosure of such appointment in the Board's report.

160. No Independent Director shall hold office for more than 2 (two) consecutive terms, but such Independent Director shall be eligible for appointment after the expiration of 3(three) years of ceasing to become an Independent Director provided that he shall not, during the said period of 3 (three) years, be appointed in or be associated with the Company in any other capacity, either directly or indirectly.

Retirement and rotation of Directors

161. At least two-thirds of the total number of Directors, excluding Independent Directors, will be the Directors who are liable to retire by rotation (hereinafter called "**the Rotational Directors**").

162. Subject to the provisions of the Act and these Articles, the managing Director and/or the whole-time Director shall not, while he continues to hold that office, be subject to retirement by rotation.

163. At every Annual General Meeting of the Company, one-third of the Rotational Directors, or if their number is not three or a multiple of three, then, the number nearest to one-third, shall retire from office.

164. A retiring Director shall be eligible for re-election.

Resignation of Directors

165. Subject to the provisions of Applicable Law, a Director may resign from his office by giving a notice in writing to the Company and Board shall take note of the same. The fact of such resignation shall be mentioned in the report of Directors laid in the immediately following Annual General Meeting by the Company.

166. A Managing Director or a Whole-time Director or any Executive Director who has any terms of employment with the Company shall not give any notice of resignation in breach of the conditions of employment as may be applicable, either to a Director specifically, or to employees of the Company generally. A nominee Director shall not give any notice of resignation except through the nominating person.

167. The resignation of a Director shall take effect from the date on which the notice is received by the Company or the date, if any, specified by the Director in the notice, whichever is later:

Provided that the Director who has resigned shall be liable even after his resignation for the offences which occurred during his tenure.

Removal of Directors

168. Any Director of the Company, except the one appointed by the National Company Law Tribunal, may be removed by way of Ordinary Resolution before the expiry of his term of office, subject to the provisions of Section 169 of Act.

Remuneration of Directors

169. Subject to the provisions of Section 197 of the Act, a Director may be paid remuneration either by way of a monthly payment or at a specified percentage of the net profits of the Company or partly by one way and partly by the other.

Provided that where the Company takes a Directors' and Officers' Liability Insurance, specifically pertaining to a particular Director and/or officer, then the premium paid in respect of such insurance, for the period during which a Director and/or officer has been proved guilty, will be treated as part of remuneration paid to such Director and/or officer.

170. The Board or a relevant Committee constituted for this purpose shall seek to ensure that the remuneration paid to Directors, key managerial personnel and senior management involves a balance between fixed and incentive pay reflecting short and long-term performance objectives appropriate to the working of the Company and its goals.

171. The fees payable to a Director for attending the meetings of the Board or Committee thereof shall be such sum as may be decided by the Board of Directors from time to time within the maximum limit as prescribed under the Act and Applicable Law. Fee shall also be paid for attending any separate meeting of the Independent Directors of the Company in pursuance of any provision of the Act. Fee shall also be payable for participating in meetings through permissible electronic mode.

172. In addition to the remuneration payable pursuant to Section 197 of the Act, the Directors may be paid all conveyance, hotel and other expenses properly incurred by them:

172.1. in attending and returning from meetings of the Board of Directors or any Committee thereof or general meetings of the Company; or
172.2. in connection with the business of the Company.

Directors may act notwithstanding any vacancies on Board

173. The continuing Directors may act notwithstanding any vacancy in their body but if, and so long as their number is reduced below the minimum number fixed by these Articles, the continuing Directors may act for the purpose of increasing the number of Directors to the minimum number fixed by these Articles or for summoning a General Meeting for the purpose increasing the number of Directors to such minimum number, but for no other purpose.

Vacation of office of Director

174. The office of a Director shall ipso facto be vacated:

174.1. on the happening of any of the events as specified in Section 167 of the Act.
174.2. if a person is a Director of more than the number of Companies as specified in the Act at a time;
174.3. in the case of alternate Director, on return of the original Director in terms of Section 161 of the Act;
174.4. having been appointed as a Director by virtue of his holding any office or other employment in the holding, subsidiary or associate company, he ceases to hold such office or other employment in that company;
174.5. if he is removed in pursuance of Section 169 of the Act;
174.6. any other disqualification that the Act for the time being in force may prescribed.

Notice of candidature for office of Directors except in certain cases

175. No person, not being a retiring Director, shall be eligible for appointment to the office of Director at any General Meeting unless he or some Member intending to propose him as a Director, has, not less than fourteen days before the General Meeting, left at the registered office of the Company a notice in writing under his hand signifying his candidature for the office of Director or the intention of such Member to propose him as a candidate for that office along with the requisite deposit of Rs. 1,00,000/- (Rupees One Lakh only) or such higher amount as the Board may determine, as permissible by Applicable Law.

176. Every person (other than a Director retiring by rotation or otherwise or a person who has left at the office of the Company a notice under Section 160 of the Act signifying his candidature for the office of a Director) proposed as a candidate for the office of a Director, shall sign and file with the Company, the consent in writing to act as a Director, if appointed.

Director may contract with the Company

177. Subject to such sanctions as required by Applicable Law, a Director or any related party as defined in Section 2 (76) of the Act or other Applicable Law may enter into any contract or any arrangement with the Company.

178. Unless so required by Applicable Law, no sanction shall, however, be necessary for any contracts with a related party on entered into on arm's length basis. Where a contract complies with such conditions or indicia of arms' length contracts as laid down in a policy on related party transactions framed by the Board in accordance with the Applicable Law, the contract shall be deemed to be a contract entered into on arm's length basis.

Disclosure of interest

179. A Director of the Company who is in any way, whether directly or indirectly concerned or interested in a contract or proposed contract or arrangement entered into or to be entered into by or on behalf of the Company, shall disclose the nature of his concern or interest at a meeting of the Board in the manner provided in Section 184(2) of the Act; provided that it shall not be necessary for a Director to disclose his concern or interest in any contract or arrangement entered into or to be entered into with any other body corporate where the Director of the Company either himself or in association with any other Director hold or holds less than two per cent of the shareholding in such other body corporate.

Interested Director not to participate or vote in Board's proceeding

180. Subject to the provisions of Section 184 of the Act, no Director shall as Director take any part in the discussion of, or vote on any contract or arrangement entered into by or on behalf of the Company, if he is in any way whether directly or indirectly concerned or interested in such contract or arrangement; nor shall his presence count for the purpose of forming a quorum at the time of any such discussion or vote; and if he does vote, his vote shall be void.

Register of contracts in which Directors are interested

181. The Company shall keep a register of contracts or arrangements in which directors are interested in accordance with the provisions of Act. Such register shall be kept at the registered office of the Company and shall be preserved permanently be kept in the custody of the Company Secretary of the Company or any other person authorized by the Board for the purpose.

182.
